

Biosecurity (Prohibited and Conditionally Non-prohibited Goods—Norfolk Island) Determination 2016

made under subsection 174(1) of the

Biosecurity Act 2015

Compilation No. 10

Compilation date: 25 September 2019

Includes amendments up to: F2019L01255

Registered: 11 October 2019

Prepared by the Office of Parliamentary Counsel, Canberra

About this compilation

This compilation

This is a compilation of the *Biosecurity (Prohibited and Conditionally Non-prohibited Goods—Norfolk Island) Determination 2016* that shows the text of the law as amended and in force on 25 September 2019 (the *compilation date*).

The notes at the end of this compilation (the *endnotes*) include information about amending laws and the amendment history of provisions of the compiled law.

Uncommenced amendments

The effect of uncommenced amendments is not shown in the text of the compiled law. Any uncommenced amendments affecting the law are accessible on the Legislation Register (www.legislation.gov.au). The details of amendments made up to, but not commenced at, the compilation date are underlined in the endnotes. For more information on any uncommenced amendments, see the series page on the Legislation Register for the compiled law.

Application, saving and transitional provisions for provisions and amendments

If the operation of a provision or amendment of the compiled law is affected by an application, saving or transitional provision that is not included in this compilation, details are included in the endnotes.

Editorial changes

For more information about any editorial changes made in this compilation, see the endnotes.

Modifications

If the compiled law is modified by another law, the compiled law operates as modified but the modification does not amend the text of the law. Accordingly, this compilation does not show the text of the compiled law as modified. For more information on any modifications, see the series page on the Legislation Register for the compiled law.

Self-repealing provisions

If a provision of the compiled law has been repealed in accordance with a provision of the law, details are included in the endnotes.

Part 1—Preliminary

1 Name

This is the *Biosecurity (Prohibited and Conditionally Non-prohibited Goods—Norfolk Island) Determination 2016*.

3 Authority

This instrument is made under subsection 174(1) of the *Biosecurity Act 2015*.

4 Purpose and application of this instrument

- (1) For subsection 174(1) of the Act, this instrument provides that specified classes of goods must not be brought or imported into Norfolk Island unless specified conditions are complied with.

Note: Goods included in a class of goods specified in Part 2 are *conditionally non-prohibited goods* for the purposes of the Act.

- (2) This instrument applies in relation to goods that are, or are intended to be, brought or imported into Norfolk Island, whether or not the goods are, or are intended to be, brought or imported from outside Australian territory or from another part of Australian territory.

Note 1: Section 174 of the Act applies in relation to the movement of goods to Norfolk Island from another part of Australian territory. See item 7 of the table in section 5 of the *Biosecurity (Movements between Parts of Australian Territory) Declaration 2016* (made under subsection 618(2) of the Act) and sections 619 and 620 of the Act.

Note 2: Norfolk Island is part of Australian territory on and after 1 July 2016.

Note 3: The *Biosecurity (Prohibited and Conditionally Non-prohibited Goods) Determination 2016* deals with goods that are, or are intended to be, brought or imported into a part of Australian territory other than Christmas Island, Cocos (Keeling) Islands or Norfolk Island.

Note 4: The *Biosecurity (Prohibited and Conditionally Non-prohibited Goods—Christmas Island) Determination 2016* deals with goods that are, or are intended to be, brought or imported into Christmas Island.

Note 5: The *Biosecurity (Prohibited and Conditionally Non-prohibited Goods—Cocos (Keeling) Islands) Determination 2016* deals with goods that are, or are intended to be, brought or imported into Cocos (Keeling) Islands.

Note 6: The *Biosecurity (Prohibited and Conditionally Non-prohibited Goods—Torres Strait) Determination 2016* deals with goods that are, or are intended to be, moved from the protected zone area, or the Torres Strait permanent biosecurity monitoring zone, to another part of Australian territory.

5 Definitions

Note: A number of expressions used in this instrument are defined in the Act, including the following:

- (a) animal;

Section 5

- (b) Australian territory;
- (c) goods;
- (d) plant.

(1) In this instrument:

Act means the *Biosecurity Act 2015*.

listed fresh cut flowers or foliage (Norfolk Island) means fresh cut flowers or foliage (or a part of a flower or foliage) of a species that is listed in the List of Species of Fresh Cut Flowers and Foliage with Alternative Conditions for Import (Norfolk Island) prepared by the Director of Biosecurity and published on the Agriculture Department's website, as existing from time to time.

Note: Flowers or foliage (or a part of a flower or foliage) of a particular species are listed in the List of Species of Fresh Cut Flowers and Foliage with Alternative Conditions for Import (Norfolk Island) if the Director of Biosecurity is satisfied that the level of biosecurity risk associated with fresh cut flowers or foliage (or a part of a flower or foliage) of that species can be managed to an acceptable level.

listed fresh produce for human consumption (Norfolk Island) means a plant (or a part of a plant) or a fungus (or a part of a fungus) of a species that is listed in the List of Fresh Produce for Human Consumption with Alternative Conditions (Norfolk Island) prepared by the Director of Biosecurity and published on the Agriculture Department's website, as existing from time to time.

Note: A plant (or a part of a plant) or a fungus (or a part of a fungus) of a particular species is listed in the List of Fresh Produce for Human Consumption with Alternative Conditions (Norfolk Island) if the Director of Biosecurity is satisfied that the level of biosecurity risk associated with the plant (or the part of the plant) or the fungus (or the part of the fungus) is acceptable.

Terrestrial Animal Health Code means the *Terrestrial Animal Health Code* promulgated by the World Organisation for Animal Health, as in force from time to time.

Note: The Code could in 2019 be viewed on the World Organisation for Animal Health's website (<http://www.oie.int>).

(2) A word or phrase that is used in this instrument and in the *Biosecurity (Prohibited and Conditionally Non-prohibited Goods) Determination 2016* has the same meaning in this instrument as it has in that instrument.

Note: The following expressions are defined in the *Biosecurity (Prohibited and Conditionally Non-prohibited Goods) Determination 2016*:

- (a) animal part;
- (b) animal tissue;
- (c) dairy product;
- (d) egg;
- (e) egg product;
- (f) import permit;
- (fa) infectious agent;
- (g) meat;
- (h) meat product;
- (ha) microorganism;
- (i) shelf-stable;

(j) viable.

Part 2—Conditionally non-prohibited goods

Division 1—Animals, plants, biological material and infectious agents

6 Classes of goods to which this Division applies

Classes of goods to which this Division applies

- (1) This Division applies to the following classes of goods:
- (a) animals;
 - (b) plants;
 - (c) biological material;
 - (d) infectious agents;
 - (e) fungi;
 - (f) goods that contain animals, plants, biological material, infectious agents or fungi;
 - (g) goods that contain an ingredient that is an animal, a plant, biological material, an infectious agent or a fungus;
 - (h) goods that are made of, or are made from, an animal, a plant, biological material, an infectious agent or a fungus.

Note 1: Animal includes a dead animal and any part of an animal (see the definition of *animal* in section 9 of the Act).

Note 2: Plant includes a dead plant and any part of a plant (see the definition of *plant* in section 9 of the Act).

Note 3: *Biological material* and *infectious agent* are defined in section 5 of the *Biosecurity (Prohibited and Conditionally Non-prohibited Goods) Determination 2016*.

Exceptions

- (2) However, the classes of goods referred to in subsection (1) do not include any of the following:
- (a) cooked biscuits, cooked breads, cooked cakes or cooked pastries (other than biscuits, breads, cakes or pastries covered by item 4 of the table in section 11);
 - (b) goods sourced from the ocean, or the ocean floor, within the exclusive economic zone of Australia that have not left the exclusive economic zone of Australia before being brought or imported into Norfolk Island;
 - (c) honey that is an ingredient in food for human consumption or cosmetics for use on humans, where honey is not the largest single ingredient by volume in the food or cosmetics;
 - (e) biological additives in unused blood collection tubes;
 - (f) a dye or colouring agent of animal origin (other than carminic acid in relation to which alternative conditions are specified in section 30) that is used on, or is an ingredient of, goods included in a class of goods to which this Division applies;

- (g) lactose or any derivative of lactose (other than lactose, or a derivative of lactose, that is intended for animal consumption, veterinary therapeutic use or use as fertiliser);
- (h) a plant or goods produced by, or made from, a plant (***excluded plant goods***) specified in the table in subsection (3).

Excluded plant goods

(3) The following table specifies excluded plant goods for paragraph (2)(h).

Excluded plant goods	
Item	Excluded plant goods
1	Bamboo, cane, rattan and willow, including: (a) dried bamboo articles (including as packaging); and (b) cane and rattan articles; and (c) willow and wicker articles; and (d) dried wisteria articles
2	Processed hop pellets or extract
3	Balsawood
4	Plywood, veneer articles and sheets of veneer
5	Timber packaging and dunnage
6	Barkcloth and fine mats made from bark
7	Dried plant material, for use as thatching, fencing or screening, from any of the following species and places: (a) <i>Calluna vulgaris</i> ; (b) <i>Baeckea frutescens</i> grown in a country where the pathogen <i>Puccinia psidii</i> (guava or eucalyptus rust) is known not to occur; (c) <i>Kochia scoparia</i> ; (d) <i>Bassia scoparia</i> ; (e) <i>Cunninghamia lanceolata</i> grown in China; (f) <i>Coniogramme</i> spp.; (g) <i>Belis lanceolata</i> grown in China; (h) <i>Dicranopteris</i> spp.; (i) <i>Pinus lanceolata</i> grown in China; (j) <i>Gleichenia</i> spp.; (k) <i>Pteridium</i> spp.; (l) <i>Pteris</i> spp.
8	Sphagnum moss
8A	Dried apricot kernels (<i>Prunus armeniaca</i>)
9	Almond nuts or kernels (<i>Prunus amygdalus</i> or <i>Prunus dulcis</i>) for human consumption
10	Brazil nuts or kernels (<i>Bertholletia excelsa</i>) for human consumption
11	Candle nuts or kernels (<i>Aleurites moluccana</i>) for human consumption
12	Cashew nuts or kernels (<i>Anacardium occidentale</i>) for human consumption

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 7

Excluded plant goods

Item	Excluded plant goods
13	Hazelnuts or kernels (<i>Corylus</i> spp.) for human consumption
14	Hickory nuts or kernels (<i>Carya</i> spp.) for human consumption
15	Macadamia nuts or kernels (<i>Macadamia</i> spp.) for human consumption
16	Ngali and galip nuts or kernels (<i>Canarium</i> spp.) for human consumption
17	Pecan nuts or kernels (<i>Carya illinoensis</i>) for human consumption
18	Pili nuts or kernels (<i>Canarium commune</i>) for human consumption
19	Pistacia nuts or kernels (<i>Pistacia vera</i>) for human consumption
20	Walnuts or kernels (<i>Juglans</i> spp.) for human consumption
21	Charoli nuts or kernels (<i>Buchanania lanzan</i>) for human consumption
22	Plant-based fabrics, textiles and yarns
23	Paper and cardboard
24	Processed black and green tea (<i>Camellia sinensis</i>) leaves for human consumption
25	Potpourri
26	Cork
27	Reconstituted wood

7 Conditions—general

General rule

- (1) Subject to subsections (3) to (5), goods included in a class of goods to which this Division applies must not be brought or imported into Norfolk Island unless:
- (a) the goods are covered by an import permit; or
 - (b) if alternative conditions for bringing or importing the goods into Norfolk Island are specified in a provision in this Division—the alternative conditions are complied with.

Note: If Division 3 (which deals with hitchhiker pests) applies to goods included in a class of goods to which a provision of this Division applies, the additional conditions in Division 3 must also be complied with.

- (2) Paragraph (1)(b) does not limit paragraph (1)(a).

Goods that are made of, or are made from, or contain, 2 or more different kinds of goods

- (3) If:
- (a) goods included in a class of goods to which this Division applies (the **relevant goods**) are made of, or are made from, or contain, 2 or more different kinds of goods (the **component goods**); and
 - (b) any of the component goods must not be brought or imported into Norfolk Island unless they are covered by an import permit (and no alternative conditions are specified for those component goods);

the relevant goods must not be brought or imported into Norfolk Island unless they are covered by an import permit.

Example: A person wishes to bring or import into Norfolk Island goods (the *relevant goods*) containing avian meat from New Zealand and honey. Avian meat from New Zealand must not be brought or imported into Norfolk Island unless it is covered by an import permit. Therefore, the relevant goods must not be brought or imported into Norfolk Island unless they are covered by an import permit. The alternative conditions specified for any quantity of honey in section 14 do not apply in relation to the relevant goods.

(4) If:

- (a) goods included in a class of goods to which this Division applies (the *relevant goods*) are made of, or are made from, or contain, 2 or more different kinds of goods (the *component goods*); and
- (b) alternative conditions for bringing or importing the relevant goods into Norfolk Island are specified in another provision in this Division; and
- (c) alternative conditions for bringing or importing each of the component goods into Norfolk Island are specified in one or more provisions of this Division;

the relevant goods must not be brought or imported into Norfolk Island unless:

- (d) the relevant goods are covered by an import permit; or
- (e) the alternative conditions specified for the relevant goods are complied with; or
- (f) the alternative conditions specified for each of the component goods are complied with.

Example: A person wishes to bring or import into Norfolk Island noodles that contain meat-based flavouring and eggs. Alternative conditions for bringing or importing noodles into Norfolk Island are specified in section 13. Alternative conditions for bringing or importing meat-based flavouring products and eggs into Norfolk Island are specified in sections 10 and 12. The noodles may be brought or imported into Norfolk Island if the noodles are covered by an import permit or:

- (a) the alternative conditions for noodles in section 13 are complied with; or
- (b) the alternative conditions for meat-based flavouring products and eggs in sections 10 and 12 are complied with.

(5) If:

- (a) goods included in a class of goods to which this Division applies (the *relevant goods*) are made of, or are made from, or contain, 2 or more different kinds of goods (the *component goods*); and
- (b) alternative conditions for bringing or importing each of the component goods into Norfolk Island are specified in one or more provisions of this Division; and
- (c) subsection (4) does not apply in relation to the goods;

the relevant goods must not be brought or imported into Norfolk Island unless:

- (d) the relevant goods are covered by an import permit; or
- (e) the alternative conditions specified for each of the component goods are complied with.

Example: A person wishes to bring or import into Norfolk Island goods (the *relevant goods*) that are made of fish and dairy products. Alternative conditions for bringing or importing

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 8

fish into Norfolk Island are specified in section 9. Alternative conditions for bringing or importing dairy products into Norfolk Island are specified in section 11. The relevant goods may be brought or imported into Norfolk Island if the goods are covered by an import permit or:

- (a) the alternative conditions for the fish in section 9 are complied with; and
- (b) the alternative conditions for the dairy products in section 11 are complied with.

8 Alternative conditions—dead animals, animal parts and related goods

- (1) This section does not apply to dead animals, animal parts or related goods that are intended for:
 - (a) animal consumption; or
 - (b) use as a bioremedial agent or fertiliser; or
 - (c) growing purposes; or
 - (d) veterinary therapeutic use.
- (2) For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing certain dead animals, animal parts and related goods into Norfolk Island.

Alternative conditions—dead animals, animal parts and related goods		
Item	Column 1 Goods	Column 2 Alternative conditions
1	Animal (including fish) skins and hides	The goods: <ul style="list-style-type: none">(a) are preserved or tanned; or(a) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
2	Goods made with rawhide	Any of the following: <ul style="list-style-type: none">(a) not more than 10 of the same kind of goods are brought or imported into Norfolk Island together;(b) the goods have been treated by immersion in a lime solution at a pH of at least 12.5 and are accompanied by a declaration from the manufacturer of the goods stating that fact;(c) the goods:<ul style="list-style-type: none">(i) have been treated with gamma irradiation to a level that achieves a minimum of 50 kGray at a facility that the Director of Biosecurity is satisfied can treat goods made with rawhide so that biosecurity risks associated with the goods are managed to an acceptable level; and(ii) are accompanied by written evidence stating the matter in subparagraph (i);(d) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
3	Animal bristles or hair, other than wool or fibre	Either:

Alternative conditions—dead animals, animal parts and related goods		
Item	Column 1 Goods	Column 2 Alternative conditions
	from sheep, goats or camelids	<p>(a) the goods</p> <p>(i) are clean and free from other animal or plant material and soil; and</p> <p>(ii) are not for use in animal foods or fertilisers; or</p> <p>(b) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)</p>
4	Feathers	<p>The goods are clean and free from other animal or plant material and soil, and:</p> <p>(a) the goods are fully contained within a manufactured product; or</p> <p>(b) the goods are accompanied by documentation stating that the goods have been treated with a treatment the Director of Biosecurity is satisfied is appropriate to manage the biosecurity risks associated with the goods to an acceptable level; or</p> <p>(c) the goods are to be treated in accordance with an approved arrangement, while subject to biosecurity control, with a treatment the Director of Biosecurity is satisfied is appropriate to manage the biosecurity risks associated with the goods to an acceptable level; or</p> <p>(d) all of the following:</p> <p>(i) the goods are part of one or more manufactured products;</p> <p>(ii) the quantity of the manufactured products is not more than 10;</p> <p>(iii) the goods are for personal use</p>
5	Wool or fibre from sheep, goats or camelids	<p>Either:</p> <p>(a) the goods:</p> <p>(i) are clean and free from other animal or plant material and soil; and</p> <p>(ii) have been commercially prepared, processed and packaged; and</p> <p>(iii) are ready for retail sale; or</p> <p>(b) the goods:</p> <p>(i) have been scoured to manage the biosecurity risks associated with the goods to an acceptable level or treated with a treatment the Director of Biosecurity is satisfied is appropriate to manage the biosecurity risks associated with the goods to an acceptable level; and</p> <p>(ii) if the gross weight of the goods is more than 500 grams—are accompanied by evidence that the condition referred to in subparagraph (i) has been complied with</p>

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 8

Alternative conditions—dead animals, animal parts and related goods		
Item	Column 1 Goods	Column 2 Alternative conditions
6	Catgut strings derived from animal intestines for use in musical instruments or sporting equipment	The goods: (a) do not require refrigeration or any further processing; or (b) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
7	Catgut derived from animal intestines	Either: (a) all of the following: (i) the goods were derived from bovine, caprine, ovine or porcine animals only; (ii) the animals from which the goods were derived were free from diseases of biosecurity concern at the time they were slaughtered; (iii) the goods were made from intestinal material only; (iv) the goods are accompanied by a health certificate stating the matters referred to in subparagraphs (i), (ii) and (iii); or (b) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
8	Eggshells or eggshell ornaments	The goods: (a) are clean and free of adhering materials; or (b) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
9	Kopi luwak	The goods: (a) are completely embedded in resin and are intended for display only; or (b) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
10	Fishing flies	The goods: (a) are clean and free of animal tissue; or (b) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
11	The following goods: (a) sea shells, other than oyster shells that are not part of manufactured goods; (b) natural or cultured pearls for jewellery, personal use or display purposes	Either: (a) the goods: (i) are not viable; and (ii) are clean and free from other animal or plant material and soil; or (b) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
12	Dead animals, animal parts, animal secretions or animal tissue, other than	Any of the following: (a) the goods have been preserved by taxidermy for display; (b) the goods have been cremated;

Alternative conditions—dead animals, animal parts and related goods		
Item	Column 1 Goods	Column 2 Alternative conditions
	goods covered by another item in this table	<p>(c) the goods are completely embedded in resin and are intended for display only;</p> <p>(d) all of the following:</p> <ul style="list-style-type: none"> (i) the goods are in a sealed container; (ii) the goods have been preserved in a solution containing 70% alcohol or 10% formalin or a minimum of 2% glutaraldehyde, or the goods have been plastinated using curable polymers; (iii) the goods are accompanied by a certificate from the laboratory or other facility that preserved or plastinated the goods stating that the goods have undergone complete preservation and fixation or the goods have been completely plastinated; (iv) no animal is, or will be, exposed (whether directly or indirectly) to the goods or any derivatives of the goods; (v) the goods are not intended to be used for isolation or synthesis of viable microorganisms or infectious agents or their homologues; <p>(e) if the goods are dead insects or arachnids:</p> <ul style="list-style-type: none"> (i) the goods have been preserved for collection or display; and (ii) the goods are not intended to be used for isolation or synthesis of viable microorganisms or infectious agents or their homologues; and (iii) no animal is, or will be, exposed (whether directly or indirectly) to the goods or any derivatives of the goods; <p>(f) the goods have been brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)</p>
13	Casein glue or gelatine glue	The goods have been commercially prepared for industrial, commercial or hobby purposes
14	Untanned and partially processed game trophies, hides or skins that:	The goods:
	(a) are not derived from avian animals; and	(a) were derived from animals (other than avian animals) that resided and were slaughtered in New Zealand; and
	(b) are from New Zealand	(b) are accompanied by a health certificate stating the matter referred to in paragraph (a)
15	Untanned and partially processed game trophies, hides or skins that:	The goods:
	(a) are derived from avian animals; and	(a) were derived from avian animals that resided and were slaughtered in New Zealand; and
	(b) are from New Zealand	(b) have undergone one of the following processes:
		(i) treatment with salt or borax;
		(ii) immersion in an acid pickling solution at a pH of

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 8A

Alternative conditions—dead animals, animal parts and related goods		
Item	Column 1 Goods	Column 2 Alternative conditions
		not more than 4; (iii) immersion in an alcohol solution; and (c) are accompanied by a health certificate stating the matters referred to in paragraphs (a) and (b)
16	Animal trophies, artefacts or handicraft items	All of the following: (a) the goods are more than 5 years old; (b) the goods are preserved so that they do not require refrigeration; (c) the goods are intended only for in-vitro use or display by a museum or scientific institute, or in a public exhibition; (d) the goods, and any derivatives of the goods, must not come into contact with any animal; (e) the goods must not be used for isolation of microorganisms or infectious agents; (f) the goods are accompanied by a declaration from the manufacturer or supplier of the goods, stating the matters referred to in paragraphs (a) and (b); (g) the goods are accompanied by a declaration from the person importing the goods stating the matter referred to in paragraphs (c), (d) and (e)
17	Bones, horns, antlers, tusks or teeth	The goods are clean and free from other animal or plant material and soil
18	Empty giant African snail shells	The goods: (a) are not viable; and (b) are clean and free from other animal or plant material and soil

8A Alternative conditions—live animals

For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing certain live animals into Norfolk Island.

Alternative conditions—live animals		
Item	Column 1 Goods	Column 2 Alternative conditions
1	Live domestic cats or dogs brought or imported from Australian territory (other than Christmas Island or Cocos (Keeling) Islands)	The animal is accompanied by a health certificate for the animal that was signed by an official veterinarian not more than 5 days before the day the animal left Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
2	Live domestic cats or dogs brought or imported from New Zealand	The animal is accompanied by a health certificate for the animal that was signed by an official veterinarian not more than 5 days before the day the animal left New Zealand

9 Alternative conditions—dead aquatic animals, aquatic animal parts and related goods

- (1) This section applies to dead aquatic animals, aquatic animal parts and related goods that are not viable and are not intended for:
- (a) animal consumption; or
 - (b) use as a bioremedial agent or fertiliser; or
 - (c) growing purposes; or
 - (d) veterinary therapeutic use.
- (2) For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing certain dead aquatic animals, aquatic animal parts and related goods into Norfolk Island.

Alternative conditions—dead aquatic animals, aquatic animal parts and related goods		
Item	Column 1 Goods	Column 2 Alternative conditions
1	Teleost fish, other than fish of the family Salmonidae or Plecoglossidae	<p>Any of the following:</p> <p>(a) the goods have been processed to the extent needed to manage biosecurity risks associated with the goods to an acceptable level;</p> <p>(b) the goods:</p> <ol style="list-style-type: none"> (i) are eviscerated or processed further than evisceration; and (ii) are in a quantity of not more than 5 kilograms; and (iii) are brought in as baggage; <p>(c) the goods:</p> <ol style="list-style-type: none"> (i) are eviscerated and the head and gills have been removed; and (ii) are accompanied by a certificate from a body listed in the List of Overseas Authorities—Aquatic Animals for Import stating that the goods have been processed to the extent needed to manage biosecurity risks associated with the goods to an acceptable level; <p>(d) the goods:</p> <ol style="list-style-type: none"> (i) are eviscerated or processed further than evisceration; and (ii) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
2	Teleost fish from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands), other than fish of the family Salmonidae or Plecoglossidae	<p>The goods:</p> <p>(a) were caught in the exclusive economic zone of Australia (as defined in the United Nations Convention on the Law of the Sea), or in international waters adjacent to the exclusive economic zone of Australia, by persons who were approved or registered to catch the goods in accordance with controls administered by the Commonwealth; and</p>

Section 9

Alternative conditions—dead aquatic animals, aquatic animal parts and related goods

Item	Column 1 Goods	Column 2 Alternative conditions
		(b) are accompanied by evidence showing that the goods were caught as described in paragraph (a)
3	Teleost fish from New Zealand, other than fish of the family Salmonidae or Plecoglossidae	The goods: (a) were caught in the exclusive economic zone of New Zealand (as defined in the United Nations Convention on the Law of the Sea), or in international waters adjacent to the exclusive economic zone of New Zealand, by persons who were approved or registered to catch the goods in accordance with controls administered by the government of New Zealand; and (b) are accompanied by a certificate given by an official of the government of New Zealand stating that the goods were caught as described in paragraph (a)
4	Cartilaginous fish (including dried fish), other than fish meal	Either: (a) the goods are clean and free from other animal or plant material and soil; or (b) the goods: (i) have been processed to manage biosecurity risks associated with the goods to an acceptable level; and (ii) are fit for human consumption
5	Non-salmonid finfish or finfish product	The goods can be stored at room or ambient temperature and do not need to be refrigerated or frozen before being used
6	Fish and fish products of the family Salmonidae or Plecoglossidae, other than: (a) roe or caviar; or (b) salmon oil	Any of the following: (a) the goods have been retorted and the container in which the goods were retorted has not been opened since the goods were retorted; (b) the goods: (i) have been processed to the extent needed to manage biosecurity risks associated with the goods to an acceptable level; and (ii) have been commercially prepared and packaged; and (iii) if brought in as baggage—are in a quantity of less than 5 kilograms; (c) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
7	Roe or caviar of the family Salmonidae or Plecoglossidae	The goods have been retorted and the container in which the goods were retorted has not been opened since the goods were retorted
8	Salmon oil	The goods: (a) are for human therapeutic use; and (b) either: (i) are for personal use and in a quantity of not more than 3 months' supply; or

Alternative conditions—dead aquatic animals, aquatic animal parts and related goods

Item	Column 1 Goods	Column 2 Alternative conditions
		(ii) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
9	Cnidarians, crustaceans (other than prawns, freshwater crayfish or crustacean meal), echinoderms, molluscs (other than oysters in full or half shell or freshwater snails) poriferans and tunicates	The goods are clean and free from other animal or plant material and soil
10	Freshwater crayfish	The goods are cooked to the extent needed to manage biosecurity risks associated with the goods to an acceptable level
11	Prawns or prawn products, other than: (a) dried prawns; or (b) prawn meal; or (c) prawn-based food products	Either: (a) both of the following: (i) the goods have been cooked and, as a result of the cooking process, all the protein in the prawn meat has coagulated and no raw prawn meat remains; (ii) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); or (b) all of the following: (i) the goods have been cooked in premises in the exporting country that are approved by, and under the control of, a body listed in the List of Overseas Authorities—Aquatic Animals for Import; and (ii) as a result of the cooking process, all the protein in the prawn meat has coagulated and no raw prawn meat remains; and (iii) the goods are accompanied by a certificate from the body referred to in subparagraph (i) stating that the conditions in subparagraphs (i) and (ii) have been met
12	Prawn-based food products	The goods are shelf-stable
13	Dried prawns, other than crustacean meal	The goods: (a) are clean and free from other animal or plant material and soil; or (b) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
15	Oysters in half shell from: (a) a part of Australian territory (other than Christmas Island or	The goods: (a) have been produced or cultivated in a part of Australian territory (other than Christmas Island or (Cocos (Keeling) Islands) or New Zealand; and

	(Cocos (Keeling) Islands); or (b) New Zealand	(c) are clean and free from other animal or plant material and soil

10 Alternative conditions—meat and meat products

- (1) This section does not apply to meat products that are intended for:
- (a) animal consumption; or
 - (b) use as bioremedial agents or fertiliser; or
 - (c) growing purposes; or
 - (d) veterinary therapeutic use.
- (2) For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing meat and meat products into Norfolk Island.

Alternative conditions—meat and meat products

Item	Column 1 Goods	Column 2 Alternative conditions
1	Meat-based flavouring product	Either: (a) the goods: <ul style="list-style-type: none">(i) have been commercially manufactured and packaged; and(ii) do not contain any discernible pieces of meat; and(iii) are for personal use; or (b) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
2	Meat or meat products from New Zealand, other than: (a) pork; or (b) avian meat	Either: (a) the goods: <ul style="list-style-type: none">(i) were produced from animals in New Zealand; and(ii) are clearly labelled on the outermost of the largest packaged unit with the date of processing and the name and address of the place of production, and as a product of New Zealand; or (b) the goods: <ul style="list-style-type: none">(i) are clearly labelled as a product of New Zealand; and(ii) are for personal use
3	Pâté (whether or not egg is included as an ingredient) or foie gras	Either: (a) the goods: <ul style="list-style-type: none">(i) the goods are shelf-stable; and(ii) the goods are for personal use; and(iii) the quantity of the goods is not more than 1 kilogram or 1 litre; or

Alternative conditions—meat and meat products

Item	Column 1 Goods	Column 2 Alternative conditions
		(b) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
4	Pork crackling or pork rind	Either: (a) the goods: (i) are shelf-stable; and (ii) are for personal use; or (b) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
5	Meat floss	Either: (a) the goods: (i) have been commercially prepared; and (ii) are for personal use; or (b) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
6	Meat jerky or biltong, other than meat jerky or biltong derived from porcine animals	Either: (a) the goods: (i) are shelf-stable; and (ii) are for personal use; and (iii) are in a quantity of not more than 1 kilogram; and (iv) if the goods are not from avian meat—have been manufactured in an FMD-free country; or (b) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
6A	Meat jerky or biltong derived from porcine animals	The goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
7	Meat or meat products, other than meat or meat products covered by another item in this table	Any of the following: (a) the goods: (i) have been retorted and the container in which the goods were retorted has not been opened since the goods were retorted; and (ii) contain less than 5% by weight of meat; and (iii) are shelf-stable; (b) the goods: (i) have been commercially manufactured and packaged; and (ii) have been retorted and the container in which the goods were retorted has not been opened since the goods were retorted; and (iii) are shelf-stable; and

11 Alternative conditions—dairy products

- (1) This section does not apply to dairy products that are intended for:
- (a) animal consumption; or
 - (b) use as bioremedial agents or fertiliser; or
 - (c) growing purposes; or
 - (d) veterinary therapeutic use.
- (2) For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing certain dairy products into Norfolk Island.

Alternative conditions—dairy products

Item	Column 1 Goods	Column 2 Alternative conditions
1	Dairy products, other than: (a) infant formula; or (b) dairy products intended for use as stockfeed	Any of the following: (a) the goods: (i) have been commercially prepared and packaged; and (ii) were manufactured in an FMD-free country; and (iii) are for personal use; (b) the goods: (i) are shelf-stable; and (ii) are in a quantity of not more than 1 litre or 1 kilogram; and (iii) are for personal use; (c) if the goods contain one or more packets (for example, a box containing a cake mix)—the total dry weight of the components of the goods (other than added water) contains less than 10% of dairy products; (d) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
2	Infant formula	Any of the following: (a) the goods: (i) have been commercially prepared and packaged; and (ii) were manufactured in FMD-free countries only; and (iv) are for personal use; (b) all of the following: (i) the goods have been commercially prepared and

Alternative conditions—dairy products

Item	Column 1 Goods	Column 2 Alternative conditions
		<ul style="list-style-type: none"> packaged; (ii) the goods are for personal use; (iii) the person bringing in the goods is accompanied by one or more infants; (c) all of the following: <ul style="list-style-type: none"> (i) the goods have been commercially prepared and packaged; (ii) the goods are for personal use; (iii) if the goods are not brought in as baggage—the quantity of the goods is not more than 1 kilogram or 1 litre; (iv) if the goods are brought in as baggage—the quantity of the goods is not more than 5 kilograms or 5 litres; (d) the goods contain less than 10% by dry weight (other than added water) of dairy products (e) the goods are brought or imported from: <ul style="list-style-type: none"> (i) a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); or (ii) New Zealand
3	Commercial dairy products from New Zealand, other than dairy products intended for use as stockfeed	<p>Either:</p> <ul style="list-style-type: none"> (a) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); or (b) the goods: <ul style="list-style-type: none"> (i) are brought or imported directly from New Zealand; and (ii) are made of ingredients that originated in, and were produced, processed and manufactured in, Australian territory or New Zealand only
4	The following goods: <ul style="list-style-type: none"> (a) cheesecakes; (b) cooked biscuits, cooked breads, cooked cakes or cooked pastries containing uncooked dairy fillings or toppings 	<p>Either:</p> <ul style="list-style-type: none"> (a) the goods: <ul style="list-style-type: none"> (i) were manufactured in an FMD-free country; and (ii) are for personal use; or (b) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
5	Dairy-based beverages	<p>Either:</p> <ul style="list-style-type: none"> (a) the goods: <ul style="list-style-type: none"> (i) include tea, coffee or flavouring as an ingredient; and (ii) are shelf-stable; and (iii) are for instant use; and (iv) are for personal use; or (b) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)

		processing;
		(g) the goods are accompanied by a declaration by the manufacturer of the goods, stating the matters referred to in paragraphs (a), (b) and (c)
9	Food or supplements for animals containing alcohol, citric acid, lactic acid or xanthan gum	The goods: (a) are accompanied by documentation stating the ingredients in the product and the highly processed and purified nature of the goods; or (b) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands)
10	Purified amino acid that is a highly processed and purified extract from plant materials	All of the following: (a) the goods have been processed in a way that ensures that biosecurity risks associated with the goods have been managed to an acceptable level; (b) the goods are accompanied by a declaration by the manufacturer of the goods stating that: (i) the goods are a highly processed and purified extract from plant materials; and (ii) no materials of terrestrial animal or avian origin have been used during manufacture; and (iii) the goods have been manufactured to be compliant with the relevant monograph from at least one of the following published standards: United States Pharmacopoeia, European Pharmacopoeia, British Pharmacopoeia or USP Food Chemicals Codex; and (iv) the level of purity of the goods (excluding any non-biological carrier) has been shown to be at least 98%, calculated on a dry weight basis; and (v) the goods are not on a grain or animal-based carrier; and (vi) the goods have not been exposed to contamination after processing; and (vii) the goods have been packed in clean and new packaging only; and (viii) the goods were manufactured in a facility that is operated according to standards of quality applicable to the production of stockfeed products, including appropriate standards for prevention of cross-contamination of production cultures or raw materials
11	Purified amino acid that is a highly processed and purified extract from a microbial fermentation process	The goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands), or all of the following: (a) the goods have been processed in a way that ensures that biosecurity risks associated with the goods have been managed to an acceptable level;

Alternative conditions—foods and supplements for animals

Item	Column 1 Goods	Column 2 Alternative conditions
		<p>(b) the goods are accompanied by a declaration by the manufacturer of the goods stating that:</p> <ul style="list-style-type: none"> (i) the goods are a highly processed and purified extract from a microbial fermentation process and the culture media used in manufacture of the goods has been sterilised; and (ii) no materials of terrestrial animal or avian origin have been used during manufacture; and (iii) the goods have been manufactured to be compliant with the relevant monograph from at least one of the following published standards: United States Pharmacopoeia, European Pharmacopoeia, British Pharmacopoeia or USP Food Chemicals Codex; and (iv) the level of purity of the goods (excluding any non-biological carrier) has been shown to be at least 98%, calculated on a dry weight basis; and (v) the goods are not on a grain or animal-based carrier; and (vi) the goods have not been exposed to contamination after processing; and (vii) the goods have been packed in clean and new packaging only; and (viii) the goods were manufactured in a facility that is operated according to standards of quality applicable to the production of stockfeed products, including appropriate standards for prevention of cross-contamination of production cultures or raw materials
12	Purified vitamins (other than vitamin D3) that are a highly processed and purified extract from plant materials	<p>All of the following:</p> <ul style="list-style-type: none"> (a) the goods are free from extraneous material; (b) the goods have been processed in a way that ensures that biosecurity risks associated with the goods have been managed to an acceptable level; (c) the goods are accompanied by a declaration by the manufacturer of the goods stating that: <ul style="list-style-type: none"> (i) the goods are a highly processed and purified extract from plant materials; and (ii) no materials of terrestrial animal or avian origin have been used during manufacture; and (iii) the goods have been manufactured to be compliant with the relevant monograph from at least one of the following published standards: United States Pharmacopoeia, European Pharmacopoeia, British Pharmacopoeia or USP Food Chemicals Codex; and (iv) the level of purity of the goods (excluding any non-biological carrier) has been shown to be at least

		manufacturer of the goods stating that: <ul style="list-style-type: none">(i) the conditions in paragraphs (a) and (b) have been met; and(ii) the media used to propagate the <i>Saccharomyces cerevisiae</i> contained no materials of terrestrial, aquatic or avian animal origin; and(iii) the goods are not on a grain or animal-based carrier; and(iv) the goods have not been exposed to contamination after processing; and(v) the goods have been packed in clean and new packaging only; and(vi) the goods were manufactured in a facility that is operated according to the standards of quality applicable to the production of animal feed products, including appropriate standards for prevention of cross-contamination of production cultures or raw materials
16	Food or supplements for animals, other than food or supplements for animals covered by another item in this table	All of the following: <ul style="list-style-type: none">(a) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands);(b) if the goods contain material of animal or microbial origin—that material:<ul style="list-style-type: none">(i) was derived from animals or microbes in Australian territory (other than Christmas Island or Cocos (Keeling) Islands); or(ii) was brought or imported into Australian territory (other than Christmas Island or Cocos (Keeling) Islands) and was not brought in or imported in contravention of the Act;(c) if the goods contain material of plant origin:<ul style="list-style-type: none">(i) the goods have been made into pellets; or(ii) the material is not viable and does not include whole seeds;(d) the goods have been commercially prepared and packaged;(e) the goods are ready for retail sale;(f) the goods are presented to a biosecurity officer for inspection on arrival at a landing place or port in Norfolk Island

16 Alternative conditions—cosmetics and related goods

For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing cosmetics and related goods into Norfolk Island.

Alternative conditions—cosmetics and related goods		
Item	Column 1 Goods	Column 2 Alternative conditions
1	Cosmetics containing biological material for human use	The goods: (a) have been commercially manufactured, prepared and packaged; and (b) are ready for retail sale without any further processing; and (c) either: (i) are for personal use; or (ii) contain, in total, less than 20% by mass of material of animal origin (other than material of animal origin that is covered by an item in a table in this Division)
2	Soap	All of the following: (a) the goods have been commercially prepared; (b) the biological ingredients of the goods have undergone a process of saponification; (c) after saponification, no material of animal origin has been added (other than material of animal origin that is covered by an item in a table in this Division)

17 Alternative conditions—live plants for use as nursery stock

For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing live plants for use as nursery stock into Norfolk Island.

Alternative conditions—live plants for use as nursery stock		
Item	Column 1 Goods	Column 2 Alternative conditions
1	Live <i>Orchidaceae</i> (orchid) plant imported as tissue cultures	The goods: (a) are growing in an aseptic non-animal-based medium in a closed rigid and transparent container; and (b) are well established in that medium and container; and (c) are brought in as baggage

18 Alternative conditions—miscellaneous plant materials and plant products

- (1) This section does not apply to plant materials or plant products that are intended for:
- (a) animal consumption; or
 - (b) use as a bioremedial agent or fertiliser; or

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 18

(c) veterinary therapeutic use.

(2) For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing miscellaneous plant materials and plant products into Norfolk Island.

Alternative conditions—miscellaneous plant materials and plant products		
Item	Column 1 Goods	Column 2 Alternative conditions
1	Processed plant products, other than goods that are covered by another provision in this Division	The goods have been processed so that they are not viable and there is no risk of contamination or infection from a disease or plant pathogen
2	Herbarium specimens, including of the following: (a) vascular plants; (b) non-vascular plants and fungi (including algae, lichens, mosses, liverworts and hornworts)	The goods: (a) are in clean and new packaging; and (b) are clearly labelled, and identifiable, as herbarium specimens; and (c) are intended to be formally incorporated into a reference collection, or housed temporarily (on loan) for research, at one or more herbariums listed in the <i>Index Herbariorum</i> ; and (d) are to be treated immediately when received by the first herbarium to which they are delivered, and before the inner wrappings are opened, at minus 18°C for 7 consecutive days; and either: (e) the goods are accompanied by a declaration that is clearly marked as being from the sending institution, stating the following: (i) a list of the specimens in the consignment (including the classification of the specimens to at least family level), linked to either the herbarium accession numbers or collectors' details or identifiers (for example, the accompanying loan listing); (ii) that the specimens have been processed to their final state by a method other than freezing; (iii) that the specimens were free from live insects and excess soil at the time of packaging, and are not known to be infected with pathogenic micro-organisms; or (f) the goods are delivered directly to a herbarium covered by an approved arrangement that provides for the containment of herbarium specimens
3	Unprocessed straw articles or products	The goods: (a) are for personal use and are brought in as baggage or mail; or (b) are accompanied by evidence: (i) stating the botanical name (including genus and

Alternative conditions—miscellaneous plant materials and plant products

Item	Column 1 Goods	Column 2 Alternative conditions
		species) of the goods; and (ii) showing that the goods are of plant origin only
4	Purified plant deoxyribonucleic acid (DNA) or ribonucleic acid (RNA)	Both of the following: (a) the goods: (i) are purified plant DNA or RNA; and (ii) were derived from healthy plants that were not infected or contaminated with a pathogen; and (iii) were extracted using a standard laboratory procedure that lyses cells and removes proteins from the nucleic acid preparation; (b) the goods are accompanied by evidence stating the matters specified in subparagraphs (a)(i) to (iii)
5	Dried <i>Tillandsia</i> spp.	The goods: (a) are for personal use; and (b) are brought in as baggage
6	Dried or preserved cut flowers or foliage	Both of the following: (a) the goods are listed dried or preserved cut flowers or foliage; (b) the goods: (i) have been completely covered by lacquering, painting or coating with metal, or have been dried or freeze-dried; or (ii) are accompanied by a declaration by the manufacturer of the goods stating how the goods have been preserved to manage biosecurity risks associated with the goods to an acceptable level
7	Plant material (including wood or bamboo, plant or plant parts with soil attached) embedded in a compound that has been fully sealed using a heat, moulding or chemical process	The goods: (a) are for personal use and are brought in as baggage or mail; or (b) are accompanied by a declaration by the manufacturer of the goods stating how the goods have been processed to manage biosecurity risks associated with the goods to an acceptable level
8	Green coffee beans for processing, other than coffee beans that have been digested through an animal	The goods are free from fruit pulp and parchment
9	Herbal tea in tea bags or capsules	The goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands), or: (a) the goods have been dried; and (b) the goods have been commercially prepared and packaged; and

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 18

Alternative conditions—miscellaneous plant materials and plant products

Item	Column 1 Goods	Column 2 Alternative conditions
		(e) the goods: <ul style="list-style-type: none">(i) are for personal use, are brought in as baggage or mail, and are labelled with an ingredients list specifying the botanical names (genus and species) or common names of the goods; or(ii) are accompanied by a declaration by the manufacturer of the goods that identifies all ingredients contained in the goods and their origin, and describes any processing that has occurred to manage the biosecurity risks associated with the goods to an acceptable level
10	Loose leaf herbal mixtures for human consumption	The goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands), or: <ul style="list-style-type: none">(a) the goods have been dried and commercially prepared and packaged; and(b) if the goods contain seeds as an ingredient—the seeds:<ul style="list-style-type: none">(i) are listed permitted seeds; or(ii) have been processed so that they are not viable; and(c) if the goods are in a quantity of not more than 1 kilogram—the ingredients contained in the goods have been finely chopped; and(d) if the goods are in a quantity of more than 1 kilogram—the goods:<ul style="list-style-type: none">(i) are for personal use, are brought in as baggage or mail, and are labelled with an ingredients list specifying the botanical names (genus and species) or common names of the goods; or(ii) are accompanied by a declaration by the manufacturer of the goods that identifies all ingredients contained in the goods and their origin, and describes any processing that has occurred to manage the biosecurity risks associated with the goods to an acceptable level
11	Dried hops (<i>Humulus lupulus</i>)	The goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands), or the goods: <ul style="list-style-type: none">(a) were grown and produced in a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands) or New Zealand only; and(b) are intended for processing; and(c) are accompanied by a phytosanitary certificate or commercial documentation stating the matters specified in paragraphs (a) and (b)
12	Artificial plants on natural	The goods:

Alternative conditions—miscellaneous plant materials and plant products		
Item	Column 1 Goods	Column 2 Alternative conditions
	stems	(a) are for personal use and are brought in as baggage or mail; or (b) are accompanied by evidence stating the botanical name (including genus and species) of the stem components of the goods
13	Plant fibres	Both of the following: (a) the goods are listed plant fibres; (b) the goods: (i) are accompanied by evidence stating the botanical name (including genus and species) or common name of the goods; or (ii) are for personal use and are brought in as baggage or mail
14	Pine cones	The goods: (a) are for personal use; and (b) are brought in as baggage or mail
15	Unprocessed cotton including any of the following: (a) raw or seed cotton; (b) cotton lint; (c) linters; (d) cotton waste; (e) waste cotton	The goods: (a) are for personal use and are brought in as baggage or mail; or (b) are accompanied by evidence: (i) stating the botanical name (including genus and species) of the goods; and (ii) showing that the goods are of plant origin only
16	Grape vine articles	The goods: (a) are for personal use and are brought in as baggage or mail; or (b) are accompanied by evidence: (i) stating the botanical name (including genus and species) of the goods; and (ii) showing that the goods are of plant origin only
17	The following plants: (a) <i>Hyparrhenia</i> spp. (excluding <i>H. gazensis</i>); (b) <i>Imperata cylindrica</i> ; (c) <i>Miscanthus sinensis</i> ; (d) <i>Pennisetum purpureum</i> ; (e) <i>Thamnocalamus</i> spp.; (f) <i>Thamnochortus</i> spp.	The goods: (a) are intended for use as thatching grass; and (b) are accompanied by evidence stating the botanical name (including genus and species) of the goods
18	Banana fibre articles	The goods: (a) are for personal use and are brought in as baggage or mail; or

Part 2 Conditionally non-prohibited goods

Section 19

Alternative conditions—miscellaneous plant materials and plant products

Item	Column 1 Goods	Column 2 Alternative conditions
		(b) are accompanied by evidence: (i) stating the botanical name (including genus and species) of the goods; and (ii) showing that the goods are of plant origin only
19	Articles stuffed with herbs or seeds	The goods are accompanied by evidence: (a) stating the botanical name (including genus and species) of the goods; and (b) showing that the goods are of plant origin only
20	Dried herb products not for human consumption	The goods: (a) are not viable; and (b) are in clean and new packaging; and (c) are clean and free from other animal or plant material and soil; and (d) are accompanied by documentation that includes a detailed product description and a full list of ingredients including botanical names (genus and species) of the goods

19 Alternative conditions—nuts for human consumption

For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing nuts for human consumption into Norfolk Island.

Alternative conditions—nuts for human consumption

Item	Column 1 Goods	Column 2 Alternative conditions
1	The following nuts: (a) peanuts (<i>Arachis hypogaea</i>); (b) pine nuts (<i>Pinus</i> spp.)	The goods: (a) have been commercially prepared, processed and packaged; and (b) either: (i) are for personal use; or (ii) are accompanied by commercial documentation stating the kind of nuts
2	Chestnuts (<i>Castanea</i> spp.) grown in New Zealand	The goods: (a) were grown and produced in New Zealand; and (b) are accompanied by a phytosanitary certificate issued by the exporting country's national plant protection organisation showing that: (i) the goods were grown and produced in New Zealand; and (ii) biosecurity risks associated with the goods (including any packaging) have been managed to an acceptable level

Alternative conditions—nuts for human consumption

Item	Column 1 Goods	Column 2 Alternative conditions
3	Chestnuts (<i>Castanea</i> spp.) grown in Australian territory	All of the following: (a) the goods were grown in Australian territory; (b) before being brought or imported into Norfolk Island, the goods were: (i) processed; and (ii) frozen at a core temperature of minus 18°C for at least 7 consecutive days; and (iii) packaged; (c) the goods are accompanied by a phytosanitary certificate issued by the exporting country's national plant protection organisation showing that biosecurity risks associated with the goods (including any packaging) have been managed to an acceptable level; (d) the goods are accompanied by commercial documentation stating that biosecurity risks associated with the goods have been managed to an acceptable level during the processing of the goods; (e) the goods are accompanied by a declaration by the manufacturer of the goods stating how biosecurity risks associated with the goods have been managed to an acceptable level

20 Alternative conditions—cereals, grains, legumes, pulses and oil seeds for human consumption

For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing cereals, grains, legumes, pulses (other than peanuts) and oil seeds for human consumption into Norfolk Island.

Alternative conditions—cereals, grains, legumes, pulses and oil seeds for human consumption

Item	Column 1 Goods	Column 2 Alternative conditions
1	Any of the following: (a) grain; (b) cereals; (c) legumes and pulses, other than peanuts; (d) oil seeds	The goods have been processed to the extent needed to manage biosecurity risks associated with the goods to an acceptable level

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 20A

20A Alternative conditions—fresh cut flowers and foliage for decorative purposes

For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing fresh cut flowers and foliage for decorative purposes into Norfolk Island.

Alternative conditions—fresh cut flowers and foliage for decorative purposes		
Item	Column 1 Goods	Column 2 Alternative conditions
1	Fresh cut flowers and foliage	All of the following: (a) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); (b) the goods are listed fresh cut flowers or foliage (Norfolk Island); (c) the goods have been treated in a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands) with methyl-bromide, using a method that the Director of Biosecurity is satisfied is appropriate to manage the biosecurity risks associated with the goods to an acceptable level; (d) the goods are free from pests; (e) the goods are packaged in pest-proof cartons or containers; (f) the goods are accompanied by a certificate that has been issued: (i) under the Interstate Certification Assurance Scheme administered by a State or Territory body; or (ii) by a Commonwealth body that has responsibility for matters relating to plant health; or (iii) by a State or Territory body that has responsibility for matters relating to plant health in the State or Territory from which the goods are brought or imported; (g) the certificate referred to in paragraph (f) states all of the following: (i) the botanical name (including genus and species) of the goods; (ii) that the goods have been inspected; (iii) that the conditions in paragraphs (b) to (e) are met; (h) the goods are presented to a biosecurity officer for inspection on arrival at a landing place or port in Norfolk Island
2	<i>Lilium</i> spp. cut flowers	All of the following: (a) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); (b) the goods are commercial hybrid varieties and are free from

Alternative conditions—fresh cut flowers and foliage for decorative purposes

Item	Column 1 Goods	Column 2 Alternative conditions
		stem bulbils;
		(c) the goods have been treated in a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands) with methyl-bromide, using a method that the Director of Biosecurity is satisfied is appropriate to manage the biosecurity risks associated with the goods to an acceptable level;
		(d) the goods are free from pests;
		(e) the goods are packaged in pest-proof cartons or containers;
		(f) the goods are accompanied by a certificate that has been issued: <ul style="list-style-type: none"> (i) under the Interstate Certification Assurance Scheme administered by a State or Territory body; or (ii) by a Commonwealth body that has responsibility for matters relating to plant health; or (iii) by a State or Territory body that has responsibility for matters relating to plant health in the State or Territory from which the goods are brought or imported;
		(g) the certificate referred to in paragraph (f) states all of the following: <ul style="list-style-type: none"> (i) the botanical name (including genus and species) of the goods; (ii) that the goods have been inspected; (iii) that the conditions in paragraphs (b) to (e) are met;
		(h) the goods are presented to a biosecurity officer for inspection on arrival at a landing place or port in Norfolk Island

21 Alternative conditions—packaging

For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing packaging into Norfolk Island.

Alternative conditions—packaging

Item	Column 1 Goods	Column 2 Alternative conditions
1	Packaging for live plants including the following: <ul style="list-style-type: none"> (a) buckwheat hulls (<i>Fagopyrum esculentum</i>); (b) cardboard; 	The goods are clean and new

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 22

Alternative conditions—packaging

Item	Column 1 Goods	Column 2 Alternative conditions
	(c) cellulose wadding; (d) charcoal; (e) damp paper; (f) granulated cork; (g) perlite; (h) peat moss; (i) plastic foam; (j) sawdust; (k) shredded clean paper; (l) synthetic material; (m) wood shavings; (n) wood wool; (o) vermiculate; (p) sphagnum pulp	
2	Packaging for produce, including cardboard boxes and any other packaging products	The goods are clean and new

22 Alternative conditions—fertilisers, soil conditioners and growing media of plant origin

For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing fertilisers, soil conditioners and growing media of plant origin into Norfolk Island.

Alternative conditions—fertilisers, soil conditioners and growing media of plant origin

Item	Column 1 Goods	Column 2 Alternative conditions
1	Peat (being black peat, peat moss, sphagnum peat moss or white peat) that was grown, processed and packaged in, and brought or imported from, an FMD-free country	The goods are free from animals, fresh or viable plant material, animal material, soil, mud and clay
2	Peat (being black peat, peat moss, sphagnum peat moss or white peat) that: (a) was not grown, processed or packaged in an FMD-free	The goods are free from animals, fresh or viable plant material, animal material, soil, mud and clay

Alternative conditions—fertilisers, soil conditioners and growing media of plant origin

Item	Column 1 Goods	Column 2 Alternative conditions
	country; and (b) is in a quantity of less than 10 kilograms	
3	Peat (being black peat, peat moss, sphagnum peat moss or white peat) that: (a) was not grown, processed or packaged in an FMD-free country; and (b) is in a quantity of 10 kilograms or more	The goods are accompanied by: (a) a phytosanitary certificate issued by the exporting country's national plant protection organisation showing that biosecurity risks associated with the goods (including any packaging) have been managed to an acceptable level; and (b) a declaration (included in the phytosanitary certificate or in a certificate given by an official veterinarian) stating that: (i) the goods were sourced from areas where there has been no foot-and-mouth disease in the period of 12 months before the goods left the exporting country; or (ii) the goods were not sourced from an area within a 3 kilometre radius of a place where there has been foot-and-mouth disease in the period of 12 months before the goods left the exporting country
4	Coir peat (whether compressed or non-compressed), including in any of the following forms: (a) bales; (b) blocks; (c) bricks; (d) briquettes	Either: (a) the goods: (i) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); and (ii) are free from animals, fresh or viable plant material, animal material, soil, mud and clay; or (b) all of the following: (i) the goods are accompanied by a phytosanitary certificate issued by the exporting country's national plant protection organisation showing that biosecurity risks associated with the goods (including any packaging) have been managed to an acceptable level; (iii) the phytosanitary certificate includes a declaration stating that there is no visible contamination from animal material on the goods, or the goods are accompanied by an official government certificate stating that there is no visible contamination from animal material on the goods

23 Alternative conditions—produce for human consumption

For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing produce for human consumption into Norfolk Island.

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 23

Alternative conditions—produce for human consumption

Item	Column 1 Goods	Column 2 Alternative conditions
1	Unprocessed fresh fruit, vegetables, fungi, leaves or herbs, other than goods covered by another item in this table	All of the following: (a) the goods are listed fresh produce for human consumption (Norfolk Island); (b) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); (c) the goods have been washed or brushed to remove all soil and other exogenous material, including stems and roots; (d) the goods are free from visual symptoms of disease and of live insects; (e) the goods are securely packed and wrapped in clean and new packaging that prevents infestation by insects; (f) the goods are accompanied by a certificate that has been issued: (i) under the Interstate Certification Assurance Scheme administered by a State or Territory body; or (ii) by a Commonwealth body that has responsibility for matters relating to plant health; or (iii) by a State or Territory body that has responsibility for matters relating to plant health in the State or Territory from which the goods are brought or imported; (g) the certificate referred to in paragraph (f): (i) describes the goods to which the certificate relates, including by reference to the common name of the goods, distinguishing marks such as the name of the brand or grower, and the volume (including the number of packages and weight) of the goods; and (ii) states that the goods have been inspected and that the conditions in paragraphs (a) to (e) are met; (h) the goods are presented to a biosecurity officer for inspection on arrival at a landing place or port in Norfolk Island
1A	Onions	All of the following: (a) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); (b) the goods have been washed or brushed to remove all soil and other exogenous material, including stems and roots; (c) the goods are free from visual symptoms of disease and of live insects; (d) the goods are securely packed and wrapped in clean and new packaging that prevents infestation by insects; (e) the goods were sourced from areas where onion smut (<i>Urocystis cepulae</i>) is not known to occur;

Alternative conditions—produce for human consumption

Item	Column 1 Goods	Column 2 Alternative conditions
		<p>(f) the goods are accompanied by a certificate that has been issued:</p> <ul style="list-style-type: none"> (i) under the Interstate Certification Assurance Scheme administered by a State or Territory body; or (ii) by a Commonwealth body that has responsibility for matters relating to plant health; or (iii) by a State or Territory body that has responsibility for matters relating to plant health in the State or Territory from which the goods are brought or imported; <p>(g) the certificate referred to in paragraph (f):</p> <ul style="list-style-type: none"> (i) describes the goods to which the certificate relates, including by reference to the common name of the goods, distinguishing marks such as the name of the brand or grower, and the volume (including the number of packages and weight) of the goods; and (ii) states that the goods have been inspected and that the conditions in paragraphs (a) to (e) are met; <p>(h) the goods are presented to a biosecurity officer for inspection on arrival at a landing place or port in Norfolk Island</p>
1B	Potatoes	<p>All of the following:</p> <ul style="list-style-type: none"> (a) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); (b) the goods have been washed or brushed to remove all soil and other exogenous material, including stems and roots; (c) the goods are free from visual symptoms of pests (including stem and bulb nematode), of disease (including pink rot, <i>Rhizoctonia</i> Canker (<i>Rhizoctonia solani</i>) and potato viruses) and of live insects; (d) the goods are securely packed and wrapped in clean and new packaging that prevents infestation by insects; (e) the goods were sourced from properties that are free from potato cyst nematode (<i>Globodera rostochiensis</i>) and bacterial wilt (<i>Ralstonia solanacearum</i>); (f) the goods are accompanied by a certificate that has been issued: <ul style="list-style-type: none"> (i) under the Interstate Certification Assurance Scheme administered by a State or Territory body; or (ii) by a Commonwealth body that has responsibility for matters relating to plant health; or (iii) by a State or Territory body that has responsibility for matters relating to plant health in the State or Territory from which the goods are brought or imported;

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 23

Alternative conditions—produce for human consumption

Item	Column 1 Goods	Column 2 Alternative conditions
		(g) the certificate referred to in paragraph (f): <ul style="list-style-type: none">(i) describes the goods to which the certificate relates, including by reference to the common name of the goods, distinguishing marks such as the name of the brand or grower, and the volume (including the number of packages and weight) of the goods; and(ii) states that the goods have been inspected and that the conditions in paragraphs (a) to (e) are met; (h) the goods are presented to a biosecurity officer for inspection on arrival at a landing place or port in Norfolk Island
2	Species of mushrooms or truffles that: <ul style="list-style-type: none">(a) were grown in a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands) or New Zealand; and(b) are not for use for medicinal purposes	The goods: <ul style="list-style-type: none">(a) are listed mushrooms or truffles (frozen); and(b) have been frozen at a core temperature of minus 18°C for at least 7 consecutive days; and(c) are accompanied by commercial documentation stating the following:<ul style="list-style-type: none">(i) the botanical name of the goods;(ii) the country or place where the goods were grown;(iii) that the goods have been frozen at a core temperature of minus 18°C for at least 7 consecutive days;(iv) information describing how the goods have been processed;(v) information describing the packaging used for the goods
3	Species of mushrooms or truffles that: <ul style="list-style-type: none">(a) were not grown in a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands) or New Zealand; and(b) are not for use for medicinal purposes	The goods: <ul style="list-style-type: none">(a) are listed mushrooms or truffles (frozen); and(b) have been frozen at a core temperature of minus 18°C for at least 7 consecutive days; and(c) are accompanied by commercial documentation stating the following:<ul style="list-style-type: none">(i) the botanical name of the goods;(ii) the country or place where the goods were grown;(iii) whether the goods were produced at a farm or harvested in the wild;(iv) that the goods have been frozen at a core temperature of minus 18°C for at least 7 consecutive days;(v) information describing how the goods have been processed;(vi) information describing the packaging used for the goods;(vii) information relating to the phytosanitary condition of the goods

Alternative conditions—produce for human consumption		
Item	Column 1 Goods	Column 2 Alternative conditions
4	Species of mushrooms or truffles that are for use other than for medicinal purposes	The goods: (a) are listed mushrooms or truffles (dried); and (b) have been dried; and (c) are labelled or accompanied by a declaration by the manufacturer of the goods that states the scientific name of the goods
5	Species of mushrooms or fungi that are for use for medicinal purposes other than goods covered by item 5A	The goods: (a) are listed medicinal mushrooms; and (b) have been securely packed in clean and new packaging; and (c) have been dried and processed; and (d) are accompanied by a declaration on commercial documentation stating the botanical name of the goods (including genus and species), and a description of the packaging used for the goods; and (e) have been treated using a method that the Director of Biosecurity is satisfied is appropriate to manage the biosecurity risks associated with the goods to an acceptable level
5A	Species of mushrooms that: (a) are in the form of a tablet, capsule, liquid, injectable vial or ointment, or are an ingredient in food or a beverage, including in a tea bag; and (b) are for use for medicinal purposes	The goods: (a) are listed medicinal mushrooms; and (b) have been commercially prepared and packaged; and (c) either: (i) are accompanied by commercial documentation stating the botanical name of the goods (including genus and species), and a description of the packaging used for the goods; or (ii) are for personal use and in a quantity of not more than 3 months' supply
6	Popping corn	The goods: (a) have been commercially prepared and packaged in packets; and (b) are ready for retail sale; and (c) are presented to a biosecurity officer for inspection on arrival at a landing place or port in Norfolk Island

24 Alternative conditions—seeds

For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing seeds into Norfolk Island.

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 24

Alternative conditions—seeds

Item	Column 1 Goods	Column 2 Alternative conditions
1	Seeds, other than seeds covered by another item in this table	The goods: (a) either: (i) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); or (ii) are listed permitted seeds; and (b) are labelled with their botanical name (genus and species); and (c) are not a genetically modified organism
2	<i>Allium</i> spp.	The goods: (a) either: (i) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); or (ii) are listed permitted <i>Allium</i> spp. seeds; and (b) are labelled with their botanical name (genus and species); and (c) are not a genetically modified organism; and (d) are being imported from a commercial source; and (e) are accompanied by evidence that they are being imported from a commercial source
3	<i>Arecaceae</i> (palm) species for sowing	The goods: (a) either: (i) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); or (ii) are listed permitted <i>Arecaceae</i> (palm) seeds; and (b) have no germinated seeds that have sprouts that are longer than 25 millimetres; and (c) do not have expanded leaves present; and (d) are labelled with their botanical name (genus and species); and (e) are not a genetically modified organism
4	Maize seeds for sowing	The goods: (a) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); and (b) have been commercially prepared and packaged in packets that each contain a quantity of up to 50 grams of the goods; and (c) are ready for retail sale; and (d) are labelled with the botanical name (including genus and species) of the goods; and

Alternative conditions—seeds		
Item	Column 1 Goods	Column 2 Alternative conditions
		(e) are not a genetically modified organism; and (f) are presented to a biosecurity officer for inspection on arrival at a landing place or port in Norfolk Island
5	Maize seeds for sowing, other than maize seeds covered by item 4	<p>All of the following:</p> <p>(a) the goods were grown and packed in a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands);</p> <p>(b) the goods have been commercially packed in clean and new packaging that is labelled with the botanical name (including genus and species) of the goods;</p> <p>(c) the goods are free from visual symptoms of disease and from live insects, seeds of other plants (including weeds and crops), soil, and any other contaminants;</p> <p>(d) the goods:</p> <p>(i) were grown in an area in which boil smut (<i>Ustilago maydis</i>) is not known to occur; or</p> <p>(ii) were sourced from crops that were inspected before they were harvested and were found to be free of boil smut (<i>Ustilago maydis</i>); or</p> <p>(iii) have been treated with Vitavax 200FF flowable fungicide;</p> <p>(e) the goods:</p> <p>(i) were grown in an area in which sugarcane mosaic virus, barley yellow dwarf virus, cereal chlorotic mottle virus, johnsongrass mosaic virus, maize stripe virus, and wheat streak virus are not known to occur; or</p> <p>(ii) were sourced from crops that were inspected before they were harvested and were found to be free of the viruses referred to in subparagraph (i);</p> <p>(f) the goods are accompanied by a certificate that has been issued:</p> <p>(i) under the Interstate Certification Assurance Scheme administered by a State or Territory body; or</p> <p>(ii) by a Commonwealth body that has responsibility for matters relating to plant health; or</p> <p>(iii) by a State or Territory body that has responsibility for matters relating to plant health in the State or Territory from which the goods are brought or imported;</p> <p>(g) the certificate referred to in paragraph (f) states that the goods have been inspected and that the conditions in paragraphs (a) to (e) are met;</p> <p>(h) the goods are presented to a biosecurity officer for inspection on arrival at a landing place or port in Norfolk</p>

Alternative conditions—seeds

Item	Column 1 Goods	Column 2 Alternative conditions
		Island

25 Alternative conditions—timber and timber products

For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing timber and timber products into Norfolk Island.

Alternative conditions—timber and timber products

Item	Column 1 Goods	Column 2 Alternative conditions
1	Timber and timber products, other than goods covered by another item in this table	Both of the following: (a) the goods are free from pests; (b) the goods: (i) are free from bark and have been processed or manufactured to be 200 millimetres or less in diameter in at least one dimension; or (ii) are accompanied by a phytosanitary certificate issued by the exporting country's national plant protection organisation stating that biosecurity risks associated with the goods have been managed to an acceptable level; or (iii) are accompanied by evidence that demonstrates that the goods have been produced under an accreditation scheme that the Director of Biosecurity is satisfied is appropriate to manage the biosecurity risks associated with the goods to an acceptable level; or (iv) are for personal use and are brought in as baggage or mail
3	Charcoal of plant origin, other than charcoal intended for: (a) animal consumption; or (b) veterinary therapeutic use; or (c) fertiliser; or (d) aquaculture	Either: (a) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); or (b) both of the following: (i) the goods are accompanied by commercial documentation that describes the goods and all ingredients; (ii) the goods have been commercially packaged in clean and new packaging
4	Wood pellets, briquettes or agglomerated logs of plant origin	Either: (a) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); or (b) the goods: (i) are made only from sawdust, wood powder or wood

Alternative conditions—timber and timber products

Item	Column 1 Goods	Column 2 Alternative conditions
		shavings that have been heated, extruded, pressed and pelletised; and (ii) are accompanied by a declaration by the manufacturer of the goods stating that the goods are made only from sawdust, wood powder or wood shavings that have been heated, extruded, pressed and pelletised
5	Bark for human consumption or human therapeutic use	The goods: (a) are dried; and (b) either: (i) are accompanied by documentation that includes a detailed product description, a full list of ingredients including botanical names (genus and species) or common names of the goods, and a description of the packaging of the goods; or (ii) are for personal use, are brought in as baggage or mail, and are labelled with the botanical names (genus and species) or common names of the goods
7	Sawdust and woodchips of plant origin only, other than goods intended for: (a) animal consumption; or (b) use as a bioremedial agent or fertiliser	The goods have been commercially packaged in clean and new packaging
8	Oak barrels (with or without chestnut bark hoops)	The goods: (a) are for personal use and are brought in as baggage or mail; or (b) are accompanied by evidence stating the botanical name (including genus and species) of the materials from which the goods are made

26 Alternative conditions—starter cultures

- (1) This section applies to the following goods:
 - (a) starter cultures specified in the table in subsection (3);
 - (b) derivatives of starter cultures specified in that table.
 - (2) For paragraph 7(1)(b), alternative conditions for bringing or importing the goods into Norfolk Island are that the goods are intended for any of the following purposes:
 - (a) use in human food or beverages;
 - (b) cosmetic use;
 - (c) in-vitro laboratory work;
 - (d) in-vivo work in laboratory organisms;
-

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 26

(e) human therapeutic use.

(3) The following table specifies starter cultures for subsection (1).

Starter cultures	
Item	Starter cultures
1	<i>Acetobacter</i> spp.
1A	<i>Aspergillus brasiliensis</i>
2	<i>Aspergillus niger</i>
3	<i>Aspergillus oryzae</i>
4	<i>Bacillus acidopullulyticus</i>
5	<i>Bacillus amyloliquefaciens</i>
6	<i>Bacillus coagulans</i>
7	<i>Bacillus halodurans</i>
8	<i>Bacillus licheniformis</i>
9	<i>Bacillus subtilis</i>
10	Baker's yeast
11	<i>Bifidobacterium</i> spp.
12	<i>Brevibacterium linens</i>
13	Brewer's yeast
14	<i>Candida</i> spp.
15	<i>Chaetomium gracile</i>
16	<i>Citeromyces</i> spp.
17	<i>Clavispora</i> spp.
18	<i>Debaryomyces</i> spp.
19	<i>Dekkera</i> spp.
20	<i>Enterococcus durans</i>
21	<i>Enterococcus faecalis</i>
22	<i>Enterococcus faecium</i>
23	<i>Geotrichum candidum</i>
24	<i>Hansenula</i> spp.
25	<i>Hasegawaea</i> spp.
26	<i>Humicola insolens</i>
27	<i>Hyphopichia</i> spp.
28	<i>Issatchenkia</i> spp.
29	<i>Kluyveromyces</i> spp.
30	Lactic acid bacteria
31	<i>Lactobacillus</i> spp.
32	<i>Lactococcus</i> spp.
33	<i>Leuconostoc</i> spp.
34	<i>Monascus</i> spp.

Starter cultures	
Item	Starter cultures
35	<i>Pediococcus pentosaceus</i>
36	<i>Penicillium camemberti</i> (also known as <i>Penicillium camembertii</i> and <i>Penicillium candidum</i>)
37	<i>Penicillium funiculosum</i>
38	<i>Penicillium roqueforti</i> (also known as <i>Penicillium roquefortii</i>)
39	<i>Phaffia</i> spp.
40	<i>Pichia</i> spp.
41	<i>Propionibacterium</i> spp.
42	<i>Rhizopus</i> spp.
43	<i>Saccharomyces</i> spp.
44	<i>Schizosaccharomyces</i> spp.
45	<i>Schwanniomyces</i> spp.
46	<i>Staphylococcus carnosus</i>
47	<i>Staphylococcus xylosum</i>
48	<i>Streptococcus cremoris</i>
49	<i>Streptococcus diacetylactis</i>
50	<i>Streptococcus durans</i>
51	<i>Streptococcus faecalis</i>
52	<i>Streptococcus lactis</i>
53	<i>Streptococcus salivarius</i>
54	<i>Streptococcus thermophilus</i>
55	<i>Streptomyces olivaceus</i>
56	<i>Streptomyces olivochromogenes</i>
57	<i>Streptomyces mobaraensis</i> (formerly <i>Streptoverticillium mobaraensis</i>)
58	<i>Streptomyces murinus</i>
59	<i>Streptomyces rubiginosus</i>
60	<i>Streptomyces violaceoruber</i>
61	<i>Talaromyces emersonii</i> (formerly <i>Penicillium emersonii</i>)
62	<i>Torulaspora</i> spp.
63	<i>Torulopsis</i> spp.
64	<i>Trichoderma harzianum</i>
65	<i>Trichoderma reesei</i> (formerly <i>Trichoderma longibrachiatum</i>)
66	<i>Trichoderma viride</i>
67	Wine culture
68	Yoghurt/Kefir culture
69	<i>Zygoascus</i> spp.
70	<i>Zygosaccharomyces</i> spp.

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 27

27 Alternative conditions—highly refined organic chemicals and substances for certain purposes

- (1) This section applies to highly refined organic chemicals and substances specified in the table in subsection (3) (the *goods*).
- (2) For paragraph 7(1)(b), alternative conditions for bringing or importing the goods into Norfolk Island are:
 - (a) the goods are not intended for:
 - (i) animal consumption; or
 - (ii) use as bioremedial agents or fertiliser; or
 - (iv) veterinary therapeutic use; and
 - (b) the goods are highly processed; and
 - (c) the goods are purified substances.
- (3) The following table specifies highly refined organic chemicals and substances for subsection (1).

Highly refined organic chemicals and substances	
Item	Highly refined organic chemicals and substances
1	Acetone
2	Almond-based beverages
3	Amino acids (other than those derived from neural material)
4	Arabic gum
5	Betaine
6	Bromelain
7	Cellulose, including wood cellulose
8	Coconut water
9	Creatine
10	Dextrose
11	Dyes
12	Enzymes (other than enzymes derived from animals or microbial fermentation)
13	Esters
14	Fructose
15	Gamma oryzanol
16	Glucose
17	Gluten
18	Gum products
19	Hazelnut-based beverages
20	Instant coffee extracts
21	Isolated soybean protein
22	Isotopes

Highly refined organic chemicals and substances

Item Highly refined organic chemicals and substances

23 Lye water

24 Maize starch and maize starch powder

25 Maltodextrin

26 Maple syrup

27 Molasses

28 Monosodium glutamate

29 Multigrain-based beverages

30 Neem oil

31 Oat-based beverages

32 Organic acids

33 Papain

34 Paraffin

35 Pectin

36 Pine tar

37 Plant alcohols

38 Plant colours

39 Plant essences

40 Plant extracts

41 Plant flavours

42 Plant oils

43 Plant waxes

44 Plant derived lecithin

45 Pure agar

46 Resins

47 Rutin

48 Saline

49 Shellac

50 Soy milk

51 Soybean protein isolate

52 Squalene

53 Starches

54 Sugars

55 Sulfur compounds

56 Sweeteners

57 Tannin

58 Tomato powder

59 Varnishes

60 Vietnamese lacquer

62 Vitamins

63 Wood flour

28 Alternative conditions—biological material intended for human therapeutic use or veterinary therapeutic use

- (1) This section applies to any biological material (the *goods*).

Biological material for human therapeutic use—personal administration

- (2) For paragraph 7(1)(b), alternative conditions for bringing or importing the goods into Norfolk Island are:
- (a) the goods are intended for human therapeutic use; and
 - (b) the goods do not contain bee pollen; and
 - (c) the goods:
 - (i) are for personal use by the person bringing in or importing the goods; or
 - (ii) are for use by any spouse, de facto partner, child, parent or sibling of the person bringing in or importing the goods; and
 - (d) the goods are in a quantity of not more than 3 months' supply; and
 - (e) the goods are accompanied by documentation stating that the goods are in a quantity of not more than 3 months' supply.

Biological material for human therapeutic use—administration by health practitioner

- (3) For paragraph 7(1)(b), alternative conditions for bringing or importing the goods into Norfolk Island are:
- (a) the goods are intended for human therapeutic use; and
 - (b) the goods do not contain bee pollen, *Ganoderma* spp. or slippery elm bark; and
 - (c) the goods are intended to be administered by a medical practitioner or another kind of professional health practitioner.

Biological material for veterinary therapeutic use

- (4) For paragraph 7(1)(b), alternative conditions for bringing or importing the goods into Norfolk Islands are:
- (a) the goods are intended for veterinary therapeutic use; and
 - (b) the goods have been commercially prepared and packaged; and
 - (c) the goods are ready for retail sale without any further processing; and

- (d) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands).

29 Alternative conditions—fertilisers, soil conditioners, soil growth supplements and growing media made of animal material, plant material or biological material

For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing fertilisers, soil conditioners, soil growth supplements and growing media made of animal material, plant material or biological material into Norfolk Island.

Alternative conditions—fertilisers, soil conditioners, soil growth supplements and growing media made of animal material, plant material or biological material		
Item	Column 1 Goods	Column 2 Alternative conditions
1	Fertilisers, soil conditioners and supplements that are intended for use to promote growth in soil	Both of the following: (a) the only biological materials used to make the goods are one or more of the following: (i) alcohols; (ii) citric acid; (iii) cultures of <i>Saccharomyces cerevisiae</i> (for example, Baker's yeast or Brewer's yeast); (iv) lactic acid; (v) purified amino acids (other than those derived from neural material); (vi) purified vitamins; (vii) xanthan gum; (b) the goods are presented to a biosecurity officer for inspection on arrival at a landing place or port in Norfolk Island
2	Fertilisers, soil conditioners and supplements that: (a) are intended for use to promote growth in soil; and (b) do not contain materials derived from terrestrial animals, avian animals or microbes	All of the following: (a) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); (b) the goods have been commercially prepared and packaged; (c) the goods are ready for retail sale; (d) the goods are free from soil; (e) if the goods contain plant material—that material has been processed so that it is not viable (for example, the plant material is plant or seaweed extract); (f) the goods are accompanied by documentation stating the ingredients contained in the goods; (g) the goods are presented to a biosecurity officer for inspection on arrival at a landing place or port in Norfolk Island

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 30

Alternative conditions—fertilisers, soil conditioners, soil growth supplements and growing media made of animal material, plant material or biological material

Item	Column 1 Goods	Column 2 Alternative conditions
3	Growing media made of plant material	The goods: (a) are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); and (b) have been commercially prepared and packaged; and (c) are ready for retail sale; and (d) are free from soil; and (e) are accompanied by documentation stating the ingredients contained in the goods; and (f) are presented to a biosecurity officer for inspection on arrival at a landing place or port in Norfolk Island

Note: Division 2 applies to chemical and mined fertilisers, soil conditioners and soil growth supplements (see section 34).

30 Alternative conditions—other biological material for certain purposes

- (1) This section applies to biological material specified in the table in subsection (4) (the *goods*).

Biological material intended for human consumption, in-vitro purposes or human therapeutic use or contained in cosmetics for human use

- (2) For paragraph 7(1)(b), alternative conditions for bringing or importing the goods into Norfolk Island are:
- (a) the goods are:
 - (i) intended for human consumption, in-vitro purposes or human therapeutic use; or
 - (ii) contained in cosmetics for human use; and
 - (b) the goods have been commercially prepared and packaged; and
 - (c) the goods are ready for retail sale without any further processing.

Biological material intended for veterinary therapeutic use or use as cosmetics for animals

- (3) For paragraph 7(1)(b), alternative conditions for bringing or importing the goods into Norfolk Island are:
- (a) the goods are intended for veterinary therapeutic use or use as cosmetics for animals; and
 - (b) the goods have been commercially prepared and packaged; and
 - (c) the goods are ready for retail sale without any further processing; and

- (d) if the goods contain ingredients of animal, plant or microbial origin—those ingredients are biological material specified in the table in subsection 30(4); and
- (e) the goods are accompanied by:
- (i) documentation stating the ingredients contained in the goods; or
 - (ii) if applicable, a declaration or other documentation from the manufacturer of the goods stating the matter referred to in paragraph (d).

Biological material

(4) The following table specifies biological material for subsection (1).

Biological material	
Item	Biological material
1	Alcohols
1A	Carminic acid
2	Citric acid
2A	Colloidal oatmeal
3	Cultures of <i>Saccharomyces cerevisiae</i> (or a derivative of a pure culture of <i>Saccharomyces cerevisiae</i>)
3A	Cyclosporin (except if manufactured using materials of terrestrial animal or avian origin)
3B	Diethylaminoethyl (DEAE) dextran (except if manufactured using materials of terrestrial animal or avian origin)
4	Essential oils
5	Esters
6	Fish oil (other than salmon oil)
8	Glucosamine, chondroitin or chitosan of aquatic animal origin (except if derived from fish of the family Salmonidae or intended for veterinary therapeutic use in aquatic animals)
8A	Green lipped mussel powder from New Zealand (except if intended for veterinary therapeutic use in aquatic animals)
9	Highly processed biochemicals derived from wool grease (including cholesterol, cholecalciferol vitamin D3, lanolin and lanolin alcohols)
10	Homeopathic preparations
11	Lactic acid
12	Lactose (except in products intended for administration to food-producing animals in their feed or water ration)
13	Natural flavourings (except if manufactured using materials of terrestrial animal or avian origin)
13A	Neatsfoot oil, if present in products for topical application to humans or animals that are companion or performance animals (such as dogs, cats or horses)
14	Pectins
15	Plant acids

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 30A

Biological material

Item Biological material

16	Plant extracts (other than flours or powders)
17	Plant gums
18	Plant juices
19	Plant oils
20	Plant waxes
21	Purified amino acids (other than those derived from neural material)
22	Purified antibiotics or antimycotics manufactured without using materials of terrestrial animal or avian origin (except if intended for veterinary therapeutic use in aquatic animals)
23	Purified avermectin compounds manufactured without using materials of terrestrial animal or avian origin (except if intended for veterinary therapeutic use in aquatic animals)
24	Purified corticosteroid manufactured without using materials of terrestrial animal or avian origin
24A	Purified hyaluronic acid manufactured without using materials of terrestrial animal or avian origin (except if intended for veterinary therapeutic use in aquatic animals)
25	Purified milbemycin compounds manufactured without using materials of terrestrial animal or avian origin (except if intended for veterinary therapeutic use in aquatic animals)
25A	Purified spinosyn compounds, if present in products for use in humans or animals that are companion or performance animals (such as dogs, cats or horses)
26	Resins
27	Starches
28	Sugars (other than lactose)
28A	Tallow derivatives that are methyl oleate, oleic acid, glycerol or stearates, produced by hydrolysis, saponification or transesterification using high temperature (above 200°C) and pressure
29	Tinctures (except if manufactured using materials of terrestrial animal or avian origin)
30	Vinegars
31	Vitamins or provitamins
32	Water
33	Xanthan gum

30A Alternative conditions—gelatine and its derivatives intended for certain purposes

For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing gelatine and its derivatives into Australian territory.

Alternative conditions—gelatine and its derivatives intended for certain purposes

Item	Column 1 Goods	Column 2 Alternative conditions
1	Gelatine intended for: (a) human consumption; or	The goods have been commercially prepared

Alternative conditions—gelatine and its derivatives intended for certain purposes		
Item	Column 1 Goods	Column 2 Alternative conditions
	(b) human therapeutic use; or (c) in-vitro purposes; or (d) in-vivo work in laboratory organisms	
2	Gelatine intended for culture media	Both of the following: (a) the goods have been commercially prepared and packaged; (b) if the goods were derived from bovines—the goods were derived from hides and skins only
3	Gelatine intended for veterinary therapeutic use or use in cosmetics for animals	The goods: (a) were not derived from ruminant animals; and (b) do not contain any biological material except gelatine or biological material specified in the table in subsection 30(4); and (c) have been commercially prepared and packaged; and (d) are ready for retail sale without any further processing; and (e) are accompanied by a declaration or other documentation from the manufacturer of the goods, stating the matters referred to in paragraphs (a) to (d)

31 Alternative conditions—bioremedial products

For paragraph 7(1)(b), the following table specifies alternative conditions for bringing or importing bioremedial products into Norfolk Island.

Alternative conditions—bioremedial products		
Item	Column 1 Goods	Column 2 Alternative conditions
1	Bioremedial products, other than bioremedial products covered by item 2	The goods: (a) contain, as the only biological material, any of the following ingredients: (i) alcohols; (ii) citric acid; (iii) highly processed biochemicals derived from wool grease (including cholesterol, cholecalciferol vitamin D3, lanolin and lanolin alcohols); (iv) lactic acid; (v) cultures of <i>Saccharomyces cerevisiae</i> (or a derivative or extract of a pure culture of <i>Saccharomyces cerevisiae</i>); (vi) purified amino acids (other than those derived from

Part 2 Conditionally non-prohibited goods

Division 1 Animals, plants, biological material and infectious agents

Section 31

Alternative conditions—bioremedial products

Item	Column 1 Goods	Column 2 Alternative conditions
		neural material); (vii) purified vitamins; (viii) xanthan gum; and (b) contain no other material of animal, plant or microbial origin; and (c) are packed in clean and new packaging
2	Bioremedial products brought or imported from Australian territory (other than Christmas Island or Cocos (Keeling) Islands)	All of the following: (a) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); (b) the goods have been commercially prepared and packaged; (c) the goods are ready for retail sale; (d) the goods are free from soil; (e) if the goods contain plant material—that material has been processed so that it is not viable (for example, the plant material is plant or seaweed extract); (f) the goods are accompanied by documentation stating the ingredients contained in the goods; (g) the goods are presented to a biosecurity officer for inspection on arrival at a landing place or port in Norfolk Island

Division 2—Other goods

Note: If Division 3 (which deals with hitchhiker pests) applies to goods included in a class of goods to which a provision of this Division applies, the additional conditions in Division 3 must also be complied with.

32 Soil*Classes of goods to which this section applies*

- (1) This section applies to the following classes of goods:
 - (a) soil (other than soil adhering to goods);
 - (b) goods containing soil.

Conditions

- (2) Goods included in a class of goods to which this section applies must not be brought or imported into Norfolk Island unless:
 - (a) the goods are covered by an import permit; or
 - (b) the goods have been treated using a method that the Director of Biosecurity is satisfied is appropriate to manage biosecurity risks associated with the goods to an acceptable level; or
 - (c) the following conditions are complied with:
 - (i) after arriving at a landing place or port in Norfolk Island, the goods must be delivered directly to premises for biosecurity activities to be carried out in relation to the goods in accordance with an approved arrangement;
 - (ii) the goods must be used only for in-vitro purposes;
 - (iii) the goods must not be used for isolation of infectious agents.

33 Water*Classes of goods to which this section applies*

- (1) This section applies to the following classes of goods:
 - (a) water;
 - (b) goods containing water.

Exceptions

- (2) However, the classes of goods referred to in subsection (1) do not include any of the following:
 - (a) commercially packaged water;
 - (b) rose water;
 - (c) orange flower water;
 - (d) holy water for personal use;
 - (e) water included as an ingredient in a food product.

Section 34

Conditions

- (3) Goods included in a class of goods to which this section applies must not be brought or imported into Australian territory unless at least one of the following is complied with:
- (a) the goods are covered by an import permit;
 - (b) the goods have been treated using a method that the Director of Biosecurity is satisfied is appropriate to manage biosecurity risks associated with the goods to an acceptable level;
 - (c) if the goods are sea or ocean water:
 - (i) the quantity of the goods is less than 5 litres; and
 - (ii) the goods are free from suspended and solid material; and
 - (iii) the goods must be used only for in-vitro purposes.

34 Chemical or mined fertilisers, soil conditioners and soil growth supplements

Classes of goods to which this section applies

- (1) This section applies to the following classes of goods:
- (a) chemical or mined fertilisers;
 - (b) chemical or mined soil conditioners;
 - (c) chemical or mined supplements used to promote growth in soil.

Note: Division 1 applies to fertilisers, soil conditioners and soil growth supplements that are made of animal material, plant material or biological material (see section 29).

Conditions—liquid chemical fertilisers

- (2) Liquid chemical fertilisers (the **goods**) must not be brought or imported into Norfolk Island unless:
- (a) the goods are accompanied by a declaration by the manufacturer of the goods stating that the goods do not contain any ingredients of animal, plant or microbial origin; or
 - (b) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands).

Conditions—chemical and mined fertilisers, soil conditioners and soil growth supplements (other than liquid chemical fertilisers)

- (3) Goods included in a class of goods to which this section applies (other than liquid chemical fertilisers) must not be brought or imported into Norfolk Island unless:
- (a) the goods are covered by an import permit; or
 - (b) the goods are brought or imported from a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands); or
 - (c) the alternative conditions specified in the following table are complied with.

Alternative conditions—chemical and mined fertilisers, soil conditioners and soil growth supplements (other than liquid chemical fertilisers)

Item	Column 1 Goods	Column 2 Alternative conditions
1	Chemical fertilisers (other than liquid chemical fertilisers), chemical soil conditioners and chemical soil growth supplements, if the net weight of each packed unit of the goods is not more than 100 kilograms	All of the following: (a) the goods are in clean and new packaging; (b) the goods do not contain any ingredients of animal, plant or microbial origin; (c) the goods were packed at the place where they were produced; (d) the goods have not been stockpiled in an open environment; (e) the goods are accompanied by a commercial invoice, packing list or a declaration by the manufacturer of the goods, stating the matters referred to in paragraphs (a) to (d)
2	Chemical fertilisers (other than liquid chemical fertilisers), chemical soil conditioners and chemical soil growth supplements, if the net weight of each packed unit of the goods is more than 100 kilograms	All of the following: (a) the goods are not intended for processing (other than packaging) in Australian territory; (b) the goods do not contain any ingredients of animal, plant or microbial origin; (c) the goods are accompanied by a commercial invoice, packing list or a declaration by the manufacturer of the goods, stating the matters referred to in paragraphs (a) and (b)
3	Mined fertilisers, mined soil conditioners and mined soil growth supplements	The goods: (a) are not intended for processing (other than packaging) in Australian territory; and (b) do not contain any ingredients of animal, plant or microbial origin; and (c) are accompanied by a commercial invoice, packing list or a declaration by the manufacturer of the goods, stating the matters referred to in paragraphs (a) and (b)

35 Used beehives and used beekeeping equipment*Classes of goods to which this section applies*

- (1) This section applies to the following classes of goods:
- used beehives;
 - used beekeeping equipment (including protective clothing).

Conditions

- (2) Goods included in a class of goods to which this section applies must not be brought or imported into Norfolk Island unless the goods are covered by an import permit.

Section 35A

35A Equipment that has directly or indirectly come into contact with horses

Classes of goods to which this section applies

- (1) The class of goods to which this section applies is equipment that has directly or indirectly come into contact with horses, including the following:
 - (a) grooming items, tools and other items and accessories used in caring for horses (for example, feed bags);
 - (b) awards (for example, ribbons and garlands);
 - (c) riding accessories (for example, collars, reins, bridles, blinkers and saddles);
 - (d) horse shoes;
 - (e) equestrian and horse riding clothing and accessories, including polo equipment, saddle rugs and pads, riding and stock whips, boots, spurs, jodhpurs, gloves and helmets;
 - (f) any other clothing, footwear, accessories, tools or items, worn or used, that have been in contact with horses or exposed to areas where horses are or have been present.

Conditions

- (2) Goods included in the class of goods to which this section applies must not be brought or imported into Norfolk Island unless:
 - (a) the goods are covered by an import permit; or
 - (b) the goods:
 - (i) have undergone treatment through the application of either gamma irradiation to a minimum of 50 kGray at a facility that the Director of Biosecurity is satisfied can treat equipment that has directly or indirectly come into contact with horses so that biosecurity risks associated with the goods are managed to an acceptable level, or a disinfectant appropriate to manage biosecurity risks associated with the goods to an acceptable level; and
 - (ii) have not been in contact with equine animals after being treated as referred to in subparagraph (i); and
 - (iii) are accompanied by a government-endorsed treatment certificate, stating the matters referred to in subparagraphs (i) and (ii); or
 - (c) the goods are treated, while subject to biosecurity control, using a method that the Director of Biosecurity is satisfied is appropriate to manage the biosecurity risks associated with the goods to an acceptable level.

36 Tyres

Classes of goods to which this section applies

- (1) This section applies to the following classes of goods:
 - (a) used tyres on rims;
 - (b) used tyres off rims;

- (c) commercially retreaded tyres.

Conditions—used tyres on rims

- (2) Goods included in the class of goods referred to in paragraph (1)(a) must not be brought or imported into Norfolk Island unless:
- (a) the used tyres have been cleaned before export to remove contamination; and
 - (b) the used tyres are inflated, on rims and with beading sealed; and
 - (c) the goods are accompanied by a declaration from the exporter stating the matters specified in paragraphs (a) and (b).

Conditions—used tyres off rims

- (3) Goods included in the class of goods referred to in paragraph (1)(b) must not be brought or imported into Norfolk Island unless the goods:
- (a) have been fumigated to manage biosecurity risks associated with the goods to an acceptable level; and
 - (b) are accompanied by a declaration from the exporter stating that the used tyres have been cleaned before export to remove contamination.

Conditions—commercially retreaded tyres

- (4) Goods included in the class of goods referred to in paragraph (1)(c) must not be brought or imported into Norfolk Island unless the goods are covered by an import permit.

37 Used machinery and equipment (other than certain beekeeping equipment, veterinary equipment or equipment that has come into contact with horses)

Classes of goods to which this section applies

- (1) This section applies to the following classes of goods:
- (a) used earth-moving, agricultural, construction or timber felling machinery or equipment (including assembled parts);
 - (b) used mining machinery, including oil-field drilling machinery that has come into contact with soil or material of animal or plant origin;
 - (c) used grain-milling machinery;
 - (d) field-tested agricultural machinery that has come into contact with soil or material of animal or plant origin;
 - (e) food processing equipment.

Exceptions

- (2) However, the classes of goods referred to in subsection (1) do not include any of the following:
- (a) used beekeeping equipment;

Section 38

- (b) used veterinary equipment;
- (c) used equipment that has directly or indirectly come into contact with horses.

Conditions

- (3) Goods included in a class of goods to which this section applies must not be brought or imported into Norfolk Island unless the goods:
 - (a) were cleaned before export to be clean and free from animal and plant material and soil; and
 - (b) are accompanied by documentation stating the method of cleaning.

38 Used veterinary equipment other than from New Zealand or Australian territory (other than Christmas Island or Cocos (Keeling) Islands)

Classes of goods to which this section applies

- (1) The class of goods to which this section applies is used veterinary equipment other than from New Zealand or a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands) (the **goods**).

Conditions

- (2) Goods included in the class of goods to which this section applies must not be brought or imported into Norfolk Island from a place (the **exporting country**), other than New Zealand or a part of Australian territory (other than Christmas Island or Cocos (Keeling) Islands), unless the goods:
 - (a) are sealed in one or more bags with the exporting country's official government seal or quarantine tape; and
 - (b) were treated with Trisodium phosphate (Virkon or Virucidal X), or gamma irradiation at 50 kGray, within 72 hours before leaving the exporting country; and
 - (c) are accompanied by a declaration, endorsed by an official government veterinarian of the exporting country, stating the following:
 - (i) details of the flight for bringing the goods into Norfolk Island;
 - (ii) a description of each piece of equipment;
 - (iii) that the goods have been treated as referred to in paragraph (b) and the method used to treat the goods.

39 Used clothes and cloth rags in commercial consignments

Classes of goods to which this section applies

- (1) This section applies to the following classes of goods:
 - (a) commercial consignments of used clothes;
 - (b) commercial consignments of used cloth rags.

Conditions

- (2) A consignment of goods included in a class of goods to which this section applies must not be brought or imported into Norfolk Island unless the consignment is accompanied by a supplier's declaration stating that the consignment is clean and free from live insects, animal debris, seeds, bark, soil and any other contamination.

40 Mineral and metal ores, rocks and sand*Classes of goods to which this section applies*

- (1) This section applies to the following classes of goods:
- (a) mineral and metal ores;
 - (b) rocks;
 - (c) sand.

Conditions

- (2) Goods included in a class of goods to which this section applies must not be brought or imported into Norfolk Island unless the goods are covered by an import permit.

41 Human blood, human tissue and similar goods*Classes of goods to which this section applies*

- (1) This section applies to the following classes of goods:
- (a) human blood or blood components;
 - (b) human enzymes;
 - (c) human secretions, excretions or exudates;
 - (d) human semen, embryos or ova;
 - (e) human tissue extracts;
 - (f) human tissue.

Conditions

- (2) Goods included in a class of goods to which this section applies must not be brought or imported into Norfolk Island unless:
- (a) the goods are covered by an import permit; or
 - (b) the goods:
 - (i) are for human therapeutic use; and
 - (ii) are not antibodies or cell lines.

Section 42

42 Hair, teeth or bones from a human's body

Classes of goods to which this section applies

- (1) This section applies to the following classes of goods:
- (a) hair from a human's body (including hair from a deceased human's body that has been separated from the deceased human's body);
 - (b) teeth from a human's body (including teeth from a deceased human's body that have been separated from the deceased human's body);
 - (c) bones from a human's body (including bones from a deceased human's body that have been separated from the deceased human's body).

Conditions

- (2) Goods included in a class of goods to which this section applies must not be brought or imported into Norfolk Island unless:
- (a) the goods are clean and have no adhering tissue, blood or faeces; or
 - (b) permission has been given by a human biosecurity official for the goods to be brought or imported into Norfolk Island.

Division 3—Additional conditions relating to hitchhiker pests

43 Goods posing hitchhiker pest biosecurity risks

Classes of goods to which this section applies

- (1) The class of goods to which this section applies is goods that are:
 - (a) listed in relation to one or more specified listed hitchhiker pests in the List of Hitchhiker Pest Host Countries or Regions; and
 - (b) produced, stored or loaded onto an aircraft or vessel:
 - (i) in a country or region specified in that List for those goods and that pest; and
 - (ii) during the risk period specified in that List for that country or region and those goods and that pest.

Conditions

- (2) Goods included in a class of goods to which this section applies must not be brought or imported into Norfolk Island unless:
 - (a) the goods:
 - (i) have been treated, using a treatment listed for the goods in the List of Hitchhiker Pest Host Countries or Regions, by a treatment provider listed for that treatment in the List of Treatment Providers; and
 - (ii) are accompanied by a certificate stating that the goods have been treated in accordance with subparagraph (i); and
 - (iii) are free from any live listed hitchhiker pests; or
 - (b) all of the following apply:
 - (i) the goods are contained in one or more sealed shipping containers;
 - (ii) each shipping container remains sealed after its arrival in Norfolk Island until it is opened for the goods to be treated in accordance with subparagraph (iii);
 - (iii) the goods are treated, in accordance with an approved arrangement and while subject to biosecurity control, using a treatment the Director of Biosecurity is satisfied is appropriate to manage the biosecurity risks associated with the goods to an acceptable level.
- (3) The conditions in subsection (2) are in addition to any conditions that must be complied with under Division 1 or 2.

Note: For **listed hitchhiker pest**, **List of Hitchhiker Pest Host Countries or Regions** and **List of Treatment Providers**, see section 5 of the *Biosecurity (Prohibited and Conditionally Non-prohibited Goods) Determination 2016*.

Endnotes

Endnote 1—About the endnotes

Endnotes

Endnote 1—About the endnotes

The endnotes provide information about this compilation and the compiled law.

The following endnotes are included in every compilation:

Endnote 1—About the endnotes

Endnote 2—Abbreviation key

Endnote 3—Legislation history

Endnote 4—Amendment history

Abbreviation key—Endnote 2

The abbreviation key sets out abbreviations that may be used in the endnotes.

Legislation history and amendment history—Endnotes 3 and 4

Amending laws are annotated in the legislation history and amendment history.

The legislation history in endnote 3 provides information about each law that has amended (or will amend) the compiled law. The information includes commencement details for amending laws and details of any application, saving or transitional provisions that are not included in this compilation.

The amendment history in endnote 4 provides information about amendments at the provision (generally section or equivalent) level. It also includes information about any provision of the compiled law that has been repealed in accordance with a provision of the law.

Editorial changes

The *Legislation Act 2003* authorises First Parliamentary Counsel to make editorial and presentational changes to a compiled law in preparing a compilation of the law for registration. The changes must not change the effect of the law. Editorial changes take effect from the compilation registration date.

If the compilation includes editorial changes, the endnotes include a brief outline of the changes in general terms. Full details of any changes can be obtained from the Office of Parliamentary Counsel.

Misdescribed amendments

A misdescribed amendment is an amendment that does not accurately describe the amendment to be made. If, despite the misdescription, the amendment can be given effect as intended, the amendment is incorporated into the compiled law and the abbreviation “(md)” added to the details of the amendment included in the amendment history.

If a misdescribed amendment cannot be given effect as intended, the abbreviation “(md not incorp)” is added to the details of the amendment included in the amendment history.

Endnote 2—Abbreviation key
