

SCHEDULE - Forest Practices Code of British Columbia Act

Column 1	Column 2	Column 3
<i>Forest Practices Code of British Columbia Act</i>		
17 (1)	Failure to carry out the assessments and collect and analyze the data required by the regulations to formulate operational plans, and make the assessments, data and analyses available to the district manager.	1 000
18 (8)	If the term of a forest development plan is extended, failure by the holder of the agreement to promptly amend the plan to the extent necessary to ensure compliance with the current requirements of the Act, the regulations and the standards.	5 000
19 (5)	If the term of a forest development plan is extended, failure by the holder of the agreement to promptly amend the plan to the extent necessary to ensure compliance with the current requirements of the Act, the regulations and the standards.	5 000
22 (4)	Failure of the holder of a major licence or woodlot licence to prepare and obtain approval of a silviculture prescription for an area where the holder has contravened section 96.	5 000
22 (5)	Failure of the holder of a tree farm licence, timber licence or a woodlot licence to prepare and obtain approval of a silviculture prescription for an area where timber has been damaged or destroyed unless exempted.	5 000
22 (6)	Failure of the holder of a forest licence or timber sale licence that is a major licence to, if required, prepare and obtain approval of a silviculture prescription for an area where the timber has been damaged or destroyed.	5 000
23 (2)	Failure of the holder of a major licence or woodlot licence to prepare and obtain approval of a silviculture prescription for a backlog area before carrying out a silviculture treatment on the area.	5 000
24 (2)	Failure of the holder of a major licence or woodlot licence to prepare and obtain approval of a stand management prescription for an area before carrying out a silviculture treatment on the area.	5 000
27 (1)	Failure of the holder of an agreement under the <i>Range Act</i> to prepare and obtain approval of a range use plan before grazing, cutting hay or constructing or carrying out range developments.	5 000

27 (7)	If the term of the range use plan is extended, failure of the holder of the agreement under the <i>Range Act</i> to promptly amend the plan to the extent necessary to ensure compliance with current requirements, the regulations and the standards.	5 000
34 (2)	Amending an operational plan under section 34 (1) to the detriment of another person who has relied on the plan.	1 000
35 (1) (a)	Failure of a person who has a specified operational plan to submit an amendment to the plan or a new plan for approval if required.	5 000
35 (1) (b)	Carrying out an operation under an operational plan on any parts of a plan area that would be materially affected by a proposed amendment or new plan before a required amendment or a new plan has been approved.	5 000
36 (2) (a)	Failure of the holder of a major licence or woodlot licence to submit to the district manager a report as to why the requirements of the silviculture prescription cannot be met and the extent to which they will not be met.	5 000
36 (2) (b)	Carrying out an operation under a silviculture prescription on any parts of the area covered by the silviculture prescription that would be materially affected by the amendment or new prescription before the required amendment to the prescription or a new prescription has been approved.	5 000
45 (1)	Carrying out a forest practice that results in damage to the environment.	50 000
45 (3)	Carrying out a forest practice if he or she knows or should reasonably know that, due to weather conditions or site factors, the carrying out of the forest practice may result, directly or indirectly, in significant damage to the environment.	50 000
45 (4)	Failure of a person who contravenes section 45 (1) or (3) to take required action.	20 000
45 (5)	Inappropriately resuming a forest practice that was stopped under section 45 (4) (a).	20 000
46 (1)	Exceeding the amount specified under the silviculture prescription for the maximum proportion of the area that may be occupied by permanent access structures.	50 000
46 (3) (a)	Exceeding the limits specified in the silviculture prescription for the proportion of the total area that may be occupied by haul roads, spur roads, landings, gravel pits and borrow pits.	50 000
46 (3) (b)	Exceeding the limits specified in the silviculture prescription for degrading site productivity by roads and landings.	50 000

46 (4)	Failure to rehabilitate the disturbed portion of the area under a silviculture prescription if the disturbance is in excess of the specified amounts.	50 000
47 (1)	Exceeding the maximum amount of soil disturbance within the net area to be reforested specified in the silviculture prescription.	100 000
47 (5)	Failure to rehabilitate the area under a silviculture prescription to the degree necessary to bring the net amount of soil disturbance for the net area to be reforested within the maximum amount specified in the prescription.	50 000
48 (1)	Failure to comply with a notice to take measures and to pay costs that are necessary to rehabilitate the area that has sustained damage.	10 000
50 (1) (a)	Failure to comply with fuel management requirements established in an operational plan.	10 000
50 (1) (b)	Failure to use fire only in accordance with the conditions of a burning permit and the regulations and standards.	10 000
50 (2) (a)	Failure to carry out an impact assessment of the site and soil condition where required.	5 000
50 (2) (b)	Failure to develop a rehabilitation plan and submit it to the district manager for approval where required.	5 000
50 (3)	Failure to implement an approved rehabilitation plan.	50 000
51 (2) (a)	Failure to modify or stop any forest practice that is in the immediate vicinity of a previously unidentified resource feature to the extent necessary to refrain from threatening it.	10 000
51 (2) (b)	Failure to promptly advise the district manager of the existence and location of the resource feature.	5 000
52 (2)	Failure to carry out the forest practice at a time and in a manner that will limit the spread of noxious weeds to a level acceptable to the district manager.	5 000
54 (1)	Using a road on Crown land for timber harvesting and related forest practices without a road permit or road use permit.	10 000
54 (2)	Using a forest service road for timber harvesting and related forest practices, or any other industrial purpose, without a road use permit.	10 000
54 (3)	Using a road, for which there is a road permit, for timber harvesting and related forest practices, or any other industrial purpose, without authorization under the road permit or a road use permit.	10 000
55 (3) (a)	Improperly closing the road or restricting its use.	10 000
55 (3) (b)	Improperly removing a vehicle or animal from the road.	2 000

56 (1)	Improperly requiring payment from a person for the non-industrial use of the road to which the permit applies.	2 000
56 (2)	Improperly requiring payment for the use of the road from a person who uses the road under a road use permit or an exemption made under section 54 (4).	2 000
58 (2)	Constructing or modifying a road without proper authority.	50 000
60 (1)	Failure to obtain approval for a road layout and design before constructing or modifying a road to which the permit applies.	50 000
60 (3)	Failure to ensure that the layout and design are consistent with any forest development plan or access management plan.	5 000
62 (1)	Failure to construct or modify a road on applicable Crown land in accordance with all of the requirements.	50 000
63 (1)	Failure to maintain a road for the required time.	50 000
63 (2)	Failure to maintain a road to the required level.	20 000
63 (3)	Failure to maintain a road as required.	20 000
64 (1)	Failure to deactivate a road as required.	50 000
64 (2)	Failure to ensure that, from the time deactivation of the road begins until the road is permanently deactivated, the area that has been deactivated meets prescribed requirements.	20 000
64 (3)	Failure of the holder of a tree farm licence to maintain, in accordance with the regulations, the stability of the area that was permanently deactivated.	20 000
64 (5)	Deactivating a road before the person prepares and obtains approval, if required, of a road deactivation prescription for the road.	10 000
64 (10)	Failure to ensure that a road deactivation prescription specifies for the road any site specific measures necessary to minimize soil erosion.	5 000
65	Connecting a road to a forest service road without proper authorization.	5 000
67 (1)	Failure to carry out timber harvesting and related forest practices on applicable land in accordance with the specified requirements.	50 000
67 (2) (c) (i)	Failure to ensure that in areas that are not covered by a silviculture prescription forest practices are carried out so as to minimize the area occupied by excavated or bladed trails.	50 000

- 67 (2) (c) Failure to ensure that any soil disturbance in the net area 50 000
(ii) to be reforested does not prevent the requirements of the
silviculture prescription from being met.
- 67 (2) (d) Harvesting or damaging trees that are required by the 5 000 per
silviculture prescription to be left standing or tree
undamaged.
- 68 (1) Building an excavated or bladed trail that is not provided 10 000
for in a silviculture prescription, logging plan or special
use permit.
- 69 Failure to take measures specified to mitigate the effect 10 000
of removing timber that provided a barrier to livestock
movement.

SCHEDULE - Forest Practices Code of British Columbia Act

Column 1	Column 2	Column 3
	Forest Practices Code of British Columbia Act, cont.	
70 (3)	Failure to establish, in accordance with the regulations and standards and the prescription, a free growing stand on those portions of the area under the silviculture prescription that are within the net area to be reforested.	100 000
70 (4) (a)	Failure to create the post harvest stand structure and site conditions specified in the silviculture prescription.	25 000
70 (4) (b)	Exceeding the limit for forest floor displacement specified in the prescription.	25 000
70 (4) (d)	Failure, by the regeneration date specified in the prescription, to meet, and after that date to maintain, the stocking requirements.	10 000
70 (4) (e)	Failure, within the free growing assessment period specified in the prescription, to establish a free growing stand that meets all the requirements of the silviculture prescription.	100 000
70 (4) (f)	Failure to carry out a spacing treatment before the end of the free growing assessment period if required.	10 000
70 (4) (g)	Failure to carry out any necessary silviculture treatment before the end of the free growing assessment period to cause the quality and health of the trees to meet the prescribed requirements.	10 000
70 (6)	Failure to carry out a spacing treatment before the end of the free growing assessment period to reduce the number of trees as required.	10 000
72 (2)	Failure to carry out the silviculture treatment in accordance with the regulations and standards and a stand management prescription.	20 000
74 (1)	Failure to graze livestock, cut hay or construct or carry out a range development on range land or unfenced grazing land in accordance with the Act, the regulations, the standards and any range use plan.	10 000
74 (2) (a)	Constructing or carrying out a range development without proper authority.	5 000
74 (2) (b)	Constructing or carrying out range developments other than in accordance with specifications approved by the district manager.	5 000
74 (2) (c)	Failure to remove range developments and rehabilitate areas subject to range development when directed to do so by the district manager.	5 000
74 (4)	Failure to ensure that all livestock are properly identified if authorized to graze on Crown range under an agreement under the Range Act.	1 000
76 (1)	Lighting, fueling or making use of an open fire in or within 1 km of a forest other than in compliance with a burning permit and the regulations.	1 000
78 (2)	Failure to comply with a notice or order respecting burning permits.	1 000
79 (1) (a)	Failure to assess the fire hazard in accordance with the regulations.	10 000
79 (1) (b)	Failure to submit the results of the fire hazard assessment to a designated forest official.	10 000

80 (1)	Failure to abate, remove or both abate and remove, the fire hazard on Crown land as required by, and in accordance with, the regulations.	500 per ha
80 (2)	Failure to abate and remove the fire hazard on private land in accordance with the regulations.	500 per ha
80 (3)	Failure to abate and remove a fire hazard that exists on private land as a result of insects, disease, wind, fire or other causes.	500 per ha
80 (4)	Failure to abate and remove the fire hazard on private land in accordance with the regulations.	500 per ha
81 (1)	Failure to apply for a burning permit before abating or removing a fire hazard by burning.	1 000
81 (4) (a)	Failure to carry out an alternate type of silviculture treatment specified in the silviculture prescription if required.	5 000
81 (4) (b)	Failure to amend the silviculture prescription in accordance with section 35.	5 000
82	Failure to comply with a notice to remove or abate the fire hazard.	5 000
84 (2)	Entering a restricted area without the written consent of the designated forest official.	1 000
84 (4)	Failure to comply with the regulations when in a restricted area.	1 000
85 (2)	Failure to immediately comply with requirements of an order under section 85 (1).	1 000
86	Failure to immediately report the fire as required.	1 000
87 (1)	Dropping a burning substance, in or within 1 km of a forest, other than in accordance with the Act.	2 000
87 (2)	Failure to immediately take all reasonable steps to extinguish a burning substance that was inappropriately dropped.	2 000
88 (2) (a)	Failure, if required, to immediately take all reasonable steps to extinguish a fire, if the fire can be extinguished, and after that to report the fire.	2 000
88 (2) (b)	Failure, if required and if it appears the fire cannot be extinguished by the person, to immediately report the fire.	2 000
92 (1) (a)	Failure to report a fire to the forest district office if required.	1 000
94 (2)	Failure to comply with an order under section 94 (1).	2 000
96 (1)	Cutting, removing, damaging or destroying Crown timber without authorization.	The greater of 200 per m ³ of timber affected or 100 000 per ha of timber
96 (2)	Removing Crown timber without authority.	
97 (1)	Failure to inform a person of the boundaries of the private land before authorizing another person to harvest an area adjacent to Crown land.	10 000
97 (2)	Failure to ascertain the boundaries of private land adjacent to Crown land before harvesting the area.	10 000
98	Causing or permitting livestock to be ridden or driven on, or to graze on, Crown range without authorization.	10 000
99 (1)	Failure to obtain consent before constructing or occupying a building on Crown land in a Provincial forest if required.	5 000

99 (2) (a)	Failure to remove or destroy, or both, a building or other structure, in accordance with a notice under section 99 (2).	5 000
99 (2) (b)	Failure to restore the land under the building or other structure in accordance with a notice under section 99 (2).	2 000
100	Cutting, removing, damaging or destroying hay on Crown range without authorization.	1 000 per ha
101 (1) (a)	Storing hay on Crown range without authorization.	5 000
101 (1) (b)	Carrying out, constructing, modifying, maintaining, removing, damaging or destroying a range development on Crown range without authorization.	2 000
101 (1.2)	Failure to comply with a condition imposed under section 101 (1.1).	10 000
101 (2) (a)	Failure to remove or destroy, or both, stored hay or a range development in accordance with a notice under section 101 (2).	5 000
101 (2) (b)	Failure to restore the land under stored hay or a range development, or both, in accordance with a notice under section 101 (2).	10 000
101 (2) (c)	Failure to repair or rehabilitate a range development in accordance with a notice under section 101 (2).	5 000
106 (1)	Failure to comply with a notice to control or dispose of the insects, diseases, animals or abiotic factors.	5 000
225 (1)	Failure to submit a report in accordance with Act and regulations.	10 000
248 (1)	Removing or modifying trees in a riparian reserve zone under an operational plan after June 15, 1997.	50 000
248 (2)	Clearcutting an area with a high likelihood of landslides outside a community watershed under an operational plan after June 15, 1997.	50 000
249 (a)	Removing or modifying trees in a riparian reserve zone under a cutting permit after June 15, 1997.	50 000
249 (b)	Clearcutting an area with a high likelihood of landslides outside a community watershed under a cutting permit after June 15, 1997.	50 000
250 (1) (a)	Removing or modifying trees in a riparian reserve zone under a timber sale licence after June 15, 1997.	50 000
250 (1) (b)	Clearcutting an area with a high likelihood of landslides outside a community watershed under a timber sale licence after June 15, 1997.	50 000
252 (1) (a)	Failure to submit amendment that results from riparian and terrain stability requirements.	5 000

SCHEDULE - Forest Road Regulation

Column 1	Column 2	Column 3
<i>Forest Road Regulation</i>		
3 (2)	Failure to comply with notice to refer road layout and design, or failure to review comments or to make revisions.	2 000
3 (3)	Failure to submit comments or summaries.	2 000
4 (1) (a)	Failure to select road location as required.	2 000
4 (1) (b)	Failure to select stream crossings as required.	2 000
4 (5)	Failure to carry out a terrain stability field assessment.	10 000
4 (6)	Failure to carry out an assessment to determine the riparian class of streams, wetlands and lakes or to identify fish streams in a community watershed.	5 000
4 (7)	Failure to carry out a visual impact assessment in a known scenic area.	5 000
4 (8)	Failure to carry out an archeological impact assessment if required.	5 000
4 (9)	Failure to provide sufficient expertise to carry out a terrain stability field assessment.	5 000
5	Failure to carry out a soil erosion field assessment where required.	10 000
6(1)	Failure to provide required contents for a road layout and design.	2 000
7 (1)	[Repealed]	
8 (1)	Failure to address required matters in road design specifications.	5 000
8 (2)	Failure to carry out a geometric road design as required.	2 000
8 (3)	Failure to ensure that person preparing measures is qualified.	5 000
9	Failure to provide necessary designs and measures for drainage design specifications.	5 000
10 (1)	Failure to ensure that a professional engineer or professional forester has taken design responsibility, as required.	5 000
10 (2)	Failure to confirm to design standards.	5 000

11 (1)	Failure to properly clear the clearing width.	2 000
11 (6)	Failure to dispose of slash and debris by scattering, piling and burning, burying or endhauling the material.	10 000
11 (7)	Depositing erodible soil material, slash or debris into a lake, wetland, stream, fisheries-sensitive zone or marine-sensitive zone.	5 000
12 (1) (a)	Failure to construct the drainage system of the road concurrently with the subgrade.	10 000
12 (1) (b)	Failure to construct according to the road layout and design.	10 000
12 (1) (c)	Failure to ensure that a professional engineer signs and seals a statement that the construction or modification is in general conformance with the road layout and design.	20 000
12 (1) (d)	Failure to use only appropriate rock drilling and blasting techniques when conducting rock work.	
12 (1) (e)	Failure to locate borrow pits, quarries, waste areas and endhaul disposal sites where eroded soil materials and other deleterious materials can be prevented from entering watercourses.	10 000
12 (1) (f)	Failure to control or contain equipment fueling or servicing fluids.	5 000
12 (1) (g)	Failure to carry out a construction survey as required.	2 000
12 (1) (h)	Failure to use only clean compacted snow and ice as fill when building a snow road.	10 000
12 (1) (i)	Failure to protect fill.	10 000
12 (1) (j)	Crossing the stream with equipment at unauthorized locations.	10 000
12 (1) (k)	Failure to keep equipment wheels or tracks more than 5 m away from stream banks.	5 000
12 (1) (l)	Removing gravel or fill from riparian management areas without approvals.	10 000
12 (1) (m)	Fueling or servicing equipment within a riparian management area of a stream or wetland or within 30 m of a lakeshore.	5 000
12 (5)	Failure to leave borrow pits, quarries, waste areas and endhaul disposal sites in a stable condition at the completion of the subgrade.	50 000

12 (6) (a)	Failure to notify water licensees or designated environment official at least 48 hours prior to the start of road construction or modification in a community watershed.	5 000
12 (6) (b)	Failure to ensure that rock from known acid generating rock formations is not used for road construction or modification.	20 000
12 (6) (c)	Causing water quality to fail to meet known water quality objectives.	50 000
12 (7)	Failure to modify or stop road construction or modification in vicinity of fisheries-sensitive zone.	10 000
13 (1) (a)	Failure to carry out construction necessary to maintain drainage patterns.	10 000
13 (1) (b)	Failure to install bridges, culverts or fords at crossings of permanent or seasonal streams.	10 000
13 (1) (c)	Failure to construct drainage systems so that they function properly.	10 000
13 (1) (d)	Failure to construct sound, functional and stable stream and cross-drain culverts.	10 000
13 (1) (e)	Failure to prevent road embankment and waste materials from interfering with waterflow at culvert inlets and outlets.	2 000
13 (1) (f)	Failure to protect unstable or erodible fill at culvert outlets with erosion-resistant materials or drainage structures.	5 000
13 (1) (g)	Failure to construct bridges and culverts to prevent or mitigate stream bank disturbance and protect water quality.	5 000
13 (1) (h) (i)	Failure to construct crossings in fish streams in accordance with timing windows and measures.	50 000
13 (1) (h) (ii)	Failure to construct crossings in fish streams at a time and in a way that provides safe fish passage and protects fish habitat.	5 000
13 (1) (i)	Failure to install ditch blocks immediately downstream of all cross-drain culvert inlets.	2 000
13 (1) (j)	Failure to use geotextile filter fabrics on gravel surface log stringer bridges and log culverts.	5 000
13 (1) (k)	Failure to construct a catch basin or other sediment control device adjacent to cross-drain culverts if required.	5 000

13 (1) (l)	Failure to compose or construct fords and approaches of the appropriate materials.	10 000
13 (1) (m)	Failure to provide proper material storage and equipment turnaround sites.	5 000
13 (1) (n)	Failure to fabricate permanent bridge and culvert materials to the required standards.	10 000
13 (1) (o)	Failure to ensure that a professional engineer or professional forester signs and seals a statement as required.	5 000
13 (1) (p)	Failure to ensure that the person preparing the road layout and design signs a statement as required.	5 000
13 (a) (q)	Failure to ensure that a professional engineer signs and seals a statement as required.	5 000
13 (2) (a)	Failure to obtain and retain records, certificates, drawings, results and other data as required.	5 000
13 (2) (b)	Failure to prepare and retain as-built drawings.	5 000
14 (a)	Failure to apply surface materials if the subgrade material is insufficient.	10 000
14 (b)	Failure to apply surface materials that will minimize surface erosion of the road.	50 000
15 (1)	Failure to apply seed to all required areas within one growing season after construction, modification or deactivation activities are completed.	5 000
15 (2)	Failure to revegetate seeded areas within 2 years after the construction, modification or deactivation activities are completed.	5 000
15 (3)	Failure to provide seeding that is compatible with measures to grow trees.	5 000
16 (1)	Failure to ensure that a qualified inspector carried out an inspection of bridges and major culverts, and made a record of the inspection, within the required time.	2 000
16 (2) (a)	Failure to ensure that a qualified inspector inspects specified structures after events that may cause damage to the structure.	2 000
16 (2) (b)	Failure to ensure that a qualified inspector inspects specified structures at a frequency specified by a professional engineer.	2 000
16 (3)	Failure to prepare an inspection report with the necessary contents.	2 000

16 (4)	Failure to retain a copy of an inspection.	10 000
17 (1)	Failure to take appropriate action if structural deficiencies to a bridge have been detected.	50 000
17 (2) (a)	Failure to ensure that a professional engineer evaluates a bridge to determine that the bridge meets peak flow criteria.	10 000
17 (2) (b)	Failure to modify, remove or replace the bridge if required.	50 000
17 (3)	Failure to place a sign on each bridge approach as required, for down-rated bridges.	5 000
18 (1)	Failure to carry out an inspection on the road and maintain the road as required.	50 000
18 (2)	Failure to carry out road maintenance inspections at the required frequency.	5 000
18 (3)	Failure to carry out remedial work within the appropriate time.	5 000
18 (4)	Causing quality of water to fail to meet water quality objectives set by the Ministry of Environment, Lands and Parks.	5 000
20 (1)	Failure to ensure that the road deactivation prescription provides for, and the deactivation work addresses, the specified requirements.	5 000
20 (3) (a)	Failure to ensure that a professional engineer or geoscientist prepares a prescription as required.	5 000
20 (3) (b)	Failure to ensure that a professional engineer or geoscientist signs and seals a statement that deactivation work has been properly carried out as required.	20 000
20 (6)	Failure to notify proper parties of upcoming deactivation work in a community watershed.	5 000
21 (1)	Modifying a deactivation prescription without consent.	50 000
21 (3)	Modifying a deactivation prescription without the authorization of the district manager.	50 000
22	Failure to post information respecting deactivation of roads as required.	20 000
23	Failure to properly inspect and repair temporarily or semi-permanently deactivated roads.	10 000
24	[Repealed]	

25	Failure to carry out permanent deactivation of a road, to the required level, as appropriate.	10 000
26	Failure to carry out road construction or modification in accordance with general wildlife measures within a wildlife habitat area.	50 000

SCHEDULE - Forest Fire Prevention and Suppression Regulation

Column 1	Column 2	Column 3
Forest Fire Prevention and Suppression Regulation		
4 (1) (a)	Failure of a fire watcher to watch for sparks and fires.	1 000
4 (1) (b)	Failure of a fire watcher to report any fires as required.	1 000
4 (1) (c)	Failure of a fire watcher to assist in fighting any fire that occurs in the area being watched by the fire watcher.	2 000
4 (3)	Failure of a person carrying out an industrial activity to ensure that a fire watcher has access to the specified tools and equipment.	2 000
5 (1)	Failure of a person carrying out the industrial activity to ensure that the specified fire fighting tools are kept at the work site.	2 000
5 (2)	Failure of a person carrying out the industrial activity to ensure that the specified fire fighting tools are kept at the work site.	2 000
6	Failure of a person carrying out an industrial activity to ensure that every large engine used in an industrial activity has the specified fire fighting tools.	2 000
7	Failure of a person carrying out an industrial activity to ensure that the specified fire fighting tools are kept at each worksite where hot work is performed.	2 000
8	Failure of a person carrying out an industrial activity using explosives to ensure that the specified fire fighting tools are kept as required.	2 000
9 (1)	Failure of a person carrying out an industrial activity using helicopters to ensure that a specified water bucket is kept as required.	2 000
9 (2) (a)	Failure of a person carrying out a timber harvesting operation to ensure that all helicopters used in the operation are properly equipped and maintained to operate fire fighting equipment.	2 000
9 (2) (b)	Failure of a person carrying out a timber harvesting operation to ensure that all helicopters used in the operation are operated by pilots who are knowledgeable about the use of the fire fighting equipment.	2 000
9.1	Failure of a person carrying out a timber harvesting operation to ensure that all helicopters used in the operation meet the specification of a water delivery system.	2 000
10 (2)	Failure of a person carrying out an industrial activity that includes activities with specified risks to ensure that each worksite has the specified water delivery systems.	2 000
10 (4)	Failure of a person carrying out an industrial activity that is a sawmill to ensure that the sawmill has at least one water delivery system.	2 000
10 (5)	Failure of a person carrying out an industrial activity with a water delivery system to ensure that a qualified person is present.	2 000
11 (1)	Failure of a person carrying out an industrial activity with a specified risk to ensure that necessary equipment is available as required.	2 000
12 (1)	Operating a large engine without a safe and effective device for arresting sparks.	1 000
12 (2)	Operating a large engine that operates in a stationary capacity without removing combustible material as required.	1 000
12 (3)	Failure of a person carrying out an industrial activity to ensure that the requirements of section 12 (1) and (2) are met.	2 000

13 (1)	Operating a small engine without an effective muffler and fire extinguisher.	1 000
13 (2)	Operating a small engine with an inappropriate muffler.	1 000
13 (3)	Failure of a person carrying out an industrial activity to ensure that a small engine is equipped with an effective muffler and fire extinguisher.	2 000
14 (1)	Performing hot work without a fire watcher.	1 000
14 (2)	Failure of a fire watcher to remain at the site for a specified period.	1 000
15	Failure of a person carrying out an industrial activity that is a cable logging system to meet the specified requirements.	2 000
16	Failure of a person carrying out an industrial activity that is a sawmill to dispose of all combustible waste produced by the operation of the sawmill as required.	5 000
17	Igniting fireworks if prohibited.	1 000
18 (1)	Failure of a person carrying out an industrial activity that involves a place that is a camp, mine, sawmill, refuse disposal site or processing facility, to ensure that a specified area is kept clear of combustible material.	2 000
18 (2)	Failure of a person carrying out an industrial activity that involves a camp, mine, sawmill, refuse disposal site or processing facility, to dispose of all combustible material as required.	2 000
19	Using explosives at the site of an industrial activity without a fire watcher remaining at the site as required.	1 000
20 (1)	Failure of a person carrying out an industrial activity to ensure that the activity is conducted in accordance with the specified requirements.	5 000
20 (2)	Failure of a person carrying out an industrial activity to determine the industrial activity's risk classification and the fire danger class as required.	5 000
20 (4) (a)	Failure of a person carrying out an industrial activity to establish an acceptable weather station.	5 000
20 (4) (b)	Failure of a person carrying out an industrial activity to report information as required.	5 000
26 (1) (a)	Failure of a person that operates a railway in British Columbia to maintain the railway right of way as required.	5 000
26 (1) (b)	Failure of a person that operates a railway in British Columbia to patrol the railway right of way as required.	5 000
26 (2)	Failure of a person to comply with an order.	5 000
26 (3)	Carrying out rail grinding work for a railway in British Columbia without approval or an approved plan.	5 000
27	Carrying out an industrial activity in specified circumstances without a fire preparedness plan.	5 000
28	Failure of a person to prepare a fire preparedness plan that meets the specified requirements.	2 000
29 (1)	Failure of a person carrying out an industrial activity that requires a fire preparedness plan to ensure that the person in charge is trained to the required level.	2 000
30 (2)	Failure to prepare and submit an assessment of the fire hazard as required.	5 000
30 (3)	Failure to deliver an assessment of the fire hazard within the required time.	2 000
31	Failure to prepare an assessment of a fire hazard in the required manner.	2 000
34 (1) (a)	Failure to abate and remove a fire hazard as required.	5 000
34 (1) (b)	Failure to abate and remove a fire hazard as required.	5 000

34 (2)	Failure to abate slash accumulations created during the process of fire hazard reduction as required.	5 000
34 (3)	Failure to abate a fire hazard within the specified time.	5 000
35 (1)	Failure of a person carrying out an industrial activity to take appropriate action when a fire is discovered.	5 000
35 (2)	Failure of a person to provide the specified resources if required.	5 000
36 (1)	Failure of a person who carries out fire control or fire suppression operations to stabilize areas as required.	5 000
36 (2)	Failure of a person to carry out the required rehabilitation activities.	5 000
36 (3)	Failure of a person responsible for stabilization activities to prepare and submit a site rehabilitation plan where required.	2 000

SCHEDULE - Range Practices Regulation

Column 1	Column 2	Column 3
	Range Practices Regulation	
3 (a)	Locating a range development in a community watershed in a prohibited manner.	5 000
3 (b)	Locating a stream crossing in a community watershed if prohibited.	5 000
3 (c)	Locating a range cabin within 50 m of a stream in a community watershed.	5 000
3 (d)	Locating a livestock corral within 50 m of a stream within a community watershed.	5 000
4 (1) (a)	Failure to ensure that required areas are seeded within one year of the conclusion of construction.	1 000
4 (1) (b)	Failure to ensure that required areas are revegetated within 2 years of the conclusion of construction.	1 000
5 (1)	Failure to maintain a range development in an effective operating condition.	1 000
6 (3)	Fueling or servicing equipment without authorization, within a riparian area.	1 000
7 (1)	Allowing livestock to enter a community watershed when prohibited.	10 000
7 (3)	Permitting concentrated use by livestock of a riparian area within a community watershed.	2 000
7 (4)	Failure to remove dead livestock as required.	1 000
8 (2)	Failure to attach a tag to an animal before the start of the grazing season.	1 000
8 (3)	Failure to report any loss of tags.	500
8 (4)	Failure to transfer tags as required.	1 000

SCHEDULE - Security for Forest Practice Liabilities Regulation

Column 1	Column 2	Column 3
----------	----------	----------

	Security for Forest Practice Liabilities Regulation	
--	---	--

1 (4)	Failure to provide security for silviculture obligations.	5 000
2 (4)	Failure to provide security for performance of range development duties.	

SCHEDULE - Silviculture Practices Regulation

Column 1	Column 2	Column 3
	Silviculture Practices Regulation	
3	Disturbing or causing damage to a resource feature while carrying out a silviculture treatment.	50 000
4 (1)	Felling or modifying trees in a riparian reserve zone while carrying out a silviculture treatment.	50 000
5	Depositing slash or debris in prohibited areas.	50 000
6 (1)	Permitting, while carrying out a silviculture treatment, the wheels or tracks of ground-based machinery within 5 m of a stream bank.	10 000
6 (3)	Fueling or servicing machinery within a riparian management area or within 30 m of a lakeshore.	10 000
7	Failure to carry out a silviculture treatment in accordance with general wildlife measures within a wildlife habitat area.	50 000
8 (2) (a)	Failure to use only seedlots or vegetative lots that are collected and registered as required.	5 000
8 (2) (b)	Failure to use the best genetic quality source.	5 000
8 (2) (c)	Failure to store seeds required by a silviculture prescription with the ministry.	5 000
8 (2) (d)	Failure to keep a record of the registration numbers of the seed lots or vegetative lots used and the locations where they are planted.	5 000
8 (3)	Failure to use only naturally or genetically improved resistant seed sources, seedlings or vegetative propagules if available.	5 000
8 (4)	Transferring seed or vegetative material in excess of the limits specified.	10 000
10 (a)	Failure to take that all reasonable measures to meet the requirements, when using livestock for site preparation or brush control.	2 000
10 (b)	Failure to establish a buffer zone on the area and prevent livestock from entering it if required.	2 000
10 (c)	Constructing a livestock corral within a riparian management area or on a prohibited site.	2 000
10 (d)	Failure to notify designated forest official and designated environment official before the arrival of the livestock for the purpose of site preparation or brush control.	2 000
10 (e)	Using livestock that fail to meet required health certifications and inspections.	2 000
10 (f)	Using livestock within a community watershed to carry out a site preparation or brush control within a riparian management area.	5 000
11 (1) (a)	Failure to retain a professional forester to specify a regime of silviculture treatments as required.	5 000
11 (1) (b)	Failure to implement the regime of treatments specified.	5 000
11 (1) (c)	Failure to keep a written record of the treatments.	5 000
11 (1) (d)	Failure to provide written record on request.	5 000
13 (1)	Failure to ensure that density of trees is within the density range specified in the prescription by the free-growing assessment period.	10 000
13 (3)	Failure to reduce the number of trees as required by the free growing assessment period.	10 000
14	Failure to notify a holder of a water licence within the community watershed before applying a forest pesticide.	2 000

15	Applying a forest pesticide within 100 m of the water intakes within a community watershed.	5 000
16	Storing pesticides in a community watershed outside of a permanent structure for a period exceeding that specified.	5 000
19	Damaging crop trees while carrying out a silviculture treatment.	250 per tree or 5 000 per ha
20 (1)	Failure to prune western white pine before the end of the free growing assessment period if western white pine are the crop trees.	10 000
20 (2)	Failure to prune all crop trees as required before the end of the free growing assessment period.	10 000
21 (1)	Failure to store, handle and apply fertilizer in a manner that protects forest resources.	5 000
21 (2) (a)	Applying fertilizer closer than 100 m upslope of a water intake or within 10 m of a perennial stream.	20 000
21 (2) (b) (iii)	Causing water quality to fall below known water quality objectives.	50 000
22 (1)	Failure to destroy insect brood before the insects emerge when using trap trees or pheromones to concentrate insect populations if required.	5 000
22 (3)	Failure to comply with condition.	5 000
23 (1) (a) (i)	Failure to carry out a survey, requested by the district manager, of the nature and extent of permanent access structures.	2 000
23 (1) (a) (ii)	Failure to carry out a survey, requested by the district manager, of the nature and extent of soil disturbance and temporary access structures.	2 000
23 (1) (b)	Failure to carry out a survey, on or before the regeneration date specified in the prescription, of the number of healthy well spaced trees per hectare.	2 000
23 (1) (c)	Failure to carry out a survey, within the free growing assessment period, containing the required information.	2 000
23 (3)	Failure to carry out a survey that meets the requirements of section 26, if exempted from the requirements of 23 (1) (b) and (c).	2 000
24 (a)	Failure to carry out a survey to the satisfaction of the district manager.	2 000
24 (b)	Failure to keep a written record as required.	5 000
24 (c)	Failure to provide promptly a copy of the survey and written record to the district manager, when required.	2 000
25	Failure to ensure that a free growing survey report contains the required information.	2 000
27 (2)	Failure to comply promptly with the requirements of a notice received under section 27 (1).	2 000
28 (1)	Failure to submit each year to the district manager, the required reports at the required times and in the required form.	2 000
28 (2)	Failure to submit each year to the district manager the required reports at the required times and in the required form.	2 000
31 (1)	Failure to obtain an approved soil rehabilitation plan or carry out soil rehabilitation in accordance with an approved soil rehabilitation plan.	

SCHEDULE - Timber Harvesting Practices Regulation

Column 1	Column 2	Column 3
	Timber Harvesting Practices Regulation	
3 (1)	Failure to mark in the field the location of wildlife trees or wildlife tree patches, before commencement of harvesting operations.	5 000
3 (2)	Failure to ensure that marking under section 3 (1) is clearly visible.	5 000
4	Disturbing or causing damage to a resource feature while carrying out harvesting.	50 000
5	Failure to carry out harvesting in accordance with any authorizations or conditions specified by a district manager or designated environment official.	50 000
6 (1)	Harvesting in a riparian reserve zone of a stream wetland or lake if the stream, wetland or lake has not been identified or has been incorrectly classified on an operational plan.	50 000
6 (3)	Failure to harvest in a manner that is consistent with the general objectives for riparian management zones.	50 000
7 (2)	Harvesting within a community watershed if a terrain stability field assessment indicates the area is subject to a high likelihood of landslides.	50 000
7 (3)	Clearcutting within a community watershed if a terrain stability field assessment indicates the area is subject to a moderate likelihood of landslides.	50 000
7 (4)	Constructing an excavated or bladed trail within a community watershed.	50 000
7 (6)	Cutting or damaging a tree within 100 m upslope of a known community water supply intake in a community watershed.	10 000
7 (7)	Failure to protect known community water supply intakes and infrastructures.	10 000
7 (8)	Causing water quality to fail to meet known water quality objectives.	5 000
8 (2)	Clearcutting an area outside a community watershed if a terrain stability field assessment indicates the area is subject to a high likelihood of landslides.	50 000
8 (3)	Constructing an excavated or bladed trail outside a community watershed if a terrain stability field assessment indicates that the area is subject to a high likelihood of landslides.	50 000
8 (4)	Constructing an excavated or bladed trail within a community watershed if a terrain stability field assessment indicates that the area is subject to a moderate likelihood of landslides.	50 000
8 (5)	Sidecasting material onto slopes that have a high likelihood of landslides.	10 000
9 (1)	Harvesting adjacent to a previously harvested area that is not greened-up.	20 000
10 (1)	Felling trees onto streams, lakes, wetlands, marine-sensitive zones or fisheries-sensitive zones.	10 000
10 (3)	Harvesting or modifying trees within a riparian reserve zone where no approval has been provided.	50 000
11 (1)	Yarding or skidding trees through or over a stream when prohibited.	5 000
11 (2)	Yarding or skidding trees through or over any	

	fisheries-sensitive zones when prohibited.	50 000
11 (3)	Using as a log drop area, the littoral zone of a marine or fresh water system, water that is less than 10 m deep or a marine sensitive zone.	50 000
12 (a)	Depositing soil material in a stream, wetland, lake or fisheries-sensitive zone, or in a position where the material can be transported into any of these watercourses.	50 000
12 (b), (c), (d), (e) and (f)	Failure to meet requirements when constructing excavated or bladed trails.	20 000
13 (1)	Before December 15, 1999, failure to rehabilitate the area occupied by an excavated or bladed trail in the required areas in accordance with section 14.	50 000
13 (2)	Where harvesting commences on or after December 15, 1999, failure to rehabilitate the area occupied by an excavated or bladed trail in accordance with section 14.	50 000
15 (a)	Constructing a landing within 30 m of a fish stream or a stream in a community watershed.	20 000
15 (b)	Failure to incorporate drainage systems into landing construction as required.	10 000
16 (1)	Failure to deactivate a landing that is a permanent access structure.	20 000
16 (2)	Failure to incorporate drainage systems or ensure the landing is stable when deactivating a landing.	20 000
17 (1)	Failure to rehabilitate a landing that is a temporary access structure in accordance with the requirements in section 17 (2).	20 000
18	Causing soil disturbance greater than 25% of the area used to carry out roadside harvesting operations.	20 000
19 (1) (a)	Failure to deposit debris from landing operations within approved areas.	10 000
19 (1) (b)	Failure to dispose of all combustible landing and roadside debris accumulations as required.	10 000
19 (2)	If burning of landing and roadside accumulations is specified, failure to complete the burning in the first burning season after use or before the insects emerge, if it is insect infested.	1 000
19 (4)	Operating ground-based equipment on the area adjacent to the road when the soil strength is not sufficient to prevent the wheels or tracks of the equipment from creating concentrated soil disturbance.	5 000
20	Unauthorized removal of stable natural material or a root system.	20 000
21 (1)	Construction of a temporary stream crossing without authorization.	10 000
21 (2) (a)	Failure to protect a stream channel and stream bank when constructing and using a temporary stream crossing.	20 000
21 (2) (b)	Failure to mitigate disturbance to stream channel or stream bank when constructing and using a temporary stream crossing.	20 000
21 (3)	Failure to construct, repair or remove a temporary stream crossing in accordance with timing windows or measures if required.	20 000
21 (4)	Failure to remove a temporary stream crossing.	20 000
22 (1)	Failure to retain a sufficient number of trees whose crown provides shade to the stream.	5 000
22 (2)	Felling or removing streamside trees.	5 000

23	Depositing slash or debris in prohibited areas.	20 000
24 (1)	Permitting, the wheels or tracks of ground-based machinery within 5 m of a stream bank.	10 000
24 (3)	Fueling or servicing machinery within a riparian management area or within 30 m of a lakeshore.	10 000
27	Failure to carry out harvesting in accordance with general wildlife measures within a wildlife habitat area.	50 000
28	Carrying out minor salvage operations in restricted areas without approval.	50 000
29	Clearcutting in known old growth management areas without approval.	50 000
30	Clearcutting in known ungulate winter range without approval.	50 000

SCHEDULE - Woodlot Licence Forest Management Regulation

Column 1	Column 2	Column 3
Woodlot Licence Forest Management Regulation		
30	Failure to carry out forest practices in a manner consistent with paragraphs (a), (b), (c) or (d).	50 000
32	Failure to carry out harvesting, road construction or modification or silviculture treatments in accordance with general wildlife measures within a wildlife habitat area.	50 000
33	Depositing slash or debris in prohibited areas.	20 000
34 (1)	Permitting the wheels or tracks of ground-based machinery within 5 m of a stream bank.	10 000
34 (2)	Fueling or servicing machinery within a riparian reserve zone or riparian management zone or within 30 m of a lakeshore	10 000
35	Harvesting, felling or modifying trees within a riparian reserve zone where no approval has been provided.	50 000
36 (a)	Failure to protect community water supply intakes or infrastructure identified in a forest development plan during harvesting, road construction or modification or silviculture treatments.	10 000
36 (b)	Cutting or damaging a tree within 100 m upslope of a community water supply intake identified on a forest development plan in a community watershed	10 000
36 (c)	Causing water quality to fail to meet water quality objectives specified in a forest development plan or established by a designated environment official.	5 000
37 (2)	Exceeding the permanent access structure limit in section 37 (1).	50 000
37 (3) (b)	Failure to carry out required site rehabilitation measures.	50 000
38 (3)	Exceeding the limit for soil disturbance specified in 38 (1) or 38 (2)	100 000
38 (4) (b)	Failure to carry out required site rehabilitation measures.	50 000
42 (1) (a)	Failure to provide for user safety when constructing or modifying, maintaining or deactivating a road.	20 000
42 (1) (b)	Failure to protect forest resources when constructing or modifying, maintaining or deactivating a road.	50 000
42 (1) (c)	Failure to maintain surface drainage structures when constructing or modifying, maintaining or deactivating a road.	10 000
42 (1) (d)	Failure to protect water quality when constructing or modifying, maintaining or deactivating a road.	5 000
42 (1) (e)	Failure to protect stream bank stability when constructing or modifying, maintaining or deactivating a road.	10 000
42 (1) (f)	Failure to ensure the safe passage of fish when constructing or modifying, maintaining or deactivating a road.	5 000
42 (1) (g)	Failure to protect fish habitat when constructing or modifying, maintaining or deactivating a road.	5 000
42 (1) (h)	Failure to protect structural integrity of the road and drainage systems when constructing or modifying, maintaining or deactivating a road.	10 000
42 (1) (i)	Failure to maintain slope stability when constructing or modifying, maintaining or deactivating a road.	10 000
42 (1) (j)	Failure to minimize surface soil erosion when constructing or modifying, maintaining or deactivating a road.	10 000

42 (1) (k)	Failure to minimize sediment entering into streams when constructing or modifying, maintaining or deactivating a road.	10 000
42 (2) (a)	Failure to ensure that the road surface has surface materials of a type necessary to allow the road to carry the design wheel loads during the periods of use.	10 000
42 (2) (b)	Failure to ensure the road surface has surface materials that will minimize surface erosion of the road.	50 000
42 (3)	Failure to revegetate the required areas.	5 000
42 (4) (a)	Depositing slash, debris or erodible soil in prohibited areas.	20 000
42 (4) (b)	Causing the water in a community watershed to fail to meet its water quality objectives.	5 000
46 (3)	Failure to ensure that a professional engineer or professional forester has taken design responsibility as required.	5 000
47 (a)	Failure to minimize ground disturbance when constructing or modifying a snow road.	10 000
47 (b)	Removing gravel or fill from riparian management or reserve zones without the prior approval of the district manager.	10 000
47.1 (1)	Failure to remove from within the road prism width, if required, stumps, roots, embedded logs, topsoil and soils that are not capable of supporting the road and applied vehicle loads.	2 000
48 (2) (a)	Failure to carry out a construction survey, if required for a road on an area with a moderate or high likelihood of landslides.	2 000
48 (2) (b)	Failure to ensure that a qualified registered professional signs and seals a statement as required.	5 000
49 (a)	Failure to notify water licensees or their representatives and designated environment officials of the start date of road construction or modification.	5 000
49 (b)	Failure to ensure that rock from known acid generating rock formations is not used for road construction or modification.	20 000
49 (c)	Failure to ensure that a qualified registered professional signs and seals a statement as required.	5 000
50 (1)	Failure to modify or stop road construction or modification in vicinity of fisheries-sensitive zone.	10 000
50 (2)	Failure to construct crossings in fish streams in accordance with timing windows and measures provided by the designated environment official.	50 000
51 (a)	Failure to obtain and retain records, certificates, drawings, results and other data as required.	5 000
51 (b)	Failure to prepare and retain as-built drawings.	5 000
51 (c)	Failure to ensure that a professional engineer signs and seals a statement as required.	5 000
51 (d)	Failure to ensure that a professional engineer or professional forester signs and seals a statement as required.	5 000
51 (e)	Failure to ensure that the person responsible for preparing the design signs a statement as required.	5 000
51 (f)	Failure to ensure that a professional engineer signs and seals a statement as required.	5 000
52 (1)	Failure to ensure that a qualified inspector carried out an inspection of bridges and major culverts within the required time.	2 000
52 (2) (a)	Failure to ensure that a qualified inspector inspects specified structures after events that may cause damage to the structure.	2 000
52 (2) (b)	Failure to ensure that a qualified inspector inspects specified structures at a frequency specified by a professional engineer.	2 000
52 (3)	Failure to prepare an inspection record with the necessary	

	contents.	2 000
52 (4)	Failure to retain a copy of an inspection record for the required time.	1 000
53 (1)	Failure to take appropriate action if structural deficiencies to a bridge have been detected.	50 000
53 (2) (a)	Failure to ensure that a professional engineer evaluates a bridge to determine that the bridge meets peak flow criteria.	10 000
53 (2) (b)	Failure to modify, remove or replace the bridge if required.	50 000
53 (3)	Failure to place a sign on each bridge approach as required, for down-rated bridges.	5 000
54 (2) (b)	Failure to obtain authorization from the district manager prior to modifying a deactivation prescription if required	50 000
54 (3) (a)	Failure to post information respecting deactivation of roads as required.	20 000
54 (3) (b)	Failure to notify proper parties of upcoming deactivation work in a community watershed.	5 000
55 (2) (a)	Failure to ensure that a qualified registered professional prepares a prescription as required.	5 000
55 (2) (b)	Modifying a deactivation prescription without consent.	50 000
55 (2) (c)	Failure to ensure that a qualified registered professional signs and seals a statement as required.	2 000
56	Failure to deactivate a road in accordance with timing windows and measures for works in and around streams.	50 000
57 (2)	Failure to remove bridge or log culvert superstructures or substructures during permanent deactivation.	10 000
58 (1)	Failure to mark in the field the location of wildlife trees or wildlife tree patches, before commencement of harvesting operations.	5 000
58 (2)	Failure to ensure that marking under section 58 (1) is clearly visible for the time required.	5 000
60 (2)	Harvesting an area within a community watershed that is subject to a high likelihood of landslides.	50 000
60 (3)	Sidecasting material onto slopes within a community watershed that have a high likelihood of landslides.	10 000
60 (4)	Clearcutting within a community watershed that is subject to a moderate likelihood of landslides and a high risk of landslide debris entering into streams.	50 000
60 (5)	Constructing an excavated or bladed trail within a community watershed where there is a moderate likelihood of landslides.	50 000
60 (6)	Improperly constructing an excavated or bladed trail within a community watershed.	50 000
61 (2)	Clearcutting an area outside a community watershed if that area is subject to a high likelihood of landslides.	50 000
61 (3)	Constructing an excavated or bladed trail outside a community watershed if the area is subject to a high likelihood of landslides.	50 000
61 (4)	Constructing an excavated or bladed trail outside a community watershed where there is a moderate likelihood of landslides.	50 000
61 (5)	Sidecasting material onto slopes that have a high likelihood of landslides.	10 000
62 (1)	Constructing an excavated or bladed trail that is not provided for in an operational plan or authorized by the district manager.	10 000
62 (2)	Failure to meet requirements when constructing excavated or bladed trails.	20 000
62 (3)	Before December 15, 1999, failure to rehabilitate the area occupied by an excavated or bladed trail in the required areas in accordance with section 62 (6).	50 000

62 (5)	If harvesting commences on or after December 15, 1999, failure to rehabilitate the area occupied by an excavated or bladed trail in accordance with section 62 (6).	50 000
63 (1)	Constructing a landing within 30 m of a fish stream or a stream in a community watershed.	20 000
63 (2)	Failure to rehabilitate a landing in accordance with the requirements.	20 000
65	Carrying out minor salvage operations in restricted areas without approval.	50 000
66 (b)	Harvesting in a riparian reserve zone of a stream wetland or lake without approval under section 35.	50 000
67	Clearcutting in an old growth management area or an ungulate winter range without authorization.	50 000
68 (a)	Constructing a temporary stream crossing without authorization	10 000
68 (b) (i)	Failure to protect a stream channel and stream bank when constructing and using a temporary stream crossing.	20 000
68 (b) (ii)	Failure to mitigate disturbance to stream channel or stream bank when constructing and using a temporary stream crossing.	20 000
68 (c)	Failure to construct, repair or remove a temporary stream crossing in accordance with timing windows or measures.	20 000
68 (d)	Failure to remove a temporary stream crossing.	20 000
69	Unauthorized removal of stable natural material or a root system.	20 000
70	Using as a log drop area, the littoral zone of a marine or fresh water system, water that is less than 10 m deep or a marine-sensitive zone.	50 000
71 (a)	Felling trees onto streams, lakes, wetlands, marine-sensitive zones or fisheries-sensitive zones.	10 000
71 (b)	Yarding or skidding trees through or over a stream or fisheries-sensitive zone unless authorized.	5 000
72	If burning of landing and roadside accumulations is required, failure to complete the burning in the first burning season after use or before the insects emerge, if it is insect infested.	1 000
73	Failure to rehabilitate compacted areas and areas occupied by corduroyed trails.	20 000
77	Failure to meet stocking requirements by the end of the regeneration date or to maintain the stocking requirements from the regeneration date to the free growing date.	10 000
78	Failure to establish a free growing stand by the free growing date.	100 000
79 (1)	Failure to carry out a spacing treatment to reduce the number of trees per hectare to the required number.	10 000
80 (1)	Failure to carry out regime of silviculture treatments designed to achieve the target stocking standard.	5 000
80 (2)	Failure to prepare a site plan or amendment that outlines a regime of treatments designed to achieve a target stocking standard.	2 000
81 (3)	Failure to carry out a spacing treatment to reduce the number of trees per hectare to the range specified in a silviculture prescription.	10 000
81 (4)	Failure to carry out a spacing treatment if required on an area under a silviculture prescription approved before April 1, 1994.	10 000
83	Failure to prune western white pine before the end of the free growing assessment period if required.	10 000

84 (1) (a)	Failure to take that all necessary measures to meet the requirements, when using livestock for site preparation or brush control.	2 000
84 (1) (b)	Constructing a livestock corral within a riparian reserve zone, riparian management zone or on a site that drains directly into a stream, lake or other prohibited watercourse.	2 000
84 (1) (c)	Failure to notify district manager before the arrival of the livestock.	2 000
84 (1) (d)	Using livestock that fail to meet the health certifications and health inspections.	2 000
84 (2)	Using livestock for site preparation or brush control within a riparian reserve zone or riparian management zone within a community watershed.	5 000
85 (1) (a)	Failure to notify appropriate persons regarding the application of a pesticide.	2 000
85 (1) (b)	Applying a pesticide closer than 100 m upslope of a community water intake.	5 000
85 (1) (c)	Storing pesticides in a community watershed outside a permanent structure for a period exceeding that specified.	5 000
86 (1)	Failure to store, handle and apply fertilizer in a manner that protects forest resources.	5 000
86 (2) (a)	Applying fertilizer closer than 100 m upslope of a water intake or within 10 m of a perennial stream.	20 000
86 (2) (b)(iii)	Causing water quality to fall below any water quality objectives for the community watershed.	5 000
87	Failure to destroy insect brood before the insects emerge when using trap trees or pheromones to concentrate insect populations.	5 000
88 (1) (a)	Failure to carry out a survey, requested by the district manager, of the nature and extent of permanent access structures.	2 000
88 (1) (b)	Failure to carry out a survey, requested by the district manager, of the nature and extent of soil disturbance within the net area to be reforested.	2 000
88 (2)	Failure to carry out an assessment for the net area to be reforested showing whether or not the stocking requirements for the regeneration date have been met.	2 000
88 (3)	Failure to carry out survey.	2 000
88 (4)	Failure to carry out required survey between 1 and 3 years after completion of intermediate cuttings.	2 000
88 (5) (c)	Failure to keep required written record.	5 000
89	Failure to prepare and submit an annual report.	2 000
