ANNEX 3

CONCESSIONS REGARDING CHEESES

1. The Community and Switzerland hereby undertake gradually to liberalise trade with each other in cheeses falling under heading 0406 of the Harmonised System over the five years following the entry into force of the Agreement.

2. The liberalisation process shall take place as follows:

- (a) **Imports into the Community**

In the first year following the entry into force of the Agreement, the Community shall gradually abolish or eliminate customs duties on imports of cheese originating in Switzerland, subject, where applicable, to an annual quantity. The basic customs duties and basic annual quantities for the various types of cheese shall be as set out in Appendix 1 hereto.

- (i) The Community shall reduce the basic customs duties listed in the table in Appendix 1 by 20 % per year. The first reduction shall take place one year after the entry into force of the Agreement.
 - (ii) The Community shall increase the tariff quota in the table in Appendix 1 by 1 250 tonnes per year; the first increase shall take place one year after the entry into force of the Agreement. Trade shall be fully liberalised by the beginning of the sixth year.
 - (iii) Switzerland shall be exempt from the requirement to comply with the free-at-frontier prices set out in the description of foods covered by CN code 0406 of the Common Customs Tariff.

- (b) **Exports from the Community**

The Community shall not apply export refunds for exports to Switzerland of cheeses falling under heading 0406 of the Harmonised System.

- (c) **Imports into Switzerland**

In the first year following the entry into force of the Agreement, Switzerland shall gradually abolish or eliminate customs duties on imports of cheese originating in the Community, subject, where applicable, to an annual quantity. The basic customs duties and basic annual quantities for the various types of cheese shall be as set out in point (a) of Appendix 2 hereto.

- (i) Switzerland shall reduce the basic customs duties listed in the table in Appendix 2(a) by 20 % per year. The first reduction shall take place one year after the entry into force of the Agreement.
 - (ii) Switzerland shall increase all the tariff quotas listed in the table in Appendix 2(a) by 2 500 tonnes per year. The first increase shall take place one year after the entry into force of the Agreement. At least four months before the beginning of each year, the Community shall determine the category or categories of cheeses to which that increase is to apply. Trade shall be fully liberalised by the beginning of the sixth year.

- (d) **Exports from Switzerland**

In the first year following the entry into force of the Agreement, Switzerland shall gradually eliminate export subsidies on consignments of cheese to the Community as follows.

- (i) The amounts on which the elimination process is to be based ⁽¹⁾ shall be as set out in Appendix 2(b) hereto.
 - (ii) Those basic amounts shall be reduced as follows:
 - one year after entry into force of the Agreement, by 30 %,
 - two years after entry into force of the Agreement, by 55 %,

⁽¹⁾ The basic amounts are to be calculated by common agreement by the Parties on the basis of the difference in the institutional prices for milk likely to be in force when the Agreement enters into force, plus an additional amount for milk processed into cheese, obtained on the basis of the quantity of milk needed to manufacture the cheeses concerned, minus (except in the case of cheeses subject to quotas) the reduction of customs duty applied by the Community. Subsidies may be granted solely on cheeses manufactured from milk produced entirely in Swiss territory.

- three years after entry into force of the Agreement, by 80 %,
 - four years after entry into force of the Agreement, by 90 %,
 - five years after entry into force of the Agreement, by 100 %.
3. The Community and Switzerland shall take the necessary steps to ensure that import licences are distributed in a way that ensures regular imports, taking account of market requirements.
 4. The Community and Switzerland shall ensure that the benefits they grant each other are not undermined by other measures affecting imports and exports.
 5. Should the development of prices and/or imports give rise to disturbance on the market of either Party, consultations shall be held as soon as possible within the Committee set up under Article 6 of the Agreement at the request of either Party with a view to finding appropriate solutions. In this connection, the Parties hereby agree periodically to exchange information on prices and any other relevant information on the market in locally produced and imported cheeses.

ANNEX 4

ON PLANT HEALTH

*Article 1***Objective**

The objective of this Annex shall be to facilitate trade between the Parties in plants, plant products and other objects subject to plant-health measures, originating in their respective territories or imported from third countries and listed in Appendix I to be drawn up by the Committee in accordance with Article 11 of the Agreement.

*Article 2***Principles**

1. The Parties note that they have similar legislation concerning protective measures against the introduction and propagation of harmful organisms by plants, plant products or other objects having equivalent results in terms of protection against the introduction and propagation of organisms harmful to plants or plant products listed in Appendix 1 as provided for in Article 1. The same is also true of plant-health measures taken in respect of plants, plant products and other objects introduced from third countries.

2. The legislation referred to in paragraph 1 shall be listed in Appendix 2 to be drawn up by the Committee in accordance with Article 11 of the Agreement.

3. The Parties mutually recognise the plant passports issued by the organisations listed in Appendix 3 to be drawn up by the Committee in accordance with Article 11 of the Agreement. Such passports shall attest conformity with their legislation as listed in Appendix 2 as provided for in paragraph 2 and shall be deemed to meet the documentary requirements laid down therein for the movement on the respective Parties' territories of plants, plant products and other objects listed in Appendix 1 as provided for in Article 1.

4. Plants, plant products and other objects as listed in Appendix 1 as provided for in Article 1 which are not subject to the plant passport arrangements applying to trade within the two Parties' territories may be traded between the two Parties without any plant passport, without prejudice, however, to other documents required under the Parties' respective laws, and in particular documents forming part of a system for tracing the origins of such plants, plant products and other objects to origin.

Article 3

1. Plants, plant products and other objects not explicitly listed in Appendix 1 as provided for in Article 1 and not subject to plant-health measures in either Party may be traded between them without documentary, identity, or plant-health checks in connection with plant-health measures.

2. Where either Party intends to adopt a plant-health measure in respect of plants, plant products and other objects referred to in paragraph 1, it shall inform the other Party.

3. Pursuant to Article 10(2), the Working Group on Plant Health shall assess the consequences for this Annex of changes in accordance with paragraph 2 with a view to proposing any amendments to the relevant appendices.

*Article 4***Regional requirements**

1. Each Party may lay down, by reference to similar criteria, specific requirements concerning movements of plants, plant products and other objects, regardless of their origin, within and to zones in its territory, where warranted by the plant-health situation in those zones.

2. Appendix 4, to be drawn up by the Committee in accordance with Article 11 of the Agreement, shall define the zones as referred to in paragraph 1 and the specific requirements relating thereto.

*Article 5***Checks on imports**

1. Each Party shall carry out plant-health sampling checks at a rate not exceeding a certain percentage of consignments of plants, plant products and other objects listed in Appendix 1 as provided for in Article 1. That percentage, to be proposed by the Working Group on Plant Health and set by the Committee, shall be determined by plant, plant product or other object in accordance with the plant-health risk. On the date of entry into force of this Annex, that percentage shall be 10 %.

2. Pursuant to Article 10(2) of this Annex, the Committee, acting on a proposal by the Working Group on Plant Health, may decide to reduce the rate of checks provided for in paragraph 1.

3. Paragraphs 1 and 2 shall apply only to plant-health checks of trade in plants, plant products and other objects between the two Parties.

4. Paragraphs 1 and 2 shall apply subject to Article 11 of the Agreement and Articles 6 and 7 of this Annex.

Article 6

Safeguard measures

Safeguard measures shall be taken in accordance with the procedures provided for in Article 10(2) of the Agreement.

Article 7

Derogations

1. If either Party intends to apply derogations with respect to part or all of the territory of the other Party, it shall inform the latter in advance, indicating its reasons. Without prejudice to the possibility of bringing the planned derogations into force immediately, consultations shall be held as soon as possible between the two Parties with a view to finding appropriate solutions.

2. If either Party applies derogations with respect to part of its territory or a third country, it shall inform the other Party in advance, indicating its reasons. Without prejudice to the possibility of bringing the planned derogations into force immediately, consultations shall be held as soon as possible between the two Parties with a view to finding appropriate solutions.

Article 8

Joint checks

1. Each Party shall agree to joint checks being carried out at the request of the other Party to assess the plant-health situation and measures having equivalent results as provided for in Article 2.

⁽²⁾ OJ L 210, 28.7.1998, p. 8.

TITLE II

MUTUAL PROTECTION OF NAMES OF WINE-SECTOR PRODUCTS WITHIN THE MEANING OF ARTICLE 2*Article 5*

1. The Parties shall take all necessary steps in accordance with this Annex to ensure mutual protection of the names referred to in Article 6 and used for the description and presentation of wine-sector products within the meaning of Article 2 originating in the territory of the Parties. To that end, each Party shall introduce the appropriate legal means to ensure effective protection and prevent geographical indications and traditional expressions from being used to describe wine-sector products not covered by the indications or descriptions concerned.

2. The protected names of the Parties shall be reserved exclusively for the products originating in the Party to which they apply and may be used only under the conditions laid down in the laws and regulations of that Party.

3. Protection as referred to in paragraphs 1 and 2 shall exclude in particular any use of protected names for wine-sector products within the meaning of Article 2 which do not originate in the geographical area in question, even if:

- the actual origin of the product is shown,
- the geographical indication in question is used in translation,
- the name is accompanied by terms such as 'kind', 'type', 'style', 'imitation', 'method' or other expressions of the sort.

4. In the case of homonymous geographical indications:

- (a) where two indications protected under this Annex are homonymous, protection shall be granted to both of them, provided the consumer is not misled as to the actual origin of the wine-sector products;
- (b) where an indication protected under this Annex is homonymous with the name of a geographical area outside the territory of the Parties, the latter name may be used to describe and present a wine-sector product in the geographical area to which the name refers, provided it is traditionally and consistently used, its use for that purpose is regulated by the country of origin and consumers are not misled into believing that the wine originates in the territory of the Party concerned.

5. In the case of homonymous traditional expressions:

- (a) where two expressions protected under this Annex are homonymous, protection shall be granted to both of them, provided the consumer is not misled as to the actual origin of the wine-sector products;

- (b) where an expression protected under this Annex is homonymous with the name used for a wine-sector product not originating in the territory of the Parties, the latter name may be used to describe and present a wine-sector product, provided it is traditionally and consistently used, its use for that purpose is regulated by the country of origin and consumers are not misled into believing that the wine originates in the territory of the Party concerned.

6. The Committee may, where necessary, lay down practical conditions for use to enable a distinction to be drawn between the homonymous indications or expressions referred to in paragraphs 4 and 5, bearing in mind the need to treat the producers concerned fairly and to ensure that consumers are not misled.

7. The Parties hereby waive their right to invoke Article 24(4) to (7) of the TRIPs Agreement in order to refuse to grant protection to a name from the other Party.

8. The exclusive protection provided for in paragraphs 1, 2 and 3 shall apply to the name 'Champagne' on the Community list in Appendix 2 hereto. However, for a transitional period of two years from the entry into force of this Annex, such exclusive protection shall not prevent the word 'Champagne' from being used to describe and present certain wines originating in the Swiss canton of Vaud, provided that such wines are not marketed in Community territory and that the consumer is not misled as to the real origin of the wine.

Article 6

The following names shall be protected:

- (a) as regards wine-sector products originating in the Community:
 - terms referring to the Member State in which the product originates,
 - the specific Community terms appearing in Appendix 2,
 - the geographical indications and traditional expressions appearing in Appendix 2;
- (b) as regards wine-sector products originating in Switzerland:
 - the terms 'Suisse', 'Schweiz', 'Svizzera', 'Svizra' and any other name designating that country,

- the specific Swiss terms appearing in Appendix 2,
- the geographical indications and traditional expressions appearing in Appendix 2.

Article 7

1. Registration of a brand name for a wine-sector product within the meaning of Article 2 which contains or consists of a geographical indication or a traditional expression protected under this Annex shall be refused or, at the request of the party concerned, invalidated if the product in question does not originate in:

- the place to which the geographical indication refers, or
- the place where the traditional expression is used.

2. However, a trademark registered no later than 15 April 1995 may be used until 15 April 2005, provided it has actually been in continuous use since being registered.

Article 8

The Parties shall take all steps necessary to ensure that, where wine-sector products within the meaning of Article 2 originating in the Parties are exported and marketed outside their territory, the names of one Party protected under this Annex are not used to describe and present such products originating in the other Party.

Article 9

In so far as the relevant legislation of the Parties permits, the protection afforded by this Annex shall extend to natural and legal persons, federations, associations and organisations of producers, traders and consumers whose head offices are located in the territory of the other Party.

Article 10

1. If the description or presentation of a wine-sector product, in particular on the labelling, in official or commercial documents or in advertising, affects the rights arising from this Annex, the Parties shall apply the necessary administrative measures or shall initiate legal proceedings with a view to combating unfair competition or preventing the wrongful use of the protected name by any other means.

2. The measures and proceedings referred to in paragraph 1 shall be taken in particular in the following cases:

- (a) where the translation of descriptions sanctioned under Community or Swiss legislation into one of the languages of the other Party gives rise to a word which is liable to be misleading as to the origin of the wine-sector product thus described or presented;

- (b) where indications, trademarks, names, references or illustrations which directly or indirectly give false or misleading information as to the provenance, origin, type or material characteristics of the product appear on containers or packaging, in advertising or in official or commercial documents relating to a product whose name is protected under this Annex;

- (c) where the containers or packaging used are misleading as to the origin of the product.

Article 11

This Annex shall not preclude any more extensive protection afforded now or in the future to descriptions protected under this Annex by the Parties in accordance with their internal legislation or other international agreements.

1. In Switzerland, the protected Community names:
 - may not be used otherwise than under the conditions laid down in the laws and regulations of the Community, and
 - shall be reserved exclusively for the spirit drinks and aromatised drinks originating in the Community to which they apply.

2. In the Community, the protected Swiss names:
 - may not be used otherwise than under the conditions laid down in the laws and regulations of Switzerland, and
 - shall be reserved exclusively for the spirit drinks and aromatised drinks originating in Switzerland to which they apply.

3. Without prejudice to Articles 22 and 23 of the Agreement on Trade-related Aspects of Intellectual Property Rights set out in Annex 1C to the Agreement establishing the World Trade Organisation (hereinafter called 'the TRIPs Agreement'), the Parties shall take all the necessary measures, in accordance with this Annex, to ensure reciprocal protection of the names referred to in Article 4 and used to describe spirit drinks and aromatised drinks originating in the territory of the Parties. Each Party shall provide the interested parties with the legal means of preventing the uses of a designation to designate spirit drinks or aromatised drinks not originating in the place indicated by the designation in question or in the place where the designation in question is traditionally used.

4. The Parties shall not deny the protection provided for by this Article in the circumstances specified in Article 24(4), (5), (6) and (7) of the TRIPs Agreement.

Article 6

The protection afforded by Article 5 shall also apply where the actual origin of the spirit drink or aromatised drink is indicated or where the name is used in translation or is accompanied by terms such as 'kind', 'type', 'style', 'way', 'imitation', 'method' or other analogous expressions, including graphic symbols, which may lead to confusion.

Article 7

In cases of homonymy concerning names of spirit drinks and aromatised drinks, protection shall be accorded to each name. The Parties shall lay down the practical conditions under which the homonymous names in question are to be differentiated from each other, taking into account the need to treat the producers concerned fairly and to avoid misleading the consumer.

Article 8

This Annex shall in no way prejudice the right of any person to use, for trade purposes, their own name or the name of the person whose business they have taken over, provided that such names are not used in a way that misleads consumers.

Article 9

Nothing in this Annex shall oblige a Party to protect any name of the other Party which is not protected or ceases to be protected in its country of origin or which has fallen into disuse in that country.

Article 10

The Parties shall take all measures necessary to ensure that, in cases where spirit drinks or aromatised drinks originating in the territory of the Parties are exported and marketed outside their territory, the names of one Party protected under this Annex are not used to designate and present spirit drinks or aromatised drinks originating in the other Party.

Article 11

To the extent that the relevant legislation of the Parties allows, the benefit of the protection afforded by this Annex shall cover natural and legal persons and federations, associations and organisations of producers, traders and consumers whose head offices are located in the territory of the other Party.

Article 12

If the description or presentation of a spirit drink or aromatised drink, in particular on the labelling, in official or commercial documents or in advertising, is in breach of this Agreement, the Parties shall apply the necessary administrative measures or shall initiate suitable legal proceedings with a view to combating unfair competition or preventing the wrongful use of the protected name in any other way.

Article 13

This Annex shall not apply to spirit drinks and aromatised drinks which:

- (a) pass in transit through the territory of one of the Parties, or
- (b) originate in the territory of one of the Parties and are consigned from one Party to the other in small quantities in the following ways:

 - (bb) as consignments from one private individual to another for personal consumption;
 - (cc) as part of the household effects of individuals moving house or in the event of inheritance;
 - (dd) as imports of up to one hectolitre with a view to scientific and technical experiments;
 - (ee) as imports forming part of the duty-free allowances of diplomatic missions, consular posts and assimilated bodies;
 - (ff) as part of the supplies carried on board international means of transport.

Article 14

1. The Parties shall each designate the authorities responsible for the enforcement of this Annex.
2. The Parties shall inform one another of the names and addresses of the above authorities not later than two months after this Annex comes into force. Those authorities shall cooperate closely and directly with each other.

Article 15

1. If one of the authorities referred to in Article 14 has reason to suspect that:
 - (a) a spirit drink or aromatised drink as defined in Article 2, being or having been traded between Switzerland and the Community, does not comply with this Annex or Community or Swiss legislation applicable to spirit drinks and aromatised drinks; and that
 - (b) this non-compliance is of particular interest to a Party and could result in administrative measures or legal proceedings being taken;

that authority shall immediately inform the Commission and the relevant authority or authorities of the other Party.

2. The information to be provided in accordance with paragraph 1 shall be accompanied by official, commercial or other appropriate documents, with details of any administrative measures or legal proceedings that may be taken. The information shall include, in particular, the following details concerning the spirit drink or aromatised drink in question:

- (a) the producer and the person holding the spirit drink or aromatised drink;
- (b) the composition of that drink;
- (c) its description and presentation;
- (d) details of the non-compliance with the rules on production and marketing.

Article 16

1. The Parties shall enter into consultations if either considers that the other has failed to fulfil an obligation under this Annex.
2. The Party which requests the consultations shall provide the other with all information necessary for a detailed examination of the case in question.
3. In cases where any time limit or delay could endanger human health or impair the effectiveness of measures to control fraud, interim safeguard measures may be taken, without prior consultation, provided that consultations are held immediately after such measures are taken.
4. If, following the consultations provided for in paragraph 1, the Parties have not reached agreement, the Party which has requested the consultations or taken the measures referred to in paragraph 1 may take appropriate safeguard measures so as to permit the proper application of this Annex.

Article 17

1. The Working Group on Spirit Drinks, hereinafter called 'the Working Group', set up under Article 6(7) of the Agreement shall meet at the request of either Party and, in accordance with the requirements for implementing the Agreement, alternately in the Community and Switzerland.
2. The Working Group shall consider all issues which may arise in connection with the implementation of this Annex. In particular, it may make recommendations to the Committee to contribute to the attainment of the objectives of this Annex.

Article 18

Where the legislation of either Party is amended to protect names other than those listed in the Appendices hereto, those names shall be included within a reasonable length of time following conclusion of the consultations.

Article 19

1. Spirit drinks and aromatised drinks which, at the time of entry into force of this Annex, have been legally produced, described and presented but which are prohibited by this Annex may be marketed by wholesalers for a period of one year from the entry into force of the Agreement and by retailers until stocks are exhausted. From the entry into force of this Annex, spirit drinks and aromatised drinks included herein may no longer be produced outside the limits of their regions of origin.

 2. Unless the Committee decides otherwise, spirit drinks and aromatised drinks produced, described and presented in accordance with this Agreement whose description and presentation cease to comply with this Agreement following an amendment thereto may continue to be marketed until stocks are exhausted.

CHAPTER II

Sectors other than those covered by Chapter I**I. Exports from the Community to Switzerland**

Exports from the Community to Switzerland shall be subject to the same conditions as intra-Community trade. However, in all cases, a certificate attesting compliance with those conditions shall be issued by the competent authorities to accompany consignments.

If necessary, models for certificates shall be discussed in the Joint Veterinary Committee.

II. Exports from Switzerland to the Community

Exports from Switzerland to the Community shall be subject to the relevant conditions laid down in the Community rules. Models for certificates shall be discussed in the Joint Veterinary Committee.

Pending a decision on these models, the present requirements for certificates shall apply.

CHAPTER III

Transfer of a sector from Chapter II to Chapter I

As soon as Switzerland adopts any legislation it regards as equivalent to Community legislation, the matter shall be brought before the Joint Veterinary Committee. Chapter I of this Appendix shall be adjusted as soon as possible to reflect the outcome of the Committee's deliberations.

*Appendix 7***Responsible authorities**

PART A

Responsibility for animal-health and veterinary controls shall be shared between the Département Fédéral de l'Economie and the Département Fédéral de l'Intérieur. In this respect the following shall apply:

- for exports to the Community, the Département Fédéral de l'Economie shall be responsible for issuing health certificates attesting to compliance with the veterinary standards and requirements laid down,
- for imports of food products of animal origin, the Département Fédéral de l'Economie shall be responsible for veterinary standards and requirements relating to meat (including fish, crustaceans and molluscs) and meat products (including fish, crustaceans and molluscs), and the Département Fédéral de l'Intérieur shall be responsible for milk, milk products, eggs and egg products,
- for imports of other animal products, the Département Fédéral de l'Economie shall be responsible for veterinary standards and requirements.

PART B

Community

Responsibility shall be shared between the national services in the individual Member States and the European Commission. In this respect the following shall apply:

- for exports to Switzerland, the Member States shall be responsible for monitoring compliance with production conditions and requirements, and in particular statutory inspections and the issuing of health certificates attesting to compliance with the standards and requirements laid down,

*Appendix 8***Adjustments to regional conditions**

*Appendix 9***Guidelines on procedures for conducting audits**

For the purposes of this Appendix, 'audit' means assessment of performance.

1. General principles

- 1.1. Audits shall be conducted jointly by the Party responsible for conducting the audit (the 'auditor') and the audited Party (the 'auditee'), in accordance with the provisions laid down herein. Establishments and facilities may be inspected where necessary.
- 1.2. Audits shall be designed to check the effectiveness of the controlling authority rather than to reject individual consignments of food or establishments. Where an audit reveals a serious risk to animal or human health, the auditee shall take immediate corrective action. The procedure may include an examination of the relevant regulations, the implementing rules, assessment of the end result, level of compliance and subsequent corrective action.
- 1.3. The frequency of audits shall be based on performance. A low level of performance shall call for an increased frequency of audits; unsatisfactory performance must be corrected by the auditee to the auditor's satisfaction.
- 1.4. Audits and the decisions to which they give rise must be transparent and consistent.

2. Principles relating to the auditor

Those responsible for conducting the audit shall prepare a plan, preferably in accordance with recognised international standards, covering the following points:

- 2.1. the subject, depth and scope of the audit;
- 2.2. the date and place of the audit, along with a timetable up to and including the drafting of the final report;
- 2.3. the language or languages in which the audit is to be conducted and the report drafted;
- 2.4. the identity of the auditors, including, if a team approach is used, the leader. Specialised professional skills may be required to carry out audits of specialised systems and programmes;
- 2.5. a schedule of meetings with officials and of any visits to establishments and facilities. The details of establishments and facilities to be visited need not be stated in advance;
- 2.6. subject to provisions on freedom of information, respect of commercial confidentiality shall be observed by the auditor. Conflicts of interest must be avoided;
- 2.7. compliance with the rules governing occupational health and safety, and respect for the rights of the operator.

The plan shall be reviewed in advance with representatives of the auditee.

3. Principles relating to the auditee

With a view to facilitating the auditor's work, the following principles apply to action by the auditee.

- 3.1. The auditee must cooperate closely with the auditor and shall designate the persons responsible for this task. Cooperation may, for example, cover:
 - access to all applicable regulations and standards,
 - access to implementation programmes and relevant records and documents,

- access to audit and inspection reports,
- documentation concerning corrective action and penalties,
- access to establishments.

3.2. The auditee must implement a documented programme to demonstrate to third parties that standards are being met consistently and uniformly.

4. Procedures

4.1. *Opening meeting*

An opening meeting shall be held between representatives of both Parties. At that meeting, the auditor shall be entrusted with the task of reviewing the audit plan and confirming that adequate resources, documentation, and any other facilities necessary are available for conducting the audit.

4.2. *Document review*

The document review may consist of a review of the documents and records as referred to in point 3.1, the structures and powers of the auditee, and any changes in food inspection and certification systems since the adoption of this Annex or since the previous audit, with emphasis on those aspects of the inspection and certification system that relate to the animals or products concerned. This may include an examination of relevant inspection and certification records and documents.

4.3. *On-site verification*

4.3.1. The decision to include this step shall be based upon a risk assessment, taking into account factors such as the products concerned, the past history of compliance with requirements by the industry sector or exporting country, quantities produced and imported or exported, changes in infrastructure and the nature of the national inspection and certification systems.

4.3.2. On-site verification may entail visits to production and manufacturing facilities, food handling or storage areas and control laboratories to check whether the information contained in the documentary material referred to in point 4.2 tallies.

4.4. *Follow-up audit*

Where a follow-up audit is conducted to see whether shortcomings have been put right, it may be sufficient to consider only those points found wanting.

5. Working documents

Forms for reporting audit findings and conclusions shall be standardised as far as possible in order to make audits as uniform, transparent and efficient as possible. The working documents may include checklists of points for assessment. Such checklists may cover:

- legislation,
- the structure of inspection and certification services and the way they operate,
- details of establishments and the way they operate,
- health statistics, sampling plans and results,
- implementation measures and procedures,
- reporting and appeal procedures,
- training programmes.

6. **Closing meeting**

A closing meeting shall be held between representatives of both Parties, attended where appropriate by the officials responsible for implementing the national inspection and certification programmes. At that meeting the auditor shall present the findings of the audit. The information shall be presented clearly and concisely so that the conclusions of the audit are clearly understood.

An action plan to correction any shortcomings noted shall be drawn up by the auditee, preferably with target dates for completion.

7. **Report**

The draft audit report shall be forwarded to the auditee as soon as possible. The latter shall have one month in which to comment on the draft report; any remarks of the auditee shall be included in the final report.
