Amounts permitted for the marketing of seed and seed potatoes of the variety intended for the conservation of crop genetic resources by 2024¹

Adopted on 15.12.2023 No. 94

The Regulation is established on the basis of § 106^{2 (6)} of the Plant Propagation and Variety Protection Act .

§ 1. Scope of regulation

By 2024, the regulation establishes the permitted quantities for the marketing of seed and seed potatoes of the variety intended for the preservation of the genetic resources of agricultural crops.

§ 2. Amounts permitted for the marketing of seed and seed potatoes of the variety intended for the preservation of the genetic resources of agricultural crops

(1) In 2024, the permitted quantities for the marketing of seed and seed potatoes of the variety intended for the preservation of the genetic resources of agricultural crops by plant species are as follows:

- 1) common oats (*Avena sativa* L.) – 572,784 kilograms;
- 2) common wheat (*Triticum aestivum* L. subsp. *aestivum*.) – 3,886,560 kilograms;
- 3) common barley (*Hordeum vulgare* L.) – 2,246,100 kilograms;
- 4) common rye (*Secale cereale* L.) – 288,898 kilograms;
- 5) potato (*Solanum tuberosum* L.) - 843,750 kilograms - or 4,218,750 pieces of meristem plants;
- 6) rapeseed (*Brassica napus* L. (partim)) – 76,085 kilograms.

(2) In 2024, the permitted quantities for the marketing of seed and seed potatoes of the variety intended for the preservation of the genetic resources of crops per variety by plant species are as follows:

- 1) common oats (*Avena sativa* L.) – 28,639 kilograms;
- 2) common wheat (*Triticum aestivum* L. subsp. *aestivum*.) – 116,597 kilograms;
- 3) common barley (*Hordeum vulgare* L.) - 67,383 kilograms;
- 4) common rye (*Secale cereale* L.) – 17,000 kilograms;
- 5) potato (*Solanum tuberosum* L.) - 250,000 kilograms - or 1,250,000 pieces of meristem plants;
- 6) rapeseed (*Brassica napus* L. (partim)) – 2283 kilograms.

(3) In 2024, the seed of the variety prescribed for the preservation of the genetic resources of agricultural crops not mentioned in paragraph 1 may be marketed by plant species in an amount that does not exceed the amount necessary for sowing 100 hectares.

§ 3. Entry into force of the regulation

The regulation enters into force on January 1, 2024.

1

Commission Directive 2008/62/EC establishing certain exceptions for the approval of nationally selected varieties and varieties of agricultural crops adapted to local and regional conditions and threatened by genetic erosion and for the marketing of seeds and seed potatoes of said nationally selected varieties and varieties (OJ L 162, 21.06.2008, pp. 13–19) .
