

Council Regulation (EC) No 951/97 of 20 May 1997 on improving the processing and marketing conditions for agricultural products

Official Journal L 142, 02/06/1997 pp. 0022 - 0029

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Articles 42 and 43 thereof,

Having regard to the proposal from the Commission (1),

Having regard to the opinion of the European Parliament (2),

Having regard to the opinion of the Economic and Social Committee (3),

(1) Whereas Council Regulation (EEC) No 866/90 of 29 March 1990, on improving the processing and marketing conditions for agricultural products (4) has been substantially amended several times; whereas, in the event of new amendments being made to the said Regulation, in order to clarify and rationalize matters, the provisions in question should be recast;

(2) Whereas Article 10 (1) of Council Regulation (EEC) No 4256/88 of 19 December 1988 laying down provisions for implementing Regulation (EEC) No 2052/88 as regards the EAGGF Guidance Section (5) provides for a Council Decision on the forms of the Fund's contribution to measures to improve the conditions under which agricultural products are processed and marketed with a view to achieving the objectives referred to in Council Regulation (EEC) No 4253/88 of 19 December 1988, laying down provisions for implementing Regulation (EEC) No 2052/88 as regards coordination of the activities of the different Structural Funds between themselves and with the operations of the European Investment Bank and the other existing financial instruments (6);

(3) Whereas the types of investments eligible for a contribution from the EAGGF Guidance Section (hereinafter referred to as 'the Fund') should be defined, taking account of the current situation both on the agricultural markets and in the agriculture and food sector, as well as the prospects for developing outlets for agricultural products;

(4) Whereas, in order to ensure a coherent improvement in the processing and marketing of agricultural products, financial assistance from the Fund for investments in that field should be made conditional on the inclusion of such investments in sectoral plans containing an in-depth analysis of the situation in the sector and the proposed improvement;

(5) Whereas, for such plans, the Commission should adopt sectoral Community support frameworks, to be drawn up in agreement with the Member States concerned, within the framework of the partnership, taking account, as appropriate of the Community support frameworks adopted for plans relating to Objectives 1, 6 and 5 (b) defined in Article 1 of Council Regulation (EEC) No 2052/88 of 24 June 1988, on the tasks of the Structural Funds and their effectiveness and on coordination of their activities between themselves and with the operations of the European Investment Bank and the other existing financial instruments (7);

(6) Whereas an effective means should be adopted for ensuring that Community action is consistent with the common agricultural policy; whereas the most effective way to achieve this is to adopt selection criteria with which to determine which investments should be given priority for consideration;

(7) Whereas, in order to ensure the necessary transparency in the operations of the Fund, eligible expenditure should be defined;

(8) Whereas it must be ensured that investments are viable and that farmers have a share in the economic benefits of the action taken;

(9) Whereas application of the measure should in general be restricted to the agricultural products listed in Annex II to the Treaty, whereas in certain cases, however, processed products no longer included in the Annex may be of importance to farmers in so far as they create new market outlets and/or increase the added-value of the basic product;

(10) Whereas, in connection with the reform of the Structural Funds, Regulation (EEC) No 4256/88 provides for new forms of assistance by the Fund as regards improving structures for processing and marketing agricultural products; whereas general rules should therefore be laid down for its implementation;

(11) Whereas, to allow for the differing structural situations in the various regions of the Community, contribution rates should be differentiated by category of region;

(12) Whereas, to ensure harmony between the Community's actions and those of the Member State

concerned and to ensure the additionality of Community assistance, the investments selected for financing by the Fund should be co-financed by the Member State;

(13) Whereas provision should be made for the possibility of laying down certain specific implementing rules adapted to the special nature of the common measure that is the subject of this Regulation, to ensure that it is implemented effectively,

HAS ADOPTED THIS REGULATION:
