(2) A person who has in any place or land or on any premises or in any railway wagon, vehicle, ship, vessel, aircraft, container or other thing, a controlled product, shall at all reasonable times—

(a) afford to an authorised officer such facilities and assistance as are reasonably necessary for an inspection and taking of samples pursuant to this Regulation;

(b) A document purporting to be a certificate such as is referred to in subparagraph (a) of this paragraph and to be issued by or on behalf of the Minister shall be deemed, until the contrary is shown, to be such a certificate.

(7) Any person who—

(a) fails to comply with a requirement of paragraph (2) of this Regulation, or

(b) obstructs or interferes with an authorised officer in the course of exercising a power conferred on him or her by this Regulation,

<sup>(10)</sup>O.J. No. L121 of 29/7/1964.

6. (1) An authorised officer may seize and retain or seize, remove and retain any controlled product in relation to which the officer has reasonable grounds for suspecting that there is or has been a failure to comply with any provision of these Regulations.

(2) An authorised officer who has seized any controlled product pursuant to this Regulation may by a notice in writing, given to the owner or to the person in apparent charge or control of the product, require either—

(a) specified things to be done in relation to the product before it is released by the officer, or

(b) the disposal of the product by the owner, or the person in apparent charge or control of the product, in a manner and within a time specified in the notice and at the expense of the owner, such disposal to be such as will prevent the product being used for human or animal consumption,

and

in either case, the authorised officer shall retain control of the product to which the notice relates until the requirements of the notice have been complied with.

(3) Where there has been a failure to comply with a requirement of a notice given under paragraph (2)(b) of this Regulation, an authorised officer who in pursuance of this Regulation has seized any product may, on giving notice in writing to the owner, or to the person in apparent charge or control of such product of his intention to do so, apply to the District Court in the District Court district in which the notice has been served for an order directing that the product be disposed of (by destruction or otherwise) in a manner, specified in the order, that will prevent its being used for human or animal consumption.

(4) Where an application is made under paragraph (3) of this Regulation to the District Court for an order directing the disposal of a controlled product, the Court, if it is satisfied that—

(i) the controlled product to which the notice relates contains within it or on it a pesticide residue in excess of the maximum specified in relation to that product under these Regulations;

(ii) if such product were released, it might be put into circulation contrary to Regulation 4 of these Regulations, and

(iii) such product if consumed would constitute a danger to human or animal health,

shall order that the product be disposed of (by destruction or otherwise) in a manner, specified in the order, that will prevent its being used for human or animal consumption.

(5) Where an order is made by the District Court under paragraph (4) of this Regulation, the order may provide that the product to which it relates shall be disposed of in the manner specified in the notice given under paragraph (2) (b) of this Regulation, or in such other manner as may be specified in the Court's order and which, in the opinion of the Court, will prevent the product being used for human or animal consumption.

(6) Where an order made by the District Court under paragraph (4) of this Regulation requires that a product to which it relates be disposed of by an authorised officer, the cost of disposing of the relevant product pursuant to and in accordance with the order shall be recoverable by the Minister as a simple contract debt in any court of competent jurisdiction from the person who was the owner of the product at the time it was seized.

(7) Any person who obstructs or interferes with an authorised officer in the course of exercising a power conferred on him under this Regulation shall be guilty of an offence and shall be liable on summary conviction to a fine not exceeding £1,500 or, at the discretion of the court, to imprisonment for a term not exceeding twelve months, or to both.

7. (1) Where a product is seized pursuant to Regulation 6(1) of these Regulations, a person shall not temper with, or without the permission of an authorised officer, move, dispose of or otherwise interfere in any way with the product.

(2) A person who contravenes paragraph (1) of this Regulation shall be guilty of an offence and shall be liable on summary conviction to a fine not exceeding £1,500 or, at the discretion of the court, to imprisonment for a term not exceeding twelve months, or to both.

(3) Where an offence under these Regulations is committed by a body corporate and is proved to have been so committed with the consent or connivance of, or to be attributable to any neglect on the part of any director, manager secretary or other similar officer of the body corporate, or any person purporting to act in such capacity, that person, as well as the body corporate, shall be guilty of that offence and shall be liable to be proceeded against and punished accordingly.

8. If any person fraudulently—

(a) tampers with anything so as to procure that any sample taken pursuant to these Regulations does not correctly represent the product sampled, or

(b) tampers or interferes with any sample taken under these Regulations,

he or she shall be guilty of an offence and shall be liable on summary conviction to a fine not exceeding £1,500 or, at the discretion of the court, to imprisonment for a term not exceeding twelve months, or to both.

9. An offence under these Regulations may be prosecuted by the Minister.

10. (1) Where an appeal is made to the District Court concerning the results of an analysis made by a designated analyst under Regulation 5 (4), the results of the sample analysed by the State Chemist (Section 5 (4)) shall be considered by the Court to be the referee sample.

(2) The State Chemist shall in making an analysis under this Regulation issue a certificate in the form set out in the Third Schedule to the defendant and to designated analyst concerned.

11. (1) Subject to the provisions of paragraph (2), the Minister may from time to time establish the maximum levels of pesticide residues which may be contained in and on specified controlled products brought into territory of the State from a Member State of origin.

(2) Maximum levels of pesticide residue shall not be established in accordance with the provisions of paragraph (1) where harmonised pesticide residue levels have already been established by the European Community—

(a) pursuant to the procedures provided in the Directive, or

(b) in accordance with Article 4(1)(f) of Council Directive 91/414/EEC of 15 July 1991<sup>(13)</sup> concerning the placing of plant protection products on the market,

<sup>(13)</sup>O.J. No.L230/1 of 19/8/1991.

(3) Notwithstanding paragraph (1), such levels established shall not apply to controlled products brought into the territory of the State from a Member State of origin and, which are

shown to the satisfaction of the Minister to be in transit to another Member State of the European Communities or a third country.

(4) In this Regulation—

"Member State of origin" means a Member State of the European Communities in whose territory a controlled product is either legally produced and marketed or put into free circulation.

<sup>(4)</sup> Footnotes (1), (2) and (3) do not apply in cases where the lower limit of analytical determination is indicated.

<sup>(3)</sup> For eggs and egg products with a fat content higher than 10%, the maximum level is expressed in mg/kg fat. In this case the maximum level is ten times higher than the maximum level for fresh eggs.

<sup>(4)</sup> Footnotes (1), (2) and (3) do not apply in cases where the lower limit of analytical determination is indicated.

<sup>(2)</sup> In determining the residues in raw cow's milk and whole cream cow's milk, a fat content of 4% by weight should be taken as a basis. For raw milk and whole cream milk of another animal origin the residues are expressed on the basis of the fat.

For the other foodstuffs listed in Annex I under heading Nos. 0401, 0402, 0405 00 and 0406:

—with a fat content of less than 2% by weight, the maximum level is taken as half that set for raw milk and whole cream milk,

—with a fat content of 2% or more by weight, the maximum level is expressed mg/kg of fat. In such cases, the maximum level is 25 times that set for raw milk and whole cream milk.

<sup>(4)</sup> Footnotes (1), (2) and (3) do not apply in cases where the lower limit of analytical determination is indicated.

<sup>(1)</sup> In the case of foodstuffs with a fat content of 10% or less by weight, the residue is related to the total weight of the boned foodstuff. In such cases, the maximum level is one-tenth of the value related to fat content, but must be no less than 0.01 mg/kg.
