"Schedule Ia

(Based on Annex A.1 of Directive 96/98/EC)

Equipment for which detailed testing standards already exist
in International Instruments

Notes applicable to the whole of Schedule Ia:

(a) General: in addition to the testing standards specifically mentioned, a number of provisions, which must be checked during type-examination (type approval) as referred to in the modules for conformity assessment in Schedule II, are to be found in the applicable requirements of the international conventions and the relevant resolutions and circulars of the IMO.

(b) Column 1: Article 2 of Commission Directive 2009/26/EC may apply.

B 3780

(c) Column 1: Article 2 of Commission Directive 2010/68/EU may apply.

(d) Column 5: Where IMO Resolutions are cited, only the testing standards contained in relevant parts of the Annexes to the Resolutions are applicable and exclude the provisions of the Resolutions themselves.

(e) Column 5: International conventions and testing standards apply in their up-to-date version. For the purpose of identifying correctly the relevant standards, test reports, certificates of conformity and declarations of conformity shall identify the specific testing standard applied and its version.

(f) Column 5: Where two sets of identifying standards are separated by "or", each set fulfils all the testing requirements to meet IMO Performance Standards; thus testing to one of these sets is sufficient to demonstrate compliance with the requirements of the relevant International Instruments. Conversely, when other separators (comma) are used all the listed references apply.

(g) Column 6: Where module H appears, module H plus design-examination certificate is to be understood.

(h) The requirements laid down in this Schedule shall be without prejudice to carriage requirements in the international conventions.

Column 4: IMO MSC/Circular 980 should apply except when superseded by the specific instruments referred to in Column 4.
