6. The statutory measure described in this schedule shall
- (a) apply within the geographical area of the Republic of South Africa;
 - (b) come into operation on the date of publication hereof and shall lapse after four years from the date of implementation
7. The purpose of the levies set out under 2, is to finance actions that are necessary to further, in respect of the dairy industry, the objectives set out in section 2(2) of the Act and it is as follows:
- a) Consumer Education
From a national point of view and to promote the viability of the dairy industry, consumers should be informed of the health and nutritional advantage of milk and other dairy products. Informed consumers will not only contribute to the national well-being in respect of nutrition and health, but especially also to the viability and sound development of the dairy industry. The education will be conducted in such a way that it will not erode the marketing activities of any firm in the dairy industry that are aimed at differentiating its products from that of competitors.
 - b) Improvement of the quality of milk and other dairy products
From a nutritional and health point of view milk and other dairy products have an important role to play in the national household. The products are perishable and may pose a risk to consumers. As a result, actions are required to promote the quality of milk and other dairy products and the compliance with legal standards. Such actions will contribute significantly to the viability of the dairy industry because it will increase certainty in the market regarding the quality of the products and that will impact positively on the size of the market.
 - c) Statistical and other information regarding dairy industry
Statistical information and other information regarding the dairy industry in South Africa and internationally, and analysis of such information is required to promote market access in respect of the dairy industry, the efficiency of marketing of milk and other dairy products, and the viability of the dairy industry. The information regarding the dairy industry and the analysis thereof will make market signals visible for all players in the industry and for Government institutions and will contribute significantly to the achievement of the relevant objectives of the Act.

d) Research and Development

Research and development are required to promote not only the viability of the dairy industry but also to promote the achievement of the other objectives of the Act as set out in section 2(2) of the Act. Research is fragmented and action is required to ensure co-ordination and that research and development are functional in respect of the strategic direction of the industry namely broadening of the market for milk and dairy products, improvement of international competitiveness of the South African industry and empowerment of previously disadvantaged individuals. Furthermore action is required to promote the practical application of local and international research and development in South Africa.

e) Empowerment of previously disadvantaged individuals

The viability of the dairy industry is significantly influenced by the extent to which previously disadvantaged individuals are empowered. Empowerment will not only impact positively on the viability of the industry but also the other objectives of the Act. The focus of the empowerment to be financed from the income from the levies will be the facilitation of the transfer of knowledge and skills. Such action will also not only contribute to the viability of the dairy industry but also to the other objectives of the Act as it will promote market access, efficiency of marketing of dairy products and export earnings.

The requested levies can in no way impact negatively on any of the matters set out in section 2 (2) and section 2 (3) of the Act.

Collectively, the requested measure will create a more viable dairy industry that will enhance the matters set out in section 2 (3) of the Act namely food security, number of employment opportunities and fair labour practice.

8. The expenditure of the income from the levies during the period in respect of which the levies exists, shall be determined in such way that:

- (a) not more than 10 per cent of the income from the levies be spend on the administration of the measures described in this schedule, and
- (b) approximately 20 percent of the income from the levies is spend on empowerment of previously disadvantaged individuals.

9. The collection of the levies and the use of the income from the levies by Milk SA, shall be annually subject to audit by the Auditor-General.

10. Confidential information of any person subject to the statutory measure, obtained by Milk SA through the implementation, administration and enforcement of this statutory measure, shall be dealt with by Milk SA in accordance with section 23 (2) of the Act.

The guideline prices for milk and other dairy products shall be as follows:
