

Commission Implementing Regulation (EU) 2019/2072 of 28 November 2019 establishing uniform conditions for the implementation of Regulation (EU) 2016/2031 of the European Parliament and the Council, as regards protective measures against pests of plants, and repealing Commission Regulation (EC) No 690/2008 and amending Commission Implementing Regulation (EU) 2018/2019

COMMISSION IMPLEMENTING REGULATION (EU) 2019/2072

of 28 November 2019

establishing uniform conditions for the implementation of Regulation (EU) 2016/2031 of the European Parliament and the Council, as regards protective measures against pests of plants, and repealing Commission Regulation (EC) No 690/2008 and amending Commission Implementing Regulation (EU) 2018/2019

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/2031 of the European Parliament and the Council of 26 October 2016 on protective measures against pests of plants, amending Regulations (EU) No 228/2013, (EU) No 652/2014 and (EU) No 1143/2014 of the European Parliament and of the Council and repealing Council Directives 69/464/EEC, 74/647/EEC, 93/85/EEC, 98/57/EC, 2000/29/EC, 2006/91/EC and 2007/33/EC⁽¹⁾, and in particular Article 5(2), Article 32(2), Article 37(2), Article 37(4), Article 40(2), Article 41(2), Article 53(2), Article 54(2), Article 72(1), Article 73, Article 79(2) and Article 80(2) thereof,

Whereas:

- (1) Regulation (EU) 2016/2031 is to apply from 14 December 2019. In order for its provisions to become fully effective, implementing rules are to be adopted regulating the pests, plants, plant products and other objects, as well as respective requirements needed to protect the Union territory from phytosanitary risks.
- (2) In view of this, specific rules should be set out in order to list the Union quarantine pests, the protected zone quarantine pests and the Union regulated non-quarantine pests, as well as measures to prevent their presence in the respective territories of the Union or on plants for planting.
- (3) The pests listed in Part A of Annex I to Council Directive 2000/29/EC⁽²⁾ and Section I of Part A of Annex II to that Directive have been reassessed by the European Food Safety Authority (EFSA) in order to set up the list of Union quarantine pests pursuant to Article 5 of Regulation (EU) 2016/2031. The reassessment was necessary to update the phytosanitary status of those pests in accordance with the most recent technical and scientific developments, and also to assess their compliance with the criteria of Article 3 of that Regulation in respect of the Union territory and Section 1 of Annex I thereto.
- (4) As a result of that reassessment, some pests listed in Annexes I and II to Directive 2000/29/EC should not be included in the list of Union quarantine pests because they

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

do not fulfil the conditions provided for in Article 3 of Regulation (EU) 2016/2031 in respect of the Union territory.

- (5) Certain other pests, some of which are listed in Annexes I and II to Directive 2000/29/EC, have been found to fulfil the conditions provided for in Article 3 of Regulation (EU) 2016/2031 in respect of the Union territory, therefore they should be included in the list of Union quarantine pests.
- (6) As a result of the reassessment, some of the pests listed in Annexes I and II to Directive 2000/29/EC as pests not known to occur in the Union territory, should be included in the list of Union quarantine pests as pests known to occur in the Union territory, due to their established presence in certain parts of it.
- (7) The names of certain pests should be updated to reflect the latest developments of the international nomenclature. Those pests are to be listed together with the respective codes assigned by the European and Mediterranean Plant Protection Organisation ('EPPO'). This is necessary to ensure the identification of those pests, even in case of potential change of their names in the future.
- (8) The protected zones recognised in accordance with Commission Regulation (EC) No 690/2008⁽³⁾ and the respective pests listed in Part B of Annex I and Part B of Annex II to Directive 2000/29/EC have been reassessed by the Commission. The purpose of that reassessment was to conclude whether the respective pests correspond to the description of protected zone quarantine pest in Article 32(1) of Regulation (EU) 2016/2031.
- (9) That reassessment has been based on the respective applications by Member States to recognise, amend or revoke protected zones, regular survey reports submitted by the Member States, Commission inspections and several other scientific and technical data.
- (10) Certain pests, some of which are listed in Annexes I and II to Directive 2000/29/EC, have been found to fulfil the conditions provided for in Article 32(1) of Regulation (EU) 2016/2031, therefore they should be included in the list of protected zone quarantine pests. Those pests should be listed together with the respective codes assigned by EPPO, in order to ensure the identification of those pests, even in case of potential change of their names in the future.
- (11) Regulation (EC) No 690/2008 should be repealed to avoid overlaps with the listing of protected zones in this Regulation.
- (12) EPPO has made a reassessment of the pests listed in Section II of Part A of Annex II to Directive 2000/29/EC, the crops under point 3 and the pests under point 6 of Annex I to Directive 66/401/EEC⁽⁴⁾, as well as the pests under point 3 of Annex II to Council Directive 66/402/EEC⁽⁵⁾, Annex I to Council Directive 68/193/EEC⁽⁶⁾, as well as the pests listed in the acts adopted pursuant to Article 5(5) of Council Directive 98/56/EC⁽⁷⁾, Annex II to Council Directive 2002/55/EC⁽⁸⁾, Annex I and point B of Annex II to Council Directive 2002/56/EC⁽⁹⁾, and the acts adopted pursuant to point (c) of Article 18 of that Directive, point 4 of Annex I and point 5 of Part I of Annex II to Council Directive 2002/57/EC⁽¹⁰⁾, the acts adopted pursuant to Article 4 of Council Directive 2008/72/EC⁽¹¹⁾ and the acts adopted pursuant to Article 4 of Council Directive 2008/90/EC⁽¹²⁾.

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

- (13) That reassessment was necessary to update the phytosanitary status of those pests in accordance with the most recent technical and scientific developments, and also to assess their compliance with the respective criteria of Article 36 of Regulation (EU) 2016/2031, in respect of the Union territory, and Section 4 of Annex I thereto.
- (14) Certain pests, some of which are listed in those Directives, have been found to fulfil the conditions provided for in Article 36 of Regulation (EU) 2016/2031 in respect of the Union territory, and should therefore be included in the list of Union regulated non-quarantine pests ('RNQPs'). In accordance with Article 37(7) of that Regulation, that list is to provide for specific categories of relevant plants for planting referred to in Directives 66/401/EEC, 66/402/EEC, 68/193/EEC, 2002/55/EC, 2002/56/EC, 2002/57/EC, 2008/72/EC and 2008/90/EC.
- (15) In certain cases, the respective plants for planting should not be introduced into, or moved within, the Union territory if the presence of the RNQPs or symptoms caused by RNQPs on them is above a certain threshold, as set out in Article 37(8) of Regulation (EU) 2016/2031. As set out further by that Article, that threshold is only to be set where it is possible for professional operators to ensure that the incidence of that RNQP on those plants for planting does not exceed that threshold and it is possible to verify whether that threshold is not exceeded in lots of those plants for planting.
- (16) In accordance with Article 37(4) of Regulation (EU) 2016/2031, measures to prevent the presence of RNQPs on the plants for planting concerned, are to apply without prejudice to the measures adopted pursuant to Directives 66/401/EEC, 66/402/EEC, 98/56/EC, 1999/105/EC, 2002/54/EC, 2002/55/EC, 2002/56/EC, 2002/57/EC, 2008/72/EC and 2008/90/EC. Therefore, this Regulation should not affect the measures, adopted pursuant to those Directives, concerning inspections, sampling and testing of the plants for planting concerned, or the plants from which they originate, the origin of the plants for planting concerned from areas or sites free from, or with physical protection from, the RNQPs concerned, treatments of the plants for planting concerned, or the plants from which they originate, or the production of the plants for planting.
- (17) Moreover, the provisions of this Regulation concerning RNQPs should not affect the exceptions for plants for planting, adopted pursuant to those Directives, from marketing requirements set out by those Directives concerning the supply of seed to official testing and inspection bodies, the supply of plants to providers of certain services, the movement of plants intended for scientific purposes, selection work, other tests or trial purposes, seed not finally certified, seeds subject to the exceptions of the provisions of Implementing Decision (EU) 2017/478⁽¹³⁾ and plants shown to be intended for export.
- (18) The introduction into the Union of the plants, plant products and other objects, from all or certain third countries, as listed in Part A of Annex III to Directive 2000/29/EC is prohibited.
- (19) Those plants, plants products and other objects have been reviewed on the basis of any new evidence, their pest risk for the Union territory and the update of the list of Union quarantine pests.

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

- (20) On the basis of that review, certain of those plants, plant products and other objects are therefore to be listed pursuant to Article 40(2) of Regulation (EU) 2016/2031, together with the third countries, groups of third countries or specific areas of third countries to which that prohibition applies. Such prohibition is necessary because the phytosanitary protection of the Union cannot be guaranteed by applying less stringent measures in this regard.
- (21) In view of the reassessment of Union quarantine pests, new provisions for the introduction into the Union of certain plants, plant products and other objects, and the respective special requirements, and provisions for the movement within the Union of certain plants, plant products and other objects, and the respective special requirements should be adopted pursuant to Article 41(2) of Regulation (EU) 2016/2031.
- (22) The indication of CN codes should not be obligatory for the listing of the plants, plant products and other objects subject to special requirements for movement within the Union territory. This would be a proportionate approach because the CN codes are only necessary for the identification of those plants, plant products or other objects when they are introduced into the Union from a third country. Such approach would be also be in line with Article 80 of Regulation (EU) 2016/2031 pursuant to which no such codes are provided for the listing of those plants, plant products and other objects, for which a plant passport is required.
- (23) The introduction of plants, plant products and other objects is prohibited in their respective protected zones and, where applicable, with regard to their third country of origin, as listed in Part B of Annex III to Directive 2000/29/EC. Moreover, the plants, plant products and other objects, as listed in Part B of Annex IV to Directive 2000/29/EC, may only be introduced into the respective protected zones if they fulfil the respective special requirements.
- (24) Those plants, plant products and other objects have been reviewed on the basis of any new evidence, their pest risk for the respective protected zones and the update of the list of the protected zones quarantine pests and the protected zones.
- (25) On the basis of that review, certain of those plants, plant products and other objects, and the respective protected zones, should be listed in this Regulation as provided for in Article 53(2) of Regulation (EU) 2016/2031, together with the third countries and groups of third countries of origin to which that prohibition applies.
- (26) Moreover, certain of those plants, plant products and other objects, and the respective protected zones and special requirements, should be listed in this Regulation as provided for in Article 54(2) of Regulation (EU) 2016/2031.
- (27) A list of plants, plant products and other objects for which a phytosanitary certificate is required for introduction into the Union territory, and the respective third countries of origin or dispatch, is to be established pursuant to Article 72(1) of Regulation (EU) 2016/2031.
- (28) Implementing Regulation (EU) 2018/2019 requires a phytosanitary certificate for the introduction into the Union territory of plants, other than the plants included in the

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

list referred to in Article 72(1), pursuant to the first subparagraph of Article 73 of Regulation (EU) 2016/2031. However, certain fruits have been found to fulfil the criteria set out in Annex VI to Regulation (EU) 2016/2031 and identified as plants which do not require a phytosanitary certificate. A phytosanitary certificate should therefore not be required for the introduction into the Union of the fruits listed in Annex II of Implementing Regulation (EU) 2018/2019.

- (29) For reasons of clarity, Article 2 and Annex II of that Regulation should be deleted, in order to avoid overlaps with this Regulation.
- (30) A list of plants, plant products and other objects for which a phytosanitary certificate is required for introduction into the respective protected zones and the respective third countries of origin or dispatch, is to be established pursuant to Article 74(1) of Regulation (EU) 2016/2031. Such a list will help to ensure clarity for the professional operators, competent authorities and all of other users of those plants, plant products and other objects.
- (31) A list of plants, plant products and other objects for which a plant passport is required for movement within the Union territory is to be established pursuant to Article 79(1) of Regulation (EU) 2016/2031. Such a list will help to ensure clarity for the professional operators, competent authorities and all other users of those plants, plant products and other objects.
- (32) In order to refrain from imposing requirements on professional operators, those plant passports should not be required for the movement of seeds which are subject to derogations from the requirements of the respective Directives on the marketing of seeds. This is appropriate as this Regulation applies without prejudice to the measures adopted pursuant to those Directives and should not introduce for the professional operators additional certification burdens than the ones currently laid down in those Directives obligations.
- (33) A list of plants, plant products and other objects for which a plant passport is required for being introduced into, or moved within, certain protected zones is to be established pursuant to Article 80(1) of Regulation (EU) 2016/2031. Those plant passports should bear the designation 'PZ' to be distinguished from the plant passports required for the movement within the entire Union territory. Such a list will help to ensure clarity for the professional operators, competent authorities and all other users of those plants, plant products and other objects.
- (34) In order to avoid the disruption of trade by changes in the requirements regarding RNQPs, a limited transitional period should be granted for seeds and other plants for planting that have already been produced in the Union, introduced into the Union or moved within the Union in accordance with the requirements concerning the presence of RNQPs applicable before 14 December 2019, the date of application of this Regulation. Those seeds and other plants for planting may continue to be introduced into, or moved within, the Union in accordance with those requirements for a limited period of time. It would also be proportionate to require that plant passports would only attest the compliance of those seeds and other plants for planting with the applicable requirements on Union quarantine pests, protected zone quarantine pests and measures adopted

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

pursuant to Article 30 of Regulation (EU) 2016/2031. Such an approach would be necessary given the big amounts of seeds and other plants for planting which are in the course of production, or have been produced, before 14 December 2019, under the rules of the Directives on the marketing of seeds and other propagating material applicable before that date and when no plant passports were required concerning the presence of RNQPs. Those plants for planting have already been certified and it would be disproportionate to require their further certification under the new rules. A transitional period of one year would thus be necessary to ensure the smooth uptake of those plants for planting by the market and to facilitate the competent authorities and the professional operators to adapt to the new rules.

- (35) This Regulation should enter into force on the third day following that of its publication in the *Official Journal of the European Union*, to allow for the competent authorities and the professional operators the longest possible time to prepare for its application.
- (36) For reasons of legal certainty, this Regulation should apply from the same date as Regulation (EU) 2016/2031, which is 14 December 2019.
- (37) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1

Subject matter

This Regulation implements Regulation (EU) 2016/2031, as regards the listing of Union quarantine pests, protected zone quarantine pests and Union regulated non-quarantine pests, and the measures on plants, plant products and other objects to reduce the risks of those pests to an acceptable level.

Article 2

Definitions

- 1 For the purposes of this Regulation, the definitions provided for in Annex I shall apply.
- 2 In addition, the following definitions shall apply:
 - a 'practically free from pests' means the extent of presence of pests, other than Union quarantine pests or protected zone quarantine pests, on the plants for planting or fruit plants, which is sufficiently low to ensure acceptable quality and usefulness of those plants;
 - b 'official statement' means a phytosanitary certificate, as provided for in Article 71 of Regulation (EU) 2016/2031, a plant passport, as provided for in Article 78 of that Regulation, the mark on wood packaging material, wood or other objects, as referred to in Article 96 of that Regulation, or the official attestations as referred to in Article 99 of that Regulation;
 - c 'systems approach' means the integration of different risk management measures, at least two of which act independently, and which, when applied together, achieve

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

the appropriate level of protection against Union quarantine pests, protected zone quarantine pests and pests subject to the measures adopted pursuant to Article 30 of Regulation (EU) 2016/2031.

Article 3

List of Union quarantine pests

The list of Union quarantine pests, as referred to in Article 5 of Regulation (EU) 2016/2031, is set out in Annex II to this Regulation.

The list of Union quarantine pests not known to occur in the Union territory is set out in Part A of Annex II and the list of Union quarantine pests known to occur in the Union territory is set out in Part B of Annex II.

Article 4

List of protected zones and the respective protected zone quarantine pests

The list of the protected zones and the respective protected zone quarantine pests, as referred to in Article 32(3) of Regulation (EU) 2016/2031, is set out in Annex III to this Regulation.

Article 5

List of Union regulated non-quarantine pests and specific plants for planting, with categories and thresholds

The list of Union regulated non-quarantine pests ('RNQPs') and specific plants for planting with categories and thresholds, as referred to in Article 37(2) of Regulation (EU) 2016/2031, are set out in Annex IV to this Regulation. Those plants for planting shall not be introduced into, or moved within, the Union if the presence of the RNQPs, or symptoms caused by RNQPs, on those plants for planting is above those thresholds.

The prohibition of introduction and movement provided for in the first paragraph shall apply only to the categories of plants for planting as provided for in Annex IV.

Article 6

Measures to prevent the presence of RNQPs on specific plants for planting

1 The measures to prevent the presence of RNQPs concerning the movement within and introduction into the Union of specific plants for planting, as referred to in Article 37(4) of Regulation (EU) 2016/2031, are set out in Annex V to this Regulation.

2 The list set out in Annex IV to this Regulation and Annex V thereto shall not affect the measures adopted pursuant to Directives 66/401/EEC, 66/402/EEC, 68/193/EEC, 98/56/EC, 1999/105/EC, 2002/54/EC, 2002/55/EC, 2002/56/EC, 2002/57/EC, 2008/72/EC and 2008/90/EC concerning:

- a inspections, sampling and testing of the plants for planting concerned or the plants from which they originate;

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

- b the origin of the respective plants for planting from the areas or sites, which are free from, or with physical protection from, the RNQPs concerned;
- c treatments of the plants for planting concerned, or the plants from which they originate;
- d the production of the plants for planting.

3 In addition, the list set out in Annex IV to this Regulation and Annex V thereto shall not affect the exceptions for plants for planting, adopted pursuant to Directives 66/401/EEC, 66/402/EEC, 68/193/EEC, 98/56/EC, 1999/105/EC, 2002/54/EC, 2002/55/EC, 2002/56/EC, 2002/57/EC, 2008/72/EC and 2008/90/EC, from the requirements for marketing set out by those Directives, including:

- a exceptions concerning the supply of plants for planting to official testing and inspection bodies;
- b exceptions concerning the supply of plants for planting as grown to providers of services for processing or packaging, under the condition that the provider of services does not acquire title to the plants thus supplied and the identity of the plants is ensured;
- c exceptions concerning the supply of plants for planting under certain conditions to providers of services for the production of certain agricultural raw materials, intended for industrial purposes, or seed propagation for that purpose;
- d exceptions for plants for planting intended for scientific purposes, selection work, other test or trial purposes;
- e exceptions from marketing requirements concerning plants for planting not finally certified;
- f exceptions from marketing requirements set out in the provisions of Implementing Decision (EU) 2017/478;
- g exceptions from marketing requirements for plants for planting shown to be intended for export to third countries.

Article 7

List of plants, plant products and other objects whose introduction into the Union from certain third countries is prohibited

The list of plants, plant products and other objects whose introduction into the Union territory is prohibited, together with the third countries, groups of third countries or specific areas of third countries to which the prohibition applies, as referred to in Article 40(2) of Regulation (EU) 2016/2031, is set out in Annex VI to this Regulation.

[^{F1}The first paragraph shall apply without prejudice to any other acts setting out prohibitions, having a temporary character, adopted pursuant to Articles 40(2), 42(3) or 49(1) of Regulation (EU) 2016/2031, and concerning the introduction into the Union territory of certain plants, plant products or other objects to address particular phytosanitary risks which are not yet fully assessed.]

Article 8

List of plants, plant products and other objects originating from third countries, or in the Union territory and the corresponding special requirements for their introduction into or movement within the Union territory

1 The list of plants, plant products and other objects, originating from third countries, and the corresponding special requirements for their introduction into the Union territory, as referred to in Article 41(2) of Regulation (EU) 2016/2031, is set out in Annex VII to this Regulation.

[^{F1}The first subparagraph shall apply without prejudice to any other acts setting out special requirements, having a temporary character, adopted pursuant to Articles 41(2), 42(4) or 49(1) of Regulation (EU) 2016/2031, and concerning the introduction into the Union territory of certain plants, plant products or other objects to address particular phytosanitary risks which are not yet fully assessed.]

2 The list of plants, plant products and other objects, originating in the Union territory, and the corresponding special requirements for their movement within the Union territory, as referred to in Article 41(2) of Regulation (EU) 2016/2031, is set out in Annex VIII to this Regulation.

[^{F1}The first subparagraph shall apply without prejudice to any other acts setting out special requirements, having a temporary character, adopted pursuant to Articles 28(1), 30(1), 41(2), 42(4) or 49(1) of Regulation (EU) 2016/2031, and concerning the movement within the Union territory of certain plants, plant products or other objects to address particular phytosanitary risks which are not yet fully assessed.]

Textual Amendments

Article 9

List of plants, plant products and other objects, whose introduction into certain protected zones is prohibited

The list of plants, plant products and other objects, originating from third countries or within the Union territory, whose introduction into certain protected zones is prohibited, as referred to in Article 53(2) of Regulation (EU) 2016/2031, is set out in Annex IX to this Regulation.

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

Article 10

List of plants, plant products and other objects to be introduced into, or moved within protected zones and corresponding special requirements for protected zones

The list of plants, plant products and other objects, the respective protected zones and the corresponding special requirements for protected zones, as referred to in Article 54(2) of Regulation (EU) 2016/2031, are set out in Annex X to this Regulation.

Article 11

List of plants, plant products and other objects, as well as the respective third countries of origin or dispatch, for which phytosanitary certificates are required

1 The list of plants, plant products and other objects, as well as the respective third countries of origin or dispatch, whose introduction into the Union territory requires a phytosanitary certificate, as referred to in Article 72(1) of Regulation (EU) 2016/2031, is set out in Part A of Annex XI to this Regulation.

2 The list of plants, subject to the exception from a phytosanitary certificate as provided for in the second subparagraph of Article 73 of Regulation (EU) 2016/2031, is set out in Part C of Annex XI to this Regulation.

3 All plants, other than the plants referred to in paragraphs 1 and 2, shall only be introduced into the Union, if they are accompanied by a phytosanitary certificate in accordance with the first subparagraph of Article 73 of Regulation (EU) 2016/2031. The available CN codes of those plants are listed in Part B of Annex XI to this Regulation.

Article 12

List of plants, plant products and other objects for which a phytosanitary certificate is required for their introduction into a protected zone from certain third countries of origin or dispatch

The list of plants, plant products and other objects, whose introduction into certain protected zones from certain third countries of origin or dispatch requires a phytosanitary certificate, as referred to in Article 74(1) of Regulation (EU) 2016/2031, is set out in Annex XII to this Regulation.

Article 13

List of plants, plant products and other objects for which a plant passport is required for their movement within the Union territory

1 The list of plants, plant products and other objects for which a plant passport is required for their movement within the Union territory, as referred to in Article 79(1) of Regulation (EU) 2016/2031, is set out in Annex XIII to this Regulation.

2 By way of derogation from paragraph 1, a plant passport shall not be required for the movement within the Union of seeds, which fulfil both of the following conditions:

- a they are subject to the exceptions referred to in Article 6(3); and

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

- b they are not subject to the special requirements of Annex VIII or Annex X.

Article 14

List of plants, plant products and other objects for which a plant passport with the designation ‘PZ’ is required for introduction into, and movement within certain protected zones

The list of plants, plant products and other objects for which a plant passport is required for their introduction into, or movement within certain protected zones, as referred to in Article 80(1) of Regulation (EU) 2016/2031, is set out in Annex XIV to this Regulation.

Plant passports referred to in the first paragraph shall bear the designation ‘PZ’.

Article 15

Repeal of Regulation (EC) No 690/2008

Regulation (EC) No 690/2008 is repealed.

Article 16

Amendment of Implementing Regulation (EU) 2018/2019

Implementing Regulation (EU) 2018/2019 is amended as follows:

- (1) Article 2 is deleted;
- (2) Annex II is deleted.

Article 17

Transitional measures

Seeds and other plants for planting introduced into the Union territory, moved within the Union territory or produced, before 14 December 2019, pursuant to the applicable requirements of Directives 66/401/EEC, 66/402/EEC, 68/193/EEC, 98/56/EC, 2002/55/EC, 2002/56/EC, 2002/57/EC, 2008/72/EC, 2008/90/EC concerning the presence of RNQPs before that date, may, until 14 December 2020, be introduced into, or moved within, the Union territory if they comply with those requirements. As of 14 December 2020, Articles 5 and 6 shall apply to all plants for planting covered by this Regulation.

Plant passports, required by this Regulation for the movement of seeds and other plants for planting within the Union territory benefitting from the transitional period laid down in paragraph 1 of this Article, shall until 14 December 2020 only be required to attest their compliance with the rules concerning Union quarantine pests, protected zone quarantine pests or measures adopted pursuant to Article 30 of Regulation (EU) 2016/2031.

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

Article 18

Entry into force and application

This Regulation shall enter into force on the third day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 14 December 2019.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

ANNEX I

Definitions as referred to in Article 2(1)

For the purposes of this Regulation, the terms listed in Part A, when used in the Annexes to this Regulation, have the same meaning as defined in the respective Directives listed in the second column of Part B.

PART A

List of terms

- Pre-basic seed,
- Basic seed,
- Certified seed,
- Standard seed,
- Vine,
- Initial propagating material,
- Basic propagating material,
- Pre-basic material,
- Basic material,
- Certified material,
- Standard material,
- Propagating material of ornamental plants,
- Forest reproductive material,
- Vegetable propagating and planting material,
- Fruit plant propagating material and fruit plants intended for fruit production,
- Candidate pre-basic mother plant,
- Pre-basic mother plant,
- Basic mother plant,
- Certified mother plant,
- *Conformitas Agraria Communitatis* (CAC) material,
- Fodder plant seed,
- Cereal seed,
- Vegetable seed,
- Seed potatoes,
- Oil and fibre plants seed.

PART B

List of Directives and Annexes

1. ANNEXES TO THIS REGULATION	2. DIRECTIVES
ANNEX IV, Part A (RNQPs concerning fodder plant seed) ANNEX V, Part A (Measures concerning fodder plant seed)	Directive 66/401/EEC

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

ANNEX IV, Part B (RNQPs concerning cereal seed) ANNEX V, Part B (Measures concerning cereal seed)	Directive 66/402/EEC
ANNEX IV, Part C (RNQPs concerning vine propagating material)	Directive 68/193/EEC
ANNEX IV, Part D (RNQPs concerning propagating material of ornamental plants) ANNEX V, Part C (Measures concerning ornamental plants)	Directive 98/56/EC
ANNEX IV, Part E (RNQPs concerning forest reproductive material, other than seeds) ANNEX V, Part D (Measures concerning forest reproductive material, other than seeds)	Directive 1999/105/EC
ANNEX IV, Part F (RNQPs concerning vegetable seed) ANNEX V, Part E (Measures concerning vegetable seed)	Directive 2002/55/EC
ANNEX IV, Part G (RNQPs concerning seed potatoes) ANNEX V, Part F (Measures concerning seed potatoes)	Directive 2002/56/EC
ANNEX IV, Part H (RNQPs concerning seed of oil and fibre plants) ANNEX V, Part G (Measures concerning seed of oil and fibre plants)	Directive 2002/57/EC
ANNEX IV, Part I RNQPs concerning vegetable propagating and planting material ANNEX V, Part H (Measures concerning vegetable propagating and planting material)	Directive 2008/72/EC
ANNEX IV, Part J (RNQPs concerning fruit propagating material and fruit plants intended for fruit production)	Directive 2008/90/EC
ANNEX XIII, point 4 Cereal seed	Directive 66/402/EEC
Annex XIII, point 5 Vegetable seed	Directive 2002/55/EC
ANNEX XIII, point 6	Directive 2002/57/EC

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

Oil and fibre plants seed

ANNEX II

List of Union quarantine pests and their respective codes

PART A

PESTS NOT KNOWN TO OCCUR IN THE UNION TERRITORY

	Quarantine Pests and their codes assigned by EPPO
A. Bacteria	
1.	<i>Candidatus Liberibacter africanus</i> [LIBEAF]
2.	<i>Candidatus Liberibacter americanus</i> [LIBEAM]
3.	<i>Candidatus Liberibacter asiaticus</i> [LIBEAS]
4.	<i>Curtobacterium flaccumfaciens</i> pv. <i>flaccumfaciens</i> (Hedges) Collins and Jones [CORBFL]
5.	<i>Pantoea stewartii</i> subsp. <i>stewartii</i> (Smith) Mergaert, Verdonck & Kersters [ERWIST]
6.	<i>Ralstonia pseudosolanacearum</i> Safni <i>et al.</i> [RALSPS]
7.	<i>Ralstonia syzygii</i> subsp. <i>celebesensis</i> Safni <i>et al.</i> [RALSSC]
8.	<i>Ralstonia syzygii</i> subsp. <i>indonesiensis</i> Safni <i>et al.</i> [RALSSI]
9.	<i>Xanthomonas oryzae</i> pv. <i>oryzae</i> (Ishiyama) Swings <i>et al.</i> [XANTOR]
10.	<i>Xanthomonas oryzae</i> pv. <i>oryzicola</i> (Fang <i>et al.</i>) Swings <i>et al.</i> [XANTTO]
11.	<i>Xanthomonas citri</i> pv. <i>aurantifolii</i> (Schaad <i>et al.</i>) Constantin <i>et al.</i> [XANTAU]
12.	<i>Xanthomonas citri</i> pv. <i>citri</i> (Hasse) Constantin <i>et al.</i> [XANTCI]
B. Fungi and oomycetes	
1.	<i>Anisogramma anomala</i> (Peck) E. Müller [CRSPAN]
2.	<i>Apiosporina morbosa</i> (Schwein.) Arx [DIBOMO]

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

3.	<i>Atropellis</i> spp. [1ATRPG]
4.	<i>Botryosphaeria kuwatsukai</i> (Hara) G.Y. Sun and E. Tanaka [PHYOPI]
5.	<i>Bretziella fagacearum</i> (Bretz) Z.W de Beer, T.A. Duong & M.J. Wingfield, comb. nov. [CERAFA]
6.	<i>Chrysomyxa arctostaphyli</i> Dietel [CHMYAR]
7.	<i>Cronartium</i> spp. [1CRONG], except <i>Cronartium gentianaeum</i> , <i>Cronartium pini</i> (Willdenow) Jørstad [ENDCPI] and <i>Cronartium ribicola</i> Fischer [CRONRI].
8.	<i>Davidsoniella virescens</i> (R.W. Davidson) Z.W. de Beer, T.A. Duong & M.J. Wingfield [CERAVI]
9.	<i>Elsinoë australis</i> Bitanc. & Jenkins [ELSIAU]
10.	<i>Elsinoë citricola</i> X.L. Fan, R.W. Barreto & Crous [ELSICI]
11.	<i>Elsinoë fawcettii</i> Bitanc. & Jenkins [ELSIFA]
12.	<i>Fusarium oxysporum</i> f. sp. <i>albedinis</i> (Kill. & Maire) W.L. Gordon [FUSAAL]
13.	<i>Guignardia loricata</i> (Sawada) W. Yamam& Kaz. Itô [GUIGLA]
14.	<i>Gymnosporangium</i> spp. [1GYMNG], except: <i>Gymnosporangium amelanchieris</i> E. Fisch. ex F. Kern, <i>Gymnosporangium atlanticum</i> Guyot & Malenc Bon, <i>Gymnosporangium clavariiforme</i> (Wulfen) DC [GYMNCF], <i>Gymnosporangium confusum</i> Plowr. [GYMNCO], <i>Gymnosporangium cornutum</i> Arthur ex F. Kern [GYMNCR], <i>Gymnosporangium fusisporum</i> E. Fisch., <i>Gymnosporangium gaeumannii</i> H. Zogg, <i>Gymnosporangium gracile</i> Pat., <i>Gymnosporangium minus</i> Crowell, <i>Gymnosporangium orientale</i> P. Syd. & Syd., <i>Gymnosporangium sabinae</i> (Dicks.) G. Winter [GYMNFU], <i>Gymnosporangium torminali-juniperini</i> E. Fisch., <i>Gymnosporangium tremelloides</i> R. Hartig [GYMNTR]
15.	<i>Coniferiporia sulphurascens</i> (Pilát) L.W. Zhou & Y.C. Dai [PHELSU]

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

16.	<i>Coniferiporia weirii</i> (Murrill) L.W. Zhou & Y.C. Dai [INONWE]
17.	<i>Melampsora farlowii</i> (Arthur) Davis [MELMFA]
18.	<i>Melampsora medusae</i> f. sp. <i>tremuloidis</i> Shain [MELMMT]
19.	<i>Mycodiella laricis-leptolepidis</i> (Kaz. Itô, K. Satô & M. Ota) Crous [MYCOLL]
20.	<i>Phoma andina</i> Turkensteen [PHOMAN]
21.	<i>Phyllosticta citricarpa</i> (McAlpine) Van der Aa [GUIGCI]
22.	<i>Phyllosticta solitaria</i> Ellis & Everhart [PHYSSL]
23.	<i>Phymatotrichopsis omnivora</i> (Duggar) Hennebert [PHMPOM]
24.	<i>Phytophthora ramorum</i> (non-EU isolates) Werres, De Cock & Man in 't Veld [PHYTRA]
25.	<i>Pseudocercospora angolensis</i> (T. Carvalho & O. Mendes) Crous & U. Braun [CERCAN]
26.	<i>Pseudocercospora pini-densiflorae</i> (Hori & Nambu) Deighton [CERSPD]
27.	<i>Puccinia pittieriana</i> Hennings [PUCCPT]
28.	<i>Septoria malagutii</i> E.T. Cline [SEPTLM]
29.	<i>Sphaerulina musiva</i> (Peck) Quaedvl, Verkley & Crous. [MYCOPP]
30.	<i>Stegophora ulmea</i> (Fr.) Syd. & P. Syd [GNOMUL]
31.	<i>Thecaphora solani</i> Thirumulachar & O'Brien) Mordue [THPHSO]
32.	<i>Tilletia indica</i> Mitra [NEOVIN]
33.	<i>Venturia nashicola</i> S. Tanaka & S. Yamamoto [VENTNA]
C. Insects and mites	
1.	<i>Acleris</i> spp. (non-European) [IACLRG]
2.	<i>Acrobasis pyrivorella</i> (Matsumura) [NUMOPI]
3.	<i>Agrilus anxius</i> Gory [AGRLAX]
4.	<i>Agrilus planipennis</i> Fairmaire [AGRLPL]

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

5.	<i>Aleurocanthus citriperdus</i> Quaintance & Baker [ALECCT]
6.	<i>Aleurocanthus woglumi</i> Ashby [ALECWO]
7.	<i>Amauromyza maculosa</i> (Malloch) [AMAZMA]
8.	<i>Anomala orientalis</i> Waterhouse [ANMLOR]
9.	<i>Anoplophora glabripennis</i> (Motschulsky) [ANOLGL]
10.	<i>Anthonomus bisignifer</i> Schenkling [ANTHBI]
11.	<i>Anthonomus eugenii</i> Cano [ANTHEU]
12.	<i>Anthonomus grandis</i> (Boh.) [ANTHGR]
13.	<i>Anthonomus quadrigibbus</i> Say [TACYQU]
14.	<i>Anthonomus signatus</i> Say [ANTHSI]
15.	<i>Arrhenodes minutus</i> Drury [ARRHMI]
16.	<i>Aschistonyx eppoi</i> Inouye [ASCXEP]
17.	<i>Bactericera cockerelli</i> (Sulc.) [PARZCO]
18.	<i>Bemisia tabaci</i> Genn. (non-European populations) known to be vector of viruses [BEMITA]
19.	<i>Carposina sasakii</i> Matsumara [CARSSA]
20.	<i>Choristoneura</i> spp. (non-European) [1CHONG]
21.	<i>Cicadellidae</i> (non-European) [1CICDF] known to be vector of <i>Xylella fastidiosa</i> , such as: (a) <i>Carneocephala fulgida</i> Nottingham [CARNFU] (b) <i>Draeculacephala minerva</i> Ball [DRAEMI]; (c) <i>Graphocephala atropunctata</i> (Signoret) [GRCPAT]. (d) <i>Homalodisca vitripennis</i> (Germar) [HOMLTR]
22.	<i>Conotrachelus nenuphar</i> (Herbst) [CONHNE]
23.	<i>Dendrolimus sibiricus</i> Chetverikov [DENDSI]
24.	<i>Diabrotica barberi</i> Smith and Lawrence [DIABLO]

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

25.	<i>Diabrotica undecimpunctata howardi</i> Barber [DIABUH]
26.	<i>Diabrotica undecimpunctata undecimpunctata</i> Mannerheim [DIABUN]
27.	<i>Diabrotica virgifera zea</i> Krysan & Smith [DIABVZ]
28.	<i>Diaphorina citri</i> Kuwayana [DIAACI]
29.	<i>Eotetranychus lewisi</i> (McGregor) [EOTELE]
30.	<i>Grapholita inopinata</i> (Heinrich) [CYDIIN]
31.	<i>Grapholita packardi</i> Zeller [LASPPA]
32.	<i>Grapholita prunivora</i> (Walsh) [LASPPR]
33.	<i>Heliothis zea</i> (Boddie) [HELIZE]
34.	<i>Hishimonus phycitis</i> (Distant) [HISHPH]
35.	<i>Keiferia lycopersicella</i> (Walsingham) [GNORLY]
36.	<i>Lopholeucaspis japonica</i> Cockerell [LOPLJA]
37.	<i>Liriomyza sativae</i> Blanchard [LIRISA]
38.	<i>Listronotus bonariensis</i> (Kuschel) [HYROBO]
39.	<i>Margarodes</i> , non-European species [1MARGG], such as: (a) <i>Margarodes prieskaensis</i> (Jakubski) [MARGPR]; (b) <i>Margarodes vitis</i> (Philippi) [MARGVI]; (c) <i>Margarodes vredendalensis</i> de Klerk [MARGVR].
40.	<i>Monochamus</i> spp. (non-European populations) [1MONCG]
41.	<i>Myndus crudus</i> van Duzee [MYNDCR]
42.	<i>Naupactus leucoloma</i> Boheman [GRAGLE]
43.	<i>Neoleucinodes elegantalis</i> (Guenée) [NEOLEL]
44.	<i>Oemona hirta</i> (Fabricius) [OEMOHI]
45.	<i>Oligonychus perditus</i> Pritchard and Baker [OLIGPD]
46.	<i>Pissodes cibriani</i> O'Brien
47.	<i>Pissodes fasciatus</i> Leconte [PISOFA]
48.	<i>Pissodes nemorensis</i> Germar [PISONE]

49.	<i>Pissodes nitidus</i> Roelofs [PISONI]
50.	<i>Pissodes punctatus</i> Langor & Zhang [PISOPU]
51.	<i>Pissodes strobi</i> (Peck) [PISOST]
52.	<i>Pissodes terminalis</i> Hopping [PISOTE]
53.	<i>Pissodes yunnanensis</i> Langor & Zhang [PISOYU]
54.	<i>Pissodes zitacuarensis</i> Sleeper
55.	<i>Polygraphus proximus</i> Blandford [POLGPR]
56.	<i>Premnotrypes</i> spp. (non-European) [1PREMG]
57.	<i>Pseudopityophthorus minutissimus</i> (Zimmermann) [PSDPMI]
58.	<i>Pseudopityophthorus pruinus</i> (Eichhoff) [PSDPPR]
59.	<i>Rhizococcus hibisci</i> Kawai and Takagi [RHIOHI]
60.	<i>Rhynchophorus palmarum</i> (L.) [RHYCPA]
61.	<i>Saperda candida</i> Fabricius [SAPECN]
62.	<i>Scirtothrips aurantii</i> Faure [SCITAU]
63.	<i>Scirtothrips citri</i> (Moulton) [SCITCI]
64.	<i>Scirtothrips dorsalis</i> Hood [SCITDO]
65.	<i>Scolytidae</i> spp. (non-European) [1SCOLF]
66.	<i>Spodoptera eridania</i> (Cramer) [PRODER]
67.	<i>Spodoptera frugiperda</i> (Smith) [LAPHFR]
68.	<i>Spodoptera litura</i> (Fabricius) [PRODLI]
69.	<i>Tecia solanivora</i> (Povolný) [TECASO]
70.	<i>Tephritidae</i> (non-European) [1TEPHF], such as: (a) <i>Anastrepha fraterculus</i> (Wiedemann) [ANSTFR]; (b) <i>Anastrepha ludens</i> (Loew) [ANSTLU]; (c) <i>Anastrepha obliqua</i> (Macquart) [ANSTOB]; (d) <i>Anastrepha suspensa</i> (Loew) [ANSTSU]; (e) <i>Bactrocera dorsalis</i> (Hendel) [DACUDO]; (f) <i>Bactrocera tryoni</i> (Froggatt) [DACUTR];

7.	<i>Xiphinema inaequale</i> Khan et Ahmad [XIPHNA]
8.	<i>Xiphinema intermedium</i> Lamberti & Bleve-Zacheo
9.	<i>Xiphinema rivesi</i> (non-EU populations) Dalmaso [XIPHRI]
10.	<i>Xiphinema tarjanense</i> Lamberti & Bleve-Zacheo [XIPHTA]
E. Parasitic plants	
1.	<i>Arceuthobium</i> spp. [1AREG], except: <i>Arceuthobium azoricum</i> Wiens & Hawksworth [AREAZ], <i>Arceuthobium gambyi</i> Fridl and <i>Arceuthobium oxycedri</i> DC. M. Bieb. [AREOX]
F. Viruses, viroids and phytoplasmas	
1.	Beet curly top virus [BCTV00]
2.	Black raspberry latent virus [TSVBL0]
3.	Coconut cadang-cadang viroid [CCCVD0]
4.	Chrysanthemum stem necrosis virus [CSNV00]
5.	Citrus tristeza virus (non-EU isolates) [CTV000]
6.	Citrus leprosis viruses [CILV00]: (a) CiLV-C [CILVC0]; (b) CiLV-C2 [CILVC2]; (c) HGSV-2 [HGSV20] (d) Citrus strain of OFV [OFV00] (citrus strain); (e) CiLV-N <i>sensu novo</i> .
7.	Palm lethal yellowing phytoplasmas [PHYP56]
8.	Potato viruses, viroids and phytoplasmas, such as: (a) Andean potato latent virus [APLV00]; (b) Andean potato mottle virus [APMOV0]; (c) Arracacha virus B, oca strain [AVBO00]; (d) Potato black ringspot virus [PBRSV0];

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

	(e) Potato virus T [PVT000]; (f) Non-European isolates of potato viruses A, M, S, V, X and Y (including Y^o, Yⁿ and Y^c) and Potato leafroll virus [PVA000, PVM000, PVS000, PVV000, PVX000, PVY000 (including Y^o, PVYN00, PVYC00)] and [PLRV00].
9.	Satsuma dwarf virus [SDV000]
10.	Tobacco ringspot virus [TRSV00]
11.	Tomato ringspot virus [TORSV0]
12.	Viruses, viroids and phytoplasmas of <i>Cydonia</i> Mill., <i>Fragaria</i> L., <i>Malus</i> Mill., <i>Prunus</i> L., <i>Pyrus</i> L., <i>Ribes</i> L., <i>Rubus</i> L. and <i>Vitis</i> L., such as: (a) Blueberry leaf mottle virus [BLMOV0]; (b) Cherry rasp leaf virus [CRLV00]; (c) Peach mosaic virus [PCMV00]; (d) Peach rosette mosaic virus [PRMV00]; (e) American plum line pattern virus [APLPV0]; (f) Raspberry leaf curl virus [RLCV00]; (g) Strawberry witches' broom phytoplasma [SYWB00]; (h) Non-European viruses, viroids and phytoplasmas of <i>Cydonia</i> Mill., <i>Fragaria</i> L., <i>Malus</i> Mill., <i>Prunus</i> L., <i>Pyrus</i> L., <i>Ribes</i> L., <i>Rubus</i> L. and <i>Vitis</i> L.
13.	Begomoviruses except: Abutilon mosaic virus [ABMV00], Sweet potato leaf curl virus [SPLCV0], Tomato leaf curl New Delhi Virus [TOLCND], Tomato yellow leaf curl virus [TYLCV0], Tomato yellow leaf curl Sardinia virus [TYLCSV], Tomato yellow leaf curl Malaga virus [TYLCMA], Tomato yellow leaf curl Axarquia virus [TYLCAX]
14.	Cowpea mild mottle virus [CPMMV0]
15.	Lettuce infectious yellows virus [LIYV00]
16.	Melon yellowing-associated virus [MYAV00]
17.	Squash vein yellowing virus [SQVYVX]
18.	Sweet potato chlorotic stunt virus [SPCSV0]

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

19.	Sweet potato mild mottle virus [SPMMV0]
20.	Tomato chocolate virus [TOCHV0]
21.	Tomato marchitez virus [TOANV0]
22.	Tomato mild mottle virus [TOMMOV]
23.	Witches' broom disease of lime phytoplasma [PHYPAF]

PART B

PESTS KNOWN TO OCCUR IN THE UNION TERRITORY

	Quarantine Pests and their codes assigned by EPPO
A. Bacteria	
1.	<i>Clavibacter sepedonicus</i> (Spieckermann and Kottho) Nouioui <i>et al.</i> [CORBSE]
2.	<i>Ralstonia solanacearum</i> (Smith) Yabuuchi <i>et al.</i> emend. Safni <i>et al.</i> [RALSSL]
3.	<i>Xylella fastidiosa</i> (Wells <i>et al.</i>) [XYLEFA]
B. Fungi and oomycetes	
1.	<i>Ceratocystis platani</i> (J. M. Walter) Engelbr. & T. C. Harr [CERAFP]
2.	<i>Fusarium circinatum</i> Nirenberg & O'Donnell [GIBBCI]
3.	<i>Geosmithia morbida</i> Kolarik, Freeland, Utley & Tisserat [GEOHMO]
4.	<i>Synchytrium endobioticum</i> (Schilb.) Percival [SYNCEN]
C. Insects and mites	
1.	<i>Aleurocanthus spiniferus</i> (Quaintance) [ALECSN]
2.	<i>Anoplophora chinensis</i> (Thomson) [ANOLCN]
3.	<i>Aromia bungii</i> (Faldermann) [AROMBU]
4.	<i>Pityophthorus juglandis</i> Blackman [PITOJU]
5.	<i>Popillia japonica</i> Newman [POPIJA]
6.	<i>Toxoptera citricida</i> (Kirkaldy) [TOXOCI]
7.	<i>Trioza erytreae</i> Del Guercio [TRIZER]
D. Molluscs	
1.	Pomacea (Perry) [1POMAG]

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

E. Nematodes	
1.	<i>Bursaphelenchus xylophilus</i> (Steiner and Bührer) Nickle <i>et al.</i> [BURSXY]
2.	<i>Globodera pallida</i> (Stone) Behrens [HETDPA]
3.	<i>Globodera rostochiensis</i> (Wollenweber) Behrens [HETDRO]
4.	<i>Meloidogyne chitwoodi</i> Golden <i>et al.</i> [MELGCH]
5.	<i>Meloidogyne fallax</i> Karssen [MELGFA]
F. Viruses, viroids and phytoplasmas	
1.	Grapevine flavescence dorée phytoplasma [PHYP64]
2.	Tomato leaf curl New Delhi virus [TOLCND]

ANNEX III

List of protected zones and the respective protected zone quarantine pests and their respective codes

The protected zones listed in the third column of the following table respectively cover one of the following:

- (a) the whole territory of the Member State listed;
- (b) the territory of the Member State listed with the exceptions specified within brackets;
- (c) only the part of the territory of the Member State which is specified within brackets.

Protected zone quarantine pests		EPPO code	Protected zones
(a) Bacteria			
1.	<i>Erwinia amylovora</i> (Burrill) Winslow <i>et al.</i>	ERWIAM	(a) Estonia; (b) Spain (except the autonomous communities of Andalucía, Aragón, Castilla la Mancha, Castilla y León, Extremadura, the autonomous community

ANNEX IV

List of Union regulated non-quarantine pests ('RNQPs') and specific plants for planting, with categories and thresholds as referred to in Article 5

PART A

RNQPs concerning fodder plant seed

RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Thresholds for pre-basic seed	Thresholds for basic seed	Thresholds for certified seed
<i>Clavibacter michiganensis</i> ssp. <i>insidiosus</i> (McCulloch 1925) Davis <i>et al.</i> [CORBIN]	<i>Medicago sativa</i> L.	0 %	0 %	0 %
<i>Ditylenchus dipsaci</i> (Kuehn) Filipjev [DITYDI]	<i>Medicago sativa</i> L.	0 %	0 %	0 %

PART B

RNQPs concerning cereal seed

Nematodes				
RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Thresholds for pre-basic seed	Thresholds for basic seed	Thresholds for certified seed
<i>Aphelenchoides besseyi</i> Christie [APLOBE]	<i>Oryza sativa</i> L.	0 %	0 %	0 %
Fungi				
<i>Gibberella fujikuroi</i> Sawada [GIBBFU]	<i>Oryza sativa</i> L.	Practically free	Practically free	Practically free

PART C

RNQPs concerning vine propagating material

Bacteria

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

RNQPs or symptoms caused by RNQPs	Plants for planting other than seeds (genus or species)	Threshold for initial propagating material, basic propagating material, certified material	Threshold for standard material
<i>Xylophilus ampelinus</i> Willems <i>et al.</i> [XANTAM]	<i>Vitis</i> L.	0 %	0 %
Insects and mites			
RNQPs or symptoms caused by RNQPs	Plants for planting other than seeds (genus or species)	Threshold for initial propagating material, basic propagating material, certified material	Threshold for standard material
<i>Viteus vitifoliae</i> Fitch [VITEVI]	Non-grafted <i>Vitis vinifera</i> L.	0 %	0 %
<i>Viteus vitifoliae</i> Fitch [VITEVI]	<i>Vitis</i> L. other than non-grafted <i>Vitis vinifera</i> L.	Practically free	Practically free
Viruses, viroids, virus-like diseases and phytoplasmas			
RNQPs or symptoms caused by RNQPs	Plants for planting other than seeds (genus or species)	Threshold for initial propagating material, basic propagating material, certified material	Threshold for standard material
<i>Arabis</i> mosaic virus [ARMV00]	<i>Vitis</i> L.	0 %	0 %
<i>Candidatus</i> Phytoplasma <i>solani</i> Quaglino <i>et al.</i> [PHYPSO]	<i>Vitis</i> L.	0 %	0 %
Grapevine fanleaf virus [GFLV00]	<i>Vitis</i> L.	0 %	0 %
Grapevine fleck virus [GFKV00]	Rootstocks of <i>Vitis</i> spp. and their hybrids, except <i>Vitis vinifera</i> L.	0 % for initial propagating material N/A for basic propagating material and certified material	Not applicable
Grapevine leafroll associated virus 1 [GLRAV1]	<i>Vitis</i> L.	0 %	0 %
Grapevine leafroll associated virus 3 [GLRAV3]	<i>Vitis</i> L.	0 %	0 %

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

PART D

RNQPs concerning propagating material of ornamental plants and other plants for planting intended for ornamental purposes

Bacteria		
RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Threshold for the propagating material of ornamental plants concerned and other plants for planting intended for ornamental purposes
<i>Erwinia amylovora</i> (Burrill) Winslow <i>et al.</i> [ERWIAM]	Plants for planting other than seeds <i>Amelanchier</i> Medik., <i>Chaenomeles</i> Lindl., <i>Cotoneaster</i> Medik., <i>Crataegus</i> Tourn. ex L., <i>Cydonia</i> Mill., <i>Eriobrya</i> Lindl., <i>Malus</i> Mill., <i>Mespilus</i> Bosc ex Spach, <i>Photinia davidiana</i> Decne., <i>Pyracantha</i> M. Roem., <i>Pyrus</i> L., <i>Sorbus</i> L.	0 %
<i>Pseudomonas syringae</i> pv. <i>persicae</i> (Prunier, Luisetti & Gardan) Young, Dye & Wilkie [PSDMPE]	Plants for planting other than seeds <i>Prunus persica</i> (L.) Batsch, <i>Prunus salicina</i> Lindl.	0 %
<i>Spiroplasma citri</i> Saglio <i>et al.</i> [SPIRCI]	Plants for planting other than seeds <i>Citrus</i> L., <i>Citrus</i> L. hybrids, <i>Fortunella</i> Swingle., <i>Fortunella</i> Swingle. hybrids, <i>Poncirus</i> Raf., <i>Poncirus</i> Raf. hybrids	0 %
<i>Xanthomonas arboricola</i> pv. <i>pruni</i> (Smith) Vauterin <i>et al.</i> [XANTPR]	Plants for planting other than seeds <i>Prunus</i> L.	0 %
<i>Xanthomonas euvesicatoria</i> Jones <i>et al.</i> [XANTEU]	<i>Capsicum annuum</i> L.	0 %
<i>Xanthomonas gardneri</i> (ex Šutič) Jones <i>et al.</i> [XANTGA]	<i>Capsicum annuum</i> L.	0 %
<i>Xanthomonas perforans</i> Jones <i>et al.</i> [XANTPF]	<i>Capsicum annuum</i> L.	0 %

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

<i>Xanthomonas vesicatoria</i> (ex Doidge) Vauterin <i>et al.</i> [XANTVE]	<i>Capsicum annuum</i> L.	0 %
Fungi and oomycetes		
RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Threshold for the propagating material of ornamental plants concerned and other plants for planting intended for ornamental purposes
<i>Cryphonectria parasitica</i> (Murrill) Barr [ENDOPA]	Plants for planting other than seeds <i>Castanea</i> L.	0 %
<i>Dothistroma pini</i> Hulbary [DOTSPI]	Plants for planting other than seeds <i>Pinus</i> L.	0 %
<i>Dothistroma septosporum</i> (Dorogin) Morelet [SCIRPI]	Plants for planting other than seeds <i>Pinus</i> L.	0 %
<i>Lecanosticta acicola</i> (von Thümen) Sydow [SCIRAC]	Plants for planting other than seeds <i>Pinus</i> L.	0 %
<i>Plasmopara halstedii</i> (Farlow) Berlese & de Toni [PLASHA]	Seeds <i>Helianthus annuus</i> L.	0 %
<i>Plenodomus tracheiphilus</i> (Petri) Gruyter, Aveskamp & Verkley [DEUTTR]	Plants for planting other than seeds <i>Citrus</i> L., <i>Citrus</i> L. hybrids, <i>Fortunella</i> Swingle, <i>Fortunella</i> Swingle hybrids, <i>Poncirus</i> Raf., <i>Poncirus</i> Raf. hybrids	0 %
<i>Puccinia horiana</i> P. Hennings [PUCCHN]	Plants for planting other than seeds <i>Chrysanthemum</i> L.	0 %
Insects and mites		
RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Threshold for the propagating material of ornamental plants concerned and other plants for planting intended for ornamental purposes
<i>Aculops fuchsiae</i> Keifer [ACUPFU]	Plants for planting other than seeds <i>Fuchsia</i> L.	0 %

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

<i>Opogona sacchari</i> Bo[OPOGSC]	Plants for planting other than seeds <i>Beaucarnea</i> Lem., <i>Bougainvillea</i> Comm. ex Juss., <i>Crassula</i> L., <i>Crinum</i> L., <i>Dracaena</i> Vand. ex L., <i>Ficus</i> L., <i>Musa</i> L., <i>Pachira</i> Aubl., <i>Palmae</i> , <i>Sansevieria</i> Thunb., <i>Yucca</i> L.	0 %
<i>Rhynchophorus ferrugineus</i> (Olivier) [RHYCFE]	Plants for planting, other than seeds <i>Palmae</i> , as regards the following genera and species: <i>Areca catechu</i> L., <i>Arenga pinnata</i> (Wurmb) Merr., <i>Bismarckia</i> Hildebr. & H. Wendl., <i>Borassus flabellifer</i> L., <i>Brahea armata</i> S. Watson, <i>Brahea edulis</i> H. Wendl., <i>Butia capitata</i> (Mart.) Becc., <i>Calamus merrillii</i> Becc., <i>Caryota maxima</i> Blume, <i>Caryota cumingii</i> Lodd. ex Mart., <i>Chamaerops humilis</i> L., <i>Cocos nucifera</i> L., <i>Corypha utan</i> Lam., <i>Copernicia</i> Mart., <i>Elaeis guineensis</i> Jacq., <i>Howea forsteriana</i> Becc., <i>Jubaea chilensis</i> (Molina) Baill., <i>Livistona australis</i> C. Martius, <i>Livistona decora</i> (W. Bull) Dowe, <i>Livistona rotundifolia</i> (Lam.) Mart., <i>Metroxylon sagu</i> Rottb., <i>Phoenix canariensis</i> Chabaud, <i>Phoenix dactylifera</i> L., <i>Phoenix reclinata</i> Jacq., <i>Phoenix roebelenii</i> O'Brien, <i>Phoenix sylvestris</i> (L.) Roxb., <i>Phoenix theophrasti</i> Greuter, <i>Pritchardia</i> Seem. & H. Wendl., <i>Ravenea rivularis</i> Jum. & H. Perrier, <i>Roystonea regia</i> (Kunth) O.F. Cook, <i>Sabal palmetto</i> (Walter) Lodd. ex Schult. & Schult.f., <i>Syagrus romanzoffiana</i> (Cham.) Glassman, <i>Trachycarpus fortunei</i> (Hook.) H. Wendl., <i>Washingtonia</i> H. Wendl.	0 %

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

Nematodes		
RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Threshold for the propagating material of ornamental plants concerned and other plants for planting intended for ornamental purposes
<i>Ditylenchus dipsaci</i> (Kuehn) Filipjev [DITYDI]	<i>Allium</i> L.	0 %
<i>Ditylenchus dipsaci</i> (Kuehn) Filipjev [DITYDI]	Plants for planting other than seeds <i>Camassia</i> Lindl., <i>Chionodoxa</i> Boiss., <i>Crocus flavus</i> Weston, <i>Galanthus</i> L., <i>Hyacinthus</i> Tourn. ex L, <i>Hymenocallis</i> Salisb., <i>Muscari</i> Mill., <i>Narcissus</i> L., <i>Ornithogalum</i> L., <i>Puschkinia</i> Adams, <i>Scilla</i> L., <i>Sternbergia</i> Waldst. & Kit., <i>Tulipa</i> L.	0 %
Viruses, viroids, virus-like diseases and phytoplasmas		
RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Threshold for the propagating material of ornamental plants concerned and other plants for planting intended for ornamental purposes
<i>Candidatus</i> Phytoplasma <i>mali</i> Seemüller & Schneider [PHYPPMA]	Plants for planting other than seeds <i>Malus</i> Mill.	0 %
<i>Candidatus</i> Phytoplasma <i>prunorum</i> Seemüller & Schneider [PHYPPR]	Plants for planting other than seeds <i>Prunus</i> L.	0 %
<i>Candidatus</i> Phytoplasma <i>pyri</i> Seemüller & Schneider [PHYPPY]	Plants for planting other than seeds <i>Pyrus</i> L.	0 %
<i>Candidatus</i> Phytoplasma <i>solani</i> Quaglino <i>et al.</i> [PHYPSO]	Plants for planting other than seeds <i>Lavandula</i> L.	0 %
Chrysanthemum stunt viroid [CSVD00]	Plants for planting other than seeds <i>Argyranthemum</i> Webb ex Sch.Bip., <i>Chrysanthemum</i> L.,	0 %
<i>Citrus</i> exocortis viroid [CEVD00]	Plants for planting other than seeds <i>Citrus</i> L.	0 %

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

<i>Citrus tristeza virus</i> [CTV000] (EU isolates)	Plants for planting other than seeds <i>Citrus</i> L., <i>Citrus</i> L. hybrids, <i>Fortunella</i> Swingle, <i>Fortunella</i> Swingle hybrids, <i>Poncirus</i> Raf., <i>Poncirus</i> Raf. Hybrids,	0 %
<i>Impatiens necrotic spot tospovirus</i> [INSV00]	Plants for planting other than seeds <i>Begonia x hiemalis</i> Fotsch, <i>Impatiens</i> L. New Guinea Hybrids	0 %
Potato spindle tuber viroid [PSTVD0]	<i>Capsicum annuum</i> L.,	0 %
Plum pox virus [PPV000]	Plants of the following species of <i>Prunus</i> L., intended for planting, other than seeds: <i>Prunus armeniaca</i> L., <i>Prunus blireiana</i> Andre, <i>Prunus brigantina</i> Vill., <i>Prunus cerasifera</i> Ehrh., <i>Prunus cistena</i> Hansen, <i>Prunus curdica</i> Fenzl and Fritsch., <i>Prunus domestica</i> ssp. <i>domestica</i> L., <i>Prunus domestica</i> ssp. <i>insititia</i> (L.) C.K. Schneid, <i>Prunus domestica</i> ssp. <i>italica</i> (Borkh.) Hegi., <i>Prunus dulcis</i> (Mill.) D. A. Webb, <i>Prunus glandulosa</i> Thunb., <i>Prunus holosericea</i> Batal., <i>Prunus hortulana</i> Bailey, <i>Prunus japonica</i> Thunb., <i>Prunus mandshurica</i> (Maxim.) Koehne, <i>Prunus maritima</i> Marsh., <i>Prunus mume</i> Sieb. and Zucc., <i>Prunus nigra</i> Ait., <i>Prunus persica</i> (L.) Batsch, <i>Prunus salicina</i> L., <i>Prunus sibirica</i> L., <i>Prunus simonii</i> Carr., <i>Prunus spinosa</i> L., <i>Prunus tomentosa</i> Thunb., <i>Prunus triloba</i> Lindl., other species of <i>Prunus</i> L. susceptible to Plum pox virus	0 %
Tomato spotted wilt tospovirus [TSWV00]	Plants for planting other than seeds <i>Begonia x hiemalis</i>	0 %

Fotsch, *Capsicum annuum* L., *Chrysanthemum* L., *Gerbera* L., *Impatiens* L. New Guinea Hybrids, *Pelargonium* L.

PART E

RNQP concerning forest reproductive material, other than seeds

Fungi and oomycetes		
RNQP or symptoms caused by RNQPs	Plants for planting (genus or species)	Threshold for the forest reproductive material concerned
<i>Cryphonectria parasitica</i> (Murrill) Barr [ENDOPA]	<i>Castanea sativa</i> Mill.	0 %
<i>Dothistroma pini</i> Hulbary [DOTSPI]	<i>Pinus</i> L.	0 %
<i>Dothistroma septosporum</i> (Dorogin) Morelet [SCIRPI]	<i>Pinus</i> L.	0 %
<i>Lecanosticta acicola</i> (von Thümen) Sydow [SCIRAC]	<i>Pinus</i> L.	0 %

PART F

RNQP concerning vegetable seed

Bacteria		
RNQP or symptoms caused by RNQPs	Plants for planting (genus or species)	Threshold for the vegetable seed concerned
<i>Clavibacter michiganensis</i> ssp. <i>michiganensis</i> (Smith) Davis <i>et al.</i> [CORBMI]	<i>Solanum lycopersicum</i> L.	0 %
<i>Xanthomonas axonopodis</i> pv. <i>phaseoli</i> (Smith) Vauterin <i>et al.</i> [XANTPH]	<i>Phaseolus vulgaris</i> L.	0 %
<i>Xanthomonas fuscans</i> subsp. <i>fuscans</i> Schaad <i>et al.</i> [XANTFF]	<i>Phaseolus vulgaris</i> L.	0 %
<i>Xanthomonas euvesicatoria</i> Jones <i>et al.</i> [XANTEU]	<i>Capsicum annuum</i> L., <i>Solanum lycopersicum</i> L.	0 %
<i>Xanthomonas gardneri</i> (ex Šutić 1957) Jones <i>et al.</i> [XANTGA]	<i>Capsicum annuum</i> L., <i>Solanum lycopersicum</i> L.	0 %

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

<i>Xanthomonas perforans</i> Jones <i>et al.</i> [XANTPF]	<i>Capsicum annuum</i> L., <i>Solanum lycopersicum</i> L.	0 %
<i>Xanthomonas vesicatoria</i> (ex Doidge) Vauterin <i>et al.</i> [XANTVE]	<i>Capsicum annuum</i> L., <i>Solanum lycopersicum</i> L.	0 %
Insects and mites		
RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Threshold for the vegetable seed concerned
<i>Acanthoscelides obtectus</i> (Say) [ACANOB]	<i>Phaseolus coccineus</i> L., <i>Phaseolus vulgaris</i> L.	0 %
<i>Bruchus pisorum</i> (Linnaeus) [BRCHPI]	<i>Pisum sativum</i> L.,	0 %
<i>Bruchus rufimanus</i> Boheman [BRCHRU]	<i>Vicia faba</i> L	0 %
Nematodes		
RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Threshold for the vegetable seed concerned
<i>Ditylenchus dipsaci</i> (Kuehn) Filipjev [DITYDI]	<i>Allium cepa</i> L., <i>Allium porrum</i> L	0 %
Viruses, viroids, virus-like diseases and phytoplasmas		
RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Threshold for the vegetable seed concerned
Pepino mosaic virus [PEPMV0]	<i>Solanum lycopersicum</i> L.	0 %
Potato spindle tuber viroid [PSTVD0]	<i>Capsicum annuum</i> L., <i>Solanum lycopersicum</i> L.	0 %

ANNEX V

Measures to prevent the presence of RNQPs on specific plants for planting

PART A

Measures to prevent the presence of RNQPs on fodder plant seed

1. Inspection of the crop

- (1) The competent authority, or the professional operator under the official supervision of the competent authority, shall carry out field inspections on the crop from which the fodder plant seed is produced concerning the presence of RNQPs in the crop to ensure that the presence of the RNQPs does not exceed the thresholds set out in this table:

RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Thresholds for production of pre-basic seed	Thresholds for the production of basic seed	Thresholds for the production of certified seed
<i>Clavibacter michiganensis</i> ssp. <i>insidiosus</i> (McCulloch 1925) Davis <i>et al.</i> [CORBIN]	<i>Medicago sativa</i> L.	0 %	0 %	0 %
<i>Ditylenchus dipsaci</i> (Kuehn) Filipjev [DITYDI]	<i>Medicago sativa</i> L.	0 %	0 %	0 %

The competent authority may authorise inspectors, other than the professional operators, to carry out the field inspections on its behalf and under its official supervision.

- (2) Those field inspections shall be carried out when the condition and the stage of development of the crop allow for an adequate inspection. There shall be at least one field inspection per year, at the most appropriate time for the detection of the respective RNQPs.
- (3) The competent authority shall determine the size, the number and the distribution of the portions of the field to be inspected in accordance with appropriate methods.

The proportion of the crops for the production of seed to be officially inspected by the competent authority shall be at least 5 %.

2. Sampling and testing of fodder plant seed

- (1) The competent authority shall:
- (a) officially draw seed samples from lots of fodder plant seed;
 - (b) authorise seed samplers to carry out sampling on its behalf and under its official supervision;

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

- (c) compare the seed samples drawn by itself with those of the same seed lot drawn by the seed samplers under official supervision as referred to in point (b);
- (d) supervise the performance of the seed samplers provided for in point (2).
- (2) The competent authority or the professional operator under official supervision shall sample and test the fodder plant seed in accordance with up to date international methods.

Except for automatic sampling, the competent authority shall check-sample a proportion of at least 5 % of the seed lots entered for official certification. That proportion shall be as evenly spread as possible over natural and legal persons entering seed for certification, and the species entered, but may also be aimed at eliminating specific doubts.

- (3) For automatic sampling, appropriate procedures shall be applied and it shall be officially supervised.

For the examination of seed for certification, samples shall be drawn from homogeneous lots. As regards the lot and sample weights, the table of Annex III to Directive 66/401/EEC shall apply.

3. Additional measures for certain plant species

The competent authorities, or the professional operators under the official supervision of the competent authorities, shall carry out the following additional inspections or take any other actions for certain plant species to ensure that the requirements, concerning the respective RNQPs and plants for planting, are fulfilled.

- (1) the pre-basic, basic and certified seeds of *Medicago sativa* L. to prevent the presence of *Clavibacter michiganensis* ssp. *insidiosus*, and in order to ascertain that:
 - (a) the seeds originate in areas known to be free from *Clavibacter michiganensis* spp. *insidiosus*; or
 - (b) the crop has been grown on land on which no previous *Medicago sativa* L. crop has been present during the last three years prior to sowing, and no symptoms of *Clavibacter michiganensis* ssp. *insidiosus* are observed during field inspection at the site of production or no symptoms of *Clavibacter michiganensis* ssp. *insidiosus* have been observed on any *Medicago sativa* L. crop adjacent to it, during the previous cropping; or
 - (c) the crop belongs to a variety recognised as being highly resistant to *Clavibacter michiganensis* ssp. *insidiosus* and the content of inert matter shall not exceed 0,1 % by weight;
- (2) the pre-basic, basic and certified seed of *Medicago sativa* L. to prevent the presence of *Ditylenchus dipsaci*, and in order to ascertain that:
 - (a) no symptoms of *Ditylenchus dipsaci* have been observed at the site of production during the previous cropping and no main host crops have been grown during the two preceding years on the site of production and appropriate hygiene measures have been taken to prevent infestation of the place of production; or
 - (b) no symptoms of *Ditylenchus dipsaci* have been observed at the site of production during the previous cropping and no *Ditylenchus dipsaci* has been found by laboratory tests on a representative sample; or

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

- (c) the seeds have been subjected to an appropriate physical or chemical treatment against *Ditylenchus dipsaci* and have been found to be free of this pest after laboratory tests on a representative sample.

PART B

Measures concerning cereal seed

1. Inspection of the crop

- (1) The competent authority, or the professional operator under the official supervision of the competent authority, shall carry out field inspections on the crop from which the cereal seed is produced, to confirm that the presence of the RNQPs does not exceed the thresholds set out in this table:

Fungi and oomycetes				
RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Thresholds for the production of pre-basic seed	Thresholds for the production of basic seed	Thresholds for the production of certified seed
<i>Gibberella fujikuroi</i> Sawada [GIBBFU]	<i>Oryza sativa</i> L.	Not more than 2 symptomatic plants per 200 m ² seen during field inspections at appropriate times of a representative sample of the plants in each crop.	Not more than 2 symptomatic plants per 200 m ² seen during field inspections at appropriate times of a representative sample of the plants in each crop.	Certified seed of the first generation (C1): Not more than 4 symptomatic plants per 200 m ² seen during field inspections at appropriate times of a representative sample of the plants in each crop. Certified seed of the second generation (C2): Not more than 8 symptomatic plants per 200 m ² seen during field inspections at appropriate times of a representative sample of the plants in each crop.
Nematodes				

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Thresholds for the production of pre-basic seed	Thresholds for the production of basic seed	Thresholds for the production of certified seed
<i>Aphelenchoides besseyi</i> Christie [APLOBE]	<i>Oryza sativa</i> L.	0 %	0 %	0 %

The competent authority may authorise inspectors, other than professional operators, to carry out the field inspections on its behalf and under its official supervision.

- (2) Those field inspections shall be carried out when the condition and the stage of development of the crop allow for an adequate inspection.

There shall be at least one field inspection per year, at the most appropriate time for the detection of the respective RNQPs.

- (3) The competent authority shall determine the size, the number and the distribution of the portions of the field to be inspected in accordance with appropriate methods.

The proportion of the crops for the production of seed to be officially inspected by the competent authority shall be at least 5 %

2. Sampling and testing of cereal seed

- (1) The competent authority shall:
- (a) officially draw seed samples from lots of cereal seed;
 - (b) authorise seed samplers to carry out sampling on its behalf and under official supervision;
 - (c) compare the seed samples drawn by itself with those of the same seed lot drawn by the seed samples under official supervision as referred to in point (b);
 - (d) supervise the performance of the seed samplers as provided for in point (2).
- (2) The competent authority or the professional operator under the official supervision shall sample and test the cereal seed in accordance with up to date international methods.

Except for automatic sampling, the competent authority shall check-sample a proportion of at least 5 % of the seed lots entered for official certification. That proportion shall be as evenly spread as possible over natural and legal persons entering seed for certification, and the species entered, but may also be aimed at eliminating specific doubts.

- (3) For automatic sampling, appropriate procedures shall be applied and it shall be officially supervised.

For the examination of seed for certification, samples shall be drawn from homogeneous lots. As regards the lot and sample weights, the provisions of the table of Annex III to Directive 66/402/EEC shall apply.

3. Additional measures for seeds of *Oryza sativa* L.

The competent authority, or the professional operator under the official supervision of the competent authority, shall carry out the following additional inspections or take any other actions

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

to ensure that the requirements concerning the respective RNQPs for the seed of *Oryza sativa* L. are fulfilled:

Seeds of *Oryza sativa* L. shall fulfil one of the following requirements:

- (a) originates in area known to be free from *Aphelenchoides besseyi*;
- (b) has been officially tested by the competent authorities by appropriate nematological tests on a representative sample from each lot, and have been found free from *Aphelenchoides besseyi*;
- (c) has been subjected to an appropriate hot water treatment or other appropriate treatment against *Aphelenchoides besseyi*.

PART C

Measures to prevent the presence of RNQPs on propagating material of ornamental plants and other plants for planting intended for ornamental purposes

The following measures shall be taken concerning the respective RNQPs and:

The competent authority, or the professional operator under the official supervision of the competent authority, shall carry out checks and take any other actions to ensure that the requirements, concerning the respective RNQPs and plants for planting, provided for in the following table, are fulfilled

Bacteria		
RNQPs or symptoms caused by RNQPs	Plants for planting	Requirements
<i>Erwinia amylovora</i> (Burrill) Winslow <i>et al.</i>	Plants for planting other than seeds <i>Amelanchier</i> Medik., <i>Chaenomeles</i> Lindl., <i>Cotoneaster</i> Medik., <i>Crataegus</i> Tourn. ex L., <i>Cydonia</i> Mill., <i>Eriobrya</i> Lindl., <i>Malus</i> Mill., <i>Mespilus</i> Bosc ex Spach, <i>Photinia davidiana</i> Decne., <i>Pyracantha</i> M. Roem., <i>Pyrus</i> L., <i>Sorbus</i> L.	(a) the plants have been produced in areas known to be free from <i>Erwinia amylovora</i> (Burrill) Winslow <i>et al.</i> ; or (b) the plants have been grown in a production site that has been visually inspected at an appropriate time to detect the pest during the last growing season for the detection of that pest and plants showing symptoms of that pest, and any surrounding host plants, have been immediately rogued out and destroyed.

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

<i>Pseudomonas syringae</i> pv. <i>persicae</i> (Prunier, Luisetti & Gardan) Young, Dye & Wilkie	Plants for planting other than seeds <i>Prunus persica</i> (L.) Batsch, <i>Prunus salicina</i> Lindl.	(a) the plants have been produced in areas known to be free from <i>Pseudomonas syringae</i> pv. <i>persicae</i> (Prunier, Luisetti & Gardan) Young, Dye & Wilkie; or (b) the plants have grown in a site of production found free from the <i>Pseudomonas syringae</i> pv. <i>persicae</i> (Prunier, Luisetti & Gardan) Young, Dye & Wilkie over the last complete growing season by visual inspection, and any symptomatic plants in the immediate vicinity have been rogued out and destroyed immediately; or (c) no more than 2 % of plants in the lot have shown symptoms during visual inspections, at appropriate times to detect the pest during the last growing season, and those symptomatic plants and any symptomatic plants in the immediate vicinity have been rogued out and destroyed immediately.
<i>Spiroplasma citri</i> Saglio	Plants for planting other than seeds <i>Citrus</i> L., <i>Citrus</i> L. hybrids, <i>Fortunella</i> Swingle., <i>Fortunella</i> Swingle. hybrids,	The plants derive from mother plants which have been visually inspected, at the most appropriate time to detect the pest, and found

PART D

Measures to prevent the presence of RNQPs on forest reproductive material, other than seeds

1. Visual inspections

The competent authority, or the professional operator under the official supervision of the competent authority, shall carry out checks and take any other actions to ensure that the requirements, concerning the respective RNQPs and plants for planting, are fulfilled:

- (a) forest reproductive material, other than seeds, of *Castanea sativa* Mill. is found free from *Cryphonectria parasitica* upon visual inspection at the production site or place;
- (b) forest reproductive material, other than seeds, of *Pinus* spp. is found free from *Dothistroma pini*, *Dothistroma septosporum* and *Lecanosticta acicola*, upon visual inspection at the production site or place.

The visual inspections shall take place once a year, in the most appropriate period to detect those pests, taking into account the climatic conditions and the growing conditions of the plant, and the biology of the respective pests.

2. Requirements per genera or species and category

The competent authority, or the professional operator under the official supervision of the competent authority, shall carry out checks and take all other actions, concerning the following genera or species, to ensure that:

***Castanea sativa* Mill.**

- (a) the forest reproductive material originates in areas known to be free from *Cryphonectria parasitica*; or
- (b) no symptoms of *Cryphonectria parasitica* have been observed at the place or site of production over the last complete growing season; or
- (c) forest reproductive material showing symptoms of *Cryphonectria parasitica* in the place or site of production has been rogued out, the remaining material has been inspected at weekly intervals and no symptoms of that pest have been observed at the place or site of production for at least three weeks before movement of that material.

***Pinus* spp.**

- (a) the forest reproductive material originates in areas known to be free from *Dothistroma pini*, *Dothistroma septosporum* and *Lecanosticta acicola*; or
- (b) no symptoms of needle blight, caused by *Dothistroma pini*, *Dothistroma septosporum* or *Lecanosticta acicola*, have been observed at the place or site of production or its immediate vicinity over the last complete growing season; or
- (c) appropriate treatments have been carried out in the place or site of production against needle blight, caused by *Dothistroma pini*, *Dothistroma septosporum* or *Lecanosticta acicola*, and the forest reproductive material has been visually inspected before movement and found free from symptoms of *Dothistroma pini*, *Dothistroma septosporum* or *Lecanosticta acicola*.

PART E

Measures to prevent the presence of the RNQPs on vegetable seed

The following measures shall be taken concerning the respective RNQPs and plants for planting: the competent authority, or the professional operator under the official supervision of the competent authority, shall carry out checks and take any other actions to ensure that the requirements, concerning the respective RNQPs and plants for planting, provided for in the third column of the following table, are fulfilled.

Bacteria		
RNQPs or symptoms caused by RNQPs	Plants for planting	Requirements
<i>Clavibacter michiganensis</i> ssp. <i>michiganensis</i> (Smith) Davis <i>et al.</i>	<i>Solanum lycopersicum</i> L.	(a) the seeds have been obtained by means of an appropriate acid extraction method or an equivalent method; and (b) (i) the seeds originate in areas known to be free from <i>Clavibacter michiganensis</i> ssp. <i>michiganensis</i> (Smith) Davis <i>et al.</i>; or (ii) no symptoms of disease caused by <i>Clavibacter michiganensis</i> ssp. <i>michiganensis</i> (Smith) Davis <i>et al.</i> have been observed in visual inspections at appropriate times to

PART F

Measures to prevent the presence of the RNQPs on seed potatoes

The competent authority or, if so required, the professional operator under the official supervision of the competent authority, shall carry out checks and take any other actions to ensure that the requirements concerning the respective RNQPs and plants for planting, provided for in the following table, are fulfilled.

RNQPs or symptoms caused by RNQPs	Plants for planting	Requirements
Blackleg (<i>Dickeya</i> Samson <i>et al.</i> spp.; <i>Pectobacterium</i> Waldee emend. Hauben <i>et al.</i> spp.)	<i>Solanum tuberosum</i> L.	(a) In the case of pre-basic seed potatoes: official inspections show that they derive from mother plants which are free from <i>Dickeya</i> Samson <i>et al.</i> spp. and <i>Pectobacterium</i> Waldee emend. Hauben <i>et al.</i> spp. (b) In the case of all categories: the growing plants have been subjected to official field inspection by competent authorities.
<i>Candidatus</i> Liberibacter solanacearum Liefting <i>et al.</i>	<i>Solanum tuberosum</i> L.	(a) In the case of pre-basic seed potatoes: official inspections show that they derive from mother plants which are free from <i>Candidatus</i> Liberibacter solanacearum Liefting <i>et al.</i>. (b) In the case of all categories: (i) plants have been produced in areas known to be free from <i>Candidatus</i> Liberibacter

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

		<i>solanacearum</i> Liefiting <i>et al.</i>, taking into account the possible presence of the vectors; or (ii) no symptoms of <i>Candidatus</i> Liberibacter <i>solanacearum</i> Liefiting <i>et al.</i> have been seen during official inspections by competent authorities of growing plants at the site of production since the start of the last complete cycle of vegetation.
<i>Candidatus</i> Phytoplasma <i>solani</i> Quaglino <i>et al.</i>	<i>Solanum tuberosum</i> L.	(a) In the case of pre-basic seed potatoes: official inspections show that they derive from mother plants which are free from <i>Candidatus</i> Phytoplasma <i>solani</i> Quaglino <i>et al.</i> (b) In the case of all categories: (i) no symptoms of

		Candidatus Phytoplasma solani Quaglino et al. have been seen at the place of production during official inspection since the start of the last complete cycle of vegetation; or (ii) any plants at the site of production showing symptoms have been rogued out, with their progeny tubers, and destroyed, for any stocks in which symptoms have been seen in the growing crop, official post harvest tuber testing has been carried out, for each lot, to confirm the absence of

			<i>Candidatus Phytoplasma solani Quaglino et al.</i>
Mosaic symptoms caused by viruses and: symptoms caused by: — Potato leaf roll virus	<i>Solanum tuberosum</i> L.	(a)	In the case of pre-basic seed potatoes: they derive from mother plants which are free from Potato virus A, Potato virus M, Potato virus S, Potato virus X, Potato virus Y and Potato leaf roll virus. Where methods of micro-propagation are used, compliance with this point shall be established by official testing, or testing under official supervision, of the mother plant. Where methods of clonal selection are used, compliance with this point shall be established by official testing, or testing under official supervision, of the clonal stock.
		(b)	In the case of all categories, the growing plants have been subjected to official inspection by the competent authorities.
Potato spindle tuber viroid	<i>Solanum tuberosum</i> L.	(a)	In the case of clonal stock: Official testing, or testing under official supervision, has shown that they derive from mother plants which are free from Potato spindle tuber viroid.

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

		(b) In the case of pre-basic and basic seed potatoes: no symptoms of Potato spindle tuber viroid have been found. or for each lot, official post-harvest testing of tubers have been performed and those tubers have been found free from Potato spindle tuber viroid. (c) In the case of certified seed potatoes, official visual inspection has shown that they are free from the pest, and testing is carried out if any symptoms of the pest are seen.

RNQPs or symptoms caused by RNQPs	Plants for planting	Requirements
Symptoms of virus infection	<i>Solanum tuberosum</i> L.	During official inspection of the direct progeny, the number of symptomatic plants shall not exceed the percentage indicated in Annex IV.

RNQPs or symptoms caused by RNQPs	Plants for planting	Requirements
<i>Candidatus Liberibacter solanacearum</i> Liefting <i>et al.</i>	<i>Solanum tuberosum</i> L.	The competent authority has subjected the lots to official inspection and confirms that they comply with the respective provisions of Annex IV.
<i>Ditylenchus destructor</i> Thorne	<i>Solanum tuberosum</i> L.	The competent authority has subjected the lots to official inspection and confirms that they comply with the respective provisions of Annex IV.

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

Black scurf affecting tubers over more than 10 % of their surface as caused by <i>Thanatephorus cucumeris</i> (A.B. Frank) Donk	<i>Solanum tuberosum</i> L	The competent authority has subjected the lots to official inspection and confirms that they comply with the respective provisions of Annex IV.
Powdery scab affecting tubers over more than 10 % of their surface as caused by <i>Spongospora subterranea</i> (Wallr.) Lagerh.	<i>Solanum tuberosum</i> L	The competent authority has subjected the lots to official inspection and confirms that they comply with the respective provisions of Annex IV.

In addition, the competent authorities shall carry out official inspections to ensure that the presence of RNQPs on the growing plants shall not exceed the thresholds set out in the following table:

RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Threshold for the growing plants for pre-basic seed potatoes		Threshold for the growing plants for basic seed potatoes	Threshold for the growing plants for certified seed potatoes

PART G

Measures to prevent the presence of RNQPs on seed of oil and fibre plants

1. Inspection of the crop

- (1) The competent authority, or the professional operator under the official supervision of the competent authority, shall carry out field inspections on the crop from which the seed of oil and fibre plants is produced to ensure that the presence of the RNQPs does not exceed the thresholds set out in the following table:

Fungi and oomycetes				
RNQPs or symptoms caused by RNQPs	Plants for planting (genus or species)	Thresholds for the production of pre-basic seed	Thresholds for the production of basic seed	Thresholds for the production of certified seed
<i>Plasmopara halstedii</i> (Farlow) Berlese & de Toni [PLASHA]	<i>Helianthus annuus</i> L.	0 %	0 %	0 %

The competent authority may authorise inspectors, other than the professional operators, to carry out the field inspections on its behalf and under its official supervision.

- (2) Those field inspections shall be carried out when the condition and the stage of development of the crop allow for an adequate inspection.

There shall be at least one field inspection per year, at the most appropriate time for the detection of the respective RNQPs.

- (3) The competent authority shall determine the size, the number and the distribution of the portions of the field to be inspected in accordance with appropriate methods.

The proportion of the crops for the production of seed to be officially inspected by the competent authority shall be at least 5 %.

2. Sampling and testing of seed of oil and fibre plants

- (1) The competent authority shall:
- (a) officially draw seed samples from lots of seed of oil and fibre plants;
 - (b) authorise seed samplers to carry out sampling, on its behalf and under its official supervision;

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

- (c) compare the seed samples drawn by itself with those of the same seed lot drawn by the seed samplers under official supervision;
- (d) supervise the performance of the seed samplers as provided for in point (b).
- (2) The competent authority or the professional operator under the official supervision shall sample and test the seed of oil and fibre plants in accordance with up to date international methods.

Except for automatic sampling, the competent authority shall check-sample a proportion of at least 5 % of the seed lots entered for certification. That proportion shall be as evenly spread as possible over natural and legal persons entering seed for certification, and the species entered, but may also be aimed at eliminating specific doubts.

- (3) For automatic sampling, appropriate procedures shall be applied and it shall be officially supervised.
- (4) For the examination of seed for certification and the examination of commercial seed, samples shall be drawn from homogeneous lots. As regards the lot and sample weights, the table of Annex III to Directive 2002/57/EC shall apply.

3. Additional measures for seed of oil and fibre plants

The competent authority, or the professional operator under the official supervision of the competent authority, shall carry out the following additional inspections and take any other actions to ensure that the requirements, concerning the respective RNQPs and plants for planting, are fulfilled:

- (1) Measures on seed of *Helianthus annuus* L. to prevent the presence of *Plasmopara halstedii*
 - (a) the seeds of *Helianthus annuus* L. originate in areas known to be free from *Plasmopara halstedii*;
or
 - (b) no symptoms of *Plasmopara halstedii* have been observed at the production site in at least two inspections at appropriate times during the growing season;
or
 - (c)
 - (i) the production site has been subject to at least two field inspections at appropriate times to detect the pest during the growing season; and
 - (ii) no more than 5 % of plants have shown symptoms of *Plasmopara halstedii* during field inspection, all plants showing symptoms of *Plasmopara halstedii* have been removed and destroyed immediately after inspection; and
 - (iii) at the final inspection no plants have been found showing symptoms of *Plasmopara halstedii*;
or
 - (d)
 - (i) the production site has been subject to at least two field inspections at appropriate times during the growing season; and

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

- (ii) all plants showing symptoms of *Plasmopara halstedii* have been removed and destroyed immediately after inspection; and
 - (iii) at the final inspection, no plants have been found showing symptoms of *Plasmopara halstedii*, and a representative sample from each lot has been tested and found free from *Plasmopara halstedii* or (e) the seeds have been subjected to an appropriate treatment which has been demonstrated to be effective against all known strains of *Plasmopara halstedii* (Farlow) Berlese & de Toni.
- (2) Measures on seeds of *Helianthus annuus* L. and *Linum usitatissimum* L. to prevent the presence of *Botrytis cinerea*
 - (a) seed treatment authorised for use against *Botrytis cinerea* has been applied;
 - or
 - (b) the set tolerance on seed is not exceeded on the basis of laboratory test of a representative sample.
- (3) Measures on seeds of *Glycine max* (L.) Merrill to prevent the presence of *Diaporthe caulivora* (*Diaporthe phaseolorum* var. *caulivora*)
 - (a) Seed treatment authorised for use against *Diaporthe caulivora* (*Diaporthe phaseolorum* var. *caulivora*) has been applied;
 - or
 - (b) the set tolerance on seed is not exceeded on the basis of laboratory test of a representative sample.
- (4) Measures on seeds of *Glycine max* (L.) Merrill to prevent the presence of *Diaporthe* var. *sojae*
 - (a) seed treatment authorised for use against *Diaporthe* var. *sojae* has been applied;
 - or
 - (b) the set tolerance on seed is not exceeded on the basis of laboratory test of a representative sample.
- (5) Measures on seeds of *Linum usitatissimum* L. to prevent the presence of *Alternaria linicola*
 - (a) seed treatment authorised for use against *Alternaria linicola* has been applied;
 - or
 - (b) the set tolerance on seed is not exceeded on the basis of laboratory test of a representative sample.
- (6) Measures on seeds of *Linum usitatissimum* L. to prevent the presence of *Boeremia exigua* var. *linicola*
 - (a) seed treatment authorised for use against *Boeremia exigua* var. *linicola* has been applied;

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

or

- (b) the set tolerance on seed is not exceeded on the basis of a laboratory test of a representative sample.

(7) Measures on seeds of *Linum usitatissimum* L. to prevent the presence of *Colletotrichum lini*

- (a) seed treatment authorised for use against *Colletotrichum lini* has been applied;

or

- (b) the set tolerance on seed is not exceeded on the basis of a laboratory test of a representative sample.

(8) Measures on seeds of *Linum usitatissimum* L. to prevent the presence of *Fusarium* (anamorphic genus), other than *Fusarium oxysporum* f. sp. *albedinis* (Kill. & Maire) W.L. Gordon and *Fusarium circinatum* Nirenberg & O'Donnell.

- (a) seed treatment authorised for use against *Fusarium* (anamorphic genus), other than *Fusarium oxysporum* f. sp. *albedinis* (Kill. & Maire) W.L. Gordon and *Fusarium circinatum* Nirenberg & O'Donnell, has been applied;

or

- (b) the set tolerance on seed is not exceeded based on laboratory test of a representative sample.

PART H

Measures to prevent the presence of RNQPs on vegetable propagating and planting material, other than seeds

Visual inspection

The competent authority, or the professional operator under the official supervision of the competent authority, shall carry out checks and take any other actions to ensure that:

- (a) the plants shall at least appear, on visual inspection, to be practically free from pests listed in the table in this point, in respect of the genus or species concerned.
- (b) any plants showing visible signs or symptoms of the pests listed in the tables in this point, at the stage of the growing crop, have been treated properly immediately upon their appearance or, where appropriate, have been eliminated.
- (c) in the case of bulbs of shallots and garlic, the plants derive directly from material which, at the stage of the growing crop, has been checked and found to be practically free from any pest listed in the tables in this point.

In addition, the competent authority, or the professional operator under the official supervision of the competent authority, shall carry out checks and take any other actions to ensure that the requirements, concerning the respective RNQPs and plants for planting, provided for in the following table, are fulfilled:

Bacteria

PART I

Measures to prevent the presence of RNQPs on seed of *Solanum tuberosum* L.

The competent authority, or the professional operator under the official supervision of the competent authority, shall carry out checks and take any other actions to ensure that the following requirements are fulfilled concerning the presence of RNQPs on seed of *Solanum tuberosum*:

- (a) the seeds originate in areas where Potato spindle tuber viroid is not known to occur; or
- (b) no symptoms of diseases caused by Potato spindle tuber viroid have been observed on the plants at the place of production during their complete cycle of vegetation; or
- (c) the plants have been subjected to official testing for Potato spindle tuber viroid, on a representative sample and using appropriate methods, and have been found, in these tests, free from that pest.

PART J

Measures to prevent the presence of RNQPs on plants for planting of *Humulus lupulus* L., other than seeds

The competent authority, or the professional operator under the official supervision of the competent authority, shall carry out checks and take any other actions to ensure that the requirements, concerning the respective RNQPs and plants for planting, provided for in the third column of the following table, are fulfilled:

Fungi		
RNQPs or symptoms caused by RNQPs	Plants for planting	Measures
<i>Verticillium dahliae</i> Kleb. [VERTDA]	<i>Humulus lupulus</i> L.	(a) the plants for planting derive from mother plants which have been visually inspected at the most appropriate time and found free from symptoms of <i>Verticillium dahliae</i> ; and (b) (i) the plants for planting have been produced in a place of production known to be free from

ANNEX VIII

List of plants, plant products and other objects, originating in the Union territory and the corresponding special requirements for their movement within the Union territory

The competent authorities, or the professional operators under the official supervision of the competent authorities, shall check, at the most appropriate times to detect the respective pest as applicable, the fulfilment of the requirements laid down of the following table.

Plants, plant products and other objects		Requirements
1.	Machinery and vehicles which have been operated for agricultural or forestry purposes	The machinery or vehicles have been: (a) moved from an area free from <i>Ceratocystis platani</i> (J. M. Walter) Engelbr. & T. C. Harr., established by the competent authorities in accordance with the relevant International Standards for Phytosanitary Measures, or (b) cleaned and made free from soil and plant debris prior to movement out of the infected area.
2.	Plants for planting with roots, grown in the open air	Official statement that the place of production is known to be free from <i>Clavibacter sepedonicus</i> (Spieckermann and Kottho) Nouioui <i>et al.</i> and <i>Synchytrium endobioticum</i> (Schilb.) Percival.
3.	Plants for planting of stolon, or tuber-forming species of <i>Solanum</i> L., or their hybrids, being stored in gene banks or genetic stock collections	Official statement that the plants shall have been held under quarantine conditions and shall have been found free from any Union quarantine pests by laboratory testing. Each organisation or research body holding such material shall inform the competent authority of the material held.

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

4.	Plants for planting of stolon or tuber-forming species of <i>Solanum</i> L., or their hybrids, other than those tubers of <i>Solanum tuberosum</i> L. specified in entries 5, 6, 7, 8, or 9 and other than culture maintenance material being stored in gene banks or genetic stock collections, and other than seeds of <i>Solanum tuberosum</i> L. specified in entry 21	Official statement that the plants shall have been held under quarantine conditions and shall have been found free from any Union quarantine pests by laboratory testing. The laboratory testing shall: (a) be supervised by the competent authority concerned and executed by scientifically trained staff of that authority or of any officially approved body; (b) be executed at a site provided with appropriate facilities sufficient to contain Union quarantine pests and maintain the material including indicator plants in such a way as to eliminate any risk of spreading Union quarantine pests; (c) be executed on each unit of the material: (i) by visual examination at regular intervals during the full length of at least one vegetative cycle, having regard to the type of material and its stage of development during the testing programme, for

Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

(ii)	symptoms caused by any Union quarantine pests, by laboratory testing, in the case of all potato material at least for:
	— Andean potato latent virus,
	— Andean potato mottle virus,
	— Arracacha virus B. oca strain,
	— Potato black ringspot virus,
	— Potato virus T,
— non-European isolates of potato viruses A, M, S, V, X and Y (including Y ^o , Y ⁿ and Y ^c) and Potato

		combat <i>Clavibacter sepedonicus</i> (Spieckermann and Kottho) Nouioui et al. have been complied with.
7.	Tubers of <i>Solanum tuberosum</i> L., for planting	Official statement that the tubers originate: (a) in areas where <i>Ralstonia solanacearum</i> (Smith) Yabuuchi et al. emend. Safni et al. is known not to occur, or (b) in a place of production found free from <i>Ralstonia solanacearum</i> (Smith) Yabuuchi et al. emend. Safni et al., or considered to be free thereof, as a consequence of the implementation of an appropriate procedure aiming at eradicating <i>Ralstonia solanacearum</i> (Smith) Yabuuchi et al. emend. Safni et al.
8.	Tubers of <i>Solanum tuberosum</i> L., for planting	Official statement that the tubers originate: (a) in areas where <i>Meloidogyne chitwoodi</i> Golden et al. and <i>Meloidogyne fallax</i> Karssen are known not to occur, or (b) in areas where <i>Meloidogyne chitwoodi</i> Golden et al. and <i>Meloidogyne fallax</i> Karssen are known to occur and: (i) the tubers originate in a

		having applied an appropriate method to induce symptoms or laboratory tested, as well as inspected visually both externally and by cutting tubers, at appropriate times to detect the presence of those pests and in all cases at the time of closing of the packages, or containers before movement, and found free from symptoms of <i>Meloidogyne chitwoodi</i> Golden <i>et al.</i> and <i>Meloidogyne fallax</i> Karssen.
9.	Tubers of <i>Solanum tuberosum</i> L., for planting, other than those to be planted in accordance with point (b) of Article 4(4) of Directive 2007/33/EC	Official statement that the provisions of Union law to combat <i>Globodera pallida</i> (Stone) Behrens and <i>Globodera rostochiensis</i> (Wollenweber) Behrens are complied with.

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

10.	Tubers of <i>Solanum tuberosum</i> L., for planting, other than tubers of those varieties officially accepted in one or more Member States pursuant to Directive 2002/53/EC	Official statement that the tubers: (a) belong to advanced selections, and (b) have been produced within the Union, and (c) have been derived in direct line from material which has been maintained under appropriate conditions and has been subjected within the Union to official quarantine testing and has been found, in these tests, free from Union quarantine pests.
11.	Tubers of <i>Solanum tuberosum</i> L., other than those mentioned in entries 3, 4, 5, 6, 7, 8, 9, or 10	There shall be a registration number on the packaging, or in the case of loose-loaded tubers transported in bulk, on the accompanying documents, demonstrating that the tubers have been grown by an officially registered producer, or originate from officially registered collective storage or dispatching centres located in the area of production, and indicating that: (a) the tubers are free from <i>Ralstonia solanacearum</i> (Smith) Yabuuchi <i>et al.</i> emend. Safni <i>et al.</i> and (b) the provisions of Union law to combat <i>Synchytrium endobioticum</i> (Schilb.) Percival, and where appropriate, <i>Clavibacter sepedonicus</i> (Spieckermann and

		Kottho) Nouioui <i>et al.</i> , and <i>Globodera pallida</i> (Stone) Behrens and <i>Globodera rostochiensis</i> (Wollenweber) Behrens are complied with.
12.	Plants for planting with roots, of <i>Capsicum</i> spp., <i>Solanum lycopersicum</i> L. and <i>Solanum melongena</i> L., other than those to be planted in accordance with point (a) of Article 4(4) of Directive 2007/33/EC	Official statement that the provisions of Union law to combat <i>Globodera pallida</i> (Stone) Behrens and <i>Globodera rostochiensis</i> (Wollenweber) Behrens are complied with.
13.	Plants for planting of <i>Capsicum annuum</i> L., <i>Solanum lycopersicum</i> L., <i>Musa</i> L., <i>Nicotiana</i> L., and <i>Solanum melongena</i> L., other than seeds	Official statement that: (a) the plants originate in areas which have been found free from <i>Ralstonia solanacearum</i> (Smith) Yabuuchi <i>et al.</i> emend. Safni <i>et al.</i> , or (b) no symptoms of <i>Ralstonia solanacearum</i> (Smith) Yabuuchi <i>et al.</i> emend. Safni <i>et al.</i> have been observed on the plants at the place of production since the beginning of the last complete cycle of vegetation.
14.	Plants for planting with roots, grown in the open air, of <i>Allium porrum</i> L., <i>Asparagus officinalis</i> L., <i>Beta vulgaris</i> L., <i>Brassica</i> spp. and <i>Fragaria</i> L. and bulbs, tubers and rhizomes, grown in the open air, of <i>Allium ascalonicum</i> L., <i>Allium cepa</i> L., <i>Dahlia</i> spp.,	There shall be evidence that the provisions of Union law to combat <i>Globodera pallida</i> (Stone) Behrens and <i>Globodera rostochiensis</i> (Wollenweber) Behrens are complied with.

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

	<i>Gladiolus</i> Tourn. ex L., <i>Hyacinthus</i> spp., <i>Iris</i> spp., <i>Lilium</i> spp., <i>Narcissus</i> L. and <i>Tulipa</i> L., other than those plants, bulbs, tubers and rhizomes to be planted in accordance with points (a) or (c) of Article 4(4) of Directive 2007/33/EC	
15.	Plants for planting of <i>Cucurbitaceae</i> and <i>Solanaceae</i> other than seeds, originating from areas: (a) where <i>Bemisia tabaci</i> Genn. or other vectors of Tomato leaf curl New Delhi Virus are not known to occur (b) where <i>Bemisia tabaci</i> Genn. or other vectors of Tomato leaf curl New Delhi Virus are known to occur	Official statement that: (a) the plants originate in an area known to be free from Tomato leaf curl New Delhi Virus, or (b) no symptoms of Tomato leaf curl New Delhi Virus have been observed on the plants during their complete cycle of vegetation. Official statement that: (a) the plants originate in an area known to be free from Tomato leaf curl New Delhi Virus, or (b) no symptoms of Tomato leaf curl New Delhi Virus have been observed on the plants during their complete cycle of vegetation, and (i) their site of production has been found free from <i>Bemisia tabaci</i> Genn. and other vectors of Tomato leaf curl New Delhi

11. Seed, where its movement is carried out within the scope of application of Directive 2008/90/EC, and for which specific RNQPs have been listed according to Article 37(2) of Regulation (EU) 2016/2031 in Annex IV, of:
- *Prunus avium* L.,
 - *Prunus armeniaca* L.,
 - *Prunus cerasus* L.,
 - *Prunus domestica* L.,
 - *Prunus dulcis* (Mill.) D. A. Webb,
 - *Prunus persica* (L.) Batsch,
 - *Prunus salicina* Lindley.

ANNEX XIV

List of plants, plant products and other objects for which a plant passport with the designation 'PZ' is required for introduction into, and movement within certain protected zones

1. Plants of *Abies* Mill., *Larix* Mill., *Picea* A. Dietr., *Pinus* L. and *Pseudotsuga* Carr.
2. Plants for planting, other than seeds, of *Ajuga* L., *Beta vulgaris* L., *Cedrus* Trew, *Crossandra* Salisb., *Dipladenia* A.DC., *Euphorbia pulcherrima* Willd., *Ficus* L., *Hibiscus* L., *Mandevilla* Lindl., *Nerium oleander* L., *Platanus* L., *Populus* L., *Prunus* L., *Quercus* spp., other than *Quercus suber*, *Ulmus* L. and plants for planting of *Begonia* L., other than corms, seeds and tubers.
3. Plants, other than fruit and seeds, of *Aesculus hippocastanum* L., *Amelanchier* Med., *Arbutus unedo* L., *Camellia* L., *Castanea* Mill., *Chaenomeles* Lindl., *Cotoneaster* Ehrh., *Crataegus* L., *Cydonia* Mill., *Eriobotrya* Lindl., *Eucalyptus* L'Herit., *Lithocarpus densiflorus* (Hook. & Arn.) Rehd., *Malus* Mill., *Mespilus* L., *Photinia davidiana* (Dcne.) Cardot, *Pyracantha* Roem., *Pyrus* L., *Rhododendron* L., other than *Rhododendron simsii* Planch., *Sorbus* L., *Syringa vulgaris* L., *Taxus* L., *Umbellularia californica* (Hook. & Arn.) Nutt., *Vaccinium* L., *Viburnum* L. and *Vitis* L.
4. Plants of *Palmae*, intended for planting, having a diameter of the stem at the base of over 5 cm and belonging to the following taxa: *Areca catechu* L., *Arenga pinnata* (Wurmb) Merr., *Bismarckia* Hildebr. & H. Wendl., *Borassus flabellifer* L., *Brahea* Mart., *Butia* Becc., *Calamus merrillii* Becc., *Caryota cumingii* Lodd. ex Mart., *Caryota maxima* Blume, *Chamaerops* L., *Cocos nucifera* L., *Copernicia* Mart., *Corypha utan* Lam., *Elaeis guineensis* Jacq., *Howea forsteriana* Becc., *Jubaea* Kunth, *Livistona* R. Br., *Metroxylon sagu* Rottb., *Phoenix* L., *Pritchardia* Seem. & H. Wendl., *Ravenea rivularis* Jum. & H. Perrier, *Roystonea regia* (Kunth) O. F. Cook, *Sabal* Adans., *Syagrus* Mart., *Trachycarpus* H. Wendl., *Trithrinax* Mart., *Washingtonia* Raf.
5. Live pollen for pollination of *Amelanchier* Med., *Chaenomeles* Lindl., *Cotoneaster* Ehrh., *Crataegus* L., *Cydonia* Mill., *Eriobotrya* Lindl., *Malus* Mill., *Mespilus* L., *Photinia davidiana* (Dcne.) Cardot, *Pyracantha* Roem., *Pyrus* L. and *Sorbus* L.
6. Tubers of *Solanum tuberosum* L., intended for planting.
7. Plants of *Beta vulgaris* L., intended for industrial processing.
8. Soil from beet and unsterilized waste from beet (*Beta vulgaris* L.)

Changes to legislation: There are outstanding changes not yet made to Commission Implementing Regulation (EU) 2019/2072. Any changes that have already been made to the legislation appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

9. Seeds of *Beta vulgaris* L., *Castanea* Mill., *Dolichos* Jacq. and *Gossypium* spp.
10. Fruits (bolls) of *Gossypium* spp. and unginned cotton.
11. Wood, where it:
 - (a) is considered a plant product within the meaning of point 2 of Article 2 of Regulation (EU) 2016/2031; and
 - (b) has been obtained in whole or part from
 - conifers (Pinales), excluding wood which is bark-free,
 - *Castanea* Mill., excluding wood which is bark-free,
 - *Platanus* L., including wood which has not kept its natural round surface; and
 - (c) falls under the respective CN code and corresponds to one of the following descriptions laid down in Part II of Annex I to Regulation (EEC) No 2658/87:

CN code	Description
4401 11 00	Coniferous fuel wood, in logs, in billets, in twigs, in faggots or in similar forms
4401 12 00	Non-coniferous fuel wood, in logs, in billets, in twigs, in faggots or in similar forms
4401 21 00	Coniferous wood, in chips or particles
4401 22 00	Non-coniferous wood, in chips or particles
4401 40 90	Wood waste and scrap (other than sawdust), not agglomerated
ex 4403 11 00	Coniferous wood in the rough, treated with paint, stains, creosote or other preservatives, not stripped of bark or sapwood, or roughly squared
ex 4403 12 00	Non-coniferous wood in the rough, treated with paint, stains, creosote or other preservatives, not stripped of bark or sapwood, or roughly squared
ex 4403 21	Coniferous wood of pine (<i>Pinus</i> spp.) in the rough, not stripped of bark or sapwood, or roughly squared, other than treated with paint, stains, creosote or other preservatives, of which any cross-sectional dimension is 15 cm or more
