## EXPLANATORY NOTE

*(This note is not part of the Regulations)*

**These Regulations, which extend to Scotland only, further amend the Pesticides (Maximum Residue Levels in Crops, Food and Feeding Stuffs) (Scotland) Regulations 2000 ("the principal Regulations").**

**The Regulations update the definition of "Residue Directives" in the principal Regulations to incorporate-**

- (a) Commission Directive 2000/24/EC;**
- (b) Commission Directive 2000/42/EC;**
- (c) Commission Directive 2000/48/EC;**
- (d) Commission Directive 2000/57/EC;**
- (e) Commission Directive 2000/58/EC;**
- (f) Commission Directive 2000/81/EC;**
- (g) Commission Directive 2000/82/EC; and**
- (h) Commission Directive 2001/35/EC (regulation 2 (2)).**

**The Regulations specify maximum levels of pesticide residues which crops, food and feeding stuffs may contain in implement of Commission Directives 2000/81/EC, 2000/82/EC and 2001/35/EC (regulation 2(3) to (8)). In regulation 2(7), the reference to diphenylamine is in part implement of Commission Directive 2000/57/EC.**

**The Regulations delete the maximum residue level of Tecnazene in relation to lettuce from Part 1 of Schedule 2 of the principal Regulations with effect from 1st July 2003 (regulation 2(4)). This residue level had been inserted in Part 1 of Schedule 2 of the principal Regulations by virtue of powers contained in the Food and Environment Protection Act 1985. Community maximum residue levels for Tecnazene are now included in Part 2 of Schedule 2 of the principal Regulations (regulation 2(3) and (6)).**

**The Regulations also delete maximum levels which became spent on 1st July 2001 (regulation 2(5)) and make a consequential amendment to the footnotes contained in Part 2 of Schedule 2 of the principal Regulations (regulation 2(8)).**
