- (a) the category of seed intended to be harvested, and
- (b) where applicable, any other category and level of seed to which paragraph (17) applies,

the Department shall issue a field inspection report (which the department shall retain as a lodged report unless instructed not to do so by the applicant) stating (by reference to the relevant category or categories) that the crop has been found to meet those conditions and shall send the report, or (in a case where the original report is to be retained as a lodged report by the Department) a copy of the report, to the applicant.

(10) Where in the case of an application made under paragraph (3) to a licensed crop inspector the inspected crop is found to satisfy the conditions laid down in Schedule 3 and Part 1 of Schedule 4 for the production—

- (a) of the category of seed intended to be harvested, and
- (b) where applicable, any other category of seed to which paragraph (17) applies.

the licensed crop inspector shall issue a field inspection report to the applicant stating (by reference to the relevant category or categories of seed) that the crop has been found to meet those conditions.

(11) Subject to paragraph (13), where in the case of an application made to the Department under paragraph (1) or an application made under paragraph (3) that is being considered by the Department under paragraph (5) or has been made to the Department under paragraph (6), the inspected crop is found not to satisfy the conditions laid down in Schedule 3 or Part 1 of Schedule 4 for the production of the category of seed intended to be harvested, the Department shall issue a field inspection report (which the department shall retain as a lodged report unless instructed not to do so by the applicant)—

- (a) stating that the crop has been found not to meet those conditions, and
- (b) in a case where the crop has been inspected to determine whether it meets the conditions laid down in Schedule 3 and Part 1 of Schedule 4 for the production of any other category

of seed to which paragraph (17) applies, stating the conditions (by reference to the relevant category or categories of seed), if any, met by the crop, and shall send the report, or (in a case where the original report is to be retained as a lodged report by the Department) a copy of the report, to the applicant.

(12) Where in the case of an application made to a licensed crop inspector under paragraph (3) the inspected crop is found not to satisfy the conditions laid down in Schedule 3 or Part 1 of Schedule 4 for the production of the category of seed intended to be harvested, the licensed crop inspector shall issue a field inspection report to the applicant—

- (a) stating that the crop has been found not to meet those conditions, and
- (b) in a case where the crop has been inspected to determine whether it meets the conditions laid down in Schedule 3 and Part 1 of Schedule 4 for the production of any other category of seed to which paragraph (17) applies, stating the conditions (by reference to the relevant category or categories of seed), if any, met by the crop.

(13) Where—

- (a) an application has been made to the Department under paragraph (1), or an application has been made under paragraph (3) that is being considered by the Department under paragraph (5) or has been made to the Department under paragraph (6), in respect of a crop produced from seed which was taken from a seed lot for which a control plot has been sown, and
- (b) the results of the examination of the control plot show that the plants produced in the plot do not meet the appropriate conditions laid down in Schedule 3 or Part 1 or 3 of Schedule 4 for the production of the category of seed intended to be harvested,

the Department may take account of the results of that examination when carrying out an inspection of the crop to which the application relates and in determining whether the Department should issue a field inspection report under paragraph (9) or (11).

(14) Where paragraph (15) applies, the Department may carry out the Department's own examination of—

- (a) a crop to which an application made under paragraph (3) relates;
- (b) any other crops that are being produced from seed that has been taken from the same seed lot and in respect of which an application has been made under paragraph (3); or
- (c) both the crops referred to in paragraphs (i) and (ii).

(15) This paragraph applies where—

- (a) an application has been made to a licensed crop inspector under paragraph (3) in respect of seed that is subject to official post-control;
- (b) the plants produced in the control plot being used for the purpose of the official post control have been examined by or on behalf of the Department, the Secretary of State, the Scottish Ministers, or the National Assembly for Wales; and
- (c) it has been determined by or on behalf of the Department, the Secretary of State, the Scottish Ministers, or the National Assembly for Wales, having regard to—
 - (i) the conditions laid down in paragraphs 4 to 8, 10 and 12 of Schedule 3, and paragraphs 1 and 2 of Schedule 4, and
 - (ii) the category of seed to which the application relates,

that the plants produced in the control plot are not satisfactory plants from which to produce seed of that category.

(16) Where the Department has carried out an examination of the crop referred to in paragraph (14)(i) or the crops referred to in paragraph (14)(ii), or has carried out an examination of both the crop referred to in paragraph (14)(i) and the crops referred to in paragraph (14)(ii), the Department shall inform the applicant whether the Department is satisfied that the seed used to produce the crop to which the application relates was satisfactory seed to be used for the production of the category of seed to which the application relates, and, if the Department is satisfied that this is the

case, the seed shall be treated as seed that has been subject to satisfactory official post control in relation to seed of that category.

(17) This paragraph applies to the following categories of seed—

- (a) in the case of an application made under paragraph (1) relating to a regulation 8(1)(a) crop that has been produced from breeder's seed, to the category of basic seed;
- (b) in the case of an application made under paragraph (1) relating to a regulation 8(1)(a) crop, other than a crop of field beans, field peas, *Lucerne Medicago sativa*, lupins or vetches, that has been produced from officially certified pre-basic seed, to the categories of basic and CS seed;
- (c) in the case of an application made under paragraph (1) relating to a regulation 8(1)(a) crop of *Lucerne Medicago sativa*, lupins or vetches that has been produced from officially certified pre-basic seed, to the categories of basic and C1 seed;
- (d) in the case of an application made under paragraph (1) relating to a regulation 8(1)(a) crop of field beans or field peas that has been produced from officially certified pre-basic seed, to the categories of basic, C1 and C2 seed;
- (e) in the case of an application made under paragraph (1) relating to a regulation 8(1)(b) crop that has been produced from breeder's seed, to the category of pre-basic seed;
- (f) in the case of an application made under paragraph (1) relating to a regulation 8(1)(b) crop, other than a crop of field beans, field peas, *Lucerne Medicago sativa*, lupins or vetches or a component of a hybrid variety of fodder kale, produced from officially certified pre-basic seed, to the categories of pre-basic and CS seed;
- (g) in the case of an application made under paragraph (1) relating to a regulation 8(1)(b) crop of *lucerne Medicago sativa*, lupins or vetches produced from officially certified pre-basic seed, to the categories of pre-basic and C1 seed;
- (h) in the case of an application made under paragraph (1) relating to a regulation 8(1)(b) crop of field beans or field peas produced from officially certified pre-basic seed, to the categories of pre-basic, C1 and C2 seed; and
- (i) in the case of an application made under paragraph (1) relating to a regulation 8(1)(d) crop or a regulation 8(3) application relating to a regulation 8(3)(b) crop of field beans or field peas, to the category of C2 seed.

(18) In this regulation "seed that is subject to official post control" means seed from a seed lot for which a control plot has been sown by or on behalf of the Department, the Secretary of State, the Scottish Ministers, or the National Assembly for Wales to produce plants which are to be, or have been, examined by or on behalf of the Department, the Secretary of State, the Scottish Ministers, or the National Assembly for Wales, as the case may be, to determine whether, having regard to—

- (a) the conditions laid down in—
 - (i) paragraphs 4 to 8, 10 and 12 of Schedule 3, and
 - (ii) paragraphs 1 to 3 of Schedule 4, and
- (b) the category of the seed,

the plants produced in the plot indicate that the corresponding plants in the field are satisfactory plants from which to harvest the category of seed in respect of which the paragraph (3) application has been made.

Lodging of field inspection reports and similar documents

9.—(1) Subject to paragraphs (2) and (3), an application to lodge a copy of a document to which paragraph (2) applies may be made to the Department by a registered person.

(2) This paragraph applies—

- (a) in relation to a crop produced in Northern Ireland, to a field inspection report issued under regulation 8(9), (10), (11) or (12);

- (b) in relation to a crop produced in the United Kingdom elsewhere than in Northern Ireland, to a report relating to the crop equivalent to that specified in sub-paragraph (a) issued—

(3) An application made under this regulation—

- (a) shall be made in such form and manner as the Department may require;

- (c) shall, subject to paragraph (4), be accompanied—
 - (i) in relation to a crop produced in Northern Ireland, by a copy of the document referred to in paragraph (2)(a);
 - (ii) in relation to a crop produced in the United Kingdom elsewhere than in Northern Ireland, by a copy of the document referred to in paragraph 2(b) except that this need not be provided in a case where confirmation that the crop meets the conditions for the production of the appropriate category of seed has already been provided to the Department by or on behalf of the Secretary of State, the Scottish Ministers, or the National Assembly for Wales (as the case may be);
 - (iii) in relation to a crop produced in another member State, by a copy of the document referred to in paragraph 2(c);
 - (iv) in relation to a crop produced in an equivalent third country, by a copy of the document referred to in paragraph 2(d); and
 - (v) by such other information and documents as the Department may require.

(4) The Department may permit, subject to any conditions that the department may impose, an application made under this regulation relating to a crop for which the applicant previously made an application under regulation 8(3) to be accompanied by the following document instead of the field inspection report issued under regulation 8(10) or (12), namely a document relating to the crop (whether relating to that crop alone or relating to other crops in respect of which a regulation 8(3) application has been made by the applicant)—

- (a) that states, by reference to the relevant category of seed, the conditions met by that crop;

- (d) that contains such other information as the Department may require.

(5) Where a document of the type specified in paragraph (4) accompanies an application made under this regulation instead of a field inspection report, the applicant shall produce the field inspection report referred to in paragraph (3) to the Department on demand during the period of three years from the date of the issue of the field inspection report and shall make a copy of the report available to the Department on request during that period.

Re-grading of crops

10.—(1) An application to re-grade a crop for the production of a category of seed to which paragraph (6) applies as a crop for the production of another category of seed (“the new category”) to which that paragraph applies may be made to the Department by a registered person.

(2) An application made under this regulation shall be made in such form and manner and at such time as the Department shall require and shall be accompanied by—

- (a) a copy of the field inspection report previously issued in respect of the crop unless this has previously been lodged with the Department, and
- (b) such other information as the Department may require for the purpose of determining the application.

(3) Where an application under this regulation has been made in respect of a crop that has not been harvested—

- (a) the Department shall, in the case of an application to re-grade a crop as a crop to produce pre-basic or basic seed, carry out a field inspection of the crop to determine whether it meets the conditions laid down in Schedule 3 and Part 1 of Schedule 4 for the production of the new category of seed if—
 - (i) the previous field inspection report issued in respect of the crop was not issued by the Department, and
 - (ii) the condition and stage of development of the crop permit an adequate examination, and
- (b) the Department may, in the case of an application to re-grade a crop as a crop to produce CS, C1 or C2 seed, carry out a field inspection of the crop to determine whether it meets the conditions laid down in Schedule 3 and Part 1 of Schedule 4 for the production of the new category of seed if the condition and stage of development of the crop permit an adequate examination.

(4) If the Department—

- (a) in the case of an application to re-grade a crop as a crop to produce pre-basic or basic seed—
 - (i) has carried out a field inspection of the crop (whether in connection with the original application for a field inspection of the crop or in accordance with paragraph (3));
 - (ii) is satisfied that the crop has been produced by or under the responsibility of the breeder according to accepted practices for the maintenance of the variety; and
 - (iii) is satisfied that the crop meets or (if the crop has already been harvested) would have met the conditions laid down in Schedule 3 and Part 1 of Schedule 4 for the production of the new category of seed;
- (b) in the case of an application to re-grade a crop to produce CS or C1 seed,—
 - (i) is satisfied that the crop has been produced directly from UK, EC, third country or overseas tested officially certified basic seed of a listed variety, or, with the breeder’s written authority, from UK, EC or overseas tested officially certified pre-basic seed of a listed variety; and
 - (ii) is satisfied that the crop meets or (if the crop has already been harvested) would have met the conditions laid down in Schedule 3 and Part 1 of Schedule 4 for the production of the new category of seed;
- (c) in the case of an application to re-grade a crop as a crop to produce C2 seed—
 - (i) is satisfied that the crop has been produced directly from UK, EC, third country or overseas tested officially certified basic or C1 seed of a listed variety, or, with the breeder’s written authority, from UK, EC or overseas tested officially certified pre-basic seed of a listed variety; and

- (ii) is satisfied that the crop meets or (if the crop has already been harvested) would have met the conditions laid down in Schedule 3 and Part 1 of Schedule 4 for the production of the new category of seed,

the department shall notify the applicant that the crop has been found to meet or (if the crop has already been harvested) it has been found that it would have met the conditions referred to in subparagraph (a)(iii), (b)(ii) or (c)(ii), as the case may be, and that his application to re-grade the crop has been successful.

(5) If the Department is satisfied that the conditions specified in paragraph (4) for the relevant category of seed have not been met the department shall notify the applicant that his application to re-grade the crop has been unsuccessful.

(6) This paragraph applies to the following categories of seed—

- (a) pre-basic seed;
- (b) basic seed;
- (c) in the case of seed other than field beans, field peas, *lucerne Medicago sativa*, lupins or vetches, CS seed;
- (d) in the case of field beans, field peas, *lucerne Medicago sativa*, lupins or vetches, C1 seed; and

Seed testing

11.—(1) Subject to paragraphs (2), (3) and (4), an application may be made to a licensed seed testing station by a registered person for the testing of an official sample of a qualifying seed lot of—

- (a) seed as pre-basic seed (“a regulation 11(1)(a) seed lot”);
- (b) seed as basic seed (“a regulation 11(1)(b) seed lot”);
- (c) seed of an HVS species of seed as HVS level CS seed (“a regulation 11(1)(c) seed lot”);
- (d) seed of a species other than field beans, field peas, *lucerne Medicago sativa*, lupins or vetches, as minimum level CS seed;
- (e) seed of field beans, field peas, *lucerne Medicago sativa*, lupins or vetches as C1 seed (“a regulation 11(1)(e) seed lot”);
- (f) seed of field beans or field peas as C2 seed;
- (g) seed of an unlisted variety as basic seed intended for use solely as a component for a hybrid variety of fodder kale; or

(2) An application made under this regulation shall not be made in respect of seed of a variety, or a component of a hybrid variety of fodder kale, that is not listed unless—

- (a) an application for listing of the variety, or hybrid variety, has been made which has not been withdrawn or finally determined; or
- (b) a marketing extension is in force in respect of the variety or hybrid variety.

(3) Subject to paragraphs (4) and (5), an application may be made to a licensed seed testing station for the testing of an official sample of a seed lot of commercial seed of annual meadowgrass, Hungarian vetch or sainfoin.

(4) An application made under this regulation may be considered by the Department instead of a licensed seed testing station.

(5) If permitted by the Department, an application made under this regulation may be made to the Department instead of a licensed seed testing station.

(6) An application made under this regulation—

- (a) shall be made in such form and manner and at such time as the Department may require, and

- (b) shall be accompanied by an official sample of the seed to be tested and such other information, material, seeds, records, illustrations and other documents as the Department may require.

(7) Following the receipt of an application made under this regulation the licensed seed testing station (or the Department in a case where an application made under this regulation is being considered by the Department under paragraph (3) or has been made to the Department under paragraph (4)) shall, subject to paragraph (7), test seed taken from the official sample provided under paragraph (5)(b) to determine whether it meets the conditions laid down in Part 2 of Schedule 4—

- (a) for the category and, where applicable, level of seed for which the application is being made, and
- (b) unless requested not to do so by the applicant, for any other category and level of seed to which paragraph (14) applies.

(8) Where a seed test report has previously been issued by a licensed seed testing station (or the Department in a case where an application made under this regulation is being considered by the Department under paragraph (3) or has been made to the Department under paragraph (4)) in accordance with paragraph (8)(a), (9), (10), (11) or (12) in respect of a seed lot, the licensed seed testing station (or the Department where paragraph (3) or (4) applies) may decide not to test any further official sample of that seed lot for the purposes of paragraph (6) if the information contained in the previously issued report contains sufficient information to enable it (or the Department) to determine that the official sample would meet the conditions laid down in Part 2 of Schedule 4—

- (a) for the appropriate category and, where applicable, level of seed, and
- (b) where applicable, for any other category and level of seed to which paragraph (14) applies.

(9) Subject to paragraph (13), where—

- (a) the official sample is found to satisfy the conditions laid down in Part 2 of Schedule 4 for—
 - (i) the appropriate category and, where applicable, level of seed, and
 - (ii) where applicable, for any other category and level of seed to which paragraph (14) applies, or
- (b) the provisions of paragraph (7) apply,

the licensed seed testing station (or the Department where paragraph (3) or (4) applies) shall issue a seed test report to the applicant stating (by reference to the relevant category or categories and, where applicable, level of seed) that the seed lot has been found to meet those conditions.

(10) Subject to paragraph (13), where it has been determined, by way of a Schedule 4 germination test, that the official sample taken from a regulation 11(1)(a) or (b) seed lot will not meet the applicable germination condition but the sample is found to satisfy all the other conditions laid down in Part 2 of Schedule 4 for the appropriate category of seed, the licensed seed testing station (or the Department where paragraph (3) or (4) applies), shall issue a seed test report to the applicant containing a statement to that effect.

(11) Where (otherwise than in connection with a retest of the seed) the results of a Schedule 4 germination test of an official sample of a seed lot referred to in paragraph (1) are awaited, and, except for the result of that test, the official sample has otherwise been found to meet all the other conditions laid down in Part 2 of Schedule 4—

- (a) for the appropriate category and, where applicable, level of seed, and
- (b) where applicable, for any other category and, where applicable, level of seed to which paragraph (14) applies,

the licensed seed testing station (or the Department in a case where paragraph (3) or (4) applies), shall, subject to paragraph (13), issue an interim seed test report to the applicant stating that the results of the Schedule 4 germination test for the official sample are awaited but that it has otherwise been found to meet all the other conditions laid down in Part 2 of Schedule 4 for the

appropriate category and, where applicable, level of seed, and, where applicable, for any other category and level of seed to which paragraph (14) applies.

(12) Where, following the issue of an interim seed test report under paragraph (10), the tested seed is found to meet the applicable germination condition, the licensed seed testing station (or the Department in a case where paragraph (3) or (4) applies), shall, subject to paragraph (13), issue a seed test report to the applicant stating that the official sample has been found to meet the conditions laid down in Part 2 of Schedule 4 for the appropriate category and, where applicable, level of seed, and, where applicable, for any other category and level of seed to which paragraph (14) applies.

(13) Subject to paragraphs (9) and (10), where an official sample of a seed lot referred to in paragraph (1) is found not to satisfy the conditions laid down in Part 2 of Schedule 4 for the appropriate category and, where applicable, level of seed, the licensed seed testing station (or the Department in a case where paragraph (3) or (4) applies) shall issue and send the applicant a seed test report—

- (a) stating that the official sample has been found not to meet those conditions, and
- (b) subject to paragraph (13), in a case where the seed has been tested to determine whether it meets the conditions laid down in Part 2 of Schedule 4 for any other category and, where applicable, level of seed to which paragraph (14) applies, stating (by reference to the relevant category and level) whether the seed has been found to meet the conditions for any such category and level.

(14) If it appears to the Department that an official sample of the seed lot taken for the purpose of a test in order to ascertain whether it met the appropriate conditions laid down in Part 2 of Schedule 4 was not taken in accordance with the requirements of regulation 23 the Department may—

- (a) in a case where paragraph (3) or (4) applies, refuse to issue a seed test report in accordance with paragraph (8), (9), (10), (11) or (12)(b), and, in such a case, shall notify the applicant of the Department decision and the reason for it, or
- (b) in a case where paragraph (3) or (4) does not apply, direct the licensed seed testing station to refuse to issue a seed test report in accordance with those paragraphs and the licensed seed testing station shall comply with that direction and shall notify the applicant of the reason for the Department refusal to issue the report.

(15) This paragraph applies to the following categories and levels of seed—

- (a) in the case of an application made under paragraph (1) relating to a regulation 11(1)(a) seed lot of field beans or field peas, to the categories of basic, C1 and C2 categories of seed;

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations consolidate the Fodder Seeds Regulations (Northern Ireland) 1994, as amended by the Fodder Plant Seeds (Amendment) Regulations (Northern Ireland) 1996, the Fodder Plant Seeds (Amendment) Regulations (Northern Ireland) 2000, the Fodder Plant Seeds (Amendment) Regulations (Northern Ireland) 2001, the Seeds (Fees) (No.2) Regulations (Northern Ireland) 2002, the Seeds (Miscellaneous Amendments) Regulations (Northern Ireland) 2003, the Seeds (Miscellaneous Amendments) Regulations (Northern Ireland) 2004, and the Seeds (Miscellaneous Amendments) Regulations (Northern Ireland) 2008.

They include minor amendments that give effect (in relation to the marketing of fodder plant seed) to Commission Directive 2008/62/EC providing for certain derogations for acceptance of agricultural landraces and varieties which are naturally adapted to the local and regional conditions and threatened by genetic erosion and for marketing of seed and seed potatoes of those landraces and varieties (OJ No L 162, 21.6.08, p 13).

Regulation 21 provides for the marketing of seed of a conservation variety (“conservation variety” is defined in regulation 2(1), and regulations 25 to 28 make consequential amendments to provisions dealing with sampling, packaging and labelling.

They also give effect to Commission Directive 2009/74/EC amending Directives 66/401/EEC, 66/402/EEC, 2002/55/EC as regards the botanical names of plants, the scientific names of organisms and certain annexes to Directives 66/401/EEC and 2002/57/EC in light of developments or scientific and technical knowledge.

These Regulations also provide for the collection by the Department of Agriculture and Rural Development of fees for certain services connected with the certification of seed for marketing, and revoke the Seeds (Fees) (No2) Regulations (Northern Ireland) 2002 insofar as they relate to matters arising under the Fodder Seeds Regulations 1994.

No impact assessment has been prepared for this Rule, as no conservation varieties of fodder seed have been identified in Northern Ireland, and the consolidation of the Fodder Seeds Regulations (Northern Ireland) 1994, as amended, effects no significant change to the regulation of the seed market in Northern Ireland.
