10 Extent of Act

Nothing in this Act requires or permits the granting of PBR in a plant variety unless:

- (a) if Australia is a party to an Act of the Convention—the grant is appropriate to give effect to the obligations of Australia under that Act; or
- (b) the breeding of the plant variety constitutes an invention for the purpose of paragraph 51(xviii) of the Constitution.

Part 2—Plant breeder's right

11 General nature of PBR

Subject to sections 16, 17, 18, 19 and 23, PBR in a plant variety is the exclusive right, subject to this Act, to do, or to license another person to do, the following acts in relation to propagating material of the variety:

- (a) produce or reproduce the material;
- (b) condition the material for the purpose of propagation;
- (c) offer the material for sale;
- (d) sell the material;
- (e) import the material;
- (f) export the material;
- (g) stock the material for the purposes described in paragraph (a), (b), (c), (d), (e) or (f).

Note: In certain circumstances, the right conferred by this section extends to essentially derived varieties (see section 12), certain dependent plant varieties (see section 13), harvested material (see section 14) and products obtained from harvested material (see section 15).

12 Extension of PBR to cover essentially derived varieties

Subject to section 23 (exhaustion of PBR), if PBR is granted in a plant variety (the *initial variety*), and a declaration is made that another plant variety is essentially derived from the initial variety, the right granted in the initial variety extends, with effect from the date of declaration, to that other plant variety.

Note: For declarations of essential derivation, see sections 40 and 41D.

13 Extension of PBR to cover certain dependent plant varieties

Subject to section 23, if PBR is granted in a plant variety (the *initial variety*), the right extends to:

- (a) any other plant variety that:

Section 14

- (i) is not clearly distinguishable from the initial variety;
and
- (ii) is clearly distinguishable from any plant variety that was
a matter of common knowledge at the time of the grant
of PBR in the initial variety; and
- (b) any other plant variety that cannot be reproduced except by
the repeated use of the initial variety or of a variety referred
to in paragraph (a);
whether or not that other plant variety was in existence at the time
PBR was granted in the initial variety.

14 Extension of PBR to harvested material in certain circumstances

- (1) If:
 - (a) propagating material of a plant variety covered by PBR is
produced or reproduced without the authorisation of the
grantee; and
 - (b) the grantee does not have a reasonable opportunity to
exercise the grantee's right in relation to the propagating
material; and
 - (c) material is harvested from the propagating material;
section 11 operates as if the harvested material were propagating
material.
- (2) Subsection (1) applies to so much of the material harvested by a
farmer from propagating material conditioned and reproduced in
the circumstances set out in subsection 17(1) as is not itself
required by the farmer, for the farmer's own use, for reproductive
purposes.

**15 Extension of PBR to products obtained from harvested material
in certain circumstances**

- If:
 - (a) propagating material of a plant variety covered by PBR is
produced or reproduced without authorisation of the grantee;
and

- (b) the grantee does not have a reasonable opportunity to exercise the grantee's rights in relation to the propagating material; and
 - (c) material is harvested from plants grown from the propagating material but the grantee does not have, in the circumstances set out in section 14, a reasonable opportunity of exercising the grantee's rights in the harvested material; and
 - (d) products are made from the harvested material;
- section 11 operates as if those products were propagating material.

16 Certain acts done for private, experimental or breeding purposes do not infringe PBR

Any act done in relation to a plant variety covered by PBR that is done:

- (a) privately and for non-commercial purposes; or
 - (b) for experimental purposes; or
 - (c) for the purpose of breeding other plant varieties;
- does not infringe the PBR.

17 Conditioning and use of farm saved seed does not infringe PBR

(1) If:

- (a) a person engaged in farming activities legitimately obtains propagating material of a plant variety covered by PBR either by purchase or by previous operation of this section, for use in such activities; and
- (b) the plant variety is not included within a taxon declared under subsection (2) to be a taxon to which this subsection does not apply; and
- (c) the person subsequently harvests further propagating material from plants grown from that first-mentioned propagating material;

the PBR is not infringed by:

- (d) the conditioning of so much of that further propagating material as is required for the person's use for reproductive purposes; or
- (e) the reproduction of that further propagating material.

- (2) The regulations may declare a particular taxon to be a taxon to which subsection (1) does not apply.

18 Restrictions on exercise of PBR in certain circumstances

- (1) If:
- (a) a person is authorised by or under a law of the Commonwealth or of a State or Territory to do an act referred to in a paragraph of section 11 in relation to propagating material of a plant variety; and
 - (b) the act is one which (apart from this provision) would require authorisation from the grantee of PBR in the plant variety, or an exclusive licensee of the grantee; and
 - (c) before the person does the act, the person either pays equitable remuneration to the grantee, or an exclusive licensee of the grantee, in respect of the act or arranges for the payment of such remuneration; and
 - (d) the person does the act;
- then neither the grantee, nor any exclusive licensee of the grantee, nor any other person authorised by the grantee or exclusive licensee, is entitled to exercise PBR in the plant variety against the person in respect of that act.
- (2) To avoid doubt, subsection (1) does not limit the operation of section 17 in relation to the conditioning or reproduction of propagating material in the circumstances referred to in that section.

- (3) In this section:

equitable remuneration, in relation to an act done in relation to propagating material of a plant variety, means an amount:

- (a) that is agreed between the person proposing to undertake the act and the grantee of PBR in the plant variety, or an exclusive licensee of the grantee; or
- (b) if agreement cannot be reached under paragraph (a)—determined by a court of competent jurisdiction to constitute equitable remuneration in relation to the act.

19 Reasonable public access to plant varieties covered by PBR

- (1) Subject to subsection (11), the grantee of PBR in a plant variety must take all reasonable steps to ensure reasonable public access to that plant variety.
- (2) Reasonable public access to a plant variety covered by PBR is taken to be satisfied if propagating material of reasonable quality is available to the public at reasonable prices, or as gifts to the public, in sufficient quantities to meet demand.
- (3) For the purpose of ensuring reasonable public access to a plant variety covered by PBR, the Registrar may, on behalf of the grantee, in accordance with subsections (4) to (10), license a person whom the Registrar considers appropriate:
 - (a) to sell propagating material of plants of that variety; or
 - (b) to produce propagating material of plants of that variety for sale;during such period as the Registrar considers appropriate and on such terms and conditions (including the provision of reasonable remuneration to the grantee) as the Registrar considers would be granted by the grantee in the normal course of business.
- (4) If, at any time more than 2 years after the grant of PBR in a plant variety, a person considers:
 - (a) that the grantee is failing to comply with subsection (1) in relation to the variety; and
 - (b) that the failure affects the person's interests;the person may make a written request to the Registrar to exercise a power under subsection (3) in relation to the variety.
- (5) A request must:
 - (a) set out the reasons why the person considers that the grantee is failing to comply with subsection (1); and
 - (b) give particulars of the way in which the person considers that the failure affects the person's interests; and
 - (c) give an address of the person for the purposes of notifications under this section.

Section 19

- (5A) An address given under paragraph (5)(c) must be an address in Australia or New Zealand.

Note: After the time specified in regulations made for the purposes of subsection 3(2), the address may be an electronic address: see subsections 3(2), (5) and (6).

- (6) The Registrar must:
- (a) give the grantee a copy of the request; and
 - (b) by notification to the grantee, invite the grantee to give the Registrar, within 30 days after giving the request, a written statement of the reasons the Registrar should be satisfied that the grantee:
 - (i) is complying with subsection (1) in relation to the variety; or
 - (ii) will so comply within a reasonable time.
- (7) The Registrar must, after considering the request and any statement given by the grantee in response to the invitation under paragraph (6)(b):
- (a) decide whether or not to exercise the power concerned; and
 - (b) within 30 days after so deciding, notify the grantee, and the person making the request, of the decision.

Note: A decision under this subsection is reviewable by the AAT under section 77.

- (8) If the Registrar proposes to exercise a power under subsection (3) in relation to a plant variety, the Registrar must give public notice:
- (a) identifying the variety; and
 - (b) setting out particulars of any licence the Registrar proposes to grant; and
 - (c) inviting persons to apply in writing to the Registrar, within 30 days of the publication of the notice, to be granted that licence.
- (9) The Registrar must not grant any such licence unless:
- (a) the Registrar has considered all applications made in response to the invitation; and
 - (b) at least one month before granting any such licence, the Registrar has:

- (i) notified each such applicant of the name of the proposed licensee; and
- (ii) given public notice of the name of the proposed licensee.

(10) If the Registrar:

- (a) has granted a person a licence to produce propagating material of plants of a particular variety; and
- (b) is satisfied that the person will be unable to obtain such propagating material at a reasonable price or without charge; the Registrar may, on behalf of the grantee, make that propagating material available to the person from material stored at a genetic resource centre.

Note: A decision under this subsection to make propagating material available is reviewable by the AAT under section 77.

(11) This section does not apply in relation to a plant variety in respect of which the Registrar certifies, in writing, at the time of the grant of PBR, that he or she is satisfied that plants of that variety have no direct use as a consumer product.

Note: A decision under this subsection is reviewable by the AAT under section 77.

20 PBR is personal property

- (1) PBR is personal property and, subject to any conditions imposed under section 49, is capable of assignment, or of transmission by will or by operation of law.
- (2) An assignment of PBR (otherwise than because of the order of a court) does not have effect unless it is in writing signed by, or on behalf of, the assignor and assignee.
- (3) If a grantee of PBR in a plant variety gives another person a licence in that right, the licence binds every successor in title to the interest of that grantee to the same extent as it was binding on that grantee of the PBR.

Note 1: The *Personal Property Securities Act 2009* applies to PBR, and any licence in PBR, as **intellectual property** (see paragraph (d) of the definition of that phrase in section 10 of that Act). That Act deals with

Section 21

security interests in personal property, including intellectual property and intellectual property licences.

Note 2: Section 106 of the *Personal Property Securities Act 2009* corresponds to subsection 20(3) of this section. Section 106 of that Act provides for security agreements in relation to intellectual property licences (or sub-licences) to be binding on successors in title to the licences (or sub-licences).

21 Registrar must be notified of an assignment of PBR

- (1) If a person (the *claimant*) claims that PBR was assigned or transmitted to the claimant, the claimant must inform the Registrar in writing that the claimant has acquired that right, giving particulars of the manner in which that right was acquired, within 30 days after acquiring that right.
- (2) If the Registrar is satisfied that the right has been so assigned or transmitted, the Registrar must amend the Register by entering the name of the claimant as the holder of that right.
- (3) If the Registrar enters the name of the claimant on the Register as the holder of PBR, the Registrar must, within 30 days after entering the name, notify the claimant, and the person who was the holder before the entry was made, that the entry has been made.
- (4) If the Registrar is not satisfied that PBR has been assigned or transmitted to the claimant, the Registrar must, as soon as possible:
 - (a) notify the claimant:
 - (i) that the Registrar is not so satisfied; and
 - (ii) of the reasons why the Registrar is not so satisfied; and
 - (b) notify the person entered on the Register as the holder of the right:
 - (i) of the particulars of the information given by the claimant; and
 - (ii) that the Registrar is not so satisfied; and
 - (iii) of the reasons why the Registrar is not so satisfied.
- (5) A claimant must include, in the notice to the Registrar informing of the assignment or transmission, an address in Australia or New Zealand for the service of documents in accordance with this Act.

Note 1: After the time specified in regulations made for the purposes of subsection 3(2), the address may be an electronic address: see subsections 3(2), (5) and (6).

Note 2: A decision under this section to amend or to refuse to amend the Register is reviewable by the AAT under section 77.

22 Duration of PBR

- (1) Subject to subsections (4) and (5), PBR in a plant variety begins on the day that the grant of PBR in the variety is made.
- (2) Subject to subsections (3), (4) and (5), PBR in a plant variety lasts for:
 - (a) in the case of trees and vines—25 years; and
 - (b) for any other variety—20 years.
- (3) The regulations may provide that PBR in a plant variety included within a specified taxon lasts for a longer period than is specified in subsection (2).
- (4) PBR in a plant variety that is a dependent plant variety of another plant variety begins on:
 - (a) the day that the grant of PBR in the other plant variety is made; or
 - (b) the day that dependent variety comes into existence;whichever occurs last, and ends when PBR in the other variety ceases.
- (5) If:
 - (a) PBR is held in a plant variety (the *initial variety*); and
 - (b) another plant variety is declared to be an essentially derived variety of the initial variety;PBR in the initial variety extends to the essentially derived variety from the day on which that declaration is made until the day on which PBR in the initial variety ends.

Note: For declarations of essential derivation, see sections 40 and 41D.

23 Exhaustion of PBR

- (1) PBR granted in a plant variety does not extend to any act referred to in section 11:
- (a) in relation to propagating material of the variety; or
 - (b) in relation to propagating material of any essentially derived variety or dependent plant variety;
- that takes place after the propagating material has been sold by the grantee or with the grantee's consent unless that act:
- (c) involves further production or reproduction of the material; or
 - (d) involves the export of the material:
 - (i) to a country that does not provide PBR in relation to the variety; and
 - (ii) for a purpose other than final consumption.
- (2) If:
- (a) a plant variety is declared to be an essentially derived variety of another plant variety (the *initial variety*); and
 - (b) PBR in the essentially derived variety is held both by the grantee of PBR in the essentially derived variety and by the grantee of PBR in the initial variety;
- the reference in subsection (1) to propagating material sold by the grantee or with the grantee's consent is a reference to propagating material sold by, or with the consent of, both of the grantees referred to in paragraph (b).
- Note: For declarations of essential derivation to which this subsection applies, see section 40.
- (3) If, under subsection 18(1), equitable remuneration is paid, or arranged to be paid, to the grantee of PBR, or an exclusive licensee of the grantee, in a plant variety in respect of an act (the *first act*) in relation to propagating material of that variety before the person does the act, PBR in that variety does not extend to any later act (the *later act*) referred to in section 11 in relation to that propagating material unless the later act:
- (a) involves the further production or reproduction of that propagating material; or

- (b) involves the export of the material:
 - (i) to a country that does not provide PBR in relation to the variety; and
 - (ii) for a purpose other than final consumption.
- (4) To avoid doubt, nothing in subsection (1) or (3) prevents the exercise of the rights of the grantee of PBR in a plant variety in relation to any propagating material of that variety that is obtained by reproduction of the propagating material to which that subsection applies.

Part 3—Application for plant breeder's right

Division 1—The making of the application

24 Right to apply for PBR

- (1) A breeder of a plant variety may make application to the Registrar for the grant of a PBR in the variety.
- (2) The breeder can make the application whether or not:
 - (a) the breeder is an Australian citizen; and
 - (b) the breeder is resident in Australia; and
 - (c) the variety was bred in Australia.
- (3) Subject to subsection (4), if 2 or more persons bred a plant variety jointly, those persons or some of them may make a joint application for that right.
- (4) If 2 or more persons bred a plant variety jointly, one of those persons is not entitled to apply for PBR in the variety otherwise than jointly with, or with the consent in writing of, each other of those persons.

25 Right to apply for PBR is personal property

- (1) The right of a breeder of a plant variety to apply for PBR is personal property and is capable of assignment and of transmission by will or by operation of law.
- (2) An assignment of a right to apply for PBR must be in writing signed by or on behalf of the assignor.

Note: The *Personal Property Securities Act 2009* deals with security interests in personal property, including a right to apply for PBR.

26 Form of application for PBR

- (1) An application for PBR in a plant variety must be in the approved form.

- (1A) Without limiting subsection (1), the approved form must require the inclusion of an address in Australia or New Zealand for service, being an address that is in accordance with the requirements of the approved form.

Note: After the time specified in regulations made for the purposes of subsection 3(2), the address may be an electronic address: see subsections 3(2), (5) and (6).

- (2) The application must contain:
- (a) the name and address of the applicant; and
 - (b) if the applicant is using an agent to make the application on the applicant's behalf—the name and address of the agent; and
 - (c) if the applicant is the breeder of the variety—a statement of that effect; and
 - (d) if the applicant is not the breeder of the variety—the name and address of the breeder and particulars of the assignment, or transmission by will or by operation of law, of the right to make the application; and
 - (e) a brief description, or a brief description and photograph, of a plant of the variety sufficient to establish a prima facie case that the variety is distinct from other varieties of common knowledge; and
 - (f) the name of the variety, having regard to the requirements of section 27, and any proposed synonym for that name; and
 - (g) the name of the location at which the variety was bred; and
 - (ga) the name of each variety (the *parent variety*) used in the breeding program including, in respect of each parent variety:
 - (i) particulars of the names (including synonyms) by which the parent variety is known or sold in Australia; and
 - (ii) particulars of any PBR granted in Australia or in any other contracting party; and
 - (gb) a brief description of the manner in which the variety was bred; and
 - (h) particulars of any application for, or grant of, rights of any kind in the variety in any other country; and
 - (i) the name of an approved person who:

Part 3 Application for plant breeder's right

Division 1 The making of the application

Section 27

- (i) will verify the particulars in the application; and
- (ii) will supervise any test growing or further test growing of the variety required under section 37; and
- (iii) will verify a detailed description of the variety when such a description is supplied to the Registrar;
- (j) such other particulars (if any) as are required by the approved form.

Note: The information given under paragraph (ga) is not available to the public under section 36.

- (4) An applicant must, before, or at the time of, lodging an application under this section, pay to the Commonwealth such application fee (if any) as is prescribed.

27 Names of new plant varieties

- (1) If PBR has not been granted in another contracting party in a plant variety before an application for that right in that variety is made in Australia, the name set out in the application must comply with subsections (4), (5), (6) and (7).
- (2) If, before making an application in Australia for PBR in a plant variety, PBR has been granted in that variety in another contracting party:
 - (a) the name of the variety set out in the Australian application must be the name under which PBR was first granted in another contracting party; but
 - (b) there may, and, if the name referred to in paragraph (a) does not comply with subsections (4), (5), (6) and (7) there must, also be included in the application a synonym, additional to the name of the variety.
- (3) The synonym must be a name determined in accordance with subsections (4), (5), (6) and (7) as if the variety had not been the subject of a grant of PBR in another contracting party.
- (3A) If, before making an application in Australia for PBR in a plant variety, PBR has not been granted in that variety in another contracting party, a synonym may also be included in the application.

- (4) A name (including a synonym), in respect of a plant variety, must be a word or words (whether invented or not) with or without the addition of either or both of the following:
- (a) a letter or letters that do not constitute a word;
 - (b) a figure or figures.
- (5) A name (including a synonym), in respect of a plant variety must not:
- (a) be likely to deceive or cause confusion, including confusion with the name of another plant variety of the same plant class; or
 - (b) be contrary to law; or
 - (c) contain scandalous or offensive matter; or
 - (d) be prohibited by regulations in force at the time of the application; or
 - (e) be or include a trade mark that is registered, or whose registration is being sought, under the *Trade Marks Act 1995*, in respect of live plants, plant cells and plant tissues.
- (6) A name (including a synonym), in respect of a plant variety must comply with the International Code of Botanical Nomenclature and subsidiary codes.
- (7) A name (including a synonym), in respect of a plant variety must not consist of, or include:
- (a) the name of a natural person living at the time of the application unless the person has given written consent to the name of the variety; or
 - (b) the name of a natural person who died within the period of 10 years before the application unless the legal personal representative of the person has given written consent to the name of the variety; or
 - (c) the name of a corporation or other organisation, unless the corporation or other organisation has given its written consent to the name of the variety.

28 Applications to be given priority dates

- (1) The Registrar must ensure that each application for PBR is given a priority date.
- (2) The priority date is, unless section 29 applies in relation to the application, the date on which the application was lodged with the Registrar or, if another date is determined under the regulations for the application, the date determined.
- (3) If 2 or more applications are made for PBR in the same plant variety, the Registrar must first consider the application having the earlier priority date.

29 Priority dates arising from foreign application

- (1) If:
 - (a) a person has lodged an application for PBR in a plant variety in one or more contracting parties other than Australia; and
 - (b) within a period of 12 months after the date that the earliest of those applications (the *foreign application*) was lodged, the person lodges an application in Australia (the *local application*) for PBR in the variety; and
 - (c) the local application is accompanied with a claim to have the date of lodgment of the foreign application treated as the priority date for the purposes of the local application; and
 - (d) the local application is accepted;the person is entitled to have the date of lodgment of the foreign application treated as the priority date for the purposes of the local application, subject to subsections (3) and (4).
- (3) The entitlement of the person to have the date of lodgment of the foreign application treated as the priority date for the purposes of the local application is conditional on the person lodging with the Registrar, within 3 months of making the local application, a copy of the documents that constituted the foreign application, certified by the Authority that received the foreign application to be a true copy of the documents.

- (4) The entitlement of the person to have the date of lodgment of the foreign application treated as the priority date for the purposes of the local application is conditional on the person providing to the Registrar, within a period of 5 years after the making of the foreign application, such further particulars in relation to the plant variety as are required to complete the consideration of the local application.

30 Acceptance or rejection of applications

- (1) The Registrar must, as soon as practicable after an application for PBR is lodged in a plant variety, decide whether to accept or reject the application.
- (2) If the Registrar is satisfied that:
- (a) no other application has, or, if the application were to meet the requirements of paragraphs (b) and (c), would have, an earlier priority date in the variety; and
 - (b) the application complies with the requirements of section 26; and
 - (c) the application establishes a prima facie case for treating the plant variety as distinct from other varieties;
- the Registrar must accept the application.
- (3) If the Registrar is not satisfied of all of the matters referred to in subsection (2), the Registrar must reject the application.
- (4) If the Registrar decides to accept the application, the Registrar must:
- (a) notify the applicant that the application has been accepted; and
 - (b) as soon as possible after notifying the applicant—give public notice of the acceptance of the application.
- (5) If the Registrar decides to reject an application, the Registrar must:
- (a) notify the applicant of the rejection and of the reasons for the rejection; and
 - (b) as soon as possible after notifying the applicant—give public notice of the rejection of the application.

Part 3 Application for plant breeder's right

Division 1 The making of the application

Section 31

Note: A decision under this section to accept or reject an application is reviewable by the AAT under section 77.

31 Requests for variation of application

- (1) If:
- (a) after an application for PBR in a plant variety has been accepted; but
 - (b) before concluding the examination of that application (including the subsequent detailed description of that variety) and of any objection to the application;
- the right of the applicant to apply for PBR in a particular plant variety is assigned to, or has been transmitted by will or operation of law to, another person, that other person may request the Registrar, in writing, to vary the application so that that other person is shown as the applicant.
- (2) If the Registrar is satisfied that the right to apply for PBR in a particular plant variety has been assigned to, or has been transmitted by will or operation of law to, to a particular person, the Registrar must vary the application so that that person is shown as the applicant.
- (3) A request by a person under subsection (1) must give an address in Australia or New Zealand for the service of documents on the person for the purposes of this Act.
- Note: After the time specified in regulations made for the purposes of subsection 3(2), the address may be an electronic address: see subsections 3(2), (5) and (6).
- (4) If the Registrar complies with a request under subsection (1) and the address for the service of documents that is given in connection with that request is different from the address contained in the application as the address for service of documents on the applicant, the Registrar must vary the application so that the address so given is shown as the address for service of documents on the applicant.
- (5) If:
- (a) after an application for PBR in a plant variety has been accepted; but
-

- (b) before concluding the examination of that application (including the subsequent detailed description of that variety) and of any objection to the application;
the applicant requests the Registrar, in writing, to vary the application in any other respect other than that referred to in subsection (1), the Registrar may, in his or her discretion, vary the application in accordance with the request.
- (6) Despite the previous provisions of this section, the Registrar is not obliged or permitted to vary an application in response to a request under this section unless the person making the application for the variation has paid to the Commonwealth the application variation fee that is prescribed for the purposes of this section.

Note: A decision under this section to vary or to refuse to vary an application is reviewable by the AAT under section 77.

32 Notification of decisions on requests to vary application

- (1) If the Registrar varies an application in accordance with a request under subsection 31(1) or (5), the Registrar must, as soon as practicable, notify the person making the request that the application has been so varied.
- (2) If the Registrar rejects a request under subsection 31(1) or (5), the Registrar must, as soon as practicable, notify the person making the request:
- (a) that the request has been rejected; and
 - (b) of the reasons for the rejection.
- (3) If the Registrar rejects a request under subsection 31(1), the Registrar must, as soon as practicable, also notify the applicant:
- (a) of the particulars of the request; and
 - (b) that the request has been rejected; and
 - (c) of the reasons for the rejection.
- (4) If the Registrar varies an application in accordance with a request under subsection 31(1), the Registrar must, as soon as practicable, also notify particulars of the variation to the person who was the applicant before the variation was made.

Part 3 Application for plant breeder's right

Division 1 The making of the application

Section 33

- (5) If an application:
- (a) is varied because of a request under subsection 31(1); or
 - (b) is varied because of a request under subsection 31(5) in a significant respect;
- the Registrar must, as soon as practicable, give public notice of particulars of the variation.

33 Withdrawal of application

- (1) An application may be withdrawn by the applicant at any time.
- (2) If an application is withdrawn after public notice of acceptance of the application is given, the Registrar must, as soon as practicable, give public notice of the withdrawal.

Division 2—Dealing with the application after its acceptance

34 Detailed description in support of application to be given to Registrar

- (1) As soon as practicable after, but not later than 12 months after, an application has been accepted, or within such further period as the Registrar allows for the purpose, the applicant must, if the applicant has not already done so, give the Registrar a detailed description of the plant variety to which the application relates.

Note: A decision under this subsection to refuse to extend the 12 months period is reviewable by the AAT under section 77.

- (2) If the applicant fails to give the Registrar the detailed description required under this section within the required period, the application is taken to have been withdrawn.
- (3) The detailed description must be in the approved form.
- (4) The detailed description must contain:
- (a) particulars of the characteristics that distinguish the variety from other plant varieties the existence of which is a matter of common knowledge; and
 - (b) particulars of:
 - (i) any test growing carried out, including a test growing carried out as required under section 37, to establish that the variety is distinct, uniform and stable; and
 - (ii) any test growing carried out as required under section 41 or 41E (both of which deal with test growing of essentially derived varieties); and
 - (c) if the variety was bred outside Australia—particulars of any test growing outside Australia that tend to establish that the variety will, if grown in Australia, be distinct, uniform and stable; and
 - (d) such other particulars (if any) as are required by the approved form;

Section 35

and must be accompanied by a certificate, in the approved form, verifying the particulars of the detailed description, completed by the approved person nominated in the application as the approved person in relation to that application.

- (5) The Registrar must, as soon as practicable after receiving a detailed description of a plant variety to which an application for PBR relates, give public notice of that description.
- (6) The applicant must:
 - (a) unless paragraph (b) applies—within 12 months after the application has been accepted; and
 - (b) if the detailed description has been given to the Registrar before the end of that period—at the time when the description was given;pay to the Commonwealth such examination fee as is prescribed.
- (7) Subsection (6) does not apply to an applicant if, when the examination fee would become payable apart from this subsection:
 - (a) the plant variety to which the application relates is subject to biosecurity control; or
 - (b) a biosecurity control order is in force in relation to the plant variety to which the application relates; or
 - (c) a biosecurity response zone determination is in force and the plant variety to which the application relates is in the biosecurity response zone.
- (8) If subsection (7) applies, the applicant must pay the prescribed examination fee within 12 months after (as the case requires):
 - (a) the plant variety is released from biosecurity control; or
 - (b) the biosecurity control order ceases to be in force in relation to the plant variety; or
 - (c) the biosecurity response zone determination ceases to be in force.

35 Objection to application for PBR

- (1) Any person who considers, in relation to an application for PBR in a plant variety that has been accepted:

- (a) that his or her commercial interests would be affected by the grant of that PBR to the applicant; and
 - (b) that the Registrar cannot be satisfied, in relation to that application, of a matter referred to in a paragraph of subsection 26(2) or in subparagraph 44(1)(b)(i), (ii), (iii), (iv), (v), (vi), (vii) or (viii);
- may lodge a written objection to the grant of PBR with the Registrar at any time after the giving of that public notice of acceptance of the application and before the end of the period of 6 months starting with the public notice of that detailed description.
- (2) An objection must set out:
 - (a) particulars of the manner in which the person considers his or her commercial interests would be affected; and
 - (b) the reasons why the person considers that the Registrar cannot be satisfied of a matter referred to in paragraph (1)(b).
 - (2A) An objection is of no effect unless it is accompanied by the prescribed fee.
 - (3) The Registrar must give a copy of the objection to the applicant.

36 Inspection of applications and objections

- (1) A person may, at any reasonable time, inspect an application for PBR in a plant variety (including any detailed description of the plant variety given in support of the application) or an objection lodged in respect of that application (including that detailed description).
- (2) A person is entitled, on payment of such fee as is prescribed, to be given a copy of an application for PBR in a plant variety, of an objection to such an application, or of a detailed description of the plant variety.
- (3) However, this section does not entitle a person to inspect the part of the application that contains the information referred to in paragraph 26(2)(ga) or to have a copy of the part of the application containing that information, unless the person is:
 - (a) the applicant; or

Section 37

- (b) the applicant's authorised agent; or
- (c) the Minister; or
- (d) the Registrar; or
- (e) a person who is required to inspect the part of the application in the course of performing his or her duties in accordance with this Act; or
- (f) a person prescribed for the purposes of this subsection.

37 Test growing of plant varieties

- (1) If, in dealing with:
 - (a) an application for PBR that has been accepted; or
 - (b) an objection to such an application for PBR; or
 - (c) a request for revocation of PBR;the Registrar decides that there should be a test growing or a further test growing of the variety to which the application, objection or request relates, the Registrar:
 - (d) must notify that decision:
 - (i) to the person who made the application, objection or request; and
 - (ii) in the case of an objection to an application for PBR—also to the applicant; and
 - (iii) in the case of a request for revocation of PBR—also to the grantee; and
 - (e) may also notify that decision to any other person whom the Registrar considers appropriate if the test growing or further test growing is a comparative test growing.
- Note: A decision under this subsection to require a test growing is reviewable by the AAT under section 77.
- (2) The notification, in addition to telling the person of the Registrar's decision:
 - (a) must specify the purpose of the test growing; and
 - (b) may require the person:
 - (i) to supply the Registrar with sufficient plants or sufficient propagating material of plants of the variety,

and with any necessary information, to enable the Registrar to arrange a test growing; or

- (ii) to make arrangements for an approved person to supervise the test growing, to supply the approved person with sufficient plants or propagating material to enable the test growing, to give the Registrar a copy of the records of observations made during the test growing and to certify the records of observations so provided;

whichever the Registrar considers appropriate.

- (2A) A person to whom a notification is given under this section must comply with the requirements of the notification:
 - (a) in the case of trees and vines, or propagating materials of trees and vines—within 2 years from the date the notification is given; and
 - (b) in the case of other species of plant or propagating materials of other species of plant—within 12 months from that date.
- (2B) If a person, without reasonable excuse, fails to comply with the requirements of a notification given under this section, the Registrar may:
 - (a) if the person is the grantee—revoke PBR, in the plant variety to which the notification relates, under section 50; or
 - (b) if the person made an application, objection or request—decide not to further proceed with the application, objection or request for revocation.

Note: A decision not to further proceed with the application, objection or request for revocation is reviewable by the AAT under section 77.

- (3) If a notification under this section contains the requirement referred to in subparagraph (2)(b)(i) and the applicant complies with the request, the Registrar must arrange to have the variety concerned test grown.
- (4) After completion of a test growing arranged by the Registrar, any propagating material of the variety used in, or resulting from, the test growing, that is capable of being transported must be delivered to the person by whom propagating material of that variety was supplied for the purposes of the test growing.

Section 38

- (5) All of the costs associated with a test growing must be paid:
- (a) if it is conducted to deal with an application for PBR—by the applicant for PBR; or
 - (b) if it is conducted to deal with an objection to an application for PBR:
 - (i) by the applicant for PBR, where the test growing shows that there are valid reasons for the objection; or
 - (ii) by the objector, in any other case; or
 - (c) if it is conducted to deal with a request for revocation of PBR:
 - (i) by the grantee, where the test growing shows that there are valid reasons for the request; or
 - (ii) by the person making the request, in any other case.
- (6) If a contracting party, or a national or an organisation of a contracting party, requests the Registrar to conduct in Australia a test growing of a plant variety, the Registrar may decide to conduct the test growing as so requested.
- (7) If the Registrar decides to conduct a test growing under subsection (6), subsections (1), (2), (3), (4) and (5) apply to such test growing as if:
- (a) the person or organisation requesting the test growing under subsection (6) was an applicant for PBR; and
 - (b) the test growing had been decided on in relation to that application.

38 Characteristics of plant varieties bred or test grown outside Australia

- (1) If:
- (a) a plant variety (the *subject variety*):
 - (i) was bred outside Australia; or
 - (ii) was bred in Australia but, before an application for PBR was made in Australia, an application for PBR was made in a contracting party other than Australia; and
 - (b) an application under this Act for PBR in the variety has been accepted;

the variety is not to be taken to have a particular characteristic unless subsection (2), (3), (4) or (5) applies to the variety.

- (2) This subsection applies to the subject variety if a test growing in Australia has demonstrated that the variety has the particular characteristic.
- (3) This subsection applies to the subject variety if:
 - (a) a test growing of the variety has been carried out outside Australia; and
 - (b) that test growing has demonstrated that the variety has the particular characteristic; and
 - (c) under an agreement between Australia and the country in which the test growing was carried out, Australia is required to accept that the variety has that particular characteristic.
- (4) This subsection applies to the subject variety if the Registrar is satisfied that:
 - (a) a test growing of the variety carried out outside Australia has demonstrated that the variety has the particular characteristic; and
 - (b) that test growing of the variety is equivalent to a test growing of the variety in Australia.
- (5) This subsection applies to the subject variety if the Registrar is satisfied that:
 - (a) a test growing of the variety carried out outside Australia has demonstrated that the variety has the particular characteristic; and
 - (b) any test growing of the variety carried out in Australia would probably demonstrate that the variety has that characteristic; and
 - (c) if a test growing of the variety in Australia sufficient to demonstrate whether the variety has that characteristic were to be carried out, it would take longer than 2 years.

Note: A decision to the effect that the Registrar is, or is not, satisfied of the matters referred to in subsection (4) or (5) is reviewable by the AAT under section 77.

Division 3—Provisional protection

39 Provisional protection

- (1) When an application for PBR in a plant variety is accepted, the applicant is taken to be the grantee of that right for the purposes of Part 5 from the day the application is accepted until:
- (a) the application is disposed of; or
 - (b) if the Registrar gives the applicant a notification under subsection (2)—the notification is disposed of;
- whichever occurs first.

- (2) If the Registrar is satisfied in relation to an application for PBR in a plant variety, that:
- (a) PBR will not be granted or is unlikely to be granted to the applicant; or
 - (aa) a decision has been taken under paragraph 37(2B)(b) not to proceed with the application; or
 - (ab) the application has been withdrawn; or
 - (b) the applicant has given an undertaking to a person (whether or not for consideration) not to commence proceedings for infringement of the right of which the applicant is deemed to be the grantee; or
 - (c) at least 12 months have elapsed since the publication of the detailed description that was given to the Registrar under subsection 34(1);

the Registrar may notify the applicant that this section will cease to apply to that variety on a day specified in the notification unless, before that time the applicant has made a submission to the Registrar providing reasons why this section should not cease to apply.

Note: A decision under this subsection to notify an applicant is reviewable by the AAT under section 77.

- (3) For the purposes of paragraph (1)(b) a notification referred to in that paragraph is not taken to be disposed of until:

- (a) the end of the period within which application may be made to the AAT for a review of the giving of the notification; or
 - (b) if such an application is made to the AAT—the application is withdrawn or finally determined, whether by the AAT or a court.
- (4) As soon as practicable after a person ceases to be taken to be the grantee of PBR under this section, the Registrar must give public notice that the person has ceased to be so taken.
- (5) Nothing in this section affects the power of:
- (a) the Federal Court, or a Judge of that Court, under subsection 44A(2) of the AAT Act; or
 - (b) the Federal Circuit Court, or a Judge of that Court, under subsection 44A(2A) of that Act;
- where an appeal is begun in that court from a decision of the AAT.
- (6) A person who is taken to be the grantee of PBR in a plant variety is not entitled to begin an action or proceeding for an infringement of that right occurring during the period when the person is so taken unless and until that right is finally granted to the person under section 44.

Division 4—Essential derivation

40 Essential derivation for PBR-protected varieties—declaration

- (1) A person (an *eligible person*) may make an application under subsection (1A) if the person is:
- (a) the grantee of PBR in a plant variety; or
 - (b) an exclusive licensee of such a grantee.
- (1A) An eligible person in relation to a plant variety (the *initial variety*) may apply in writing to the Registrar for a declaration that another variety (the *second variety*) is essentially derived from the initial variety if:
- (a) another person is the grantee of, or has applied for, PBR in the second variety; and
 - (b) the eligible person is satisfied that the second variety is essentially derived from the initial variety; and
 - (c) the initial variety has not itself been declared (under section 40 or 41D) to be essentially derived from another variety in which PBR has been granted.
- Note 1: If the breeder of the second variety has not applied for, or been granted, PBR in the second variety, an eligible person may apply under section 41A for a declaration that the second variety is essentially derived from the initial variety.
- Note 2: If an application for PBR in the second variety is made after an application is made under section 41A in relation to that variety, the application under section 41A may be treated as if it were an application under this section (see section 41F).
- (1B) The Registrar must notify the application under subsection (1A) to each eligible person in relation to the initial variety other than the applicant.
- (1C) If an eligible person in relation to a plant variety (the *initial variety*) applies for a declaration under subsection (1A) in relation to another plant variety (the *second variety*), that does not prevent another eligible person in relation to the initial variety also applying for a declaration under that subsection in relation to the second variety.

- (2) Nothing in this section implies that an eligible person in relation to a plant variety (the *initial variety*) may not, in relation to an application by another person for PBR in another plant variety (the *second variety*) that has been accepted but not finally determined:
- (a) make an objection, under section 35, to the granting of PBR in the second variety; and
 - (b) in the alternative, if PBR is granted to another person in the second variety—apply under subsection (1A) for a declaration that the second variety is essentially derived from the initial variety.
- (3) If the second variety:
- (a) is the subject of an application for PBR; and
 - (b) is also the subject of an application for a declaration of essential derivation;
- then, unless and until the Registrar decides to grant the application for PBR:
- (c) the Registrar must not make the declaration of essential derivation; but
 - (d) the Registrar may, in his or her discretion:
 - (i) examine both the application for PBR and the application for a declaration of essential derivation at the same time; and
 - (ii) for the purpose only of examining the application for a declaration of essential derivation—treat the applicant for PBR as the grantee of PBR in the variety.
- (4) An application for a declaration of essential derivation must:
- (a) be in the approved form; and
 - (b) be accompanied by the prescribed fee in respect of the application.
- (5) An application must contain such information relevant to establishing a prima facie case that the second variety is an essentially derived variety of the initial variety as is required by the form.
- (6) If the initial variety has itself been declared to be essentially derived from another variety, the Registrar must:
-

Section 40

- (a) refuse to declare the second variety essentially derived from the initial variety; and
 - (b) notify each eligible person in relation to the initial variety (including the applicant) of the refusal and the reasons for it.
- (7) If the initial variety has not been so declared, the Registrar must determine, on the basis of the application, whether the Registrar is satisfied that there is a prima facie case that the second variety is an essentially derived variety of the initial variety.
- (8) If the Registrar is satisfied of that prima facie case, the Registrar must:
- (a) notify the applicant and the grantee of PBR in the second variety that the Registrar is so satisfied; and
 - (b) notify the grantee of PBR in the second variety that, unless the grantee establishes, within 30 days after being so notified or such longer period as the Registrar allows, that the second variety is not an essentially derived variety of the initial variety, the Registrar will, at the end of that period, declare the second variety to be such an essentially derived variety.
- Note: A decision under this subsection to refuse to extend the period of 30 days is reviewable by the AAT under section 77.
- (9) If the Registrar is not satisfied of that prima facie case, the Registrar must notify each eligible person in relation to the initial variety (including the applicant) that the Registrar is not so satisfied, and of the reasons for not being so satisfied.
- (10) If, after considering:
- (a) the information presented by the grantee of PBR in the second variety; and
 - (b) any information obtained from a test growing conducted in accordance with section 41; and
 - (c) any other relevant information obtained by the Registrar;
- the Registrar is not satisfied that the grantee of PBR in the second variety has rebutted the prima facie case, the Registrar must:
- (d) declare, in writing, that the second variety is an essentially derived variety of the initial variety; and

- (e) notify each eligible person in relation to the initial variety (including the applicant) of the declaration; and
 - (f) notify the grantee of PBR in the second variety of the declaration and of the reasons for not being satisfied that the prima facie case has been rebutted.
- (11) If, after considering the information referred to in paragraph (10)(a), (b) or (c), the Registrar is satisfied that the grantee of PBR in the second variety has rebutted the prima facie case, the Registrar must:
- (a) notify each eligible person in relation to the initial variety (including the applicant) that he or she is so satisfied, and of the reasons for being so satisfied; and
 - (b) notify the grantee of PBR in the second variety that he or she is so satisfied.
- (12) While a declaration under this section that the second variety is essentially derived from the initial variety remains in force, section 19 applies in relation to the second variety as if:
- (a) the references in that section to the grantee, in relation to that variety were references both to the person holding PBR in that variety and to the person holding PBR in the initial variety; and
 - (b) the reference in subsection 19(4) to 2 years after the grant of PBR were a reference to 2 years after the grant of PBR in the second variety whether or not the declaration of essential derivation was made at the same time or a later time; and
 - (c) a failure by the other person holding PBR in the initial variety or the person holding PBR in the second variety to co-operate in making the second variety available to the public in accordance with the requirements of subsection 19(1) was a failure of the grantee to comply with the requirements of that subsection.

Note 1: Section 19 requires the grantee of PBR in a plant variety to take reasonable steps to ensure reasonable public access to the plant variety.

Note 2: A decision under this section to declare, or not to declare, a plant variety essentially derived is reviewable by the AAT under section 77.

41 Essential derivation for PBR-protected varieties—test growing

- (1) This section applies if:
- (a) an eligible person applies for a declaration under section 40 in relation to a plant variety (the *initial variety*) that another plant variety (the *second variety*) is essentially derived from the initial variety; and
 - (b) in the course of that application the applicant establishes a prima facie case that the second variety is essentially derived from the initial variety.

- (1A) On the basis of information supplied by the applicant and the grantee of PBR in the second variety, the Registrar may decide that a test growing or further test growing is required to determine whether the prima facie case has been rebutted.

Note: A decision to require a test growing is reviewable by the AAT under section 77.

- (1B) The Registrar must notify the decision to each of the following:

- (a) the applicant;
- (b) the grantee of PBR in the second variety.

- (2) The notification must require:

- (a) the applicant to supply the Registrar with sufficient plants or sufficient propagating material of plants of that variety and with any necessary information; and
- (b) the grantee of PBR in the second variety to supply the Registrar with sufficient plants or sufficient propagating material of plants of that second variety and with any necessary information;

to enable the Registrar to arrange a test growing.

- (3) After completion of the test growing, any propagating material of a variety used in, or resulting from, the test growing that is capable of being transported must be delivered to the person by whom propagating material of that variety was supplied for the purpose of the test growing.
- (4) All costs associated with the test growing must be paid by the person who, without the test growing, failed to rebut the prima

facie case of essential derivation, whether or not the test growing led to rebuttal of that case.

- (5) If the Registrar requires a test growing or further test growing under this section, paragraph 40(8)(b) has effect as if the reference in that paragraph to 30 days after being so notified were a reference to 30 days after being notified of the results of the test growing.

41A Essential derivation for non-PBR-protected second varieties— application for declaration

Circumstances in which application may be made

- (1) A person (an **eligible person**) may make an application under subsection (2) if the person is:
- (a) the grantee of PBR in a plant variety; or
 - (b) an exclusive licensee of such a grantee.
- (2) An eligible person in relation to a plant variety (the **initial variety**) may apply in writing to the Registrar for a declaration under section 41D that another variety (the **second variety**) is essentially derived from the initial variety if:
- (a) PBR has not been applied for, or granted, in the second variety; and
 - (b) the eligible person is satisfied that the second variety is essentially derived from the initial variety; and
 - (c) the initial variety has not itself been declared (under section 40 or 41D) to be essentially derived from another variety in which PBR has been granted.

Content of application

- (3) The application must:
- (a) be in the approved form; and
 - (b) be accompanied by such fee (if any) as is prescribed by the regulations in respect of the application.
- (4) Without limiting what the approved form may require, the application must contain:

Section 41A

- (a) such information as is required by the form that is relevant to establishing, on the balance of probabilities, that the second variety is:
 - (i) essentially derived from the initial variety; and
 - (ii) a registrable plant variety within the meaning of section 43; and
 - (b) either:
 - (i) such information as is required by the form that is necessary to enable the Registrar to notify the application to the person (or persons) the applicant reasonably believes to be the breeder of the second variety; or
 - (ii) evidence that the applicant cannot comply with subparagraph (i), despite taking reasonable steps to obtain the information mentioned in that subparagraph.
- (5) The Registrar must refuse to consider the application if satisfied that the applicant has failed to comply with subparagraph (4)(b)(i), unless the Registrar is satisfied that the applicant, after taking reasonable steps to obtain the information mentioned in that subparagraph, cannot do so.

Note: A decision under this subsection is reviewable by the AAT under section 77.

Notifying other eligible persons and the breeder of the second variety

- (6) The Registrar must notify an application to:
- (a) each eligible person in relation to the initial variety other than the applicant; and
 - (b) if the application includes sufficient information for the Registrar to do so—the person (or persons) the applicant reasonably believes to be the breeder of the second variety.
- (7) The notification of the application must include a statement to the effect that the application has been, or will be, published in the *Plant Varieties Journal* under subsection 41B(1).

Multiple applications

- (8) If an eligible person in relation to a plant variety (the *initial variety*) applies for a declaration under subsection (2) in relation to another plant variety (the *second variety*), that does not prevent another eligible person in relation to the initial variety also applying for a declaration under that subsection in relation to the second variety.

**41B Essential derivation for non-PBR-protected varieties—
publication of applications**

- (1) As soon as practicable after an application under section 41A is made, the Registrar must publish a notification of the application in the *Plant Varieties Journal* including information about the applicant and the application, and any related information, prescribed by the regulations.
- (2) At any time or times before making a decision on the application, the Registrar may publish further notification of the application in the *Plant Varieties Journal*, including information (or updated information) about the matters prescribed by regulations made for the purposes of subsection (1).
- (3) However, the Registrar must not publish any information in a notification under subsection (1) or (2) if the Registrar is satisfied that the information is commercial-in-confidence.

Note: A decision not to publish information for this reason is reviewable by the AAT under section 77.

- (4) Information is *commercial-in-confidence* if the applicant demonstrates to the Registrar that:
- (a) release of the information would cause competitive detriment to the applicant; and
 - (b) the information is not in the public domain; and
 - (c) the information is not required to be disclosed under another Australian law; and
 - (d) the information is not readily discoverable.

Section 41C

- (5) However, this section does not apply if the Registrar refuses to consider an application under subsection 41A(5).

Note: Subsection 41A(5) requires the Registrar to refuse to consider an application if the applicant does not include sufficient information to enable the person (or persons) the applicant reasonably believes to be the breeder of the second variety to be notified, unless the Registrar is satisfied that the applicant took reasonable steps to obtain such information.

**41C Essential derivation for non-PBR-protected varieties—
opportunity to be heard**

Opportunity to be heard for interested persons

- (1) Before making a decision in relation to an application under section 41A for a declaration under section 41D that a plant variety (the **second variety**) is essentially derived from another plant variety, the Registrar must give an opportunity to be heard under this section to the following persons (each of whom is an **interested person**):

- (a) a person notified under paragraph 41A(6)(b);
- (b) another person who claims to have an interest in the second variety.

Note: Paragraph 41A(6)(b) provides for the Registrar to notify a person (or persons) the applicant reasonably believes to be the breeder of the second variety.

- (2) Subsection (1) only applies if the interested person gives the Registrar an address for service in Australia or New Zealand within the hearing period.
- (3) The **hearing period** is the period of 2 months after:
- (a) if the Registrar notifies the application to a person (or persons) under paragraph 41A(6)(b)—the later of the following days:
 - (i) the day the application is notified;
 - (ii) the day notification of the application is last published in the *Plant Varieties Journal*; or
 - (b) if the Registrar does not notify the application to a person (or persons) under paragraph 41A(6)(b)—the day notification of
-

the application is last published in the *Plant Varieties Journal*.

Note: The hearing period is the minimum period for considering the application (see subsection 41D(5)).

Information given in accordance with the opportunity to be heard

- (4) For the purposes of section 41D, information is given by an interested person in accordance with the person's opportunity to be heard if the information is given in accordance with regulations prescribed for the purposes of this subsection.
- (5) Regulations made for the purposes of subsection (4) may, without limiting that subsection, include reasonable requirements in relation to the following:
 - (a) the giving of written information at the request of the Registrar;
 - (b) the giving of oral information at a hearing convened by the Registrar;
 - (c) when, where and in what circumstances such a hearing may be convened;
 - (d) the practice and procedure for any such hearings, including provision for the Registrar to determine such practice and procedure (whether generally or in relation to a particular hearing);
 - (e) the payment of any fees that are prescribed by the regulations in relation to the opportunity to be heard.

Interested person declines the opportunity to be heard

- (6) For the purposes of section 41D, an interested person declines the opportunity to be heard if the person:
 - (a) gives the Registrar notice that the person does not want to be heard; or
 - (b) fails to give any information in accordance with the person's opportunity to be heard under subsection (4).

41D Essential derivation for non-PBR-protected varieties— declaration

Making the decision

- (1) On an application under section 41A for a declaration under this section that a plant variety (the *second variety*) is essentially derived from another plant variety (the *initial variety*), the Registrar may:

- (a) declare in writing that the second variety is essentially derived from the initial variety; or
- (b) refuse to make such a declaration.

Note 1: A decision under this section is reviewable by the AAT under section 77.

Note 2: The Registrar must refuse to make a declaration under this section if the applicant fails to comply with a requirement under paragraph 41E(3)(a) in relation to a test growing.

Note 3: The Registrar must not make a decision under this section if an application for PBR in the second variety is made under section 24 (see section 41F).

- (2) The Registrar must make a declaration under subsection (1) if, and only if:

- (a) he or she is satisfied on the balance of probabilities that the second variety is:
 - (i) essentially derived from the initial variety; and
 - (ii) a registrable plant variety within the meaning of section 43; and
- (b) the initial variety is not itself declared (under section 40 or this section) to be essentially derived from another plant variety.

- (3) In deciding whether to make a declaration under subsection (1), the Registrar must consider the following:

- (a) the information in the application;
- (b) any information given by an interested person in accordance with the person's opportunity to be heard under subsection 41C(4);

- (c) any information obtained in a test growing conducted in accordance with section 41E;
 - (d) any other relevant information.
- (4) For the purposes of making the decision, the Registrar may draw an inference that is unfavourable to the interests of an interested person (within the meaning of section 41C) if the person, within the hearing period:
- (a) does not give the Registrar an address for service for the purposes of subsection 41C(2); or
 - (b) declines the opportunity to be heard under subsection 41C(6).

Time for making decision

- (5) The Registrar must not make a decision in relation to the application before the end of the hearing period.

Note: For the hearing period, see subsection 41C(3).

Notification of decision

- (6) If the Registrar makes a decision under subsection (1), the Registrar must notify the decision to the following:
- (a) each eligible person within the meaning of section 41A (including the applicant);
 - (b) each interested person who is required to be given an opportunity to be heard under subsection 41C(1).
- (7) A notification under subsection (6) must include:
- (a) a statement of reasons for the decision; and
 - (b) a statement to the effect that, subject to the AAT Act, application may be made to the AAT for review of the decision to which the notice relates by or on behalf of a person or persons whose interests are affected by the decision.

Effect of declaration—reasonable public access

- (8) While a declaration under this section that the second variety is essentially derived from the initial variety remains in force, section 19 applies in relation to the second variety as if the

Section 41E

reference in subsection 19(4) to 2 years after the grant of PBR were a reference to 2 years after the declaration was made.

Note: Section 19 requires the grantee of PBR in a plant variety to take reasonable steps to ensure reasonable public access to the plant variety.

41E Essential derivation for non-PBR-protected varieties—test growing

(1) For the purposes of considering an application under section 41A for a declaration under section 41D that a plant variety (the *second variety*) is essentially derived from another plant variety (the *initial variety*), the Registrar may conduct a test growing or further test growing to determine whether, on the balance of probabilities, the second variety is:

- (a) essentially derived from the initial variety; and
- (b) a registrable plant variety within the meaning of section 43.

Note: A decision under this section is reviewable by the AAT under section 77.

(2) The Registrar must notify a decision to conduct a test growing to:

- (a) the applicant; and
- (b) each interested person who is required to be given an opportunity to be heard under subsection 41C(1).

(3) To enable the Registrar to arrange a test growing, the notification must require:

- (a) the applicant, within a reasonable period specified in the notification, to supply the Registrar with sufficient plants or sufficient propagating material of plants of the initial variety, and with any necessary information; and
- (b) each interested person notified under paragraph (2)(b), within a reasonable period specified in the notification, to supply the Registrar with sufficient plants or sufficient propagating material of plants of the second variety, and with any necessary information.

(4) The notification must include a statement of the effect of subsections (5) to (8).

- (5) Despite subsection 41D(2), the Registrar must, under paragraph 41D(1)(b), refuse to make the declaration applied for if the applicant fails to comply with a requirement under paragraph (3)(a) of this section.
- (6) For the purposes of making a decision under subsection 41D(1) in relation to the application, the Registrar may draw an inference that is unfavourable to the interests of a person notified under paragraph (2)(b) of this section if the person fails to comply with a requirement under paragraph (3)(b) of this section.
- (7) After completion of the test growing, the Registrar must ensure that any propagating material of a variety used in, or resulting from, the test growing that is capable of being transported is delivered to the person by whom propagating material of that variety was supplied for the purpose of the test growing.
- (8) The applicant must pay all costs associated with the test growing.

**41F Essential derivation for non-PBR-protected varieties—
application lodged for PBR in second variety**

Decision to treat application under section 41A as an application under section 40

- (1) The Registrar must decide to treat an application under section 41A for a declaration under section 41D that a plant variety (the **second variety**) is essentially derived from another variety (the **initial variety**) as an application under section 40 in relation to those plant varieties if:
 - (a) an application for PBR in a plant variety (the **PBR application**) is made under section 24; and
 - (b) the Registrar is satisfied that the plant variety in relation to which the PBR application is made is the same as the second variety.

Note: Section 40 provides for a declaration that a plant variety (the second variety) is essentially derived from another plant variety (the initial variety) if PBR has been applied for, or granted, in relation to the second variety.

Section 41F

Effect of decision

- (2) If the Registrar makes a decision under subsection (1):
- (a) the Registrar must not make a decision under section 41D in relation to the application under section 41A (the **original application**); and
 - (b) the Registrar must treat the application under section 41A as if it were an application (the **converted application**) made under section 40 in relation to the initial variety and the second variety, subject to this section.

Notification of decision

- (3) The Registrar must notify the decision to the following persons:
- (a) each eligible person, within the meaning of section 41A, in relation to the initial variety (including the applicant under section 41A);
 - (b) the applicant for PBR in the second variety;
 - (c) each interested person, other than the applicant for PBR in the second variety, who is required to be given an opportunity to be heard under subsection 41C(1).
- (4) A notification under subsection (3) must include:
- (a) a statement of the reasons for the decision, and the effect of this section; and
 - (b) in the case of the notification given under paragraph (3)(a) to the applicant under section 41A—a statement to the effect that the applicant under section 41A may provide additional information under subsection (6) within 2 months after the date of the notification.
- (5) The Registrar must publish notice of the decision in the *Plant Varieties Journal*.

Relevant information

- (6) Within 2 months after a notification of the Registrar's decision is given under subsection (3) to the applicant under section 41A, the applicant under section 41A may give the Registrar any information that would have been required or allowed under

subsections 40(4) and (5) had the original application been made under section 40.

- (7) For the purpose of making a decision under section 40 in relation to the converted application, the Registrar may consider the following:
- (a) for the purposes of a decision under subsection 40(7):
 - (i) any information in the original application; and
 - (ii) any additional information given in accordance with subsection (6) of this section;
 - (b) for the purposes of a decision under subsection 40(10) or (11):
 - (i) any information in relation to the original application given by an interested person in accordance with the person's opportunity to be heard under subsection 41C(4); and
 - (ii) any information in relation to the original application obtained in a test growing conducted in accordance with section 41E; and
 - (iii) any information mentioned in subsection 40(10) in relation to the converted application, including information obtained in a test growing conducted in accordance with section 41.

Time for making decision

- (8) The Registrar must not make a decision in relation to the converted application earlier than 2 months after the day the notification is given under paragraph (3)(a) to the applicant under section 41A.

Part 4—The grant and revocation of Plant Breeder's Right

Division 1—Grant of Plant Breeder's Right

43 Registrable plant varieties

- (1) For the purposes of this Act, a plant variety in which an application for PBR is made is registrable if:
 - (a) the variety has a breeder; and
 - (b) the variety is distinct; and
 - (c) the variety is uniform; and
 - (d) the variety is stable; and
 - (e) the variety has not been exploited or has been only recently exploited.
- (2) For the purposes of this section, a plant variety is distinct if it is clearly distinguishable from any other variety whose existence is a matter of common knowledge.
- (3) For the purposes of this section, a plant variety is uniform if, subject to the variation that may be expected from the particular features of its propagation, it is uniform in its relevant characteristics on propagation.
- (4) For the purposes of this section, a plant variety is stable if its relevant characteristics remain unchanged after repeated propagation.
- (5) For the purposes of this section, a plant variety is taken not to have been exploited if, at the date of lodging the application for PBR in the variety, plant material of the variety has not been sold to another person by, or with the consent of, the breeder.
- (6) For the purposes of this section, a plant variety is taken to have been only recently exploited if, at the date of lodging the application for PBR in the variety, plant material of the variety has

not been sold to another person by, or with the consent of, the breeder, either:

- (a) in Australia—more than one year before that date; or
- (b) outside of Australia:
 - (i) in the case of trees or vines—more than 6 years before that date; or
 - (ii) in any other case—more than 4 years before that date.

Note: For the definition of *sell* see subsection 3(1).

- (7) Subsection (6) does not apply to a sale by the breeder of a plant variety of plant material of the variety to another person if that sale is a part of, or related to, another transaction under which the right of the breeder to make application for PBR in that plant variety is sold to that other person.
- (7A) Subsection (6) does not apply to a sale of plant material of a plant variety to a person by, or with the consent of, the breeder if:
 - (a) the sole purpose of the sale is for the person to multiply plant material of that plant variety on behalf of the breeder; and
 - (b) under the agreement for the sale, immediately after the plant material is multiplied, property in the new plant material vests in the breeder.
- (7B) Subsection (6) does not apply to a sale of plant material of a plant variety to a person by, or with the consent of, the breeder if the sale is part of an agreement under which the person agrees to use plant material of that variety for the sole purpose of evaluating the variety in one or more of the following tests or trials:
 - (a) field tests;
 - (b) laboratory trials;
 - (c) small-scale processing trials;
 - (d) tests or trials prescribed for the purposes of this subsection.
- (7C) Subsection (6) does not apply to a sale of plant material of a plant variety to a person by, or with the consent of, the breeder if:
 - (a) the sale only involves plant material that is a by-product or surplus product of one or more of the following:
 - (i) the creation of the variety;

Section 44

- (ii) a multiplication of the variety;
 - (iii) tests or trials covered by subsection (7B); and
- (b) the plant material is sold:
 - (i) without identification of the plant variety of the plant material; and
 - (ii) for the sole purpose of final consumption.
- (8) In addition to any other reason for treating a plant variety as a variety of common knowledge, a variety is to be treated as a variety of common knowledge if:
 - (a) an application for PBR in the variety has been lodged in a contracting party, or in a foreign country that is not a contracting party; and
 - (b) the application is proceeding, or has led, to the grant of PBR.
- (9) A plant variety that is to be treated as a variety of common knowledge under subsection (8) because of an application for PBR in the variety is to be so treated from the time of the application.
- (10) In this section:

plant material, in relation to a plant variety, means one or more of the following:

- (a) propagating material of the plant variety;
- (b) harvested material of the plant variety;
- (c) products obtained from harvested material of the plant variety.

variety has the same meaning as in the 1991 Act of the Convention.

44 Grant of PBR

- (1) If:
 - (a) an application for PBR in a plant variety is accepted; and
 - (b) after examining the application (including the subsequent detailed description) and any objection to the application, the Registrar is, or continues to be, satisfied that:
 - (i) there is such a variety; and

(ii) the variety is a registrable plant variety within the meaning of section 43; and
(iii) the applicant is entitled to make the application; and
(iv) the grant of that right is not prohibited by this Act; and
(v) that right has not been granted to another person; and
(vi) the name of the variety complies with section 27; and
(vii) propagating material of that variety has been deposited for storage, at the expense of the applicant, in a genetic resource centre approved by the Registrar; and
(viii) if the Registrar so requires, a satisfactory specimen plant of the variety has been supplied to the herbarium; and
(ix) all fees payable under this Act in respect of the application, examination and grant have been paid;

the Registrar must grant that right to the applicant.

(2) If:

- (a) an application for PBR in a plant variety is accepted; and
- (b) the plant variety is a variety of a species indigenous to Australia;

the Registrar must require supply of a satisfactory specimen plant of the variety to the herbarium.

(3) If:

- (a) an application for PBR in a plant variety is accepted; and
- (b) the Registrar is not satisfied of all of the matters referred to in paragraph (1)(b);

the Registrar must refuse to grant that right to the applicant.

(4) The Registrar must not grant or refuse to grant PBR in a plant variety until at least 6 months after the giving of public notice of the detailed description of the variety.

(5) If:

- (a) an application for PBR in a plant variety has been varied under section 31; and
- (b) the variation relates to the detailed description of the variety that has been given to the Registrar; and

Section 44

- (c) the Registrar has given public notice of the variation;
the Registrar must not grant, or refuse to grant, PBR in the variety until 6 months after giving public notice of the variation or of the last such variation.
- (6) If an objection to an application for PBR is made under section 35, the Registrar must give the applicant 30 days, starting when a copy of the objection is given to the applicant, or such longer period as the Registrar considers to be reasonable in the circumstances, to provide an answer to the objection.
- (7) A quantity of propagating material of a plant variety that is lodged with a genetic resource centre must be sufficient to enable that variety to be kept in existence if there were no other propagating material of plants of that variety.
- (8) The delivery and storage of propagating material of a plant variety does not affect the ownership of the material but the material must not be dealt with otherwise than for the purposes of this Act.
- (9) The propagating material of a plant stored at a genetic resource centre may be used by the Registrar for the purposes of this Act, including the purposes of section 19.
- (10) PBR is granted to a person by the issue to that person by the Registrar of a certificate in an approved form, signed by the Registrar, containing such particulars of the plant variety concerned as the Registrar considers appropriate.
- (11) If the PBR is granted to persons who make a joint application for the right, the right is to be granted to those persons jointly.
- (12) If the Registrar refuses to grant PBR in a plant variety, the Registrar must, within 30 days of so refusing, notify the applicant:
- (a) of the refusal; and
 - (b) of the reasons for the refusal.

Note: A decision under this section to grant, or refuse to grant, PBR in a plant variety is reviewable by the AAT under section 77.

45 Grant of PBR to be exclusive

- (1) Subject to subsection (3), only one grant of PBR may be made under this Act in relation to a plant variety.

Note: If PBR is granted to persons who make a joint application, the PBR is granted to those persons jointly: see subsection 44(11).

- (3) If:
- (a) a person is the grantee of PBR in a plant variety (the *initial variety*); and
 - (b) another person is the grantee of PBR in another plant variety; and
 - (c) the other variety is declared to be essentially derived from the initial variety;
- subsection (1) does not prevent PBR in the initial variety extending to the other variety.

Note: For declarations of essential derivation, see sections 40 and 41D.

46 Grant of PBR to be entered on Register

- (1) When the Registrar grants PBR in a plant variety, the Registrar must enter in the Register:
- (a) a description, or description and photograph, of a plant of that variety; and
 - (b) the name of the variety and any proposed synonym; and
 - (c) the name of the grantee; and
 - (d) the name and address of the breeder; and
 - (e) the address for the service of documents on the grantee for the purposes of this Act as shown on the application for the right; and
 - (f) the day on which the right is granted; and
 - (g) such other particulars relating to the granting as the Registrar considers appropriate.
- (2) When a variety (the *derived variety*) is declared to be essentially derived from another variety (the *initial variety*), the Registrar must enter in the Register both in respect of the derived variety and the initial variety:

Section 47

- (a) the fact that the declaration has been made; and
- (b) the day on which the declaration was made.

Note: For declarations of essential derivation, see sections 40 and 41D.

47 Notice of grant of PBR

- (1) The Registrar must, as soon as possible after granting PBR to a person, give public notice of the grant in the *Plant Varieties Journal*.
- (2) The Registrar must, as soon as possible after the making of a declaration that a plant variety is an essentially derived variety of another plant variety, give public notice of the making of the declaration in the *Plant Varieties Journal*.

Note: For declarations of essential derivation, see sections 40 and 41D.

48 Effect of grant of PBR

- (1) If a person is granted PBR in a plant variety:
 - (a) any other person who was entitled to make, but had not made, application for the right in the variety:
 - (i) ceases to be entitled to make such application; and
 - (ii) is not entitled to any interest in the right; and
 - (b) any other person who had made application for the right in the variety:
 - (i) ceases to be entitled to have his or her application considered or further considered; and
 - (ii) is not entitled to any interest in the right.
- (2) Subsection (1) does not prevent a person:
 - (a) from applying for a revocation of the rights under section 50; or
 - (b) from instituting proceedings before a court or the AAT in relation to the right; or
 - (c) from applying for a declaration that the plant variety in which the right was granted is essentially derived from another plant variety in which the person holds PBR.

Note: For declarations of essential derivation, see sections 40 and 41D.

- (3) If:
- (a) PBR in a particular plant variety is granted to a person; and
 - (b) another person (the *eligible person*) was entitled, at law or equity, to an assignment of the right to make an application for the PBR;
- the eligible person is entitled to an assignment of the PBR.

49 PBR may be subject to conditions

- (2) The Minister may impose such conditions on PBR that is to be granted or that has been granted as the Minister considers to be necessary in the public interest.
- (3) If the Minister imposes conditions on PBR:
- (a) the Registrar must give public notice of those conditions and give the grantee a copy of the instrument setting them out; and
 - (b) the Registrar must enter details of those conditions in the Register.

Note: A decision under this section by the Minister to make a grant subject to conditions is reviewable by the AAT under section 77.

Division 2—Revocation of Plant Breeder's Right or declaration of essential derivation

50 Revocation of PBR

- (1) The Registrar must revoke PBR in a plant variety or a declaration that a plant variety is essentially derived from another plant variety if:
 - (a) the Registrar becomes satisfied that facts existed that, if known before the grant of that right or the making of that declaration, would have resulted in the refusal to grant that right or make that declaration; or
 - (b) the grantee has failed to pay a fee payable in respect of that right or of that declaration within 30 days after having been given notice that the fee has become payable.
- (2) The Registrar may revoke PBR in a plant variety if:
 - (a) the Registrar is satisfied that a person to whom that right has been assigned or transmitted has failed to comply with section 21; or
 - (aa) the Registrar is satisfied that the grantee, without reasonable excuse, has failed to comply with the requirements of a notification under section 37; or
 - (b) the Registrar is satisfied that the grantee has failed to comply with a condition imposed under section 49.
- (3) If the Registrar revokes PBR in a plant variety or a declaration that a plant variety is essentially derived from another plant variety, the Registrar must, within 7 days after the decision to revoke was taken, notify the decision, and the reasons for the decision, to the grantee of the right that has been revoked or to the grantee of the right that was affected by the giving of the declaration of essential derivation.

Note: For declarations of essential derivation, see sections 40 and 41D.
- (4) The Registrar must not revoke PBR under this section unless:
 - (a) the Registrar has given the grantee, or any person to whom the Registrar believes that right has been assigned or

- transmitted, particulars of the grounds of the proposed revocation; and
- (b) the grantee or that other person has had 30 days after being given those particulars to make a written statement to the Registrar in relation to the proposed revocation.
- (5) The Registrar must not under this section, revoke a declaration that a plant variety is essentially derived from another plant variety (the *initial variety*) unless:
- (a) the Registrar has given the grantee of PBR in the initial variety, or any person to whom the Registrar believes that that PBR has been assigned or transmitted, particulars of the grounds of the proposed revocation of that declaration of essential derivation; and
- (b) the grantee or that other person has had 30 days after being given those particulars to make a written statement to the Registrar in relation to the proposed revocation.
- (6) The revocation of PBR in a plant variety or of a declaration that a plant variety is essentially derived from another plant variety takes effect:
- (a) if no application for review of the revocation is made to the AAT—at the end of the period within which such an application might be made; or
- (b) if such an application is made—at the time when the application is withdrawn, or finally determined, whether by the Tribunal or by a court.
- (7) Nothing in this section affects the power of:
- (a) the Federal Court, or a Judge of that Court, under subsection 44A(2) of the AAT Act; or
- (b) the Federal Circuit Court, or a Judge of that Court, under subsection 44A(2A) of that Act.
- (8) A person whose interests are affected by the grant of PBR in a plant variety may apply to the Registrar, in writing, for the revocation of the right.
- (9) A person whose interests are affected by the making of a declaration that a plant variety is essentially derived from another
-

Section 51

plant variety may apply to the Registrar, in writing, for a revocation of that declaration.

- (9A) An application under subsection (8) or (9) is of no effect unless it is accompanied by the prescribed fee.
- (10) If the Registrar decides not to revoke PBR in a plant variety in accordance with an application under subsection (8) or not to revoke a declaration of essential derivation in accordance with subsection (9), the Registrar must, within 7 days of making that decision, notify the person who applied for the revocation of the decision and of the reasons for the decision.

Note: A decision under this section to revoke, or refuse to revoke, PBR or a declaration of essential derivation is reviewable by the AAT under section 77.

51 Entry of particulars of revocation

- (1) If:
- (a) PBR in a plant variety is revoked in accordance with section 50; or
 - (b) the Registrar is served with a copy of an order of a court given under subsection 54A(2) revoking that right;
- the Registrar must:
- (c) enter particulars of the revocation in the Register; and
 - (d) give public notice of the revocation.
- (2) If the holder of PBR in a plant variety fails to pay the prescribed annual fee for the renewal of the right by the last day for payment of that fee, the holder is taken to have surrendered the right.
- (3) The Registrar must:
- (a) enter particulars of the surrender in the Register; and
 - (b) give public notice of the surrender.

52 Surrender of PBR

The holder of PBR in a plant variety may, at any time, by written notice to the Registrar, offer to surrender that right.

Part 5—Enforcement of Plant Breeder's Right

53 Infringement of PBR

- (1) Subject to sections 16, 17, 18, 19 and 23, PBR in a plant variety is infringed by:
- (a) a person doing, without, or otherwise than in accordance with, authorisation from the grantee of the right, an act referred to in a paragraph of section 11 in respect of the variety or of a dependent variety; or
 - (b) a person claiming, without, or otherwise than in accordance with, authorisation from the grantee of that right, the right to do an act referred to in a paragraph of section 11 in respect of that variety or of a dependent variety; or
 - (c) a person using a name of the variety that is entered in the Register in relation to:
 - (i) any other plant variety of the same plant class; or
 - (ii) a plant of any other variety of the same plant class.
- (1A) To avoid doubt, an infringement of PBR in a plant variety under paragraph (1)(c) can include using a synonym in relation to the name of a plant variety, if that synonym is entered in the Register under paragraph 46(1)(b).
- (2) If a plant variety (the *derived variety*) has been declared to be an essentially derived variety of another plant variety (the *initial variety*), the reference in paragraphs (1)(a) and (b) to authorisation from the grantee of the right means, in relation to the derived variety, authorisation from both the grantee of PBR in the derived variety and from the grantee of PBR in the initial variety.
- Note: For declarations of essential derivation, see sections 40 and 41D.
- (3) In this section, a reference to the grantee of PBR in a plant variety includes a reference to a person who has, by assignment or transmission, become the holder of that right.

Section 54

- (4) In this section, if a grantee of a PBR in a plant variety has granted an exclusive licence in relation to that right, a reference to the grantee is taken to be a reference to the exclusive licensee.

54 Actions for infringement

- (1) An action for infringement of PBR in a plant variety may be begun in the Federal Court or the Federal Circuit Court only by the grantee or an exclusive licensee of the grantee.
- (2) If an exclusive licensee of a grantee of PBR in a plant variety begins an action for infringement of that right, the licensee must make the grantee a defendant in the action, unless the grantee is joined as a plaintiff.
- (3) A grantee who is made a defendant in an action is not liable for costs if the grantee does not take part in the proceedings.

54A Counterclaims to actions for infringement

- (1) A defendant in an action for infringement of PBR in a plant variety may apply, by way of counterclaim, for revocation of that right on the ground that:
- (a) the variety was not a new plant variety; or
 - (b) facts exist that would have resulted in the refusal of the grant of that right if they had been known to the Registrar before the grant of that right.
- (2) If, in an action for infringement of PBR in a plant variety:
- (a) the defendant applies, by way of counterclaim, for the revocation of that right; and
 - (b) the court is satisfied that a ground for revocation of that right exists;
- the court may make an order revoking that right.
- (3) If the court revoked PBR in a plant variety on the counterclaim of a defendant, the court may order the defendant to serve on the Registrar a copy of the order revoking that right.

55 Declarations as to non-infringement

- (1) A person who proposes to perform an act described in a paragraph of section 11 in relation to the propagating material of a plant variety may, by an action in the Federal Court or the Federal Circuit Court against the grantee of PBR in a plant variety, apply for a declaration that the performance of that act would not constitute an infringement of that right.
- (2) A person may apply for a declaration whether or not there has been an assertion of an infringement of PBR by the grantee of that right.
- (3) The court must not make such a declaration unless:
 - (a) the person proposing to perform the act:
 - (i) has applied in writing to the grantee of the PBR concerned for an admission that the proposed performance of the act would not infringe that right; and
 - (ii) has given the grantee full written particulars of the propagating material concerned; and
 - (iii) has undertaken to repay all expenses reasonably incurred by the grantee in obtaining advice in the declaration; and
 - (b) the grantee has refused or failed to make such an admission.
- (4) The costs of all parties in proceedings for a declaration under this section are to be paid by the person seeking the declaration unless the court otherwise orders.
- (5) The validity of a grant of PBR in a plant variety is not to be called in question in proceedings for a declaration under this section.
- (6) The making of, or the refusal to make, a declaration under this section does not imply that a grant of PBR in a plant variety is, or is not, valid.
- (7) The grantee must be joined as a respondent in the proceedings.
- (8) In this section:

grantee includes an exclusive licensee of the grantee.

56 Jurisdiction of the Federal Court

- (1) The Federal Court has jurisdiction with respect to matters in which actions may, under this Part, be begun in the Federal Court.

Note: A matter may also be transferred to the Federal Court from the Federal Circuit Court: see section 39 of the *Federal Circuit Court of Australia Act 1999*.

- (2) That jurisdiction is exclusive of the jurisdiction of all other courts other than the jurisdiction of:
- (a) the Federal Circuit Court under subsection 56A(2); and
 - (b) the High Court under section 75 of the Constitution.
- (3) The relief that the Federal Court may grant in an action or proceeding for infringement of PBR includes an injunction (subject to such terms, if any, as the Federal Court thinks fit) and, at the option of the plaintiff, either damages or an account of profits.
- (3A) The Federal Court may include an additional amount in an assessment of damages for an infringement of PBR, if the Court considers it appropriate to do so having regard to:
- (a) the flagrancy of the infringement; and
 - (b) the need to deter similar infringements of PBR; and
 - (c) the conduct of the party that infringed the PBR that occurred:
 - (i) after the act constituting the infringement; or
 - (ii) after that party was informed that it had allegedly infringed the PBR; and
 - (d) any benefit shown to have accrued to that party because of the infringement; and
 - (e) all other relevant matters.
- (4) The regulations may make provision in relation to the practice and procedure of the Federal Court in actions under this Act, including provision prescribing the time within which any action may be begun, or any other act or thing may be done, and providing for the extension of any such time.
- (5) Subsection (4) does not limit the power of the Judges of the Federal Court or a majority of them to make Rules of Court under

section 59 of the *Federal Court of Australia Act 1976* that are consistent with the regulations referred to in that subsection.

56A Jurisdiction of Federal Circuit Court

- (1) The Federal Circuit Court has jurisdiction with respect to matters in which actions may, under this Part, be begun in the Federal Circuit Court.

Note: A matter may also be transferred to the Federal Circuit Court from the Federal Court: see section 32AB of the *Federal Court of Australia Act 1976*.

- (2) That jurisdiction is exclusive of the jurisdiction of all other courts, other than the jurisdiction of:
- (a) the Federal Court under subsection 56(2) of this Act; and
 - (b) the High Court under section 75 of the Constitution.
- (3) The relief that the Federal Circuit Court may grant in an action or proceeding for infringement of PBR includes an injunction (subject to such terms, if any, as the Federal Circuit Court thinks fit) and, at the option of the plaintiff, either damages or an account of profits.
- (3A) The Federal Circuit Court may include an additional amount in an assessment of damages for an infringement of PBR, if the Court considers it appropriate to do so having regard to:
- (a) the flagrancy of the infringement; and
 - (b) the need to deter similar infringements of PBR; and
 - (c) the conduct of the party that infringed the PBR that occurred:
 - (i) after the act constituting the infringement; or
 - (ii) after that party was informed that it had allegedly infringed the PBR; and
 - (d) any benefit shown to have accrued to that party because of the infringement; and
 - (e) all other relevant matters.
- (4) The regulations may make provision in relation to the practice and procedure of the Federal Circuit Court in actions under this Act, including provision prescribing the time within which any action

Section 57

may be begun, or any other act or thing may be done, and providing for the extension of any such time.

- (5) Subsection (4) does not limit the power of the Judges of the Federal Circuit Court, or a majority of them, to make Rules of Court under section 81 of the *Federal Circuit Court of Australia Act 1999* that are consistent with the regulations referred to in that subsection.

57 Innocent infringement

- (1) A court may refuse to award damages, or to make an order for an account of profits, against a person in an action for infringement of PBR in a plant variety, if the person satisfies the court that, at the time of the infringement, the person was not aware of, and had no reasonable grounds for suspecting, the existence of that right.
- (2) If the propagating material of plants of the plant variety, labelled so as to indicate that PBR is held in the variety in Australia, has been sold to a substantial extent before the date of the infringement, the person against whom the action for infringement is brought is taken to have been aware of the existence of PBR in the variety, unless the contrary is established.

57A Application for relief from unjustified threats

- (1) If a person is threatened by another person (the *respondent*) with proceedings for infringement of PBR in a plant variety, or other similar proceedings, an aggrieved person (the *applicant*) may apply to the Federal Court or Federal Circuit Court for:
- (a) a declaration that the threats are unjustified; and
 - (b) an injunction against the continuance of the threats; and
 - (c) the recovery of any damages sustained by the applicant as a result of the threats.
- (2) The Federal Court or Federal Circuit Court may include an additional amount in an assessment of damages sustained by the applicant as a result of the unjustified threats, if the Court considers it appropriate to do so having regard to:
- (a) the flagrancy of the threats; and

- (b) the need to deter similar threats; and
 - (c) the conduct of the respondent that occurred after the respondent made the threats; and
 - (d) any benefit shown to have accrued to the respondent because of the threats; and
 - (e) all other relevant matters.
- (3) A threat mentioned in subsection (1) may be by means of circulars, advertisements or otherwise.
- (4) Subsection (1) applies whether or not the respondent is the grantee of the PBR in the plant variety or an exclusive licensee of the grantee.

57B Court's power to grant relief

The Federal Court or Federal Circuit Court may grant the relief sought by an applicant under section 57A, unless the respondent satisfies the Court that:

- (a) the respondent is the grantee of the PBR in the plant variety or an exclusive licensee of the grantee; and
- (b) the acts about which the threats were made infringe, or would infringe, the PBR in the plant variety.

57C Counterclaim for infringement

- (1) The respondent in proceedings under section 57A may apply, by way of counter-claim, for relief to which the respondent would be entitled in separate proceedings against the applicant for infringement of the PBR in the plant variety.
- (2) The provisions of this Act relating to proceedings for infringement of PBR in a plant variety apply, with the necessary changes, to a counter-claim under subsection (1).

57D Notification of PBR in a plant variety not a threat

The mere notification of the existence of PBR in a plant variety does not constitute a threat of proceedings for the purposes of section 57A.

57E Liability of legal practitioner

A legal practitioner is not liable to proceedings under section 57A in respect of an act done in a professional capacity on behalf of a client.

- (1A) The Registrar must maintain, for the purposes of this Act, a list of all plant classes to be known as the Registrar's List of Plant Classes.
