Provided that the refusal to execute any work for which application is made, and the refusal of permission to execute any work for the execution of which the permission of the Collector or any other authority is required under this Act, shall not be deemed acts on account of which a claim for compensation can be preferred under this section.

Secondly, the damage sustained by the claimant by reason of such act or work injuriously affecting the property or right;

Thirdly, the consequent diminution of the market value of the property or right injuriously affected when the act was done or the work executed;

Fourthly, whether any person has derived, or will derive, benefit from the act or work in respect of which the compensation is claimed or from any work connected therewith, in which case they shall set off the estimated value of such benefit, if any, against the compensation which would otherwise be decreed to such person:

Provided that the Court shall not take into consideration-

Firstly, the degree of urgency which has led to the act or work being done or executed;

Secondly, any damage sustained by the claimant, which, if caused by a private person, would not in any suit instituted against such person justify a decree for damages.

Additional costs
