Statutory Order No. 630 of July 21, 1997 Amending Statutory Order on the Approval of Experimental Release and of Marketing of Genetically Modified Organisms

Article 1. The following amendments are made to statutory order nr. 1098 of December 11, 1992 on the approval of experimental release and of marketing of genetically modified organisms as amended by statutory order no. 800 of September 1, 1994:

1. In annex 3, litra A is inserted as no. 5:
"5. information relating to the introduced genetic modification which could be of relevance to the establishment of a possible register of modifications (species). This may include nucleotide sequences or other types of information which is relevant to the inclusion in such a register."
2. In annex 3 is inserted as indent C:
"C. The following information shall be provided in the notification:
Proposed labelling. This must include in a label or an accompanying document an indication that the product contains or consists of genetically modified organisms. In the case of products to be placed on the market in mixture with non-genetically modified organisms, information on the possibility that the genetically modified organisms may be present, is sufficient."

Article 2. This Order comes into force on July 30, 1997.
