List of Waste Types and Hazardous Waste Based on the European Waste Catalogue

I GENERAL PROVISIONS

1. This list is based on the European Waste Catalogue (Commission Decision 94/3/EC, OJ L 5, 07.01.1994) and the European List of Hazardous Waste (Commission Decision 94/904/EC, OJ L 356, 31.12.1994).
2. Inclusion of a movable in the list of waste types does not mean that the movable is a waste in all circumstances. A movable shall be regarded as waste only when it satisfies the definition of subsection 2(1) of the Waste Act (RT I 1998, 57, 861) and belongs to a category listed in Annex I of this Regulation.
3. The List of Hazardous Waste shall consist of waste types the code numbers of which in the general List of Waste Types is marked with an asterisk (*). Waste types marked with an asterisk shall comprise hazardous waste in case they may cause damage to human health and the environment due to at least one hazardous property listed in subsection 25(1) of the Waste Act. In the text of this List, substances shall be regarded as hazardous if they satisfy the definition of subsection 5(1) of the Chemicals Act (RT I 1998, 47, 697).
4. In the List of Waste Types, the types shall be marked with six-digit, in some cases eight-digit code numbers that are grouped by two digits, marking three or four different classification levels. The name of a single waste type cannot be considered without reference to a higher classification level.
