(notified under document number C(2003) 5018)

(Text with EEA relevance)

(2004/38/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 91/493/EEC of 22 July 1991 laying down the health conditions for the production and the placing on the market of fishery products ⁽¹⁾, and in particular Article 11 thereof,

Whereas:

- (1) An inspection has been carried out on behalf of the Commission in Egypt to verify the conditions under which fishery products are produced, stored and dispatched to the Community.
- (2) The requirements in the legislation of Egypt on health inspection and monitoring of fishery products may be considered equivalent to those laid down in Directive 91/493/EEC.
- (3) In particular, the General Organisation of Veterinary Services (GOVS), is capable of effectively verifying the implementation of the legislation in force.
- (4) The GOVS has provided official assurances regarding compliance with the standards for health controls and monitoring of fishery products as set out in Chapter V of the Annex to Directive 91/493/EEC and regarding the fulfilment of hygienic requirements equivalent to those laid down by that Directive.
- (5) It is appropriate to lay down detailed provisions concerning fishery products imported into the Community from Egypt, in accordance with Directive 91/493/EEC.
- (6) It is also necessary to draw up a list of approved establishments, factory vessels, or cold stores, and a list of freezer vessels equipped in accordance with the requirements of Council Directive 92/48/EEC of 16 June 1992 laying down the minimum hygiene rules applicable to fishery products caught on board of certain vessels in accordance with Article 3(1)(a)(i) of Directive 91/493/EEC ⁽²⁾. Those lists should be drawn up on the basis of a communication from the GOVS to the Commission.

(7) Since the imports of fishery products from Egypt will be authorized for the first time by the present decision there is no need for a transitional period, and a period of three days is sufficient to ensure the publicity of the authorisation. Therefore, imports from this country may be permitted three days after the publication of this Decision in the *Official Journal of the European Union*.
