HAVE ADOPTED THIS REGULATION:

Article 1

Aims

The Community shall implement financial and technical cooperation with South Africa to support the policies and reforms carried out by the South African authorities in a context of policy dialogue and partnership.

The aim of the Community cooperation programme, entitled the 'European Programme for Reconstruction and Development in South Africa' (EPRD), shall be to contribute to South Africa's harmonious and sustainable economic and social development, through programmes and measures designed to reduce poverty and encourage economic growth which benefits the poor, and to its continued integration into the world economy, and to consolidate the foundations laid for a democratic society and a State governed by the rule of law in which human rights and fundamental freedoms are fully respected.

This will be achieved through support for international targets and policies for sustainable development based on UN conventions and resolutions, thereby contributing to the target of reducing by at least one half the proportion of people living in extreme poverty by 2015.

Article 2

Areas of cooperation

1. Programmes shall focus on the fight against poverty, take into account the needs of the previously disadvantaged communities and integrate gender and environmental dimensions of development. In all these programmes special attention shall be paid to the strengthening of institutional capacities.

2. Development cooperation to be carried out under this Regulation will focus mainly on:

- (a) support for policies, instruments and programmes aiming at the continued integration of the South African economy into the world economy and trade, for employment creation, development of the private sector, regional cooperation and integration. In this latter context, special attention will be given to providing support for the adjustment efforts occasioned in the region by the establishment of the free-trade area under the Trade, Development and Cooperation Agreement, especially in the Southern African Customs Union. Promotion of mutual general interest cooperation between the European Union and South African businesses may also be considered;
- (b) improvement of living conditions and delivery of basic social services;
- (c) support to democratisation, the protection of human rights, sound public management, the strengthening of local governments and the involvement of civil society in the development process.

3. Dialogue and partnership between public authorities and non-governmental development partners and actors will be promoted.

Article 3

Eligibility of cooperation partners

Cooperation partners eligible for financial assistance under this Regulation shall be national, provincial and local authorities and public bodies, non-governmental organisations and community-based organisations, regional and international organisations, institutions and public or private operators. Any other body may be eligible if so designated by both parties.

Article 4

Means, expenses, information on the programme and coordination

1. The means that may be deployed under the cooperation operations referred to in Article 2 shall include in particular studies, technical assistance, training or other services, supplies and works, and also evaluation and monitoring audits and missions.

2. Community financing in local or foreign currency, depending on the needs and nature of the operation, may cover:

- (a) government budget expenditures to support reforms and policy implementation in the priority sectors identified through a policy dialogue, using the most appropriate instruments including the form of direct targeted budget support in specific sectors where appropriate conditions (e.g. accountability for, and transparency of, the government budget, sound procurement procedures) are met;
- (b) investment and equipment;
- (c) in duly justified cases, and in particular where a programme is implemented by a non-government partner, taking into account the fact that the programme has to aim as much as possible at long term sustainability, recurrent expenditure (including administrative, maintenance and operating costs).

Part of the financing may be channelled towards targeted final beneficiaries (e.g. emerging entrepreneurs) through specialised financial institutions, including the European Investment Bank, in the form of risk capital or other instruments. The resources made available under this Regulation shall not be used in a manner that will permit unfair competition.

3. A financial contribution from the partners referred to in Article 3 shall in principle be required for each cooperation operation. That contribution will be requested in accordance with the possibilities of the partners concerned and depending on the nature of each operation. It shall be sought in particular in cases where a project is designed as a start-up for an open-ended activity, in order to ensure the sustainability of such projects after Community funding has ceased. It may be in kind. In specific cases where the partner is either a non-governmental organisation or a community-based organisation, the contribution may not be required.

4. The Commission may take any appropriate step to ensure that the Community character of aid provided under this Regulation is made known.

5. Opportunities may be sought for potential co-financing and parallel financing with other donors, particularly the Member States.

6. In order to achieve the objectives of coherence and complementarity referred to in the Treaty and with the aim of guaranteeing optimal effectiveness of the aid, the Commission shall take all necessary coordination measures, notably:

- (a) the establishment of a system for the systematic exchange of information on actions financed or planned to be financed by the Community, the Member States and the EIB;
- (b) on-the-spot coordination of these actions by means of regular meetings and exchange of information between the representatives of the Commission and the Member States in the beneficiary country.

7. The Commission, in liaison with the Member States, will seek to take any steps necessary to ensure adequate coordination with other donors concerned and to encourage an increasingly active role of the beneficiary country in the aid coordination process.

Article 5

Form of financial support

Financial support under this Regulation shall take the form of grants.

Article 6

This Country Strategy Paper shall take into account the results of the most recent overall evaluation of operations financed under Regulation (EC) No 2259/96 and under this Regulation and of other regular evaluations of operations. It will be linked to a problem-oriented analysis, and integrate cross-cutting issues such as poverty reduction, gender equality, environment and sustainability. A draft of the Triennial Indicative Programme will be annexed to the Country Strategy Paper. A limited number of sectors of cooperation based on the areas identified in Article 2 of this Regulation will be selected. For these sectors, modalities and accompanying measures will be set out. As far as possible performance indicators will be developed in order to facilitate the implementation of the objectives and its evaluation of impact.

The Country Strategy Paper and the draft Triennial Indicative Programme will be examined by the Committee referred to in Article 8(1), hereafter referred to as the 'Committee'.

The Committee shall give its opinion in accordance with the procedure in Article 8(2).

4. The Committee shall once a year review the functioning, results and continued relevance of the Country Strategy Paper and the Triennial Indicative Programme. If evaluations or other relevant developments so indicate, the Committee may invite the Commission to negotiate with the South African Government amendments to the Triennial Indicative Programme.

5. The Committee shall once a year, on the basis of a presentation by the Commission, discuss the general guidelines for the operations to be carried out in the year ahead.
