CHAPTER II

INSPECTIONS OF THIRD COUNTRY FISHING VESSELS IN MEMBER STATES PORTS

SECTION 1

Conditions for access to port by third country fishing vessels

Article 4

Inspection in port schemes

1. With a view to prevent, deter and eliminate IUU fishing, an effective scheme of inspections in port for third country fishing vessels calling at the ports of Member States shall be maintained.
2. Access to ports of Member States, the provision of port services, and the conduct of landing or transshipment operations in such ports shall be prohibited for third country fishing vessels unless they meet the requirements laid down in this Regulation, except in cases of *force majeure* or distress within the meaning of Article 18 of the Unclos (*force majeure* or distress) for services strictly necessary to remedy

those situations.

3. Transhipments between third country fishing vessels or between the latter and fishing vessels flying the flag of a Member State shall be prohibited in Community waters and shall take place only in port, in accordance with the provisions of this Chapter.

4. Fishing vessels flying the flag of a Member State shall not be authorised to tranship at sea catches from third country fishing vessels outside Community waters unless the fishing vessels are registered as carrier vessels under the auspices of a regional fisheries management organisation.

Article 5

Designated ports

1. Member States shall designate ports, or places close to the shore, where landings or transhipment operations of fishery products and port services referred to in Article 4(2) are permitted.

2. Access to port services and the conduct of landing or transhipment operations by third country fishing vessels shall be authorised only in designated ports.

3. Member States shall transmit to the Commission no later than 15 January of each year a list of designated ports. Any subsequent changes to this list shall be notified to the Commission at least 15 days before the change takes effect.

4. The Commission shall, without delay, publish the list of designated ports in the *Official Journal of the European Union* and on its website.

Article 6

Prior notice

1. Masters of third country fishing vessels or their representatives shall notify the competent authorities of the Member State whose designated port or landing facilities they wish to use at least three working days before the estimated time of arrival at the port, of the following information:

- (a) vessel identification;
- (b) name of the designated port of destination and the purposes of the call, landing, transhipment or access to services;
- (c) fishing authorisation or, where appropriate, authorisation to support fishing operations or to tranship fishery products;
- (d) dates of the fishing trip;
- (e) estimated date and time of arrival at port:

- (f) the quantities of each species retained on board or, where appropriate, a negative report;
- (g) the zone or zones where the catch was made or where transshipment took place, whether in Community waters, in zones under the jurisdiction or sovereignty of a third country or on the high seas;
- (h) the quantities for each species to be landed or transhipped.

Masters of third country fishing vessels or their representatives shall be exempted from notifying information contained in points (a), (c), (d), (g) and (h), where a catch certificate has been validated in accordance with Chapter III for the full catch to be landed or transhipped in the territory of the Community.

2. The notification set out in paragraph 1 shall be accompanied by a catch certificate validated in accordance with Chapter III if the third country fishing vessel carries on board fishery products. The provisions laid down in ►C1 ↓ Article 13 ◀ on the recognition of catch documents or port State control forms which are part of catch documentation or port State control schemes adopted by regional fisheries management organisations shall apply *mutatis mutandis*.

3. The Commission, in accordance with the procedure referred to in Article 54(2), may exempt certain categories of third country fishing vessels from the obligation stipulated in paragraph 1 for a limited and renewable period, or make provision for another notification period taking into account, *inter alia*, the type of fishery product, the distance between the fishing grounds, landing places and ports where the vessels in question are registered or listed.

4. This Article shall apply without prejudice to special provisions set forth in fisheries agreements concluded between the Community and third countries.

Article 7

Authorisation

1. Without prejudice to point 5 of Article 37, a third country fishing vessel shall be granted authorisation to access the port only if the information set out in Article 6(1) is complete and, if the third country vessel carries on board fishery products, is accompanied by the catch certificate referred to in Article 6(2).

2. Authorisation to commence landing or transshipment operations in port shall be subject to a check to determine the completeness of the

information submitted as prescribed in paragraph 1 and, where appropriate, to an inspection carried out in accordance with Section 2.

3. By way of derogation to paragraphs 1 and 2 of this Article the port Member State may authorise port access and all or part of a landing in cases where the information set out in Article 6(1) is not complete or its check or verification is pending, but shall, in such cases, keep the fishery products concerned in storage under the control of the competent authorities. The fishery products shall only be released to be sold, taken over or transported once the information set out in Article 6(1) has been received or the checking or verification process is completed. If this process is not completed within 14 days of the landing, the port Member State may confiscate and dispose of the fishery products in accordance with national rules. The cost of storage shall be borne by the operators.

Article 8

Recording of landing or transshipment operations

1. Masters of third country fishing vessels or their representative shall submit to the authorities of the Member State whose designated ports of landing or transshipment facilities they use, if possible by electronic means prior to landing or transshipment operations, a declaration indicating the quantity of fishery products by species to be landed or transhipped, and the date and place of each catch. Masters and their representatives shall be held responsible for the accuracy of such declarations.
2. Member States shall keep the originals of the declarations set out in paragraph 1, or a hard copy when transmitted electronically, for a period of three years or longer in accordance with national rules.
3. Landing and transshipment declaration procedures and forms shall be determined in accordance with the procedure referred to in Article 54(2).
4. Member States shall notify the Commission by computer transmission before the end of the first month of each calendar quarter of the quantities landed and/or transhipped by third country fishing vessels in their ports during the previous quarter.

SECTION 2

Port inspections

Article 9

General principles

1. Member States shall carry out inspections in their designated ports of at least 5 % of landing and transshipment operations by third country fishing vessels each year, in accordance with the benchmarks determined by the procedure referred to in Article 54(2) on the basis of risk management, without prejudice to the higher thresholds adopted by regional fisheries management organisations.
2. The following fishing vessels shall be inspected in all cases:
 - (a) fishing vessels sighted in accordance with Article 48;
 - (b) fishing vessels reported in the framework of a notification made under the Community alert system in accordance with Chapter IV;
 - (c) fishing vessels identified by the Commission as presumed to have engaged in IUU fishing in accordance with Article 25;
 - (d) fishing vessels appearing in a IUU vessel list adopted by a regional fisheries management organisation notified to Member States in accordance with Article 30.

Article 10

Inspection procedure

1. Officials in charge of inspections (officials) shall be able to examine all relevant areas, decks and rooms of the fishing vessel, catches processed or not, nets or other gear, equipment and any relevant documents which officials deem it necessary to verify in compliance with applicable laws, regulations or international management and conservation measures. Officials may also question persons deemed to have information on the matter subject to inspection.
2. Inspections shall involve the monitoring of the entire landing or transshipment operations and include a cross-check between the quantities by species recorded in the prior notice of landing and the quantities by species landed or transhipped.
3. Officials shall sign their inspection report in the presence of the master of the fishing vessel, who shall have the right to add or cause to be added any information that he considers relevant. Officials shall indicate in the logbook that an inspection has been made.
4. A copy of the inspection report shall be handed over to the master of the fishing vessel, who may forward it to the owner.
5. The master shall cooperate with and assist in the inspections of the fishing vessel and shall not obstruct, intimidate or interfere with the

officials in the performance of their duties.

Article 11

Procedure in the event of infringements

1. If the information collected during the inspection provides evidence to the official to believe that a fishing vessel has engaged in IUU fishing in accordance with the criteria set out in Article 3, the official shall:
 - (a) record the suspected infringement in the inspection report;
 - (b) take all necessary action to ensure safekeeping of the evidence pertaining to such suspected infringement;
 - (c) immediately forward the inspection report to the competent authority.
2. If the results of the inspection provide evidence that a third country fishing vessel has engaged in IUU fishing in accordance with the criteria set out in Article 3, the competent authority of the port Member State shall not authorise such vessels to land or tranship their catch.
3. The inspecting Member State shall immediately notify its decision not to authorise landing or transhipment operations taken in accordance with paragraph 2, accompanied by a copy of the inspection report, to the Commission or to a body designated by it, which shall immediately transmit it to the competent authority of the flag State of the inspected fishing vessel with a copy to the flag State or States of donor vessels where the inspected fishing vessel has engaged in transhipment operations. Where appropriate, a copy of the notification shall also be communicated to the Executive Secretary of the regional fisheries management organisation in whose area of competence the catch was made.
4. Where the suspected breach has taken place in the high seas, the port Member State shall cooperate with the flag State in carrying out an investigation into it and, where appropriate, shall apply the sanctions provided for by the legislation of that port Member State, under the condition that, in accordance with international law, that flag State has expressly agreed to transfer its jurisdiction. In addition, where the suspected breach has taken place in the maritime waters of a third country, the port Member State shall also cooperate with the coastal State in carrying out an investigation into it and, where appropriate, shall apply the sanctions provided for by the legislation of that port Member State, under the condition that, in accordance with

international law, that coastal State has expressly agreed to transfer its jurisdiction.

CHAPTER III

CATCH CERTIFICATION SCHEME FOR IMPORTATION AND EXPORTATION OF FISHERY PRODUCTS

Article 12

Catch certificates

1. The importation into the Community of fishery products obtained from IUU fishing shall be prohibited.
2. To ensure the effectiveness of the prohibition established in paragraph 1, fishery products shall only be imported into the Community when accompanied by a catch certificate in conformity with this Regulation.
3. The catch certificate referred to in paragraph 2 shall be validated by the flag State of the fishing vessel or fishing vessels which made the catches from which the fishery products have been obtained. It shall be used to certify that such catches have been made in accordance with applicable laws, regulations and international conservation and management measures.
4. The catch certificate shall contain all the information specified in the specimen shown in Annex II, and shall be validated by a public authority of the flag State with the necessary powers to attest the accuracy of the information. In agreement with flag States, within the framework of the cooperation set out in Article 20(4), the catch certificate may be established, validated or submitted by electronic means or be replaced by electronic traceability systems ensuring the same level of control by authorities.
5. The list in Annex I of the products excluded from the scope of implementation of the catch certificate may be reviewed each year on the basis of the results of the information gathered under Chapters II, III, IV, V, VIII, X and XII, and amended in accordance with the procedure referred to in Article 54(2).

Article 13

Catch documentation schemes agreed and in force in the framework of a regional fisheries management organisation

1. Catch documents, and any related documents, validated in

conformity with catch documentation schemes adopted by a regional fisheries management organisation which are recognised as complying with the requirements laid down in this Regulation, shall be accepted as catch certificates in respect of the fishery products from species to which such catch documentation schemes apply and shall be subject to the check and verification requirements incumbent upon the Member State of importation in accordance with Articles 16 and 17 and to the provisions on refusal of importation laid down in Article 18. The list of such catch documentation schemes shall be determined in accordance with the procedure referred to in Article 54(2).

2. Paragraph 1 shall apply without prejudice to the specific regulations in force whereby such catch documentation schemes are implemented into Community law.

Article 14

Indirect importation of fishery products

1. In order to import fishery products constituting one single consignment, transported in the same form to the Community from a third country other than the flag State, the importer shall submit to the authorities of the Member States of importation:

- (a) the catch certificate(s) validated by the flag State; and
- (b) documented evidence that the fishery products did not undergo operations other than unloading, reloading or any operation designed to preserve them in good and genuine condition, and remained under the surveillance of the competent authorities in that third country.

Documented evidence shall be provided by means of:

- (i) where appropriate, the single transport document issued to cover the passage from the territory of the flag State through that third country; or
- (ii) a document issued by the competent authorities of that third country:
 - giving an exact description of the fishery products, the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used, and
 - indicating the conditions under which the

fishery products remained in that third country.

Where the species concerned are subject to a regional fisheries management organisation catch documentation scheme which has been recognised under Article 13, the documents referred to above may be replaced by the re-export certificate of that catch documentation scheme, provided that the third country has fulfilled its notification requirements accordingly.

2. In order to import fishery products constituting one single consignment and which have been processed in a third country other than the flag State, the importer shall submit to the authorities of the Member State of importation a statement established by the processing plant in that third country and endorsed by its competent authorities in accordance with the form in Annex IV:

- (a) giving an exact description of the unprocessed and processed products and their respective quantities;
- (b) indicating that the processed products have been processed in that third country from catches accompanied by catch certificate(s) validated by the flag State; and
- (c) accompanied by:
 - (i) the original catch certificate(s) where the totality of the catches concerned has been used for the processing of the fishery products exported in a single consignment; or
 - (ii) a copy of the original catch certificate(s), where part of the catches concerned has been used for the processing of the fishery products exported in a single consignment.

Where the species concerned are subject to a regional fisheries management organisations catch documentation scheme which has been recognised under Article 13, the statement may be replaced by the re-export certificate of that catch documentation scheme, provided that the third country of processing has fulfilled its notification requirements accordingly.

3. The documents and the statement set out in paragraphs (1)(b) and (2) of this Article respectively may be communicated by electronic means within the framework of the cooperation laid down in Article 20(4).

Article 15

Exportation of catches made by fishing vessels flying the flag of a Member State

1. The exportation of catches made by fishing vessels flying the flag of a Member State shall be subject to the validation of a catch certificate by the competent authorities of the flag Member State, as established in Article 12(4), if required within the framework of the cooperation laid down in Article 20(4).
2. Flag Member States shall notify to the Commission their competent authorities for the validation of the catch certificates referred to in paragraph 1.

Article 16

Submission and checks of catch certificates

1. The validated catch certificate shall be submitted by the importer to the competent authorities of the Member State in which the product is intended to be imported at least three working days before the estimated time of arrival at the place of entry into the territory of the Community. The deadline of three working days may be adapted according to the type of fishery product, the distance to the place of entry into the territory of the Community or the transport means used. Those competent authorities shall, on the basis of risk management, check the catch certificate in the light of the information provided in the notification received from the flag State in accordance with Articles 20 and 22.
2. By way of derogation to paragraph 1, importers who have been granted the status of approved economic operator may advise the competent authorities of the Member State of the arrival of the products within the deadline referred to in paragraph 1 and keep the validated catch certificate and related documents as referred to in Article 14 available to the authorities for the purposes of checks in accordance with paragraph 1 of this Article or verifications in accordance with Article 17.
3. The criteria for granting the status of approved economic operator to an importer by the competent authorities of a Member State shall include:
 - (a) the establishment of the importer on the territory of that Member State;
 - (b) a sufficient number and volume of import operations to justify the implementation of the procedure referred to in paragraph 2;
 - (c) an appropriate record of compliance with the requirements of

conservation and management measures;

- (d) a satisfactory system of managing commercial and, where appropriate, transport and processing records, which enables the appropriate checks and verifications to be carried out for the purposes of this Regulation;
- (e) the existence of facilities with regard to the conduct of those checks and verifications;
- (f) where appropriate, practical standards of competence or professional qualifications directly related to the activities carried out; and
- (g) where appropriate, proven financial solvency.

Member States shall communicate to the Commission the name and address of the approved economic operators as soon as possible after having granted this status. The Commission shall make available this information to the Member States by electronic means.

The rules relating to the status of approved economic operator may be determined in accordance with the procedure referred to in Article 54(2).

Article 17

Verifications

1. The competent authorities of the Member States may carry out all of the verifications they deem necessary to ensure that the provisions of this Regulation are correctly applied.
2. Verifications may, in particular, consist in examining the products, verifying declaration data and the existence and authenticity of documents, examining the accounts of operators and other records, inspecting means of transport, including containers and storage places of the products and carrying out official enquiries and other similar acts, in addition to the inspection of fishing vessels at port under Chapter II.
3. Verifications shall be focused towards risk identified on the basis of criteria developed at national or Community level under risk management. Member States shall notify to the Commission their national criteria within 30 working days after 29 October 2008 and update this information. The Community criteria shall be determined in accordance with the procedure referred to in Article 54(2).
4. Verifications shall be carried out, in any case, where:
 - (a) the verifying authority of the Member State has grounds to

question the authenticity of the catch certificate itself, of the validation seal or of the signature of the relevant authority of the flag State; or

- (b) the verifying authority of the Member State is in possession of information that questions the compliance by the fishing vessel with applicable laws, regulations or conservation and management measures, or the fulfilment of other requirements of this Regulation; or
- (c) fishing vessels, fishing companies or any other operators have been reported in connection with presumed IUU fishing, including those fishing vessels which have been reported to a regional fisheries management organisation under the terms of an instrument adopted by that organisation to establish lists of vessels presumed to have carried out illegal, unreported and unregulated fishing; or
- (d) flag States or re-exporting countries have been reported to a regional fisheries management organisation under the terms of an instrument adopted by that organisation to implement trade measures vis-à-vis flag States; or
- (e) an alert notice has been published pursuant to Article 23(1).

5. Member States may decide to carry out verifications at random, in addition to the verifications referred to in paragraphs 3 and 4.

6. For the purpose of a verification, the competent authorities of a Member State may request the assistance of the competent authorities of the flag State or of a third country other than the flag State as referred to in Article 14, in which case:

- (a) the request for assistance shall state the reasons why the competent authorities of the Member State in question have well-founded doubts as to the validity of the certificate, of the statements contained therein and/or the compliance of the products with conservation and management measures. A copy of the catch certificate and any information or documents suggesting that the information on the certificate is inaccurate shall be forwarded in support of the request for assistance. The request shall be sent without delay to the competent authorities of the flag State or of a third country other than the flag State as referred to in Article 14;
- (b) the procedure for verification shall be completed within 15 days of the date of the verification request. In the event that the

competent authorities of the flag State concerned cannot meet the deadline, the verifying authorities in the Member State may, on request by the flag State or by a third country other than the flag State as referred to in Article 14 grant an extension of the deadline to reply, which shall not exceed a further 15 days.

7. The release of the products onto the market shall be suspended while awaiting the results of the verification procedures referred to in paragraphs (1) to (6). The cost of storage shall be borne by the operator.

8. Member States shall notify to the Commission their competent authorities for the checks and verifications of the catch certificates in accordance with Article 16 and paragraphs (1) to (6) of this Article.

Article 18

Refusal of importation

1. The competent authorities of the Member States shall, where appropriate, refuse the importation into the Community of fishery products without having to request any additional evidence or send a request for assistance to the flag State where they become aware that:

- (a) the importer has not been able to submit a catch certificate for the products concerned or to fulfil his obligations under Article 16(1) or (2);
- (b) the products intended for importation are not the same as those mentioned in the catch certificate;
- (c) the catch certificate is not validated by the public authority of the flag State referred to in Article 12(3);
- (d) the catch certificate does not indicate all the required information;
- (e) the importer is not in a position to prove that the fishery products comply with the conditions of Article 14(1) or (2);

CHAPTER IV

COMMUNITY ALERT SYSTEM

Article 23

- (b) advise the flag State and, where appropriate, the third country other than the flag State as referred to in Article 14;

- (a) publish a new alert notice to their effect on its website and in the *Official Journal of the European Union*;
- (b) advise the flag State and undertake the appropriate proceedings and démarches in accordance with Chapters V and VI;

Article 26

The list shall include the fishing vessels in relation to which, further to the measures taken pursuant to Articles 25 and 26, the information obtained in accordance with this Regulation establishes that they are engaged in IUU fishing and whose flag States have not complied with the official requests referred to in Article 26(2)(b) and (c) and Article 26(3)(b) and (c), in response to such IUU fishing.
2. Before placing any fishing vessel on the Community IUU vessel list, the Commission shall provide the owner and, where appropriate, the operator of the fishing vessel concerned with a detailed statement of reasons for the intended listing and with all elements supporting the suspicion that the fishing vessel has carried out IUU fishing. The statement shall mention the right to ask for or to provide additional information, and give the owner, and, where appropriate, the operator the possibility of being heard and to defend their case, leaving them adequate time and facilities.

3. When a decision is taken to place a fishing vessel on the Community IUU vessel list, the Commission shall notify that decision, and the reasons for it, to the owner and, where appropriate, the operator of the fishing vessel.
4. The obligations imposed on the Commission by paragraphs 2 and 3 shall apply without prejudice to the primary responsibility of the flag State over the fishing vessel, and only in so far as the relevant information on the identification of the fishing vessel owner and operator is at the disposal of the Commission.

3. In all other cases, the Commission shall only consider removing the fishing vessel from the list if the following conditions are fulfilled:

Furthermore, the Commission shall transmit the list to the FAO and to regional fisheries management organisations for the purposes of enhancing cooperation between the Community and these organisations aimed at preventing, deterring and eliminating IUU fishing.

Article 30

IUU vessel lists adopted by regional fisheries management organisations

1. In addition to the fishing vessels referred to in Article 27, fishing vessels included in the IUU vessel lists adopted by regional fisheries management organisations shall be included in the Community IUU vessel list, in accordance with the procedure referred to in Article 54(2). Removal of such vessels from the Community IUU vessel list shall be governed by the decisions taken with regard to them by the relevant regional fisheries management organisation.

2. The Commission shall each year, on receiving from regional fisheries management organisations the lists of fishing vessels presumed or confirmed to be involved in IUU fishing, notify them to the Member States.

3. The Commission shall notify promptly to the Member States any addition to, any deletion from and/or any modification of the lists referred to in paragraph 2 of this Article at any time such changes occur. Identification of non-cooperating third countries

1. The Commission, in accordance with the procedure referred to in Article 54(2), shall identify the third countries that it considers as non-cooperating third countries in fighting IUU fishing.

- (b) the status of the third country concerned as a contracting party to regional fisheries management organisations, or its agreement to apply the conservation and management measures adopted by them;
- (c) any act or omission by the third country concerned that may have diminished the effectiveness of applicable laws, regulations or international conservation and management measures.

7. Where appropriate, specific constraints of developing countries, in particular in respect to monitoring, control and surveillance of fishing activities, shall be duly taken into consideration in the implementation of this Article.

Article 32

Démarches in respect of countries identified as non-cooperating third countries

1. The Council, acting by qualified majority on a proposal from the Commission, shall decide on a list of non-cooperating third countries.
2. The Commission shall, without delay, notify the third country concerned of its identification as a non-cooperating third country and of the measures applied in accordance with Article 38, and shall request it to rectify the current situation and to advise on the measures taken to ensure compliance with conservation and management measures by its fishing vessels.
3. Following a decision taken pursuant to paragraph 1 of this Article, the Commission shall, without delay, notify it to the Member States and shall request them to ensure the immediate implementation of the measures laid down in Article 38. Member States shall notify the Commission of any measures they have taken in response to this request.

Article 34

Removal from the list of non-cooperating third countries

1. The Council, acting by qualified majority on a proposal from the Commission, shall remove a third country from the list of non-cooperating third countries if the third country concerned demonstrates that the situation that warranted its listing has been rectified. A removal decision shall also take into consideration whether the

identified third countries concerned have taken concrete measures capable of achieving a lasting improvement of the situation.

2. Following a decision taken pursuant to paragraph 1 of this Article, the Commission shall, without delay, notify Member States of the lifting of the measures laid down in Article 38 in respect of the third country concerned.

The Commission may take a new decision to extend the emergency measures for no more than six months.

2. The emergency measures referred to in paragraph 1 may include, *inter alia*, that:

1. the importation into the Community of fishery products caught by fishing vessels flying the flag of such countries shall be prohibited, and accordingly catch certificates accompanying such products shall not be accepted. In the event that the identification of a non-cooperating third country pursuant to Article 31 is justified by the lack of appropriate measures adopted by this third country in relation to IUU fishing affecting a given stock or species, the prohibition of importation may only apply in respect of this stock or species;
2. the purchase by Community operators of a fishing vessel flying the flag of such countries shall be prohibited;
3. the reflagging of a fishing vessel flying the flag of a Member State to such countries shall be prohibited;

▼B↓**CHAPTER VIII****NATIONALS***Article 39***Nationals supporting or engaged in IUU fishing**

1. Nationals subject to the jurisdiction of Member States (nationals) shall neither support nor engage in IUU fishing, including by engagement on board or as operators or beneficial owners of fishing vessels included in the Community IUU vessel list.
2. Without prejudice to the primary responsibility of the flag State, Member States shall cooperate amongst themselves and with third countries and take all appropriate measures, in accordance with national and Community law, in order to identify nationals supporting or engaged in IUU fishing.
3. Without prejudice to the primary responsibility of the flag State, Member States shall take appropriate action, subject to and in accordance with their applicable laws and regulations with regard to nationals identified as supporting or engaged in IUU fishing.

4. Each Member State shall notify to the Commission the names of the competent authorities responsible for coordinating the collection and verification of information on activities of nationals referred to in this Chapter and for reporting to and cooperating with the Commission.

4. Member States shall endeavour to obtain information on the existence of any arrangement between nationals and a third country allowing the reflagging of fishing vessels flying their flag to such third country. They shall inform the Commission thereof by submitting a list of the fishing vessels concerned.

CHAPTER IX

IMMEDIATE ENFORCEMENT MEASURES, SANCTIONS AND ACCOMPANYING SANCTIONS

Article 41

Scope

This Chapter shall apply in relation to:

1. serious infringements committed within the territory of Member States to which the Treaty applies, or within maritime waters under the sovereignty or jurisdiction of the Member States, with the exception of waters adjacent to the territories and countries mentioned in Annex II of the Treaty;
2. serious infringements committed by Community fishing

2. serious infringements committed by Community fishing vessels or nationals of Member States;
3. serious infringements detected within the territory or within waters as referred to in point 1 of this Article but which have been committed on the high seas or within the jurisdiction of a third country and are being sanctioned pursuant to Article 11(4).

Article 42

Serious infringements

1. For the purpose of this Regulation, serious infringement means:
 - (a) the activities considered to constitute IUU fishing in accordance with the criteria set out in Article 3;
 - (b) the conduct of business directly connected to IUU fishing, including the trade in/or the importation of fishery products;
 - (c) the falsification of documents referred to in this Regulation or the use of such false or invalid documents.
2. The serious character of the infringement shall be determined by the competent authority of a Member State taking into account the criteria set out in Article 3(2).

Article 43

Immediate enforcement measures

1. Where a natural person is suspected of having committed or is caught in the act while committing a serious infringement or a legal person is suspected of being held liable for such an infringement, Member States shall start a full investigation of the infringement and, in conformity with their national law and depending on the gravity of the infringement, take immediate enforcement measures such as in particular:
 - (a) the immediate cessation of fishing activities;
 - (b) the rerouting to port of the fishing vessel;
 - (c) the rerouting of the transport vehicle to another location for inspection;
 - (d) the ordering of a bond;
 - (e) the seizure of fishing gear, catches or fisheries products;
 - (f) the temporary immobilisation of the fishing vessel or transport vehicle concerned;

- (g) the suspension of the authorisation to fish.
2. The enforcement measures shall be of such nature as to prevent the continuation of the serious infringement concerned and to allow the competent authorities to complete its investigation.

Article 44

Sanctions for serious infringements

1. Member States shall ensure that a natural person having committed or a legal person held liable for a serious infringement is punishable by effective, proportionate and dissuasive administrative sanctions.
2. The Member States shall impose a maximum sanction of at least five times the value of the fishery products obtained by committing the serious infringement.

In case of a repeated serious infringement within a five-year period, the Member States shall impose a maximum sanction of at least eight times the value of the fishery products obtained by committing the serious infringement.

In applying these sanctions the Member States shall also take into account the value of the prejudice to the fishing resources and the marine environment concerned.

3. Member States may also, or alternatively, use effective, proportionate and dissuasive criminal sanctions.

Article 45

Accompanying sanctions

The sanctions provided for in this Chapter may be accompanied by other sanctions or measures, in particular:

1. the sequestration of the fishing vessel involved in the infringement;
2. the temporary immobilisation of the fishing vessel;
3. the confiscation of prohibited fishing gear, catches or fishery products;
4. the suspension or withdrawal of authorisation to fish;
5. the reduction or withdrawal of fishing rights;
6. the temporary or permanent exclusion from the right to obtain new fishing rights;
7. the temporary or permanent ban on access to public assistance or subsidies;

8. the suspension or withdrawal of the status of approved economic operator granted pursuant to Article 16(3).

Article 46

Overall level of sanctions and accompanying sanctions

The overall level of sanctions and accompanying sanctions shall be calculated in such way as to make sure that they effectively deprive those responsible of the economic benefits derived from their serious infringements without prejudice to the legitimate right to exercise a profession. For this purpose, account shall be also taken of immediate enforcement measures taken pursuant to Article 43.

Article 47

Liability of legal persons

1. Legal persons shall be held liable for serious infringements where such infringements have been committed for their benefit by any natural person, acting either individually or as part of an organ of the legal person, and having a determining position within the legal person, based on:

- (a) a power of representation of the legal person; or
- (b) an authority to take decisions on behalf of the legal person; or
- (c) an authority to exercise control within the legal person.

2. A legal person may be held liable where the lack of supervision or control, by a natural person referred to in paragraph 1, has made possible the commission of a serious infringement for the benefit of that legal person by a natural person under its authority.

3. Liability of a legal person shall not exclude proceedings against natural persons who are perpetrators, instigators or accessories in the infringements concerned.

CHAPTER X

IMPLEMENTATION OF PROVISIONS ADOPTED WITHIN CERTAIN REGIONAL FISHERIES MANAGEMENT ORGANISATIONS PERTAINING TO FISHING VESSEL SIGHTINGS

Article 48

Sightings at sea

1. The provisions of this Chapter shall apply to fishing activities subject to the rules on sightings at sea adopted within regional fishery management organisations which are binding to the Community.
2. In the event that a Member State's competent authority responsible for inspection at sea sights a fishing vessel engaged in activities that may be considered as IUU fishing, it shall forthwith issue a report of the sighting. Such report and the results of investigations carried out on that fishing vessel by that Member State shall be considered evidence for use in the implementation of the identification and enforcement mechanisms provided in this Regulation.
3. In the event that the master of a Community or a third country fishing vessel sights a fishing vessel engaged in activities referred to in paragraph 2, the master may document as much information as possible on such sighting, for instance:
 - (a) the name and description of the fishing vessel;
 - (b) the fishing vessel's call sign;
 - (c) the registration number and, if appropriate, the Lloyds IMO number of the fishing vessel;

 - (e) the position (latitude, longitude) at the time when first identified;
 - (f) the date/time UTC when first identified;
 - (g) a photograph or photographs of the fishing vessel to support the sighting;
 - (h) any other relevant information regarding the observed activities of the fishing vessel concerned.
4. Sighting reports shall be sent without delay to the competent authority of the flag Member State of the sighting fishing vessel, which shall transmit them as soon as possible to the Commission or to the body designated by it. The Commission or the body designated by it shall then immediately inform the flag State of the fishing vessel sighted. The Commission or a body designated by it shall thereupon transmit the sighting report to all the Member States and, as appropriate, to the Executive Secretary of the relevant regional fisheries management organisations for further action in accordance with the measures adopted by those organisations.
5. A Member State which receives a sighting report reporting the activities of a fishing vessel flying its flag from the competent

authority of a contracting party of a regional fisheries management organisation shall notify the report and all relevant information as soon as possible to the Commission or to the body designated by it, which shall thereupon forward this information to the Executive Secretary of the regional fisheries management organisation concerned for further action in accordance with the measures adopted by this organisation, as appropriate.

6. This Article shall apply without prejudice to stricter provisions adopted by regional fisheries management organisations to which the Community is a contracting party.

Article 49

1. Member States which obtain suitably documented information regarding sighted fishing vessels shall transmit this information without delay to the Commission or to the body designated by it with the format determined in accordance with the procedure referred to in Article 54(2).

2. The Commission or the body designated by it shall also examine suitably documented information regarding sighted fishing vessels submitted by citizens, civil society organisations, including environmental organisations, as well as representatives of fisheries or fish trade stakeholder interests.

Article 50

Investigation of sighted fishing vessels

1. Member States shall, as soon as possible, initiate an investigation on the activities of fishing vessels flying their flag which have been sighted in accordance with Article 49.

2. Member States shall notify, where possible by electronic means, to the Commission or the body designated by it the details of the initiation of the investigation and of any action taken or intended in respect of the sighted fishing vessels flying their flag, as soon as practicable and in any case within two months of the notification of the sighting report pursuant to Article 48(4). Reports on the progress of the investigations on the activities of the sighted fishing vessel shall be provided to the Commission or to the body designated by it at appropriate regular intervals. A final report on the outcome when the investigations are completed shall be provided to the Commission or to the body designated by it.

3. Member States other than the flag Member State concerned shall,

where appropriate, verify whether the sighted fishing vessels reported have carried out activities in maritime waters under their jurisdiction or if fisheries products stemming from those vessels have been landed or imported into their territory and shall investigate their record of compliance with relevant conservation and management measures. Member States shall notify without delay to the Commission, or to the body designated by it, and to the flag Member State concerned the outcome of their verifications and investigations.

4. The Commission or the body designated by it shall communicate to all the Member States the information received in accordance with paragraphs 2 and 3.

5. This Article shall apply without prejudice to the provisions of Chapter V of Regulation (EC) No 2371/2002 and to the provisions adopted by regional fisheries management organisations to which the Community is a contracting party.

A decision to revoke shall put an end to the delegation of the power specified in that decision. It shall take effect the day following the publication of the decision in the *Official Journal of the European Union* or at a later date specified therein. It shall not affect the validity of any delegated acts already in force.
4. Before adopting a delegated act, the Commission shall consult experts designated by each Member State in accordance with the principles laid down in the Interinstitutional Agreement of 13 April 2016 on Better Law-Making (⁴).
5. As soon as it adopts a delegated act, the Commission shall notify it simultaneously to the European Parliament and to the Council.
6. A delegated act adopted pursuant to Article 12a(3) and Article 54a shall enter into force only if no objection has been expressed either by the European Parliament or the Council within a period of two months of notification of that act to the European Parliament and the Council or if, before the expiry of that period, the European Parliament and the Council have both informed the Commission that they will not object. That period shall be extended by two months at the initiative of the European Parliament or the Council.
