3. Determination of questions on extent of a traditional area

(1) A question arising under this Act as to whether any lands are in a particular traditional area shall be referred to the Minister who shall, after consulting with the traditional council, determine the question for the purposes of this Act.

The section deals with the determination of the extent of a right over property. Determination of the existence of a right is clearly a matter for the Constitution. The original provision would now be subject to certiorari and Thus the Minister's decision cannot be final.

(2) In the event of a failure to declare an interest in the land within the period prescribed by subsection (1), or of a question arising as to the existence or extent of the interest of the stool in a land, the Minister may determine the existence or extent of the interest of the stool in the land.

(3) *Omitted.*⁴
