

GUERNSEY STATUTORY INSTRUMENT 1990 NO 24

THE IMPORT AND EXPORT OF GOODS (CONTROL) (GUERNSEY) ORDER, 1990

THE BOARD OF ADMINISTRATION, in pursuance of the powers conferred upon it by Article 1 of the Import and Export (Control) (Guernsey) Law, 1946, hereby orders:-

1. Subject to the provisions of this Order, no goods shall be imported into or exported from the Island or shipped as ships' stores.
2. Section 1 does not prohibit the importation or exportation of any goods, or the shipment of any goods as ships' stores for use on board the ship, under the authority of and in accordance with the conditions of a licence granted by the Board of Administration or by a person or body of persons authorised by the said Board to grant such licences.
3. A licence granted under Section 2 may be modified or revoked at any time by any person or body empowered to grant such licences.
4. Section 1 does not prohibit the importation of any goods, other than goods described in Schedule 1, which are proved to the satisfaction of the Board of Administration to have been consigned from the United Kingdom, the Island of Jersey, any other Island of the Bailiwick of Guernsey or the Isle of Man.
5. Section 1 does not prohibit the exportation of any goods, other than goods described in Schedule 2, to the United Kingdom, the Island of Jersey, any other Island of the Bailiwick of Guernsey or the Isle of Man.
6. No goods shall be unshipped, landed or put on shore, or shipped, put off or waterborne to be shipped for exportation, except at or (as the case may be) from the Harbours of Saint Peter Port or Saint Sampson or La Villiaze Airport.
7. The Orders set out in Schedule 3 are revoked:  
  
Provided that any Open General Import Licence or Open General Export Licence granted under an Order revoked by this Order and in force immediately before the commencement of this Order shall continue in force and have effect as if granted under this Order, and may be modified or revoked accordingly.
8. The Interpretation (Guernsey) Law, 1948 shall apply to the interpretation of this Order as it applies to the interpretation of an enactment.
9. No provision of this Order or of any licence hereunder shall authorise the doing of any thing prohibited, regulated or controlled by any other enactment or statutory instrument.

/Contd...

10. This Order may be cited as the Import and Export of Goods (Control)(Guernsey) Order, 1990, and shall come into force on the 19th September 1990.

Dated this 18th September 1990.

D G MAHY  
Vice-President of the States Board of Administration  
for and on behalf of the Board

---

EXPLANATORY NOTE

This Order which replaces the Import and Export of Goods (Control)(Guernsey) Order, 1978, consolidates the amendments made since 1978, provides for the control of Bovine Somatotrophin (BST) and makes other minor amendments as to the updating of controls.

Schedule 1 sub'd. by ~~1993/11~~ 1999/19

SCHEDULE 1

Section Four

[cannot be imp'd. from Uti]

1. Bovine Somatotrophin (BST)
2. Excrement of an ass, boar, bull, bullock, calf, colt, cow, donkey, ewe, foal, filly, gelding, goat, heifer, hog, horse, kid, lamb, mare, mule, ox, pig, pony, ram, sheep, sow, stallion, steer or wether or of a domestic fowl, duck, goose, guinea fowl or turkey.
3. Firearms and Ammunition, the following:
  - (i) firearms, lethal, including any lethal barrelled weapon of any description from which any shot, bullet or other missile can be discharged and other weapons of whatever description designed or adapted for the discharge of any noxious liquid, gas or other thing;
  - (ii) component parts (other than wooden gun stocks) of any such firearms or other weapon as aforesaid and any accessory to any such firearm or other weapon designed or adapted to diminish the noise or flash caused by firing the weapon;
  - (iii) ammunition, including grenades, bombs, and other like missiles, and any ammunition containing or designed or adapted to contain any noxious liquid, gas or other thing;other than the following:
  - (a) cartridges for smooth-bore guns, being cartridges containing five or more shots none of which exceeds 0.36 in (9mm) in diameter;
  - (b) blank cartridges not exceeding 1 in (25mm) in diameter for use in smooth-bore weapons;
  - (c) articles more than one hundred years old;
  - (d) air guns, air rifles or air pistols incapable of discharging a missile so that the missile has, on being discharged from the muzzle of the weapon, kinetic energy in excess, in the case of an air pistol of 6 ft lb (8.14 joules) or, in the case of an air weapon other than an air pistol, of 12 ft lb (16.27 joules), and air weapons designed for use only under water;
  - (e) ammunition for air guns, air rifles or air pistols.
4. Indecent or obscene prints, paintings, photographs, books, cards or lithographic or other engravings, or any other indecent or obscene articles.
5. Ivory and its derivatives.
6. Live animals other than budgerigars, canaries, cats, dogs, donkeys, fish, goats, guinea pigs, hamsters, horses, pigs, poultry (domestic fowls, ducks, geese, guinea fowls and turkeys), rabbits, pigeons and sheep.

8. Marine anti-fouling paint.

Sub'd. by 1991/15

/contd...

9. Offensive Weapons, the following:

- (a) a knuckleduster, that is, a band of metal or other hard material worn on one or more fingers, and designed to cause injury, and any weapon incorporating a knuckleduster;
- (b) a swordstick, that is, a hollow walking-stick or cane containing a blade which may be used as a sword;
- (c) the weapon sometimes known as a "handclaw", being a band of metal or other hard material from which a number of sharp spikes protrude, and worn around the hand;
- (d) the weapon sometimes known as a "belt buckle knife", being a buckle which incorporates or conceals a knife;
- (e) the weapon sometimes known as a "push dagger", being a knife the handle of which fits within a clenched fist and the blade of which protrudes from between two fingers;
- (f) the weapon sometimes known as a "hollow kubotan", being a cylindrical container containing a number of sharp spikes;
- (g) the weapon sometimes known as a "footclaw", being a bar of metal or other hard material from which a number of sharp spikes protrude, and worn strapped to the foot;
- (h) the weapon sometimes known as a "shuriken", "shaken" or "death star", being a hard non-flexible plate having three or more sharp radiating points and designed to be thrown;
- (i) the weapon sometimes known as a "balisong" or "butterfly knife", being a blade enclosed by its handle, which is designed to split down the middle, without the operation of a spring or other mechanical means, to reveal the blade;
- (j) the weapon sometimes known as a "telescopic truncheon", being a truncheon which extends automatically by hand pressure applied to a button, spring or other device in or attached to its handle;
- (k) the weapon sometimes known as a "blowpipe" or "blow gun", being a hollow tube out of which hard pellets or darts are shot by the use of breath;
- (l) the weapon sometimes known as a "kusari gama", being a length of rope, cord, wire or chain fastened at one end to a sickle;
- (m) the weapon sometimes known as a "kyoketsu shoge", being a length of rope, cord, wire or chain fastened at one end to a hooked knife;
- (n) the weapon sometimes known as a "manrikigusari" or "kusari", being a length of rope, cord, wire or chain fastened at each end to a hard weight or hand grip;
- (o) the weapon sometimes known as a "flick knife" or "flick gun" being any knife which has a blade which opens automatically by hand pressure applied to a button, spring or other device in or

/contd...

attached to the handle of the knife, or any knife which has a blade which is released from the handle or a sheath thereof by the force of gravity or the application of centrifugal force and which, when released, is locked in place by means of a button, spring, lever or other device, sometimes known as a "gravity knife";

other than articles more than one hundred years old.

10. Apparatus for wireless telegraphy consisting of a base station and one or more mobile stations where -

- (i) each of such stations is designed or adapted to be used -
  - (a) to send verbal messages to be conveyed over a public telecommunication system; and
  - (b) to receive messages conveyed over a public telecommunication system; and
- (ii) each of such stations is capable of simultaneously sending such verbal messages to any and every other such station; and
- (iii) the base station only is capable of connection to a public telecommunication system,

which apparatus -

- (1) is not cordless telephone apparatus which is designed or adapted to operate on not more than two of the channels specified in paragraph 1.2 of Performance Specification MPT 1322 first published in August 1982, as amended, and which complies with the terms, provisions and limitations specified in regulation 3 of, and the Schedule to, the Wireless Telegraphy (Exemption) Regulations 1982, as amended, and
- (2) is not designed or adapted for use on frequencies exceeding 853 MHz.

11. Wireless telegraphy apparatus known as "Citizens Band" which is designed or adapted, or has facilities permitting its adaptation, for the purpose of transmitting spoken messages on the frequency band 26.1 MHz to 28 MHz, unless -

- (a) the CB apparatus operates only on one or more of the frequencies specified in paragraph 1.3 of Performance Specification MPT 1320 as amended, published in April 1981, or paragraph 1.3 of Part A of Performance Specification MPT 1333 published in December 1986; and
- (b) the CB apparatus complies with the requirements specified in Schedule 1 to the Wireless Telegraphy (Citizens' Band and Amateur Apparatus)(Various Provisions) Order 1988; and
- (c) in the case of CB apparatus which operates on any of the frequencies specified in paragraph 1.3 of Part A of the said MPT 1333, the apparatus is approved for the time being by the Secretary of State under section 84 of the Telecommunications Act 1984 for the purpose of the said Order of 1988.

/contd...

12. Wireless telegraphy apparatus designed or adapted for the purpose of transmitting messages in the frequency band 28 MHz to 29.7 MHz and in no other frequency band.
