2 and sustaining resource must be controlled and rest exclusively with the people of
3 Guam.

5 distribution systems *shall* not be permitted. Rather, the development must be
6 integrated. Furthermore, the development of Guam's water resources, production,
7 transmission and distribution *shall* remain under the direction and control of the
8 people.

9 **Section 2. Purpose.** The purpose of this Act is to foster sustainable use of

12 **Section 3. Water is a Public Asset.** The property in and the right to the

15 in Guam, are for all purposes vested in the government of Guam and are
16 conclusively deemed to have always been vested in the government and is a public
17 asset. No entity *shall* withdraw water from any water source on Guam without the
18 expressed authorization of the Guam Waterworks Authority as provided for in its
19 rules and regulations promulgated pursuant to Section 7 of this Act. Nothing
20 herein *shall* prohibit the development of above ground water catchments systems
21 and the rights to the water collected by such systems *shall* belong to the owners of
22 such systems.

23 **Section 4. Prohibition Against Water Removal.** (a) *No person shall* have
24 any right:

- 25 (1) to drill for, divert, extract, use *or* store water for removal from
26 Guam;

7 by that acquisition acquire any of the rights described in Subsection (1) through
8 (5).

9 **Section 5. Prohibition Against Guam Water Removal.** A person must
10 *not* remove water from Guam *except* as that person:

- 11 (a) is authorized by law, rule *or* regulation;

15 removal, is in possession of evidence satisfactory to the Guam Waterworks
16 Authority to that effect.

17 **Section 6. Exception for Water to be Used in Transit.** Nothing in this
18 Act prohibits the removal of water from Guam in the ordinary course of carrying
19 the water in vehicles, vessels *or* aircraft for the use of persons, animals *or*
20 necessary for the operation of the vehicle, vessels *or* aircraft, while the persons *or*
21 animals, as the case may be, are being transported in the vehicles, vessels *or*
22 aircraft.

23 **Section 7.** A new Section 14104.2 is hereby *added* to Title 12 GCA
24 Chapter 14 with Subsection (b) of P.L. 20-06:7 amended.

27 Guam held in trust by the government of Guam. Such water *shall* be utilized

1 as follows:

2 (a) First priority *shall* be for use *or* resale by the Guam Waterworks
3 Authority for household use, for bonafide farms, plant nurseries,
4 aquaculture, ranches for other bonafide agricultural uses.

5 (b) Second priority *shall* be for any other use by the government of
6 Guam for public recreation and for other public purposes only
7 and not for purposes enumerated in Subsections (c) and (d)
8 below.

9 (c) Third priority *shall* be for commercial and industrial use.

10 (d) Fourth priority *shall* be for irrigation of golf courses, for
11 irrigation of lawns *or* ornamental gardens.

12 (e) Fifth priority *shall* be for any other purposes.

13 Any use of higher priority *shall* have preference over any use of lower
14 priority regardless of which use was first in time.

15 As between water uses of equal priority, first in time *shall* have a temporary
16 priority to the extent of such prior use for so long as the water is actually
17 beneficially used on a regular or seasonal basis, but if not used such temporary
18 water right shall be deemed abandoned pursuant to the common law.

19 The Authority *shall* certify that any approval of water service applications
20 pursuant to the priorities above will *not* diminish *or* impair the quality of water
21 service to customers with a higher priority. GWA approval *shall* be required for
22 the use of all withdrawal of water from any water source in accordance with this
23 Act.

24 The Guam Waterworks Authority *shall* within two hundred sixty (260) days
25 of the enactment, adopt rules and regulations setting forth the application process
26 and approval for water withdrawn from any water source, including, but *not*
27 *limited to*, surface streams and rivers, wells and springs and from the aquifer by

1 any person (individual, corporate *or* local *or* federal government entity, including
2 the military) other than the Guam Waterworks Authority that seeks to withdraw
3 water from any water source on Guam.

4 All water rights and rights to use water *shall* be determined according to the
5 foregoing, and there *shall* be no riparian water rights in Guam. This Act
6 establishes priorities only, and *shall* not establish any vested water rights in any
7 person, other than in the government of Guam.”

8 **Section 8. Severability.** *If* any of the provisions of this Act or the
9 application thereof to any person or circumstance is held invalid, such invalidity
10 shall *not* affect any other provision or application of this Act which can be given
11 effect without the invalid provision or application, and to this end the provisions of
12 this Act are severable.
