

THE OFFICIAL GAZETTE 26TH MAY, 2018

LEGAL SUPPLEMENT — B

GUYANA

No. 3 of 2018

REGULATIONS

Made Under

THE FISHERIES ACT (CAP: 71:08)

ARRANGEMENT OF REGULATIONS

REGULATION

PART I PRELIMINARY

1. Citation.
2. Interpretation.

PART II FOREIGN FISHING VESSEL

3. Application for foreign fishing vessel licence.
4. Form of foreign fishing vessel licence.
5. Fees and expiry of foreign fishing vessel licence.
6. Conditions of foreign fishing vessel licence.
7. Notice of change of information.
8. Daily logbook to be kept.
9. Transmission of logbook to Chief Fisheries Officer.
10. Particulars to be provided by the master of vessel prior to departure from fisheries waters.
11. Prior notice of entry into port.
12. Ensuring safety of fishing operations.
13. Trans-shipment of fish.
14. Bycatch of shrimping.
15. Vessel may be stopped, boarded, inspected or brought to port.
16. Vessel in fisheries waters to display flag and other information.

17. Master to allow authorised officer to board and remain on vessel to access equipment, carry out tests, etc.
18. All records to be in English.
19. Recovery of pursuit costs.

PART III LOCAL FISHING VESSEL

20. Application for local fishing vessel licence.
21. Registration of fishing vessel.
22. Commercial fisher's licence.
23. Expiry of local fishing vessel licence, etc.
24. Conditions of local fishing vessel and commercial fisher's licences.
25. Vessel to display identification marking.
26. Compliance with reasonable directions of authorised officer.
27. Compliance with certain other Regulations.
28. Application for export or import licence.
29. Application for licence to operate fish processing establishment.

PART IV HIGH SEAS FISHING

30. Application for high seas fishing permit.
31. Expiry of high seas fishing permit.

PART V FISHING GEAR, EQUIPMENT AND DEVICE

32. Fishing methods and materials
33. Application for and issue of fish pen or pin-seine permit.
34. Stowage of gear.
35. Examination of pots or traps.
36. Unmarked gear and equipment.
37. Removal or relocation of fishing gear.
38. Destruction of fishing gear or equipment.
39. Collection of fish.
40. Interfering with authorised officer's equipment.
41. Bycatch reduction device.

PART VI
FISH AGGREGATING DEVICE

42. Fish aggregating device permit.
43. Designated fish aggregating device.
44. Marking of fish aggregating device.
45. Disposal of fish aggregating device.

PART VII
PROTECTION OF TURTLES

46. Protection of turtles.
47. Release of sea turtles.
48. Requirements for the protection of sea turtle.
49. Revocation of the Fisheries (Turtle Excluder Device) Regulations 2006, etc.

PART VIII
VESSEL MONITORING SYSTEM

50. Establishment of Fisheries Monitoring Centre.
51. Vessel monitoring device.
52. Tampering with vessel monitoring device.
53. Transmitting to the Fisheries Monitoring Centre.
54. Administration.
55. Examination of vessel monitoring device.
56. Suspension or revocation of licence.
57. Reporting.
58. Switching off of vessel monitoring system device.
59. Notification before leaving port.
60. Reporting fault.
61. Fishing in prohibited areas.
62. Liability of a master of fishing vessel fishing in a prohibited area.

PART IX
CONTROLLED AREAS

63. Taking of particular species of fish prohibited in specified areas.
64. Controlled areas.
65. Regulation of controlled areas.

**PART X
TRAINING AND RESEARCH**

- 66. Training and research.
- 67. Application for research permission.
- 68. Research permitted or commissioned by the Minister.
- 69. Foreign researcher.
- 70. Approved local research institutions.

**PART XI
MISCELLANEOUS**

- 71. Permission to harvest protected species.
- 72. Prohibition against movement and sale.
- 73. Sale of fish, etc. at sea.
- 74. Fisheries observers.
- 75. Observer accommodation and access.
- 76. Signals.
- 77. Number of licence.
- 78. Revocation.

FIRST SCHEDULE – Licence and permit fees

SECOND SCHEDULE – Bycatch reduction device specifications

THIRD SCHEDULE – Application and licence or permit forms

FOURTH SCHEDULE – Turtle excluder device specifications

FIFTH SCHEDULE – Implementation period for vessel monitoring devices on vessel

SIXTH SCHEDULE – Vessel Monitoring Installation Information Form

SEVENTH SCHEDULE – Vessel Monitoring System's Coordinator Report

IN EXERCISE OF THE POWERS CONFERRED UPON ME BY SECTION 79 OF THE FISHERIES ACT, I MAKE THE FOLLOWING REGULATIONS:-

PART I

PRELIMINARY

Citation. 1. These Regulations may be cited as the Fisheries Regulations 2018.

Interpretation. 2. In these Regulations –

“bycatch reduction device” means a device inserted into a fishing gear, usually a trawl net, close to the bag or cod end to allow escapement of unwanted or endangered species of aquatic life;

“communication equipment” means a transponder or a transmitter equipped with a global positioning system;

“charterer” means an individual or entity that leases a vessel for a fixed period of time;

“fish aggregating device” means a permanent, semi-permanent or temporary structure or device made from any material and used to lure fish;

“fish pen” means a fixed net or structure erected in tidal waters for the purpose of catching fish;

“pin seine” means a curtain type net varying in a height of up to two meters and a length of up to two thousand three hundred meters fixed on sticks and pinned to the bed of the sea or a river used to catch fish or other aquatic life;

“trans-shipment” means the act of transferring fish caught in the fisheries waters from one vessel to another vessel, whether or not the other vessel is a fishing vessel.

“trawl net” means a fishing net consisting of a cone shaped body closed by the bag or cod end and extended at the opening by the wings which may be towed by a fishing vessel and dragged along the sea bed or at a given depth below the water to catch fish or other aquatic life;

“turtle excluder device” means any device that fits into the back end of a trawl net immediately before the bag or cod end and permits shrimp and certain sizes of fish to pass into the bag or cod end while simultaneously providing turtles, but not shrimps and other fishes, with the means of escape from the net;

“vessel monitoring device” or “beacon” means an electronic device attached to a fishing vessel that is designed to transmit information related to the position and activity of the vessel and is a component of the vessel monitoring system.

“vessel monitoring system” or “VMS” means a satellite surveillance system used in commercial fishing to allow environment and fisheries regulatory organisations to minimally monitor the position, length of time at a position, course and speed of fishing vessels;

“VMS coordinator” means the administrative staff designated by the Chief Fisheries Officer to monitor activities related to a VMS.

PART II
FOREIGN FISHING VESSEL

Application for
foreign fishing
vessel licence.
Third Schedule

3. An application for a foreign fishing vessel licence issued under section 18 of the Act shall be in Form A in the Third Schedule.

Form of foreign
fishing vessel
licence.
Third Schedule

4. A foreign fishing vessel licence issued by the Minister shall be in Form B in the Third Schedule.

Fees and expiry of
foreign fishing
vessel licence.

5. (1) An application for a foreign fishing vessel licence shall be accompanied by the payment of fees to be negotiated by the Minister and the applicant.

(2) When considering an appropriate fee under subregulation (1), the Minister shall take into account the size of the proposed operation, the type of fish to be fished, the proposed area to be fished and any other relevant consideration as the Minister thinks fit.

(3) A foreign fishing vessel licence shall be an annual licence expiring on the 31st day of December in the year of issue unless otherwise stated in the licence.

Conditions of
foreign fishing
vessel licence.

6. Every foreign fishing vessel licence issued by the Minister shall be subject to the conditions set out in regulations 7 to 18, inclusive.

Notice of change
of information.

7. Any change in the information provided in the application form for a foreign fishing vessel licence shall be notified to the Minister as soon as practicable and in any case, not later than fourteen days from the date of the change.

Daily logbook to be kept.

8. The master of a foreign fishing vessel shall cause a logbook to be maintained on a daily basis in such form as the Chief Fisheries Officer may from time to time require for the purpose of recording the fishing operations of the vessel while the vessel is in the fisheries waters.

Transmission of logbook to Chief Fisheries Officer.

9. The logbook shall be transmitted in its original form to the Chief Fisheries Officer not later than fifteen days after the completion of the voyage to which the logbook relates.

Particulars to be provided by the master of vessel prior to departure from fisheries waters.

10. Unless requested otherwise, the master of a foreign fishing vessel shall, immediately upon entry in, and immediately prior to the departure from, the fisheries waters, provide the Chief Fisheries Officer with a report containing the following details –

- (a) the international radio call sign or the number assigned to the vessel;
- (b) the position of the vessel at the time of reporting;
- (c) the total catch by species on board the vessel at the time of reporting;
- (d) such other matters relating to the fishing operations as the Chief Fisheries Officer may from time to time require.

Prior notice of entry into port.

11. The owner, charterer or master of a foreign fishing vessel or his authorised local representative shall notify the Chief Fisheries Officer of the estimated time of entry of the vessel into any port in Guyana at least twenty four hours prior to that entry.

Ensuring safety of fishing operations.

12. The master of a foreign fishing vessel while in the fisheries waters, shall take all reasonable measures and precautions to avoid causing damage to any local fishing operation.

- Trans-shipment of fish. 13. Fish may not be trans-shipped from or unto a foreign fishing vessel while in the fisheries waters except with the permission of the Chief Fisheries Officer and in accordance with such conditions as the Chief Fisheries Officer may specify.
- Bycatch of shrimping. 14. Fish caught as bycatch to shrimping operations shall, to the extent specified by the Chief Fisheries Officer, be landed at such place or places as may be designated by the Chief Fisheries Officer for that purpose.
- Vessel may be stopped, boarded, inspected or brought to port. 15. The master and each member of the crew of a foreign fishing vessel while in the fisheries waters shall comply with any directions given by any authorised officer and in particular, shall on request by the officer –
- (a) stop the vessel;
 - (b) permit the officer to board and inspect the vessel;
 - (c) bring the vessel into port.
- Vessel in fisheries waters to display flag and other information. 16. A foreign fishing vessel shall at all times while in the fisheries waters –
- (a) fly the flag of its flag State;
 - (b) display in such a way as to be clearly visible both from the sea and from the air –
 - (i) its international radio call sign; or
 - (ii) such other number as may be assigned to it by the Chief Fisheries Officer.
- Master to allow authorised officer to board and remain on vessel to access equipment, carry out tests, etc. 17. The master of a foreign fishing vessel shall, while in the fisheries waters, allow any authorised officer to board and remain on board the vessel and shall allow the officer –
- (a) access to navigation and communication equipment, records and documents and to any fish on board the vessel;

- (b) to make any tests, observations and records as he may reasonably require in connection with the vessel's activities in the fisheries waters;
- (c) to take and remove any samples of fish, other aquatic life or fishing gear on board the vessel;
- (d) without charge, access to food and accommodation at least equivalent to that provided for officers of the vessel; and
- (e) to disembark from the vessel at any port in the territory of Guyana.

All records to be
in English.

18. All records, logbooks, notices, documents and information required of a foreign fishing vessel by an authorised officer shall be in English.

Recovery of
pursuit costs.

19. (1) This regulation may be applied in determining costs incurred by or on behalf of the Department of Fisheries that are directly attributable to the conduct of hot pursuit activities directly related to foreign fishing vessels under section 48(2)(c) of the Act.

(2) Where an authorised officer gives a direction to the master of a foreign fishing vessel and the master does not comply with the direction, the pursuit is deemed to have begun when the direction was given.

(3) A pursuit is deemed to have ended when the vessel arrives at the processing plant or port as instructed by the officer.

(4) The categories of costs that may be recovered include –

- (a) the overtime costs to be paid to any personnel of an agency involved in the pursuit who are required to participate in the pursuit in excess of their normal hours of work or for performing any task outside of

- that personnel's normal duties because of the pursuit;
- (b) the costs of deploying any additional personnel not mentioned in paragraph (a) involved in the pursuit, whether on board a pursuing boat or providing land-based support to the pursuit;
 - (c) any accommodation, relocation, travel or like costs provided to the personnel mentioned in paragraphs (a) and (b) to undertake, continue or support the pursuit;
 - (d) any costs in relation to the use of boats, other vessels or aircraft in the pursuit, including the costs of repair for any damage incurred by such boat, vessel or aircraft;
 - (e) the costs of the use of services or equipment, electronic or otherwise, associated with the surveillance of the pursued boat;
 - (f) the costs of the use of services or equipment associated with maintaining communication between agencies involved in the pursuit;
 - (g) the costs of any ancillary services required to maintain the pursuit including medical, legal or other professional assistance or advice; and
 - (h) any other costs that have arisen as a consequence of the pursuit, the apprehension of the vessel or bringing the vessel to a processing place.

PART III

LOCAL FISHING VESSEL

Application for
local fishing
vessel licence.

20. (1) An application for a local fishing vessel licence issued under section 13 of the Act shall be in Form C (1) or C (2) in the Third Schedule.

Third Schedule (2) An application for a local fishing vessel licence shall be accompanied by the payment of the fee as specified in the First Schedule.

First Schedule

(3) A local fishing vessel licence issued by the Chief Fisheries Officer shall be in Forms D (1), D (2), D (3) or D (4) in the Third Schedule.

Registration of local fishing vessel.

Third Schedule

First Schedule

21. (1) An application for a certificate of registration of a local fishing vessel in accordance with section 9 of the Act shall be in Form C (3) in the Third Schedule.

(2) An application for a certificate of registration of a local fishing vessel shall be accompanied by the payment of the fee as specified in the First Schedule.

(3) A certificate of registration of a fishing vessel issued by the Chief Fisheries Officer or any person authorised by him in writing shall be in Form D (5) in the Third Schedule.

Commercial fisher's licence. Third Schedule. First Schedule.

22. (1) An application for a commercial fisher's licence under section 14 of the Act and the renewal of that licence shall be in Form C (4) in the Third Schedule.

(2) An application for a commercial fisher's licence or the renewal of the licence shall be accompanied by the payment of the fee as specified in the First Schedule.

(3) A commercial fisher's licence issued by the Chief Fisheries Officer shall be in Form D (6) in the Third Schedule.

Expiry of local fishing vessel

23. A local fishing vessel licence, certificate of registration of a local fishing vessel and a commercial fisher's licence shall be annual licences

licence, etc. expiring on the 31st day of December in the year of issue unless otherwise specified.

Conditions of local fishing vessel and commercial fisher's licences. 24. Every local fishing vessel licence or commercial fisher's licence issued by the Chief Fisheries Officer shall be subject to the conditions set out in regulations 7, 8, 9, and 13 *mutatis mutandis* and regulations 25, 26 and 27.

Vessel to display identification marking. 25. A local fishing vessel shall display any identification markings assigned to it by the Chief Fisheries Officer in such manner as the Chief Fisheries Officer may require.

Compliance with reasonable directions of authorised officer. 26. The master and each member of the crew of a local fishing vessel shall comply with any reasonable direction given by an authorised officer.

Compliance with other Regulations. 27. The master of a local fishing vessel shall comply with the provisions pertaining to fishing vessels under the Harbour Regulations made under the Transport and Harbours Act and the Convention on the International Regulations for Preventing Collision at Sea 1972.

Cap. 49:04

Application for export or import licence. Third Schedule First Schedule 28. (1) An application to the Chief Fisheries Officer for an export or import licence issued under section 47 of the Act shall be in Forms C (5) in the Third Schedule.

(2) An application for an export or import licence shall be accompanied by the payment of the fee as specified in the First Schedule.

(3) An export or import licence shall be issued in Form D (7) in the Third Schedule and shall be subject to such conditions as may be specified by the Chief Fisheries Officer.

- (4) An export or import licence shall either be an—
- (a) annual general export or import licence expiring on the 31st day of December in the year of issue unless otherwise specified; or
 - (b) individual shipping licence which shall be valid for one calendar month from the date of issue.

(5) An individual export or import licence shall be required for each individual shipment for which the licence was applied.

Application to
operate fish
processing
establishment.
Third Schedule
First Schedule

29. (1) An application to the Chief Fisheries Officer for a licence to operate a fish processing establishment issued under section 46 of the Act shall be in Form C (6) in the Third Schedule.

(2) An application for a licence to operate a fish processing establishment shall be accompanied by the payment of the fee as specified in the First Schedule.

(3) A licence to operate a fish processing establishment shall be issued in Form D (8) in the Third Schedule and shall be subject to such conditions as may be specified by the Chief Fisheries Officer.

(4) A licence to operate a fish processing establishment shall be an annual licence expiring on the 31st day of December in the year of issue unless otherwise specified.

PART IV HIGH SEAS FISHING

Application for
high seas fishing
permit.

30. (1) An application for a high seas fishing permit issued under section 34 of the Act shall be in Form E (1) in the Third Schedule.

Third Schedule

(2) An application for a high seas fishing permit shall be accompanied by the payment of the fees published by the Minister from time to time by notice in the *Gazette*.

(3) A high seas fishing permit issued by the Minister shall be in Form E (2) in the Third Schedule.

Expiry of high seas fishing permit.

31. A high seas fishing permit shall be an annual permit expiring on the 31st day of December in the year of issue unless otherwise specified.

PART V**FISHING GEAR, EQUIPMENT AND DEVICE**

Fishing methods and materials.

32. (1) A person shall not use any fishing methods or material to conduct any fishing activities regulated by the Act unless that person receives the written approval of the Chief Fisheries Officer.

(2) The approval of the Chief Fisheries Officer shall be given at the time of the issue of any licence or permit to fish in the fisheries waters or on the written request of the person seeking approval any time during the licence period but after the issue of a licence or permit to fish.

Application for and issue of fish pen or pin-seine permit.
Third Schedule
First Schedule

33. (1) A person shall not erect, maintain or use a fish pen or pin-seine unless that person is the holder of a valid fish pen or pin-seine permit and a valid commercial fisher's licence.

(2) An application for a fish pen or pin-seine permit or the renewal of that permit shall be made to the Chief Fisheries Officer in Form F (1) of the Third Schedule.

(3) An application for a fish pen or pin seine permit shall be accompanied by the fee as specified in the First Schedule.

(4) A fish pen or pin seine permit shall be an annual permit expiring on the 31st day of December in the year of issue unless otherwise specified and shall be issued by the Chief Fisheries Officer in Form F(2) of the Third Schedule.

(5) A permit under this regulation shall not be issued unless the Chief Fisheries Officer inspects the intended location for the fish pen or pin-seine and finds the location satisfactory for that method of fishing.

(6) The Chief Fisheries Officer may refuse to grant a permit under this regulation if the Chief Fisheries Officer is satisfied that the issue of the permit would not be in the best interest of the fishing industry or if the fish pen or pin seine would be an obstruction or is likely to constitute a danger to the navigation of vessels in the fisheries waters.

(7) Where the Chief Fisheries Officer refuses to grant a permit under this regulation, the applicant may, within twenty-one days after the refusal, appeal that decision in writing to the Minister.

(8) No permit issued under this regulation shall be sold or in any way transferred without the approval in writing of an authorised officer and every sale or transfer shall be recorded on the permit by the authorised officer.

(9) The conditions set out in regulations 7, 8, 9 and 13, shall apply *mutatis mutandis* to a fish pen or pin-seine permit.

Stowage of gear.

34. Fishing gear required to be stowed in accordance with section 31 of

the Act shall be stowed in the following manner –

- (a) fishing gear shall be carried wholly inboard the vessel and stowed in a manner that makes it not readily available for fishing;
- (b) all hooks, nets, trawl boards and weights shall be disconnected from their towing or hauling wires, ropes or rigid frame and all mechanical hauling devices shall be sufficiently disconnected as to be incapable of immediate use; and
- (c) where possible, fishing gear shall be stowed below deck and fishing gear carried on deck shall be secured to some part of the superstructure of the vessel.

Examination of pots or traps.

35. (1) Subject to subregulation (2), a person shall not leave a pot or trap in the fisheries waters unattended or un-examined for a period exceeding forty-eight hours.

(2) Where weather conditions prevent a pot or trap from being attended to or examined within forty-eight hours, that period shall be extended to a reasonable period within which it is practical to attend to or examine the pot or trap.

Unmarked gear and equipment.

36. A fish trap, fish pen, buoy or other fishing gear or equipment required to be marked, if not marked, shall be disposed of by an authorised officer.

Removal or relocation of fishing gear.

37. A person who intentionally removes fishing gear or changes the location of the fishing gear without the permission of the Minister or the Chief Fisheries Officer commits an offence and is liable on summary conviction to a fine of two hundred and fifty thousand dollars.

Destruction of fishing gear or equipment.

38. (1) A person who unlawfully damages or destroys fishing gear owned or operated by another person commits an offence and is liable on summary conviction to a fine of two hundred and fifty thousand dollars.

(2) A person does not commit the offence in subregulation (1) if the person receives the written permission of the Minister or the Chief Fisheries Officer prior to damaging or destroying the fishing gear or equipment.

Collection of fish.

39. A person who collects fish from fishing gear owned or operated by another person without that person's knowledge or permission commits an offence and is liable on summary conviction to a fine of two hundred and fifty thousand dollars.

Interfering with authorised officer's equipment.

40. A person who damages or interferes in anyway with any vessel, gear or equipment used by an authorised officer for the purpose of carrying out that officer's duties under these Regulations commits an offence and is liable on summary conviction to a fine of two hundred and fifty thousand dollars.

Bycatch reduction device.
Second Schedule

41. (1) All trawler type vessels rigged to fish in the fisheries waters shall be fitted with a bycatch reduction device which shall at all times be in use when fishing.

(2) Every bycatch reduction device shall comply with the specifications set out in the Second Schedule.

(3) An authorised officer shall issue a bycatch reduction device certificate where the officer is satisfied that the device meets the specification of the Second Schedule.

(4) A person who fishes in the fisheries waters with a trawler type vessel using a bycatch reduction device without a bycatch reduction device certificate issued under subregulation (3) or using a tampered bycatch reduction device commits an offence and is liable on summary conviction to a fine of two hundred and fifty thousand dollars.

PART VI FISH AGGREGATING DEVICE

Fish aggregating
device permit.
Third Schedule
First Schedule

42. (1) A person shall not deploy a fish aggregating device in the fisheries waters except with the written permission of an authorised officer and in accordance with any condition specified by the officer.

(2) (a) An application for a permit mentioned in subregulation (1) shall be in Form G(1) of the Third Schedule.

(b) An application for a permit under this regulation shall be accompanied by the payment of the fee as negotiated by the authorised officer and the applicant.

(3) An application for a permit under this regulation shall be processed by the officer within fourteen days of its receipt.

(4) The permit shall be an annual permit expiring on the 31st day of December in the year of issue unless otherwise specified and shall be issued in Form G (2) in the Third Schedule.

(5) The Chief Fisheries Officer shall establish and maintain a register of all fish aggregating devices permitted in the fisheries waters.

(6) A permit issued under this regulation shall contain a fish aggregating device registration number assigned by the Chief Fisheries Officer for the purpose of maintaining the register under subregulation (5).

(7) The permit shall confer an exclusive right to fish in the vicinity of the device for the period stated in the permit.

(8) The permit shall not relieve the master of a vessel from obligations arising under any other law concerning safety of navigation and shipping.

(9) The master of a vessel deploying a permitted fish aggregating device into the fisheries waters shall notify the Chief Fisheries Officer within twenty four hours of deploying the device of the nature of the device and the intended location where the device will be deployed.

Designated fish aggregating device.

43. (1) The Chief Fisheries Officer may by notice published in the *Gazette* and a local newspaper of wide circulation, declare any fish aggregating device a designated fish aggregating device for the purpose of this regulation.

(2) A person shall not fish within a radius of one half of a nautical mile from any designated fish aggregating device except with the written permission of the Chief Fisheries Officer and in accordance with such conditions the Chief Fisheries Officer may specify.

Marking of fish aggregating device.

44. (1) Any fish aggregating device deployed into the fisheries waters shall –

- (a) bear a radar reflector and such lights as shall be clearly visible from five nautical miles;
- (b) be clearly marked with the name of the owner of

the device and of the vessel from which the device was deployed;

- (c) have such other equipment or markings as an authorised officer may require.

(2) A fish aggregating device found unmarked in the fisheries waters may be disposed of in an appropriate manner by an authorised officer.

Disposal of fish aggregating device.

45. A fish aggregating device deployed in the fisheries waters without the written permission of an authorised officer shall be disposed of in a manner as the Chief Fisheries Officer may direct.

PART VII

PROTECTION OF TURTLES

Protection of turtles.

46. A person who fishes in the fisheries waters for, buys, sells, or has in his possession, a turtle of the species –

- (a) *Eretmochelys Imbricata* (Hawksbill turtle);
- (b) *Chelonia Mydas* (Green turtle);
- (c) *Dermochelys Coriacea* (Leatherback turtle);
- (d) *Lepidochelys Olivacea* (Olive Ridley turtle),

commits an offence and is liable on summary conviction to a fine of one million dollars.

Release of sea turtles.

47. A master of a fishing vessel shall return to the water, immediately and with minimum harm, any live sea turtle caught accidentally while fishing and when necessary, use the resuscitation procedure to be used on turtles established by the Ministry of Agriculture.

Requirements for the protection of

48. (1) The owner, charterer or master of a fishing vessel with a trawl

sea turtle.
Fourth Schedule.

net rigged to fish in the fisheries waters, or while fishing in the fisheries waters, shall not have or use a trawl net without a turtle excluder device with the specifications set out in the Fourth Schedule, which shall not be removed.

(2) A person shall not use a turtle excluder device without a Turtle Excluder Device Certificate issued by an authorised officer where the officer is satisfied that the device meets the specifications set out in the Fourth Schedule.

(3) There shall be at least one spare turtle excluder device on board a fishing vessel while that vessel is using a trawl net to fish in the fisheries waters.

(4) The Minister or the Chief Fisheries Officer may suspend a licence or permit to fish in the fisheries waters for a period not exceeding thirty-one days or revoke the licence or permit of a person who contravenes the provisions of this regulations.

(5) Where a person contravenes the provisions of this regulation more than two times in a licence or permit year that person commits an offence and is liable on summary conviction to a fine of one million dollars.

Revocation of the
Turtle Excluder
Device regulation,
etc.
Reg. 5/2006
O.23/1994

49. The Fisheries (Turtle Excluder Device) Regulations 2006 and the Maritime Boundaries (Turtle Excluder Device) Order 1994 are revoked.

PART VIII

VESSEL MONITORING SYSTEM

Establishment of
Fisheries
Monitoring

50. There shall be a Fisheries Monitoring Centre in the Ministry of Agriculture which shall be responsible for operating a vessel monitoring

Centre. system (VMS) for the effective monitoring, control and surveillance of fishing activities.

Vessel monitoring device. 51. (1) Every owner of a fishing vessel licensed or permitted to fish in the fisheries waters or for related activities shall ensure that the vessel is fitted with a vessel monitoring device approved by the Chief Fisheries Officer within the implementation period specified in the Fifth Schedule.

Fifth Schedule.

Sixth Schedule.

(2) The Minister may, in his sole discretion, extend the time stipulated for the installation of a vessel monitoring device for not more than two months.

(3) After installation, the owner shall submit the relevant information on the vessel monitoring device to the Chief Fisheries Officer in Form A in the Sixth Schedule along with a certified administrative copy of the operationalisation of the equipment from the supplier of the device.

Tampering with vessel monitoring device. 52. A charterer, owner or master of a vessel licensed or permitted to fish in the fisheries waters shall ensure that at all times the vessel monitoring device installed on the vessel is not tampered with or manipulated to distort the position of the vessel or any other information that may be relayed by the device.

Transmitting to the Fisheries Monitoring Centre. 53. The vessel monitoring device shall be programmed to automatically transmit, continuously and throughout the period of the licence or permit to fish, to the Fisheries Monitoring Centre data relating to -

- (a) the identification of the vessel;
- (b) the most recent geographical position of the vessel with a margin of error not exceeding 500 meters;
- (c) the date and time of the fixing of the position of the vessel;

(d) the speed and course of the vessel.

Administration.

54. (1) Data from the VMS shall be retrieved at least two times daily, interpreted, processed and stored in a computer-readable form by the VMS coordinator.

(2) For the purposes of this regulation, the interpretation of the data retrieved from the VMS means the assessment of the data visible on the VMS screen at the Fisheries Monitoring Centre so as to ascertain a vessel's activities in a particular area in the fisheries waters including the speed and position of the vessel and its trawling and fishing activities.

(3) Where illegal fishing activities are identified by the VMS coordinator, an illegal fishing card shall be created and an image which identifies the relevant vessel and its route shall be stored in at least one computer-readable form.

(4) The owner, charterer or master of a fishing vessel shall keep data from the vessel monitoring device of the fishing vessel in a computer-readable format for a period of at least three years.

Examination of
vessel monitoring
device.

55. (1) Where the VMS coordinator does not receive data referred to in regulation 53 for twelve consecutive hours, the VMS coordinator shall inform the owner or a representative of the owner as soon as practicable.

(2) Where the VMS coordinator has not received the data within the period mentioned in subregulation (1) on more than three occasions within a licence or permit year, the Chief Fisheries Officer shall designate a person or persons to ensure that the vessel monitoring device of the vessel in question is examined to determine if the equipment has been tampered with.

- Suspension or revocation of licence. 56. The Chief Fisheries Officer may suspend or revoke a fishing vessel's licence where there is a breach of the provisions of regulation 51, 52 or 53
- Reporting.
Seventh Schedule 57. (1) The VMS coordinator shall report to the Chief Fisheries Officer the activities of all fishing vessels equipped with a vessel monitoring device on or before the 20th day of each calendar month in the VMS Coordinator's Report Form in the Seventh Schedule.
- (2) Upon the detection of illegal fishing activities of fishing vessels or other irregularities by the VMS, the VMS Coordinator shall immediately inform the Chief Fisheries Officer in writing of the following information –
- (a) the name of vessel;
 - (b) the vessel's beacon number;
 - (c) the date and time of the infringement;
 - (d) the type of infringement; and
 - (e) any other information regarding the infringement which may include furnishing the Chief Fisheries Officer with any document in connection with the infringement.
- Switching off of vessel monitoring device. 58. A vessel monitoring device may, with the prior approval of the Chief Fisheries Officer, be switched off when the vessel is anchored in Port Georgetown.
- Notification before leaving port. 59. The owner, charterer or master of a vessel permitted by the Chief Fisheries Officer to switch off its vessel monitoring device shall notify the Fisheries Monitoring Centre at least six hours before leaving the Port and provide any other information requested by the Fisheries Monitoring Centre prior to the departure of the vessel.

Reporting fault.

60. (1) The owner, charterer or master of a vessel licensed or permitted to fish in the fisheries waters shall –

- (a) report immediately to the Fisheries Monitoring Centre any malfunctioning of the vessel monitoring device of a fishing vessel;
- (b) repair or cause to be repaired or replaced any faulty vessel monitoring device within thirty days of the malfunctioning of the vessel monitoring device or within a reasonable period approved by the Chief Fisheries Officer; and
- (c) report the position of the fishing vessel at least once every twenty-four hours, to the Fisheries Monitoring Centre during the period of repair or replacement.

(2) Any vessel monitoring device reported for more than three times in a licence or permit year to the Fisheries Monitoring Centre to be malfunctioning shall be replaced by the owner of the fishing vessel.

Fishing in
prohibited areas.

61. (1) The Minister may, by order published in the *Gazette*, declare an area a prohibited area for the purpose of these Regulations.

(2) Where it is detected by the VMS coordinator that a fishing vessel has fished in a prohibited area, the owner or charterer of the fishing vessel breaches the terms of his licence or permit and the Chief Fisheries Officer shall notify that owner or charterer of the breach in writing to which the owner or charterer must respond within fourteen days.

(3) Where the owner or charterer of a fishing vessel is found to be in breach of his licence or permit more than three times in a licence or permit year under this regulation, the Chief Fisheries Officer may after written warning, suspend the vessel licence or permit for a period not exceeding

thirty-one days.

(4) The owner or charterer of a fishing vessel which continues to fish in an area declared to be a prohibited area any time after his fishing vessel licence or permit has been suspended in accordance with subregulation (3) or during the period of suspension commits an offence and is liable on summary conviction to a fine of two hundred and fifty thousand dollars.

Liability of a
master of fishing
vessel fishing in a
prohibited area.

62. (1) For the purpose of this regulation, every owner or charterer of a fishing vessel shall submit a list of the names of the master and crew members of the fishing vessel with a copy of a valid form of photo identification of the master and crew members of the fishing vessel before the departure of the fishing vessel from any port in the fisheries waters.

(2) The master of a fishing vessel who fishes in a prohibited area shall be suspended for a period of fourteen days from a date to be determined by the Chief Fisheries Officer after the Chief Fisheries Officer receives the response of the owner or charterer in accordance with regulation 61(2) or from the expiration of the fourteen days period where there is no response, and the master shall be prohibited from being on board any fishing vessel as a master or member of the crew during the period of suspension.

(3) Where a master of a fishing vessel breaches the terms of suspension for a second time, the penalty shall be doubled and where that master breaches it thrice it shall be tripled.

(4) A master of a fishing vessel who has fished in a prohibited area more than three times in a licence or permit year shall be suspended from being on board a fishing vessel as a master or member of the crew for a period of one hundred days.

PART IX
CONTROLLED AREAS

Taking of
particular species
of fish prohibited
in specified areas.

63. The Minister may, by notice published in the *Gazette* or a local newspaper of wide circulation, prohibit the taking of fish or aquatic life of a particular species from an area where –

- (a) the species pose a risk to human health;
- (b) there is a risk of the spread of aquatic pests, contamination or disease to other fish or aquatic life if moved to another area; or
- (c) the species is vulnerable, depleted or there is significant population decline that taking of the species of fish or aquatic life would pose a threat to the recovery of the fish or aquatic life population.

Controlled areas.

64. The Minister may, by notice published in the *Gazette* or a local newspaper of wide circulation, declare –

- (a) an area containing diseased fish or aquatic life to be a quarantined area;
- (b) on the recommendation of the Fisheries Advisory Committee, where the fish or aquatic life is at risk of contracting a disease, an area a protected area; or
- (c) an area containing an aquatic pest to be a restricted area.

Regulation of
controlled areas.

65. Where an area has been declared to be a quarantined area, a protected area or a restricted area under these Regulations, the Minister may by notice published in the *Gazette* or a newspaper of wide circulation–

- (a) regulate or prohibit all transportation of fish or aquatic life from, into or within the area;
- (b) regulate or prohibit the movement of persons, vehicles, vessels or aircraft into, within or out of the area;

- (c) specify the particular species of fish or aquatic life to which the notice applies;
- (d) prohibit the release of water from an aquaculture facility without his written permission; and
- (e) order the treatment or destruction of diseased fish, aquatic life feed, contaminated equipment, water or other things which, may transmit disease or cause the spread of aquatic pest.

PART X

TRAINING AND RESEARCH

Training and
research.

66. (1) The Minister may commission or permit training programmes and fisheries related research or survey operations to be undertaken in the fisheries waters which are appropriate to the growth, management and development of the fishing industry.

(2) The Minister may define the scope of a fisheries related research or survey operations commissioned or permitted under subregulation (1).

Application for
research
permission.

67. (1) An application to undertake fisheries related research or survey operations in the fisheries waters shall be made to the Minister in writing and shall be supported by a detailed plan of the research or survey operations to be undertaken.

(2) Permission granted by the Minister to undertake fisheries related research or survey operations within the fisheries waters shall be in writing and shall be subject to the conditions set out in section 24(5) of the Act and any other conditions as the Minister thinks fit.

(3) The breach of any of the conditions in subregulation (2) shall automatically terminate the permission given under this regulation and any

request for further permission shall be subject to section 24(7) of the Act.

Research permitted or commissioned by the Minister.

68. Where a fisheries research or survey operation is permitted or commissioned by the Minister, the Minister may request from the owner or charter of any fishing vessel, fish farm or related entity, the supply of any further data, information or general cooperation of the owner that may assist the Minister when undertaking the research or survey operation.

Foreign researcher.

69. No foreign person, body, entity, institution or organisation shall undertake fisheries related research of any kind without the prior permission of the Minister, unless that foreign person, body, entity, institution or organisation is an international organisation or agency to which section 24(2) of the Act applies.

Approved local research institutions.

70. The Minister may designate in writing any local scientific or academic institution as an approved local research institution which shall –

- (a) submit to the Chief Fisheries Officer, at least once a year unless otherwise specified, a list and description of all fisheries research projects undertaken together with a summary of results obtained;
- (b) give the Chief Fisheries Officer or any authorised officer designated for this purpose, access to the results of any completed research project including any data generated during the project;
- (c) submit to the Chief Fisheries Officer any other data that may be required;
- (d) comply with any other condition outlined by the Chief Fisheries Officer in relation to the proper management of fisheries resources, the protection of the environment and the observance of other obligations under the Act.

Observer
accommodation
and access.

75. An owner, charterer or master of a vessel on which an observer appointed under regulation 75 embarks shall—

- (a) provide accommodation and food that are equivalent to those provided to the crew to the observer;
- (b) allow the observer access to and use of the vessel's observer device and personnel upon request for the transmission and receipt of messages related to the observer's duties;
- (c) allow the observer access to and use of the vessel's navigation equipment and personnel upon request to determine the vessel's position;
- (d) allow the observer free and unobstructed access to the vessel's bridge, working decks, holding bins, weight scales, holds and any other space used to hold, process, weigh or store fish;
- (e) allow the observer to inspect and copy the vessel's daily logbook, communication logs and any records associated with the catch and distribution of fish for that trip.

Signals.

76. In every communication by radio, flag or light between a fishing vessel and any government authority, the signals specified in the International Code of Signals (2005) published by the International Maritime Organisation shall be used.

Number of
licence.

77. The number of licences or permits to be issued for each kind of vessel, gear or device shall be at the discretion of the Minister or the Chief Fisheries Officer.

Revocation.
Reg. 13/1957

78. The Fisheries Regulations 1957 is revoked.

FIRST SCHEDULE(Regulations 5, 20, 21, 22, 28, 29,
33, and 42)

LICENCE/PERMIT	FEE
1. Artisanal Fishing Vessel Licence (not exceeding 15 m.)	\$900.00 (per m.)
2. Artisanal Fishing Vessel Licence (exceeding 15 m.)	\$1,500.00 (per m.)
3. Certificate of Registration of Fishing Vessel	\$1,000.00
4. Commercial Fisher's Licence (workman permit)	\$1,000.00
5. Fish Pen or Pin Seine Permit	\$1,000.00
6. Individual Export or Import Licence	\$2,000.00
7. Red Snapper Fish Licence (Territorial Sea)	\$50,000.00
8. Trawler Licence (Prawn or Shrimp – Territorial Sea)	\$50,000.00
9. Tuna Fish Licence - (Territorial Sea)	\$50,000.00
10. Annual Processing Establishment Licence (Small – Fish or Shrimp)	\$75,000.00
11. Annual Processing Establishment Licence (Large - Fish or Shrimp)	\$100,000.00
12. Annual Export or Import Licence (Large Processing Establishment - Fish)	\$100,000.00
13. Annual Export or Import Licence (Large Processing Establishment - Shrimp)	\$100,000.00
14. Red Snapper Fish Licence (EEZ)	\$150,000.00
15. Trawler Licence (Prawn or Shrimp – EEZ)	\$250,000.00
16. Tuna Fish Licence – (EEZ)	\$500,000.00

SECOND SCHEDULE

(Regulation 41(2))

All trawler typed vessels rigged to fish in the fisheries waters are to be fitted with a bycatch reduction device conforming with the following specifications or other bycatch reduction device as approved by the Chief Fisheries Officer –

The Square-Mesh Window

Excluded Species	Description
 <p>Figure 1</p>	<p>The square-mesh window is designed to allow fish to voluntarily swim from the trawl (Figure 1). This BRD is simply a panel of large meshes hung on the bar so they remain open during the tow (Figure 2). This is in contrast to diamond meshes which tend to close under tension. The following details describe the construction of a 150 mm (75 mm bar length) square-mesh window measuring 6 bar lengths long by 6 bar lengths wide to fit a codend with a 45 mm (1¾") mesh size.</p>

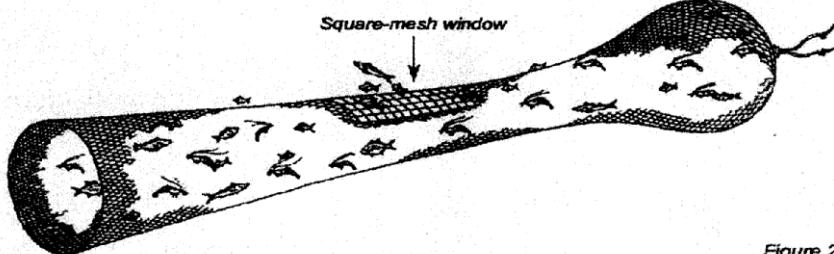

Figure 2

Construction

- Cut out a rectangular hole in the top of the codend measuring 40 meshes wide by 12 meshes long (Figure 3).
- Cut out the square-mesh window from 150 mm (6") netting measuring 6 bar lengths wide by 6 bar lengths long.
- Reinforce the edges of the window with 4mm rope.
- Secure the window to the codend at desired location ensuring codend meshes are distributed evenly between the bars.

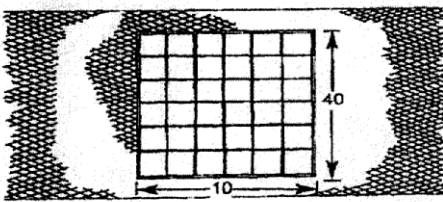

Figure 3

Trouble Shooting

Shrimp loss: This may be due to knot slippage, incorrect mesh or window size selection and poor window location. To prevent knot slippage the window may need to be replaced with knotless netting or netting made from thicker twine. Reducing mesh or window size will reduce shrimp loss, as will relocating the window further forward of the catch.

Poor exclusion rate: The mesh size may be too small, however, careful selection of a larger mesh size is required to prevent shrimp loss. Relocating the window closer to the accumulated catch may increase fish loss, but may increase the risk of shrimp loss particularly when large catches are taken.

THIRD SCHEDULE**FORM A**

(Regulation 3)

**APPLICATION FORM FOR A FOREIGN FISHING VESSEL LICENCE TO FISH IN
GUYANA'S FISHERIES WATERS****INSTRUCTIONS –**

- a) please underline surnames;
- b) for addresses, please provide complete mailing address;
- c) please mark X where appropriate;
- d) please do not leave any space blank, if not applicable write NA;
- e) units of measurement should be specified;
- f) applications should be addressed to the -

**THE MINISTER OF AGRICULTURE,
c/o THE CHIEF FISHERIES OFFICER,
