[Subsidiary]**WATER POLLUTION CONTROL (GENERAL)
REGULATIONS**

(Cap. 358, section 46)

[1 April 1987] *L.N. 90/87**L.N. 149/86 — L.N. 203/88***Citation**

1. These regulations may be cited as the Water Pollution Control (General) Regulations.

Interpretation

2. (1) In these regulations, unless the context otherwise requires—

“approved sampling point” means a sampling point which has been approved in writing by the Authority for the purpose of these regulations;

“business registration no.” means the number assigned by the Commissioner of Inland Revenue under the Business Registration Ordinance (Cap. 310) to any business registration certificate held by the notifier or applicant;

“code number” means the number assigned for record purposes by the Authority to any notification or application received by him or to any licence, renewal or variation granted by him;

“determinand” means any factor, property or agent which serves to define the quantity, nature, composition, colour, temperature or biochemical properties of a discharge or deposit or of any component thereof;

“discharge point” means the point at which a discharge first enters or at which a deposit is first likely to enter—

(a) any public drain or public sewer; or

(b) the waters of Hong Kong;

“domestic sewage” has the meaning ascribed to that term in section 9(3) of the Ordinance;

“domestic sewage treatment plant” means a plant at which domestic sewage is treated and in which 2 or more of the following categories of items are employed—

(a) a grit trap;

(b) a screen;

(c) a comminutor;

(d) a sedimentation or settlement tank;

[Subsidiary]

(e) aeration;

(f) biological treatment through the action of micro-organisms;

(g) a submarine pipeline leading to receiving waters;

“exempt” in relation to an existing discharge or deposit means exempt from the operation of section 8(1)(a) or (b) of the Ordinance, or from the operation of section 9(1) of the Ordinance, as the case may be, by virtue of section 15 of the Ordinance, and “exemptions” shall be construed accordingly;

“First Appointed Day” means the day declared by the Governor in relation to a specified category of discharge or deposit in a water control zone under section 7(2) of the Ordinance;

“grant of a licence” means the grant of a licence under section 20 of the Ordinance;

“ID card” means an identity card issued under the Registration of Persons Ordinance (Cap. 177);

“industrial enterprise” means a person who carries on an industrial process by way of trade or business;

“industrial premises” means premises occupied by an industrial enterprise for the purpose of carrying on an industrial process by way of trade or business, whether or not such premises form part of larger premises occupied by the same or another industrial enterprise or by any other person;

“industrial process” means a process which gives rise to a specified category of discharge or deposit other than a discharge or deposit from a domestic sewage treatment plant;

“industrial waste” means the waste products of an industrial process;

“ISIC category number and name” in relation to an industrial process means its category number and name as shown in the International Standard Industrial Classification of all Economic Activities 1971, published by the United Nations;

“last notice” means the last notice referred to in section 19(4) of the Ordinance;

“licensed discharge” means a discharge for which a licence has been granted under section 20 of the Ordinance;

“manager” in relation to an industrial enterprise or domestic sewage treatment plant means an individual resident in Hong Kong who is responsible for the management in Hong Kong of that industrial enterprise or domestic sewage treatment plant, as the case may be;

“notifier” means an individual who furnishes particulars of an existing discharge or deposit to the Authority on Form 1, Form 2 or Form 8;
(L.N. 203/88)

“renewal of a licence” means the renewal of a licence by virtue of section 23 of the Ordinance;

[Subsidiary]

“sampling point” means one or more points on industrial premises or a domestic sewage treatment plant at which samples of a discharge or deposit from those premises or that plant are taken by the Authority as being representative of the quality and quantity of the discharge or deposit;

“Second Appointed Day” means the day declared by the Governor in relation to a specified category of discharge or deposit in a water control zone under section 7(3) of the Ordinance;

“specified category of discharge or deposit” means a category of discharge or deposit specified by the Governor under either section 7(2) or 7(3) of the Ordinance;

“statutory public notice” means a notice which the Authority causes to be published under section 19(3)(b) of the Ordinance;

“sub-zone” means a part of a water control zone delineated by the Secretary under section 5(5) of the Ordinance for the purpose of establishing different water quality objectives for different parts of that zone;

“variation of an exemption” means the variation of an exemption under section 18 of the Ordinance;

“variation of a licence” means the variation of a licence under section 28 of the Ordinance;

“water account number” means the account number allocated to industrial premises by the Water Authority under the Waterworks Ordinance (Cap. 102) in respect of the consumption of water.

(2) In these regulations, unless the context otherwise requires, any reference to a form, whether or not followed by a number, is to a form as prescribed in the Second Schedule.

**Method of calculating quantities, rates and temperature
of exempt discharges and deposits**

3. (1) For the purposes of section 16(1)(b) of the Ordinance, the Authority shall, in relation to any period prior to the First Appointed Day, calculate—

(a) the total quantity of an exempt discharge or deposit—

(i) in the case of industrial premises in which flow rates of the discharge or deposit are measured, by reference to the mean daily flow rate notified in Form 1 in respect of that discharge or deposit;

(ii) in the case of industrial premises in which flow rates of the discharge or deposit are not measured, as the total amount of water used in the premises from mains supply and other sources over that period (as notified in Form 1 in respect of that discharge or deposit) less any water lost by process losses at the premises during the same period;

(iii) in the case of a domestic sewage treatment plant, by reference to the mean daily flow rate notified in Form 2 in respect of that discharge or deposit;

[Subsidiary]

- (b) the total quantity of a component of an exempt discharge or deposit—
- (i) in the case of industrial premises in which determinands are measured, by reference to the mean values for suspended solids, 5 day biochemical oxygen demand, chemical oxygen demand, oil and grease and heavy metals together with the quantities of raw materials notified in Form 1 in respect of that discharge or deposit;
 - (ii) in the case of industrial premises in which determinands are not measured, by reference to the quantities of raw materials notified in Form 1 in respect of that discharge or deposit;
 - (iii) in the case of a domestic sewage treatment plant, by reference to the mean values for 5 day biochemical oxygen demand and suspended solids notified in Form 2 in respect of that discharge or deposit;
- (c) the rate per hour, per day or per month at which an exempt discharge or deposit is made or any component thereof is discharged or deposited, as the total quantity of the discharge, deposit or component over that period (as calculated under paragraph (a) or (b)) divided by the number of hours, days or months, as the case may be, in that period;
- (d) the maximum temperature of an exempt discharge or deposit—
- (i) in the case of industrial premises in which the temperature of the discharge or deposit is measured, as the maximum temperature notified in Form 1 in respect of that discharge or deposit;
 - (ii) in the case of a domestic sewage treatment plant, as the maximum temperature notified in Form 2 in respect of that discharge or deposit.

(2) In this regulation, “process losses” means water lost in evaporation during an industrial process plus water lost in the production of a product at industrial premises as estimated by the notifier in Form 1.

Method of measuring increases in quantities and rates of exempt discharges and deposits

4. (1) For the purpose of ascertaining whether the quantity, rate or temperature of an exempt discharge or deposit or of any component thereof over any period subsequent to the First Appointed Day exceeds the quantity, rate or temperature calculated by the Authority under regulation 3 in relation to a corresponding period prior to the First Appointed Day, the Authority shall—

- (a) take samples of the discharge or deposit from an approved sampling point;
- (b) take at an approved sampling point any measurements of the discharge or deposit which can be so taken;
- (c) measure the total quantity and resulting flow rate of the discharge or deposit or of any component thereof over a period of not less than 1 hour;

[Subsidiary]

- (d) measure the maximum temperature of the discharge or deposit over a period of not less than 1 hour;
- (e) in the case of industrial premises in which determinands are not measured, calculate the total quantity of the discharge or deposit over that period as the total amount of water used in the premises from mains supply and other sources over that period less any water lost by process losses at the premises during the same period;
- (f) in the case of industrial premises, refer to such invoices, receipts, order books or other documents as may show the total consumption of raw materials at or total amount of water used in those premises over that period.

(2) In this regulation, “process losses” means water lost in evaporation during an industrial process plus water lost in the production of a product at industrial premises as calculated by the Authority by such means as he may determine.

Particulars to be included in statutory public notices

5. Subject to section 43 of the Ordinance, every statutory public notice shall contain the following particulars—

- (a) a heading to the effect that the notice is published under section 19(3) of the Ordinance and that the application of which it gives particulars has been received by the Authority;
- (b) the type of application under the Ordinance to which the notice relates, specifying whether it is for variation of an exemption, for the grant of a licence, for renewal of a licence, or for variation of a licence;
- (c) the type of discharge or deposit, specifying whether it is from industrial premises or from a domestic sewage treatment plant;
- (d) the name of the industrial premises or domestic sewage treatment plant to which the application relates;
- (e) in the case of a discharge or deposit from industrial premises, the ISIC category number and name of the industrial process giving rise to the discharge or deposit;
- (f) the frequency with which the discharge or deposit will occur, specifying whether it will be continuous or intermittent and if the latter, the period during which it will occur on a working day, indicating any seasonal or other variations;
- (g) the receiving waters, specifying either—
 - (i) in the case of discharge to or deposit in the waters of Hong Kong, the name of the water control zone and of the sub-zone, if any, within which the waters lie;
 - (ii) in the case of discharge to or deposit in a public drain or public sewer flowing into the waters of Hong Kong, the name of the water control zone and sub-zone, if any, within which those waters lie;

[Subsidiary]

- (h) the average daily and maximum hourly flow rates of the discharge or deposit as estimated in the application the subject of the notice or, where no such estimate is provided, the rate per day at which the discharge or deposit is made as calculated under regulation 3(1)(c);
- (i) the anticipated temperature of the discharge or deposit the subject of the application, if likely to be significantly different from the ambient temperature of the receiving waters;
- (j) a statement of any method proposed by the applicant for treating the discharge or deposit before it reaches the discharge point;
- (k) where the application is for variation of an exemption or of a licence, a brief statement of any new components to be added to the discharge or deposit;
- (l) a statement of the grounds on which and the manner in which objections may be made to the application the subject of the notice (including the fact that objections must be made in writing to the Authority and received within 30 days of last publication of the notice).

Notice may relate to more than one application

6. A statutory public notice may relate to more than one application under the Ordinance but must give the particulars prescribed in regulation 5(b) to (k) in respect of each application to which it relates.

Form of notice

7. Every statutory public notice shall be in the form set out in the First Schedule, or as near thereto as the circumstances permit.

Procedure for application for renewal of a licence

8. (1) An application for the renewal of a licence shall be made to the Authority in Form 6 or Form 11. (*L.N. 203/88*)

(2) Every application for renewal of a licence shall be made not earlier than 120 days and not later than 60 days before the date of expiry of the licence.

Status of licence pending decision on renewal

9. A licence which is the subject of an application for renewal made in accordance with regulation 8 shall continue in force until the Authority either grants or refuses the application and in the event of the Authority refusing the application shall continue in force until the expiry of the time for appealing under section 29(3) of the Ordinance. If an applicant for renewal appeals against a refusal by the Authority to grant such renewal, the licence shall continue in force until the determination of the appeal.

Late applications for renewal

10. (1) Notwithstanding regulation 8(2), if an application for renewal of a licence is received by the Authority less than 60 days before the date of expiry of the licence, the Authority shall nevertheless entertain the application, but the licence shall cease to be in force from the date of its expiry unless and until it is renewed by the Authority or by an Appeal Board.

(2) An application for renewal of a licence received by the Authority after the date of expiry of the licence shall not be entertained by the Authority.

Notice of objection to the grant of a licence

11. If a person wishes to object to the grant of a licence, the renewal of a licence, the variation of a licence or the variation of an exemption, application for which has been the subject of a statutory public notice, he shall give notice of such objection to the Authority in writing by registered post within the time specified in section 19(4) of the Ordinance.

Contents of notice of objection

12. (1) A notice of objection under regulation 11 shall include the full name and postal address of the person making the objection and shall be signed by that person or by some individual authorized to sign on behalf of that person.

(2) A notice of objection shall set out the reasons for the objection with sufficient particularity to enable the Authority to determine—

- (a) whether the granting of the application would tend to inhibit the attainment or maintenance of the relevant water quality objective; and
- (b) whether he should hold a hearing under section 41 of the Ordinance before deciding whether to grant the application.

Registration of notifications of existing discharges or deposits

13. (1) The register shall contain the following particulars of every existing discharge or deposit from industrial premises or from a domestic sewage treatment plant of which notice is given to the Authority under section 14 of the Ordinance—

- (a) the date on which the Authority received notification of the discharge or deposit;
- (b) the name of the notifier;
- (c) the location of the premises or plant;
- (d) the name of the industrial enterprise or of the manager of the plant, if different from the notifier;
- (e) the code number assigned by the Authority to the notification.

[Subsidiary]

(2) Subject to section 43 of the Ordinance, the register shall in respect of every existing discharge or deposit, contain a copy of Form 1, Form 2 or Form 8, as the case may be, as completed by the notifier and lodged with the Authority. (*L.N. 203/88*)

Registration of applications for licences

14. (1) The register shall contain the following particulars of every application to license a discharge or deposit from industrial premises or from a domestic sewage treatment plant which is made to the Authority under section 19 of the Ordinance—

- (a) the date of the application;
- (b) the name of the applicant;
- (c) the location of the premises or plant;
- (d) the name of the industrial enterprise or of the manager of the plant, if different from the applicant;
- (e) the result of the application and the date on which the licence was granted or refused;
- (f) the code number assigned by the Authority to the application.

(2) Subject to section 43 of the Ordinance, the register shall in respect of every application for a licence contain a copy of Form 4, Form 5 or Form 10, as the case may be, as completed by the applicant and lodged with the Authority. (*L.N. 203/88*)

Registration of applications for variation or renewal

15. (1) The register shall contain the following particulars of every application for variation of an exemption relating to industrial premises or to a domestic sewage treatment plant which is made to the Authority under section 18 of the Ordinance—

- (a) the date of the application;
- (b) the name of the applicant;
- (c) the location of the premises or plant;
- (d) the name of the industrial enterprise or of the manager of the plant, if different from the applicant;
- (e) the code number assigned by the Authority to the original notification;
- (f) the code number assigned by the Authority to any previous variation of the exemption;
- (g) the result of the application and the date on which the variation was allowed or refused;
- (h) the code number assigned by the Authority to the application.

[Subsidiary]

(2) The register shall contain the following particulars of every application for renewal or variation of a licence relating to industrial premises or to a domestic sewage treatment plant which is made to the Authority under section 23 or 28 of the Ordinance respectively—

- (a) the date of the application;
- (b) the name of the applicant;
- (c) the location of the premises or plant;
- (d) the name of the industrial enterprise or of the manager of the plant, if different from the applicant;
- (e) the code number assigned by the Authority to the original licence;
- (f) the code number assigned by the Authority to any previous variation or renewal of the licence;
- (g) the result of the application and the date on which the variation or renewal was granted or refused;
- (h) the code number assigned by the Authority to the application.

(3) Subject to section 43 of the Ordinance, the register shall in respect of every application for renewal or variation of a licence or variation of an exemption contain a copy of Form 3, Form 6, Form 7, Form 9, Form 11 or Form 12, as the case may be, as completed by the applicant and lodged with the Authority. (*L.N. 203/88*)

Mode of service of documents

16. (1) Unless the Ordinance expressly provides otherwise, a document authorized or required to be served under the Ordinance may be served—

- (a) by sending it by registered post to the last known address of the person to be served; or
- (b) where the person who is to be served with the document is an industrial enterprise occupying industrial premises or the owner or manager of a domestic sewage treatment plant, by affixing the document to some conspicuous part of the premises or plant, as the case may be.

(2) Where the person to be served is an individual a document may be served by delivering it to that individual or sending it by registered post to his last known place of residence.

(3) Where the person to be served is a company a document may be served by leaving it at or sending it by registered post addressed to the registered office of the company.

[Subsidiary]

Forms

17. (1) The forms in the Second Schedule are prescribed for the purposes of the Ordinance.

(2) A person who, in completing any form prescribed in the Second Schedule, makes a statement or gives an estimate which he knows to be incorrect in a material particular or recklessly makes a statement or gives an estimate which is incorrect in a material particular or knowingly omits a material particular, commits an offence and is liable to a fine of \$5,000.

Fees

18. There shall be paid to the Authority in relation to the matters mentioned in the second column of the Third Schedule, the fees specified in the third column of that Schedule.

*Form of Notice to be published by the Authority
under section 19(3)(b) of the
Water Pollution Control Ordinance*

WATER POLLUTION CONTROL ORDINANCE
(Chapter 358)

NOTICE UNDER SECTION 19(3)

Water Pollution Control Authority, Control Zone.

Notice is hereby given that the following application/s has/have been received by the Authority under the Water Pollution Control Ordinance—

Type of application—
Type of discharge or deposit—
Name of premises or plant—
ISIC category number and name—
Frequency of discharge or deposit—
Receiving waters—
Flow rate—
Temperature—
Method of treatment—
New components—

Copies of the above application/s may be inspected during office hours in the register, which is kept at the Pollution Control (Liquid and Solid Wastes) Division, 9th Floor, Yau Ma Tei Car Park Building, 250 Shanghai Street, Kowloon, Hong Kong. Objections to the grant of any application noted above should be lodged in writing at the same office, setting out the reason for objection, within 30 days of this notice. The only ground of objection specified in section 19(4) of the Water Pollution Control Ordinance is that the grant of an application would tend to inhibit the attainment or maintenance of the water quality objectives specified by the Secretary for Health and Welfare in respect of the Control Zone.

	SECTION B. DETAILS OF INDUSTRIAL PROCESS AND OF DISCHARGE OR DEPOSIT
	B1. Describe industrial process from which discharge or deposit arises. Attach flow chart or diagram if necessary.
	B2. State at how many points the discharge or deposit from the premises enters—
	(a) the waters of Hong Kong;
	(b) a public drain or public sewer.
	B3. In respect of each discharge point give particulars of the point at which the discharge or deposit enters the waters of Hong Kong or a public drain or public sewer.

[Subsidiary]

- B4. Describe every discharge point in terms of dimensions, material, presence or absence of diffuser, etc.
- B5. If the discharge or deposit commenced less than 12 months before the First Appointed Day state date on which it commenced
- B6. Describe any method of treatment applied to the discharge or deposit—
 - (a) before it leaves the premises;
 - (b) between leaving the premises and reaching a discharge point, and state the effluent standards which the treatment is designed to achieve.
- B7. If there is a plant on the premises for treating industrial waste from the premises, describe any standby facilities available in the event of breakdown of the plant.
- B8. Specify one or more points on the premises at which samples of any discharge or deposit from the premises may be taken by the Authority as being representative of the quality and quantity of the discharge or deposit.
- B9. Are flow rates of the discharge or deposit measured?
 - YES NO
 - If yes, state method of measurement
 -
- B10. Is the discharge or deposit continuous or intermittent?
 - Continuous Intermittent
 - If intermittent, state the period during which the discharge or deposit is made on a working day. If the period varies from day to day or seasonally, describe how.

SECTION C. DETERMINANDS, RAW MATERIALS AND COMPONENTS

- C1. Are determinands of the discharge or deposit measured?
 - YES NO
 - If yes, list determinands which are measured
 -
- C2. If the determinands of the discharge or deposit are measured after treatment, complete the following table with respect to determinands so measured over the 12 []* months immediately preceding the First Appointed Day (FAD)—

Determinand	Unit	Mean	Minimum	Maximum
Flow rate	m ³ /day			
5-day biochemical oxygen demand	mg/L			
Chemical oxygen demand	mg/L			

[Subsidiary]

Suspended solids	mg/L			
Oil and grease	mg/L			
Heavy metals (specify below)	mg/L			
Temperature	°C			
pH				

* Note: If discharge or deposit commenced less than 12 months before FAD, complete the above table for such period as the discharge or deposit existed before FAD and state the period.

Specify any heavy metals included above

.....

C3. List raw materials used in the industrial process carried on on the premises and their total quantities used in the 12 []* months before the First Appointed Day (FAD)—

Item No.	Material	Quantity used in 12 months before FAD

* Note: See note to Section C2.

[Subsidiary]

- C4. List all components of the discharge or deposit that may be volatile, inflammable or toxic. Estimate the concentration of each such component and state the source of data on which the estimates are based—

Component	Unit	Concentration in discharge or deposit		
		Mean	Minimum	Maximum

Source of data

SECTION D. WATER USAGE

- D1. Specify water account number(s) for the industrial premises

.....

- D2. (a) Give the dates and figures for all readings of the meter(s) installed in connection with the water account number(s) specified in Section D1 and taken by the Water Authority in the 12 months prior to the First Appointed Day (FAD) or in the period between commencement of the discharge or deposit and FAD, whichever is the shorter—

<i>Date</i>	<i>Reading</i>
.....
.....
.....
.....

- (b) State the total amount of water supplied by the Water Authority to the premises in the 12 months prior to FAD or in the period between commencement of the discharge or deposit and FAD, whichever is the shorter, in m³, litres or gallons (Note: One meter unit = 4.546m³; one m³ = 1 000 litres; one gallon = 4.546 litres).

[Subsidiary]

- D3. (a) State the total amount of non-mains water (i.e. other than that specified in Section D2) used at the premises in the 12 months prior to FAD or in the period between commencement of the discharge or deposit and FAD, whichever is the shorter, in m³, litres or gallons (see note to section D2(b)).
- (b) State the source of all non-mains water and the method used for measurement of its volume.
- D4. Of total water used at the premises, estimate the following (estimates should be averages over the 12 months prior to the First Appointed Day)—
 - (i) Amount lost in evaporation % of total water usage;
 - (ii) Amount lost in product % of total water usage.
 Total of (i) and (ii) above % of total water usage.

SECTION E. DECLARATION

- E1. I/We hereby certify that the particulars given above are, to the best of my/our knowledge and belief, correct.
- E2. *I/We intend to apply to the Secretary under section 43 of the Ordinance to withhold from public notification or other public access the information contained in a section or sections of this Form, namely—

SECTION F. LOCATION OF INDUSTRIAL PREMISES, OF DISCHARGE POINT AND OF PROPOSED SAMPLING POINT

- F1. Draw in the space provided, or on a separate sheet, a sketch plan, as nearly as possible to scale, showing the location of the industrial premises or of the building in which they are situated (if premises are part of a larger building). On the plan—
 - (a) show the relationship of the premises or building to the nearest major road intersection, and name the roads; or show the relationship of the premises or building to a readily identifiable landmark;
 - (b) show any public drain, public sewer, or waters of Hong Kong adjacent to the premises or building; and
 - (c) mark the location of every discharge point.
- F2. Draw in the space provided, or on a separate sheet, a second sketch plan, as nearly as possible to scale, showing the layout of the industrial premises. On the plan—
 - (a) show the location of any on-site treatment plant;
 - (b) mark the location of every proposed sampling point.

B 段. 工業操作程序和污水排出或廢料積聚過程細節

B1. 請描述導致產生排出物或積聚物的工業操作程序。如有需要,請夾附流程圖或說明圖。

[Subsidiary]

- B2. 來自該樓宇的排出物或積聚物在多少個排出點進入——
- (a) 香港水域；
- (b) 公眾排水渠或公眾污水渠。
- B3. 請說明排出物或積聚物進入香港水域或公眾排水渠或公眾污水渠所經的每一排出點詳情。
- B4. 請說明每一排出點的面積大小、物料、有無裝置擴散器等情況。
- B5. 如果廢料排出或積聚情況開始於「第一個指定日」前十二個月內，請說明該情況開始發生於 年 月 日。
- B6. 如果排出物或積聚物——
- (a) 在離開樓宇前；
- (b) 在離開樓宇後，但尚未到達排出點前，
- 曾經過處理，請詳述所採用的處理方法，並述明該項處理方法所預期達致的污水標準。
- B7. 如果樓宇內設有廠房從事處理該樓宇的工業廢料，而該廠房設有遇故障時可供應變的備用設施，則請對該等備用設施加以說明。
- B8. 請指出該樓宇一個或多個地點，供當局在該(等)地點抽取來自該樓宇而在質和量方面均具代表性的排出物或積聚物樣本。
- B9. 曾否量度排出物或積聚物的流量？
- 曾 未
- 如曾，請述明所採用的量度方法
-
- B10. 廢料排出或積聚過程屬於連續性抑或間歇性？
- 連續性 間歇性
- 如屬間歇性，請述明廢料在一個工作日內排出或積聚的時間。如果該段時間每日或每季都有所不同，請描述怎樣不同。
- C段. 欲測物性質、工業原料及成份
- C1. 曾否量度排出物或積聚物的欲測物性質？
- 曾 未
- 如曾，請將已量度過的欲測物性質在下面列明：
-
- C2. 如果排出物或積聚物經處理後才量度其欲測物性質，請填寫下表；在這表格所填內容是關於由「第一個指定日」開始倒算的十二「 」*個月期間所量度到的各欲測物性質——

[Subsidiary]

欲測物性質	單位	平均值	最低值	最高值
流量	立方米／每日			
生化需氧量 (五日)	毫克／每升			
化學需氧量	毫克／每升			
懸浮固體	毫克／每升			
油脂	毫克／每升			
重金屬 (請在下面述明)	毫克／每升			
溫度	攝氏度數			
氫離子指數				

* 附註：如果排出或積聚廢料情況開始於「第一個指定日」前不足十二個月期間內，請針對該「指定日」前已排出或積聚廢料的期間而填寫上表，並說明該期間有多長久。

請將上述重金屬項內所包括的各種重金屬詳細述明：.....

.....
.....
.....

C3. 請依照下表，列明在「第一個指定日」前十二() *個月期間，工業操作程序中所使用的原料及其總數量——

項目編號	物料名稱	「第一個指定日」前十二個月期間使用數量
(i)		
(ii)		
(iii)		
(iv)		
(v)		
(vi)		
(vii)		
(viii)		
(ix)		
(x)		

* 附註：請參照 C2 段的附註。

[Subsidiary]

- C4. 請依照下表，列明排出物或積聚物可能含有揮發性、易燃性或有毒的所有成份，同時，對每一成份的濃度作出估計，並請述明各項估計所依據的數據來源——

成份	單位	在排出物或積聚物中的濃度		
		平均值	最低值	最高值

數據來源

D段. 用水情況

- D1. 請列明該工業樓宇的水費帳號

- D2. (a) 請在下列空位內填寫所有有關日期和用水度數，亦即在「第一個指定日」前十二個月內，或在廢料開始排出或積聚之日起至「第一個指定日」止的一段期間內(以較短者為準)水務監督所抄錄上文第D1段所列水費帳號水錶所示用水度數和有關日期——

日期	用水度數
.....
.....
.....
.....

- (b) 請以「立方米」、「升」或「加侖」為單位，述明供水總量。這項供水總量，亦即在「第一個指定日」前十二個月期間，或在開始排出或積聚廢料之日起至「第一個指定日」止的期間(以較短者為準)水務監督供應給該樓宇的供水總量。(附註：1度 = 4 546 立方米；1 立方米 = 1 000 公升；1 加侖 = 4 546 升)

- D3. (a) 請以「立方米」、「升」或「加侖」為單位，述明非來自總喉(即上文第D2段所列明)的用水總量。這項用水總量，亦即該樓宇在「第一個指定日」前十二個月期間，或在開始排出或積聚廢料之日起至「第一個指定日」止的期間(以較短者為準)所耗用的這類用水總量。(請參照上文第D2(b)段附註)。

[Subsidiary]

(b) 述明所有非來自總喉的用水來源，並述明量度上述用水體積時所採用的方法。

D4. 請根據該樓宇的用水總量，推算出下列各項估計數字(所作估計，必須是「第一個指定日」前十二個月期間的平均數字)——

- (i) 因蒸發而損耗的水量，佔用水總量 % ;
 (ii) 產品所耗用的水量，佔用水總量 % 。
 上述第(i)及第(ii)項的總水量，佔用水總量 % 。

E 段. 聲明

E1. 我/本號茲證明：就我/本號所知，本申請書內所填報的詳情，均屬正確。

**SECTION B. DETAILS OF INDUSTRIAL PROCESS AND OF
PROPOSED DISCHARGE OR DEPOSIT**

- B1. Describe industrial process from which proposed discharge or deposit will arise. Attach flow chart or diagram if necessary.
- B2. State at how many discharge points the discharge or deposit from the premises will enter—
(a) the waters of Hong Kong; or
(b) a public drain or public sewer.
- B3. In respect of each proposed discharge point give particulars of the point at which the discharge or deposit enters the waters of Hong Kong or a public drain or public sewer.
- B4. Describe every proposed discharge point in terms of dimensions, material, presence or absence of diffuser, etc.
- B5. Describe any method of treatment to be applied to the discharge or deposit—
(a) before it leaves the premises;
(b) between leaving the premises and reaching a discharge point, and state the effluent standards which the treatment is designed to achieve.
- B6. If there is to be a plant on the premises for treating industrial waste from the premises, describe any standby facilities which will be available in the event of breakdown of the plant.
- B7. Specify one or more points on the proposed premises at which samples of any discharge or deposit from the premises may be taken by the Authority as being representative of the quality and quantity of the discharge or deposit.
- B8. Will flow rates of the discharge or deposit be measured?
 YES NO
If yes, state proposed method of measurement
- B9. Will the discharge or deposit be continuous or intermittent?
 Continuous Intermittent
If intermittent, state the period during which the discharge or deposit is made on a working day. If the period varies from day to day or seasonally, describe how.

**SECTION C. DETERMINANDS, RAW MATERIALS AND
COMPONENTS**

- C1. Will determinands of the discharge or deposit be measured?
 YES NO
If yes, list determinands which will be measured

[Subsidiary]

C2. Estimate the following determinands of the proposed discharge or deposit after treatment. State the source of data upon which the estimates are based.

Determinand	Unit	Mean	Minimum	Maximum
5-day biochemical oxygen demand	mg/L			
Chemical oxygen demand	mg/L			
Suspended solids	mg/L			
Oil and grease	mg/L			
Heavy metals (specify below)	mg/L			
Temperature	°C

(a) show the relationship of the premises or building to the nearest major road intersection, and name the roads; <i>or</i> show the relationship of the premises or building to a readily identifiable landmark;	
(b) show any public drain, public sewer or waters of Hong Kong adjacent to the premises or building; and	
(c) mark the location of every proposed discharge point.	
E2. Draw in the space provided, or on a separate sheet, a second sketch plan, as nearly as possible to scale, showing the layout of the proposed industrial premises. On the plan—	
(a) show the location of any proposed on-site treatment plant;	
(b) mark the location of every proposed sampling point.

政府機關專用欄	A 段. 一般資料
收件日期	A1. 申請人 (英文)詳細姓名(如有)
請申請人提供進一步資料	中文姓名
公佈週知	身份證號碼/商業登記號碼
認可抽樣點已獲批准	通訊地址
批准/拒絕日期	電話號碼
登記冊備案	A2. 其污水將會排出或將會在外間積聚廢料的工業樓宇
ISIC 編號	樓宇所在大廈名稱及地點
換牌日期	擬議樓宇名稱及所在(如果位於多層大廈中,請註明那一層樓)
費用收訖	樓宇所在大廈的受益業主姓名
密碼	該樓宇內工業操作程序的國際標準工業類別(ISIC)編號和名稱
WPCO/L/1/.....	擬議工業操作程序的產品
作出更改日期	污水排出或廢料積聚的擬議開始日期
更改密碼	A3. 擬在樓宇內進行工業操作程序的工業企業
備註	企業名稱
	企業的商業登記號碼及地址
	企業經理詳細姓名及職責身份
	身份證號碼
	通訊地址
	電話號碼
	B 段. 工業操作程序和擬議污水排出或廢料積聚過程細節
	B1. 請描述將會導致產生擬議排出物或積聚物的工業操作程序。如有需要,請夾附流程圖或說明圖。
	B2. 來自該樓宇的排出物或積聚物將會在多少個排出點進入——
	(a) 香港水域;或
	(b) 公眾排水渠或公眾污水渠。
	B3. 請說明排出物或積聚物進入香港水域或公眾排水渠或公眾污水渠所經的每一擬議排出點詳情。
	B4. 請說明每一擬議排出點的面積大小、物料、有無裝置擴散器等情況。

[Subsidiary]

- B5. 如果對排出物或積聚物——
(a) 在離開樓宇前；
(b) 在離開樓宇後但尚未到達排出點前，
將會加以處理，請詳述將採用的處理方法，並述明這項處理方法
所預期達致的污水標準。
- B6. 如果樓宇內設有廠房從事處理該樓宇所產生的工業廢料，而該廠
房設有遇故障時可供應變的備用設施，請對該等備用設施詳加說
明。
- B7. 請指出擬議樓宇一個或多個地點，供當局在該(等)地點抽取來自
該樓宇而在質和量方面均具代表性的排出物或積聚物樣本。
- B8. 將來會否量度排出物或積聚物的流量？
 會 否
如會，請述明擬採用的量度方法
- B9. 廢料排出或積聚過程將會屬於連續性抑或間歇性？
 連續性 間歇性
如屬間歇性，請述明廢料在一個工作日內排出或積聚的時間。如
果該段時間每日或每季都有所不同，請描述怎樣不同。

C段. 欲測物性質、工業原料和成份

- C1. 將來會否量度排出物或積聚物的欲測物性質？
 會 否
如會，請列明將來會加以量度的欲測物性質：
.....
.....
- C2. 請對擬議排出物或積聚物經處理後的下述各欲測物性質作出估計
，並述明各項估計所依據的數據來源——

欲測物性質	單位	平均值	最低值	最高值
生化需氧量 (五日)	毫克/每升			
化學需氧量	毫克/每升			
懸浮固體	毫克/每升			
油脂	毫克/每升			
重金屬 (請在下面述明)	毫克/每升			
溫度	攝氏度數			
氫離子指數				
顏色

SECTION B. DETAILS OF PROPOSED DISCHARGE OR DEPOSIT

- B1. State approximate proportions of domestic sewage and industrial waste to be treated at the domestic sewage treatment plant—
 Domestic sewage % of total flow (approx.)
 Industrial waste % of total flow (approx.)
- B2. State at how many points the proposed discharge or deposit from the plant will enter—
 (a) the waters of Hong Kong; or
 (b) a public drain or public sewer.
- B3. In respect of each proposed discharge point, give particulars of the point at which the discharge or deposit will enter the waters of Hong Kong or a public drain or public sewer.
- B4. Describe every proposed discharge point in terms of dimensions, material, presence or absence of a diffuser, etc.
- B5. Describe in detail, with a flow chart, the proposed method of treatment of domestic sewage and industrial waste at the proposed plant and state the effluent standard for which it is designed.
- B6. Describe any stand-by facilities to be available in the event of breakdown of treatment equipment at the plant.
- B7. Will flow rates of the discharge or deposit be measured?
 YES NO
 If yes, state proposed method of measurement
- B8. Will the discharge or deposit be continuous or intermittent?
 Continuous Intermittent
 If intermittent, state the period during which the discharge or deposit is made on a working day. If the period varies from day to day or seasonally, describe how.
- B9. Estimate the following determinands of the proposed discharge or deposit after treatment. State the source of data upon which the estimates are based.

Determinand	Unit	Mean	Minimum	Maximum
Flow rate	m ³ /day			
5-day biochemical oxygen demand	mg/L			
Suspended solids	mg/L			
Temperature	°C
