SEA FISHERIES (LOG BOOKS AND LANDING DECLARATIONS) (JERSEY) REGULATIONS 2001

THE STATES, in pursuance of Articles 2 and 29 of the Sea Fisheries (Jersey) Law 1994¹, having consulted with the Secretary of State and obtained his concurrence, have made the following Regulations –

Commencement [[see endnotes](#)]

1 Interpretation

In these Regulations unless the context otherwise requires –

“British fishing boat” means a fishing boat which is registered in any part of the British Islands;

“Community fishing boat” means a fishing boat which is registered in a member State of the European Communities (other than the United Kingdom);

“Department” means the Agriculture and Fisheries Department;

“overall length” in respect of a fishing boat, has the meaning assigned by Regulation 1 of the Sea Fisheries (Licensing of Fishing Boats) (Jersey) Regulations 1996;²

“weight” in relation to a catch of sea fish, means the weight of those fish when caught.

2 Application

Save as is specifically provided otherwise, these Regulations apply to any fishing boat for the time being within the territorial sea adjacent to Jersey.

3 Requirement to keep a log book

- (1) The master of a British fishing boat or a Community fishing boat with an overall length of 10 metres or more shall keep a logbook of the operations of that boat and shall enter into the logbook –
 - (a) the quantities of each species of sea fish caught and retained on board the boat which exceed 50kg in weight;
 - (b) when and where the fish were caught; and
 - (c) the type of fishing gear used to make the catches.
- (2) The information required by paragraph (1) shall be recorded in written form or by means of computer records.

4 Landing of catches by non-British fishing boats

The master of a fishing boat other than a British fishing boat wishing to land any sea fish in Jersey shall give the Department at least 4 hours notice of where in Jersey the master wishes to land the fish, the master's estimated time of arrival and the quantity of each species that the master proposes to land.

5 Landing declarations

The master of a fishing boat with an overall length of 10 metres or more, or the master's representative, shall, within 48 hours of landing any sea fish in Jersey, submit a declaration to the Department indicating –

- (a) the quantities landed of each species; and
- (b) when and where the fish were caught.

6 Nets

- (1) Where a British fishing boat or a Community fishing boat retains on board a catch of sea fish that has been taken with nets of different minimum mesh sizes during the same voyage, the master of that boat shall, in any logbook or declaration required to be kept or submitted in accordance with these Regulations, as the case may be, enter –
 - (a) every change to a net of a different mesh size;
 - (b) the quantities of each species of sea fish caught and retained on board using each such net.
- (2) Where a fishing boat has nets on board that are not being used, the master of that boat shall ensure that –
 - (a) those nets along with their weights and similar fishing gear are disconnected from their trawl boards and towing and hauling wires and ropes; and
 - (b) any such nets that are on or above deck are securely lashed to some part of the superstructure of the boat.

7 Citation

These Regulations may be cited as the Sea Fisheries (Log Books and Landing Declarations) (Jersey) Regulations 2001.
