

**SOLID WASTE AND PUBLIC CLEANSING MANAGEMENT (SCHEME FOR  
HOUSEHOLD SOLID WASTE AND SOLID WASTE SIMILAR TO HOUSEHOLD SOLID  
WASTE) REGULATIONS 2011**

**PU(A) 307/2011**

IN exercise of the powers conferred by section 108 of the **Solid Waste and Public Cleansing Management Act 2007**[Act 672], the Minister makes the following regulations:

**PART I**

**PRELIMINARY**

**1. Citation, commencement and application**

(1) These regulations may be cited as the **Solid Waste and Public Cleansing Management (Scheme for Household Solid Waste and Solid Waste Similar to Household Solid Waste) Regulations 2011**.

(2) These Regulations come into operation on 1 September 2011.

(3) These Regulations shall apply to collection services for household solid waste and solid waste similar to household solid waste in a service area or scheme area.

**2. Interpretation**

In these Regulations, unless the context otherwise requires-

"management body of the common property", in relation to the common property of any building erected on land comprised in a strata subdivision plan approved by the competent authority, includes-

- (a) the management corporation or any person having control of the building;
- (b) any agent or servant appointed by the management corporation or any person having control of the building;
- (c) any person, body or administrator appointed pursuant to the **Strata Titles Act 1985**[Act 318] to exercise the power of, or for, that management corporation; or
- (d) any person or body appointed pursuant to the **Building and Common Property (Maintenance and Management) Act 2007**[Act 663];

"residue" means materials remaining after the treatment of household solid waste and solid waste similar to household solid waste at any prescribed solid waste management facility;

"receptacle" means an individual waste receptacle or communal waste receptacle provided for residual waste;

"scheduled waste" has the meaning assigned to it in section 2 of the **Environmental Quality Act 1974**[Act 127];

"collection schedule" means a schedule for collection services consisting of particulars including the days and time of collection of household solid waste and solid waste similar to household solid waste for any service area;

"service area" means an area within the scheme area where collection services are provided;

"scheme area" means the geographical area for a scheme within which service areas are located, and as listed in Part A of the First Schedule and shown on the map in Part B of that schedule;

"treatment and disposal facilities" has the meaning assigned to it in the **Solid Waste and Public Cleansing Management (Prescribed Solid Waste Management Facilities and Approval for the Construction, Alteration and Closure of Facilities) Regulations 2011**[P.U. (A) 302/2011];

"prescribed solid waste management facilities" has the meaning assigned to it in the **Solid Waste and Public Cleansing Management (Prescribed Solid Waste Management Facilities and Approval for the Construction, Alteration and Closure of Facilities) Regulations 2011**;

"licensee for treatment and disposal facilities" means any person holding a licence under the **Solid Waste and Public Cleansing Management (Licensing) (Management or Operation of Prescribed Solid Waste Management Facilities) Regulations 2011**[P.U. (A) 304/2011] to manage or operate treatment and disposal facilities;

"licensee for collection services" means any person holding a licence under the **Solid Waste and Public Cleansing Management (Licensing) (Undertaking or Provision of Collection Services for Household Solid Waste, Public Solid Waste, Public Institutional Solid Waste and Solid Waste Similar to Household Solid Waste) Regulations 2011**[P.U. (A) 303/2011] to undertake or provide collection services of household solid waste and solid waste similar to household solid waste for a scheme area or service area, and includes a responsible licensee;

"licensee for transportation services by long haulage" means any person holding a licence under the **Solid Waste and Public Cleansing Management (Licensing) (Undertaking or Provision of Transportation Services by Long Haulage) Regulations 2011**[P.U. (A) 305/2011];

"licensee for transfer station" means any person holding a licence under the **Solid Waste and Public Cleansing Management (Licensing) (Management or Operation of Prescribed Solid Waste Management Facilities) Regulations 2011** to manage or operate a transfer station;

"responsible licensee" means a licensee for collection services who has been awarded a contract or concession by the Government to undertake or provide collection services of household solid waste and solid waste similar to household solid waste for a scheme area or service area;

"kerbside collection" means the door-to-door collection from landed premises or buildings on land subdivided into land parcels in accordance with the collection schedule;

"collection services" means the services where household solid waste and solid waste similar to household solid waste is collected from collection points and delivered to a prescribed solid waste management facility, and includes kerbside collection;

"landed premises" includes terrace houses, semi-detached houses, cluster houses, bungalows, shop houses and kampong houses, but does not include buildings subdivided into parcels and buildings on land subdivided into land parcels;

"residual waste" means the household solid waste and solid waste similar to household solid waste which are not reused, recycled or composted and can be placed in a receptacle;

"solid waste similar to household solid waste" means-

(a) any part of commercial solid waste which is generated within any service area; or

(b) any part of institutional solid waste which is generated within any service area, and which is similar in nature and amount to household solid waste;

"bulky waste" means oversized household solid waste and solid waste similar to household solid waste which cannot be placed in a receptacle, and includes appliances, furniture, tree trunks, branches and stumps;

"garden waste" means plants, leaves, creepers, grass or roots with attached soil and any other similar waste from the garden or compound of any premises;

"recyclable waste" means any household solid waste and solid waste similar to household solid waste which are separated for recycling, and includes paper, cardboard, glass, plastic, metal and food waste;

"scheme" means the system for solid waste management services which specifies the duties and obligations of licensees and solid waste generators, the geographical area of the scheme, the types of household solid waste and solid waste similar to household solid waste generated within the scheme area, and the solid waste management services to be provided;

"transfer station" has the meaning assigned to it in the **Solid Waste and Public Cleansing Management (Prescribed Solid Waste Management Facilities and Approval for the Construction, Alteration and Closure of Facilities) Regulations 2011**;

"disposal site" has the meaning assigned to it in the **Solid Waste and Public Cleansing Management (Prescribed Solid Waste Management Facilities and Approval for the Construction, Alteration and Closure of Facilities) Regulations 2011**;

"collection point" means-

(a) a position at any premises, whether located inside or outside the premises; or

(b) a communal position for a number of premises,

as may be determined by the Corporation for household solid waste and solid waste similar to household solid waste to be stored before collection, whether in receptacles or not, and such position has direct and unhindered access for collection by waste collection vehicles and is located so as not to cause obstruction or nuisance to any person.

## **PART II**

### **CONNECTION TO COLLECTION SERVICES**

### **3. Types of household solid waste and solid waste similar to household solid waste**

The types of household solid waste and solid waste similar to household solid waste are as follows:

- (a) residual waste;
- (b) recyclable waste;
- (c) bulky waste; and
- (d) garden waste.

### **4. Connection to collection services**

(1) For the purpose of being connected to the collection services, the following persons shall apply to register the premises within a service area with the Corporation:

- (a) the owner or occupier of landed premises;
- (b) where the building on land subdivided into land parcels is served with kerbside collection, with or without an individual waste receptacle, the owner or occupier of such building; or (c) the management body of the common property.

(2) The application under subregulation (1) shall be made-

- (a) where the premises is not occupied, not less than fourteen days prior to the occupation; or
- (b) where the premises is occupied before the coming into operation of these Regulations but has not yet been provided with collection services under any written law relating to the management of solid waste and public cleansing, within fourteen days from the date of coming into operation of these Regulations.

(3) Upon receiving an application under subregulation (1), the Corporation shall register the premises.

(4) Where any premises located within a service area or scheme area has been occupied and has been provided with collection services under any written law relating to the management of solid waste and public cleansing before the coming into operation of these Regulations, the Corporation shall be deemed to have registered the premises under subregulation (3).

(5) Subject to subregulation 10(2), upon the premises being registered-

- (a) under subregulation (3), the licensee for collection services shall provide the collection services to the premises within fourteen days from the date of registration; or
- (b) under subregulation (4), the licensee for collection services shall provide the collection services to the premises within fourteen days from the date of coming into operation of these Regulations.

### **5. Cessation of occupation of premises**

(1) If the premises ceases to be occupied permanently, or temporarily for a period of more than three months, and being premises to which collection services are provided-

- (a) the owner or occupier of landed premises;

(b) the owner or occupier of a building on land subdivided into land parcels which is served with kerbside collection, with or without an individual waste receptacle; or

(c) the management body of the common property, shall notify the Corporation of the cessation of occupation of the premises not less than seven days prior to the cessation of the occupation.

(2) Upon receiving the notification under subregulation (1), the Corporation may cancel the registration of the premises and withdraw the provision of collection services by the licensee for collection services.

(3) In the event that the premises to which collection services have been withdrawn under subregulation (2) is reoccupied, paragraph 4(2)(a) shall be applicable.

## **6. Collection schedule**

(1) The Corporation shall determine the collection schedule for household solid waste and solid waste similar to household solid waste for a service area.

(2) The responsible licensee shall comply with the collection schedule as determined by the Corporation under subregulation (1).

(3) A responsible licensee who contravenes subregulation (2) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

## **7. Collection point**

(1) No person shall obstruct or cause to be obstructed access by a waste collection vehicle to a collection point.

(2) A person who contravenes subregulation (1) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

## **PART III**

### **DUTIES OF OWNER OR OCCUPIER OF LANDED PREMISES**

#### **8. Disposal of residual waste where individual waste receptacle is provided**

(1) Where the licensee for collection services provides kerbside collection with individual waste receptacles to landed premises in a service area, the owner or occupier of such landed premises shall-

(a) place the residual waste in securely fastened bags or containers before placing the residual waste in the individual waste receptacle;

(b) safely wrap the residual waste which has sharp or cutting edges before placing it in the individual waste receptacle;

(c) close the individual waste receptacle at all times;

(d) keep the individual waste receptacle in a clean condition;

(e) where the collection point is located inside the landed premises and the individual waste receptacle is stored elsewhere within the landed premises, place the individual waste receptacle at the collection point before the time of collection as specified in the collection schedule;

(f) where the collection point is located outside the landed premises, place the individual waste receptacle at the collection point only on the day and time of collection as specified in the collection schedule, except where the Corporation requires the individual waste receptacle to remain at the collection point; and

(g) subject to regulation 27, where the amount of residual waste exceeds the individual waste receptacle capacity, place the residual waste in securely fastened bags or containers beside the individual waste receptacle for collection.

(2) An owner or occupier of landed premises who contravenes subregulation (1) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

### **9. Disposal of residual waste where individual waste receptacle is not provided**

(1) Where the licensee for collection services provides kerbside collection without individual waste receptacles to landed premises in a service area, the owner or occupier of the landed premises shall place the residual waste in securely fastened bags or containers and shall-

(a) where the collection point is located inside the landed premises, place such bags or containers at the collection point before the time of collection as specified in the collection schedule; or

(b) where the collection point is located outside the landed premises, place such bags or containers at the collection point only on the day and time of collection as specified in the collection schedule.

(2) An owner or occupier of landed premises who contravenes subregulation (1) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

### **10. Disposal of residual waste where kerbside collection is not provided**

(1) Where the licensee for collection services does not provide kerbside collection for landed premises in a service area or scheme area, the owner or occupier of such landed premises shall place the residual waste in a communal waste receptacle provided by the responsible licensee, or at a disposal site provided by the licensee for treatment and disposal facilities.

(2) Where the communal waste receptacle or disposal site is not provided in pursuance of subregulation (1), the owner or occupier of landed premises shall dig a pit of sufficient size for the disposal of his residual waste, and shall not accept residual waste from other premises to be disposed of in the pit, except as otherwise approved by the Corporation.

(3) The owner or occupier of landed premises who digs a pit under subregulation (2) shall bury the residual waste in the pit when the pit is full.

(4) An owner or occupier of landed premises who contravenes subregulation (1) or (2) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

### **11. Damage to individual waste receptacle**

(1) The owner or occupier of landed premises which is served with kerbside collection with an individual waste receptacle under subregulation 8(1) shall take all reasonable measures to ensure that the individual waste receptacle provided by the responsible licensee is not damaged.

(2) Where the owner or occupier of landed premises fails to take reasonable measures under subregulation (1) and damage is caused to the individual waste receptacle, the owner or occupier shall be responsible for any repair or replacement of the individual waste receptacle, unless the contrary is proved.

(3) An owner or occupier of landed premises who contravenes subregulation (1) or (2) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

## **12. Replacement or repair of waste chamber or waste storage area**

(1) The Corporation may direct, as it thinks fit, the owner or occupier of landed premises to replace or repair any defect in the waste chamber or waste storage area, or access to such chamber or storage area, as appropriate.

(2) An owner or occupier of landed premises who fails to comply with the direction given by the Corporation in subregulation (1) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

## **13. Improper use of individual waste receptacle**

(1) No person shall-

(a) place any scheduled waste in an individual waste receptacle or in any securely fastened bags or containers containing residual waste;

(b) use any individual waste receptacle for purposes other than its intended purpose; and

(c) subject to paragraph 8(1)(f), remove at any time the individual waste receptacle from the landed premises.

(2) A person who contravenes subregulation (1) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

## **14. Recyclable waste**

(1) Where a recycling centre is available in a service area or scheme area, recyclable waste may be sorted by the owner or occupier of landed premises and brought to the recycling centre for the service area or scheme area.

(2) Where a collection schedule for recyclable waste is provided, the owner or occupier of landed premises shall keep the recyclable waste separated from other types of household solid waste and solid waste similar to household solid waste and-

(a) where the collection point is located inside the landed premises, bundle and tie the recyclable waste, or put the recyclable waste in bags or containers, and place the recyclable waste at the collection point before the time of collection as specified in the collection schedule; or

(b) where the collection point is located outside the landed premises, bundle and tie the recyclable waste, or put the recyclable waste in bags or containers, and place the recyclable waste at the collection point only on the day and time of collection as specified in the collection schedule.

#### **15. Bulky waste**

(1) The owner or occupier of landed premises shall-

(a) where the collection point is located inside the landed premises, place the bulky waste at the collection point before the time of collection as specified in the collection schedule; or

(b) where the collection point is located outside the landed premises, place the bulky waste at the collection point only on the day and time of collection as specified in the collection schedule.

(2) An owner or occupier of landed premises who contravenes subregulation (1) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

#### **16. Garden waste**

(1) The owner or occupier of landed premises shall-

(a) where the collection point is located inside the landed premises, bundle and tie the garden waste, or put the garden waste in bags or containers, and place the garden waste at the collection point before the time of collection as specified in the collection schedule; or

(b) where the collection point is located outside the landed premises, bundle and tie the garden waste, or put the garden waste in bags or containers, and place the garden waste at the collection point only on the day and time of collection as specified in the collection schedule.

(2) An owner or occupier of landed premises who contravenes subregulation (1) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

#### **17. Disposal on premises**

(1) Subject to subregulations 10(2) and (3), the owner or occupier of landed premises shall not dig a pit and bury any household solid waste and solid waste similar to household solid waste in or on the landed premises.

(2) An owner or occupier of landed premises who contravenes subregulation (1) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

#### **18. Request for collection services outside collection schedule**

(1) An owner or occupier of landed premises may request from the responsible licensee for the collection of residual waste, bulky waste, garden waste or recyclable waste outside the collection schedule.

(2) Where the residual waste, bulky waste, garden waste or recyclable waste has been collected outside the collection schedule, the responsible licensee may issue an invoice to the owner or occupier of landed premises regarding the charge for collection services outside the collection schedule as specified in the Second Schedule.

(3) Upon receipt of the invoice under subregulation (2), the owner or occupier of landed premises shall pay the charge to the responsible licensee by cash or in any other form as may be determined by the Corporation within fourteen days from the date of receipt of the invoice.

(4) Upon receipt of payment of the charge under subregulation (3), the responsible licensee shall issue a receipt to the owner or occupier of landed premises.

(5) All charges due and payable to the responsible licensee shall be a debt due to the responsible licensee, and in the event that any charge due remains unpaid, the responsible licensee may, after giving one month's notice, institute proceedings against the owner or occupier of landed premises in any court of competent jurisdiction for the recovery of the same.

#### **19. Request to upgrade the capacity of individual waste receptacles**

(1) An owner or occupier of landed premises which is served with an individual waste receptacle may request the Corporation to upgrade the individual waste receptacle capacity.

(2) Where the individual waste receptacle capacity has been upgraded, the responsible licensee shall issue an invoice to the owner or occupier of landed premises regarding the charge for such upgrading of receptacle capacity as specified in the Second Schedule.

(3) Upon receipt of the invoice under subregulation (2), the owner or occupier of landed premises shall pay the charge to the responsible licensee by cash or in any other form as may be determined by the Corporation within fourteen days from the date of receipt of the invoice.

(4) Upon receipt of payment of the charge under subregulation (3), the responsible licensee shall issue a receipt to the owner or occupier of the landed premises.

### **PART IV**

#### **DUTIES OF MANAGEMENT BODY OF THE COMMON PROPERTY**

##### **20. Duties of management body of the common property for land subdivided into land parcels**

(1) The management body of the common property for land subdivided into land parcels shall determine whether the buildings on such land shall be served with kerbside collection, with or without individual waste receptacles, at each land parcel or communal waste receptacles.

(2) Where the buildings on land subdivided into land parcels under subregulation (1) are served with kerbside collection, with or without individual waste receptacles, Part III shall apply with modifications, and in particular references to "landed premises" shall be taken as references to "building on land subdivided into land parcels".

(3) Where the buildings on land subdivided into land parcels are served with communal waste receptacles, regulation 21 shall apply.

##### **21. Duties of management body of the common property**

(1) The management body of the common property shall provide one or more collection points of sufficient size, within or outside the building, in accordance with the collection schedule, for all

household solid waste and solid waste similar to household solid waste, including an area for the collection of residual waste, bulky waste, garden waste and recyclable waste.

(2) The management body of the common property shall maintain at all times the collection points and any waste disposal equipment including waste chute, waste hopper and waste chambers.

(3) The Corporation may direct, as it thinks fit, the management body of the common property in respect of-

(a) the provision and maintenance of the collection points; and

(b) the replacement or repair of any defect at the collection points and any waste disposal equipment including waste chute, waste hopper and waste chambers.

(4) A management body of the common property who fails to comply with the direction given under subregulation (3) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

(5) The management body of the common property shall ensure that the owner or occupier of each parcel of building or a building on land subdivided into land parcels delivers the household solid waste and solid waste similar to household solid waste to the respective area of the collection point for residual waste, bulky waste, garden waste and recyclable waste.

(6) The management body of the common property shall ensure that the owner or occupier of each parcel of building or building on land subdivided into land parcels-

(a) places the residual waste in securely fastened bags or containers before being placed in the communal waste receptacle; and

(b) safely wraps the residual waste which has sharp or cutting edges before being placed in the communal waste receptacle.

(7) If the amount of residual waste generated exceeds the communal waste receptacle capacity, the management body of the common property shall inform the Corporation who shall direct the responsible licensee to provide for sufficient communal waste receptacle capacity.

(8) A management body of the common property who contravenes subregulation (1), (2), (5) or (6) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

## **22. Damage to communal waste receptacle**

(1) The management body of the common property shall take all reasonable measures to ensure that the communal waste receptacle provided by the responsible licensee is not damaged.

(2) Where the management body of the common property fails to take reasonable measures under subregulation (1) and damage is caused to the communal waste receptacle, the management body of the common property shall be responsible for any repair or replacement of the communal waste receptacle, unless the contrary is proved.

(3) A management body of the common property who contravenes subregulation (1) or (2) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

## **23. Improper use of communal waste receptacle**

(1) No person shall-

(a) place any scheduled waste in a communal waste receptacle or in any securely fastened bags or containers containing residual waste; or

(b) use any communal waste receptacle for purposes other than its intended purpose.

(2) A person who contravenes subregulation (1) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

## **PART V**

### **DUTIES OF LICENSEE FOR COLLECTION SERVICES**

#### **24. Duties of licensee for collection services**

(1) Subject to subregulation 6(2), the licensee for collection services shall-

(a) collect the household solid waste and solid waste similar to household solid waste from the collection points;

(b) carry out the collection services in such manner as to minimize noise, nuisance and disturbance to any person; and

(c) where receptacles are provided, ensure that the receptacle lids are closed after collection and the receptacles are returned to the collection point.

(2) A licensee for collection services who contravenes subregulation (1) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

#### **25. Duties of responsible licensee**

The responsible licensee shall-

(a) provide receptacles to premises as determined by the Corporation;

(b) repair or replace receptacles for any premises where the receptacles are damaged by normal use, wear and tear, or as a result of emptying or movement for collection;

(c) label each receptacle for identification purposes in accordance with the directions of the Corporation;

(d) inform in writing the owner or occupier of landed premises or management body of the common property about the collection schedule; and

(e) prepare and submit to the Corporation such additional information on the collection and delivery of household solid waste and solid waste similar to household solid waste as may be determined by the Corporation.

#### **26. Delivery to prescribed solid waste management facilities**

(1) The licensee for collection services shall deliver residual waste to the prescribed solid waste management facilities as specified in the Third Schedule.

(2) The licensee for collection services shall deliver bulky waste, garden waste and recyclable waste to the prescribed solid waste management facilities that receives such waste in the relevant scheme areas.

**27. Overfilling of household solid waste and solid waste similar to household solid waste, etc.**

(1) Where the landed premises or building on land subdivided into land parcels is provided with an individual waste receptacle and the individual waste receptacle is overfilled with household solid waste and solid waste similar to household solid waste or such waste is deposited, fully or partly, beside the individual waste receptacle, the licensee for collection services shall collect the household solid waste and solid waste similar to household solid waste and issue a notice to-

(a) the owner or occupier of landed premises; or

(b) the owner or occupier of the building on land subdivided into land parcels,

regarding the charge for overfilling the individual waste receptacle with the household solid waste and solid waste similar to household solid waste or depositing such waste, fully or partly, beside the individual waste receptacle.

(2) Upon recurrence of overfilling the individual waste receptacle with household solid waste and solid waste similar to household solid waste or depositing such waste, fully or partly, beside the individual waste receptacle under subregulation (1), the Corporation may allow the responsible licensee to issue an invoice for such overfilling or depositing.

(3) Upon receipt of the invoice under subregulation (2)-

(a) the owner or occupier of landed premises; or

(b) the owner or occupier of the building on land subdivided into land parcels,

shall pay to the responsible licensee the charges as specified in the Second Schedule for overfilling the individual waste receptacle with household solid waste and solid waste similar to household solid waste or depositing such waste, fully or partly, beside the individual waste receptacle.

(4) The payment of the charges under subregulation (3) shall be made by cash or in any other form as may be accepted by the responsible licensee within fourteen days from the date of receipt of the invoice.

(5) Upon receipt of payment of the charges under subregulation (3), the responsible licensee shall issue a receipt to-

(a) the owner or occupier of landed premises; or

(b) the owner or occupier of the building on land subdivided into land parcels.

**28. Spillage of household solid waste and solid waste similar to household solid waste, leachate, etc.**

(1) In providing the collection services, the licensee for collection services shall ensure that no spillage of household solid waste and solid waste similar to household solid waste or leachate takes place in the area surrounding the receptacle or waste collection vehicle.

(2) Where any spillage of household solid waste and solid waste similar to household solid waste or leachate under subregulation (1) occurs, the licensee for collection services shall clean the area of the spillage of waste or leachate immediately.

(3) During compression of household solid waste and solid waste similar to household solid waste in a waste collection vehicle used for collection services and its transportation, the licensee for collection services shall ensure that there is no spillage of household solid waste and solid waste similar to household solid waste or leachate from the waste collection vehicle.

(4) Where any spillage of household solid waste and solid waste similar to household solid waste or leachate occurs during the compression or transportation under subregulation (3), the licensee for collection services shall clean the area of spillage of waste or leachate immediately.

(5) A licensee for collection services who contravenes subregulation (1), (2), (3) or (4) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

## **PART VI**

### **DUTIES OF LICENSEE FOR TRANSFER STATION**

#### **29. Duties of licensee for transfer station**

(1) The licensee for transfer station shall ensure that the transfer station operates within the capacity specified and approved by the Director General.

(2) The licensee for transfer station shall only receive household solid waste and solid waste similar to household solid waste from licensees for collection services for the service areas or scheme areas that is served by the transfer station.

(3) The licensee for transfer station shall not refuse any household solid waste and solid waste similar to household solid waste delivered to it in pursuance of subregulation (2).

(4) A licensee for transfer station who contravenes subregulation (2) or (3) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

## **PART VII**

### **DUTIES OF LICENSEE FOR TRANSPORTATION SERVICES BY LONG HAULAGE**

#### **30. Duties of licensee for transportation services by long haulage**

(1) Unless approved otherwise by the Corporation, the licensee for transportation services by long haulage shall transport the household solid waste and solid waste similar to household solid waste along the approved route from a transfer station to any of the treatment and disposal facilities as specified in the licence.

(2) The licensee for transportation services by long haulage shall ensure that there is no spillage of household solid waste and solid waste similar to household solid waste or leachate during the transportation.

(3) Where any spillage of household solid waste and solid waste similar to household solid waste or leachate occurs, the licensee for transportation services by long haulage shall clean the area of the spillage of waste or leachate immediately.

(4) A licensee for transportation services by long haulage who contravenes subregulation (2) or (3) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

## **PART VIII**

### **DUTIES OF LICENSEE FOR TREATMENT AND DISPOSAL FACILITIES**

#### **31. Duties of licensee for treatment and disposal facilities**

(1) Subject to subregulation 10(1), the licensee for treatment and disposal facilities shall only receive household solid waste and solid waste similar to household solid waste-

(a) transported by a licensee for transportation services by long haulage; or

(b) delivered by a licensee for collection services, from the service areas or scheme areas that is served by the treatment and disposal facilities.

(2) The licensee for treatment and disposal facilities shall not refuse any household solid waste and solid waste similar to household solid waste transported or delivered to it in pursuance of subregulation (1).

(3) The licensee for treatment and disposal facilities shall dispose residues that are not recycled in accordance with the conditions as may be determined by the Director General.

(4) A licensee for treatment and disposal facilities who contravenes subregulation (1), (2) or (3) commits an offence and shall, on conviction, be liable to a fine not exceeding one thousand ringgit.

## **PART IX**

### **GENERAL**

#### **32. Complaints**

(1) A responsible licensee, licensee for transfer station, licensee for transportation services by long haulage and licensee for treatment and disposal facilities shall each establish and operate a customer call centre in respect of the services provided by that licensee, and the customer call centre shall be operated at such times as determined by the Corporation.

(2) Any complaints relating to the services provided shall be referred to the customer call centre of the licensee concerned.

(3) The responsible licensee, licensee for transfer station, licensee for transportation services by long haulage and licensee for treatment and disposal facilities shall respond and take appropriate measures in respect of any complaint received within the time as may be determined by the Corporation.

(4) In the absence of any satisfactory resolution of the complaint by the responsible licensee, licensee for transfer station, licensee for transportation services by long haulage and licensee for treatment and disposal facilities, the complainant may lodge the relevant complaint to the Corporation who may give directions to the licensee concerned on the necessary measures to rectify the matter.
