(b) which is shown to have resulted from any of the events described in section 15.

(4) The licensee shall be liable for any damage to any person or property for any cessation or reduction of the supply of gas which is shown to have resulted from negligence on the part of persons employed by the licensee, his agents or servants, as the case may be, or from his faulty construction of the pipeline or installation.

(5) Without prejudice to subsection (4) the licensee shall rectify any damage to ensure continuation of the supply of gas within a reasonable period of time and to repair any damage from the outlet of the meter to the internal piping within the consumer's premises if it is shown to have resulted from the negligent act of the licensee, his agents or servants, as the case may be.

### **Disconnection of supply of gas**
