

ATOMIC ENERGY LICENSING (EXEMPTION) (IRRADIATING APPARATUS BELOW 5 KILO ELEKTRON VOLT) ORDER 2002
PU(A) 181/2002

1. Citation.

This order may be cited as the **Atomic Energy Licensing (Exemption) (Irradiating Apparatus Below 5 Kilo Elektron Volt) Order 2002.**

2. Interpretation.

In this Order, unless the context otherwise requires, "irradiating apparatus below 5 kilo elektron volt (keV)" means an irradiating apparatus which is capable of producing ionizing radiation that emits the maximum energy of 5 keV.

3. Exemption.

Every person who has in his possession any of the irradiating apparatus below 5 keV is exempted from the provisions of the Act subject to the following conditions:

- (a) that the apparatus acquired the maximum energy which is capable of emitting or producing radiation not exceeding 5 keV;
- (b) that the apparatus is purchased from a seller who is licensed by the Board; and
- (c) that the person ensures that the apparatus can no longer function before he disposes of it.

Made 27 March 2002.
