Provided that the time period may be extended once for a limited time when justified by the complexity of the issue. The extension and its duration shall be duly justified and given to the applicant before the original period has expired:

Provided that the Regulator may impose requirements with regard to the provision of a particular service activity, where these are justified for reasons relating to public policy, public security, public health or the protection of the environment:

Provided also that in establishing whether a service provider is exercising his freedom to provide services within the meaning of this article and Article 49 of the Treaty, or is an establishment case, or whether a service provider is abusively taking advantage of the freedom to provide services, the Regulator shall assess and decide each case on its individual merits and in conformity with Community legislation and rulings of the European Court of Justice.

(8) Without prejudice to sub-article (7), in exceptional cases only, the Regulator may, in respect of a service provider established in another Member State, take measures in order to ensure the safety of services provided in Malta. When taking such measures, the Regulator shall follow the procedure established under the Fourth Schedule to the Services (Internal Market) Act, and ensure the fulfilment of the following conditions: Cap. 500.

(a) the national provisions, in accordance with which the measures are taken, have not been subject to Community harmonisation in the field of the safety of services;

(b) the measures taken provide for a higher level of protection of the recipient than would be the case in a measure taken by the Member State of establishment in accordance with its national provisions;

(c) the Member State of establishment has not taken any measures or has taken measures which are insufficient as compared with those requested by the Regulator and as referred to in paragraphs 2 and 3 to the Fourth Schedule to the Services (Internal Market) Act; Cap. 500.

Provided that the Regulator, upon gaining actual

(b) The Regulator shall exercise its supervisory functions on service providers established in Malta, and falling under its area of competence, whether the service is provided in Malta or in another Member State.

Cap. 500. (c) In executing its supervisory functions, when a service is being provided in another Member State by a service provider established in Malta, the Regulator shall assist the relevant competent authority of that other Member State in terms of the procedure established in the Second Schedule of the Services (Internal Market) Act.
