 - (i) the title of the Government Gazette where the determination was notified or published and the date of notification or publication,
 - (ii) the provisions of this Regulation, and of the ADG Code, to which the determination relates,
 - (iii) the dangerous goods, equipment, packaging, vehicle or other thing to which the determination relates.

31 Offence to do any thing prohibited or regulated by a determination

- (1) If a determination under this Division prohibits or regulates the doing of any thing, a person to whom the determination applies must not do that thing contrary to the determination. Maximum penalty: 40 penalty units for an individual or 200 penalty units for a corporation.
- (2) It is a defence to a prosecution for an offence against subclause (1) that the person did not know, and could not reasonably have been expected to know, of the determination, or that the determination applied to the person.

Part 2 – Key concepts

32 Dangerous goods

- (1) Goods are "**dangerous goods**" if:
 - (a) the goods are determined under clause 24 (1) (a) to be dangerous goods, or
 - (b) the goods satisfy the dangerous goods classification criteria set out, or referred to, in Part 2 of the ADG Code.
- (2) However, goods that satisfy the criteria set out, or referred to, in Part 2 of the ADG Code are not dangerous goods if the goods are:
 - (a) determined under clause 24 (1) (a) not to be dangerous goods, or
 - (b) described as not subject to the ADG Code in a special provision in Chapter 3.3 of the ADG Code that is applied to the goods by column 6 of the Dangerous Goods List.

33 Goods too dangerous to be transported

Dangerous goods are too dangerous to be transported if they are:

- (a) goods set out or described in Appendix A to the ADG Code, or
- (b) goods determined under clause 24 (2) (a) to be too dangerous to be transported, or
- (c) goods (other than goods mentioned in paragraph (a) or (b)) that are so sensitive or unstable that they cannot be safely transported even if the relevant requirements of this Regulation and the ADG Code are complied with.

Section 8 of the Act provides that a person must not consign for transport goods that this Regulation identifies as being too dangerous to be transported.

34 UN Classes, UN Divisions and Categories of dangerous goods

The UN Class, Division or Category of particular dangerous goods for the purposes of this Regulation is:

- (a) if a determination under clause 24 (1) (b) that the goods are of a particular UN Class, Division or Category is in effect in relation to the goods--the Class, Division or Category specified in the determination, or
- (b) if no such determination is in effect--the Class, Division or Category determined for the goods in accordance with the ADG Code.

1 Under the UN classification system there are 9 classes of dangerous goods. Under that system some Classes are further divided into Divisions, and some Divisions are divided into Categories. Examples --UN Division 6.2 infectious substances are divided into:

- (a) Category A (substances transported in a form that, if exposure occurs, can cause permanent disability or life-threatening or fatal disease to humans or animals), and
- (b) Category B (others).

2 Under the ADG Code, if particular dangerous goods are listed in the Dangerous Goods List, their UN Class or Division is that listed in column 2 of that list opposite the name and description of those goods, unless Chapter 3.3 of that Code provides for those goods to be assigned to a different Class or Division. If applicable, Chapter 2 of that Code describes how the UN Category of dangerous goods is to be determined. Once again the Category may be changed under Chapter 3.3 of that Code.

35 Subsidiary risk

The subsidiary risk, if any, of particular dangerous goods for the purposes of this Regulation is:

- (a) if a determination under clause 24 (1) (c) that the goods have a particular subsidiary risk is in effect--the subsidiary risk specified in the determination, or
- (b) if no such determination is in effect--the subsidiary risk determined for the goods in accordance with the ADG Code.

Dangerous goods that are able to be assigned to more than one UN Class or Division are assigned a subsidiary risk. This subsidiary risk is the other UN Class/es or Division/s to which the goods also belong. Under the ADG Code, if particular dangerous goods are listed in the Dangerous Goods List, their subsidiary risk is that listed in column 4 of that list opposite the name and description of those goods, unless Chapter 3.3 of that Code provides for those goods to be assigned a different subsidiary risk.

36 Packing Groups

The Packing Group, if any, of particular dangerous goods for the purposes of this Regulation is:

- (a) if a determination under clause 24 (1) (d) that the goods are of a particular Packing Group is in effect--the Packing Group specified in the determination, or
- (b) if no such determination is in effect--the Packing Group determined for the goods in accordance with the ADG Code.

The assignment of particular dangerous goods to a Packing Group indicates the degree of danger, and the level of containment required for, the goods. The Packing Groups, and the degree of danger they indicate, are:

- (a) Packing Group I (substances presenting high danger), and
- (b) Packing Group II (substances presenting medium danger), and
- (c) Packing Group III (substances presenting low danger).

The Packing Group of a substance can be determined from the Dangerous Goods List, although in some cases it is also necessary to refer to Chapter 3.3 of the ADG Code (the List identifies those cases).

37 Incompatibility

- (1) Dangerous or other goods are "**incompatible**" with dangerous goods if:
 - (a) the goods are incompatible under Chapter 9.1 of the ADG Code, or
 - (b) the goods are determined under clause 24 (1) (e) to be incompatible with the dangerous goods, or

- (c) when the goods are mixed, or otherwise brought into contact, with the dangerous goods, the goods are likely to interact with the dangerous goods and increase risk because of the interaction.
- (2) Packaging or equipment for use in the transport of dangerous goods is incompatible with the goods if any component of the packaging or equipment that is intended or likely to come into contact with the goods during transport:
 - (a) is likely to interact with the goods and increase risk because of the interaction, and
 - (b) is not protected from contact under foreseeable circumstances by a protective coating or other effective means.

Part 3 – Transport of dangerous goods to which special provisions apply

38 Application of this Part

This Part applies if a special provision applies to dangerous goods in the Dangerous Goods List and that special provision prohibits the transport of the goods by road or rail, or imposes a restriction on the way the goods are to be transported by road or rail.

In this Part, a reference to dangerous goods being packed in accordance with any relevant provision in Part 4 of the ADG Code is to be read as including a reference to the goods being packed in accordance with any packing requirement specified in relation to the goods in the Dangerous Goods List.

Division 2 – Suitability and design of packaging

46 Suitability of packaging for transport

- (1) Packaging is unsuitable for the transport of dangerous goods if:

(3) In giving its approval, the Competent Authority may impose in relation to the approval any condition about the construction, packing, use or maintenance of a packaging manufactured in accordance with the design necessary for the safe use of the packaging to transport dangerous goods.

(4) A person must not construct, pack or fail to maintain packaging for use in the transport of dangerous goods, or use packaging to transport dangerous goods, if the person knows, or ought reasonably to know, that:

not greater than the risk involved in using a method complying with the section.

(2) In giving its approval, the Competent Authority may impose in relation to the approval any condition about the use of the overpack necessary for the safe use of the overpack to transport dangerous goods.
