- (iv) the taking of fish from Lord Howe Island waters, and
- (c) all inland waters are waters in which the class of commercial fishing that consists of any commercial fishing activity other than the following is prohibited:
 - (i) the taking of yabbies,

Note. The *Fisheries Management (Supporting Plan) Regulation 2006* contains further prohibitions that apply to commercial fishing in share management fisheries.

10 Fish and waters protected from recreational fishing

- (1) For the purposes of section 20A (2) of the Act, it is declared that, in the waters specified in Schedule 4, the class of recreational fishing that is prohibited is the taking of fish of the species, by the prohibited fishing method and during the period, specified in relation to those waters in that Schedule.
- (2) This clause does not apply in respect of a commercial fisher taking fish for sale as authorised under the Act.
- (3) A reference in Schedule 4 to a distance upstream or downstream in particular waters is to be read as a reference to the distance as measured along an imaginary line drawn through the centre of those waters.

Division 3 Prohibited size fish

11 Prohibited size fish

- (1) For the purposes of section 15 (1) of the Act, a fish is a prohibited size fish if:
 - (a) in the case of a fish of a species specified in Column 1 of Table 1—the measurement or weight of the fish is less than the minimum measurement or weight specified opposite that species of fish in Column 2 of that Table, or
 - (b) in the case of a fish of a species specified in Column 1 of Table 2—the measurement of the fish is more than the maximum measurement specified opposite that species of fish in Column 2 of that Table.
- (2) For a species that has both a minimum measurement and a minimum weight, the fish is not a prohibited size fish if either the measurement or the weight exceeds the minimum.
- (3) For the purposes of section 15 (2) of the Act, the method of determining the measurement of any class of fish is as follows:
 - (a) except as provided by this subclause—the overall length of the fish is to be measured from the point of the snout to the tip of the tail,
 - (b) in the case of abalone—the diameter of the shell is to be measured along its longest axis,

- (c) in the case of balmain bug—the width of the carapace is to be measured at its widest point from spike to spike (whether or not damaged),
 - (d) in the case of crab (other than spanner crab)—the length of the crab is to be measured along the body from the notch between the most protruding frontal teeth to the centre of the posterior margin of the carapace,
 - (e) in the case of spanner crab—the length of the spanner crab is to be measured along the body from the base of the orbital notch to the centre of the posterior margin of the carapace,
 - (f) in the case of murray crayfish or other spiny crayfish—the length of the carapace of the crayfish is to be measured along the straight line from the posterior margin of the orbit (eye) socket to the centre of the posterior margin of the carapace,
 - (g) in the case of rocklobster—the length of the carapace of the rocklobster is to be measured along the straight line from the point of union of the second antennae to the centre of the posterior margin of the carapace (ignoring any hairs attached to the carapace),
 - (h) in the case of turban snail—the diameter of the shell is to be measured along its longest axis.
- (4) If a fish is frozen, refrigerated or chilled, the size of the fish is to be determined as so frozen, refrigerated or chilled.

12 Defence—taking of mullet for bait

- (1) For the purposes of section 21 (d) of the Act, it is a defence to a prosecution for an offence under section 16 (1) of the Act (relating to possession of prohibited size fish) if:
- (a) the prohibited size fish concerned are mullet, and
 - (b) the fish do not exceed 15 cm in measurement, and
 - (c) the fish have been lawfully taken by a person other than a commercial fisher, and
 - (d) the fish are live bait, and
 - (e) the person charged with the offence is in possession of no more than 20 of the prohibited size fish.
- (2) In this clause, *mullet* means fish of the species *Mugil cephalus*.

Division 4 Bag limits

13 Bag limits—taking of fish

- (1) For the purposes of section 17 (1) of the Act, the daily limit of fish (of a species specified in Column 1 of Part 1 or 2 of the Table to this Division) is the quantity specified opposite that species of fish in Column 2 of Part 1 or 2 of that Table.
- (2) For the purposes of section 17 (1) of the Act, the daily limit of fish (of a species specified in Column 1 of Part 3 or 4 of the Table to this Division) taken from waters specified opposite that species of fish in Column 2 of Part 3 or 4 of that Table is the quantity specified opposite that species of fish in Column 3 of Part 3 or 4 of that Table.

14 Bag limits—possession of fish

- (1) For the purposes of section 17B (1) (a) of the Act, the possession limit of fish (of a species specified in Column 1 of Part 1 or 2 of the Table to this Division) is, when the person in possession of that species of fish is in or on or adjacent to any waters or is transporting or storing the fish, the quantity specified opposite that species of fish in Column 3 of Part 1 or 2 of that Table.
- (2) For the purposes of section 17B (1) (a) of the Act, the possession limit of fish (of a species specified in Column 1 of Part 3 or 4 of the Table to this Division) is:
 - (a) when a person is in or on or adjacent to the waters specified opposite that species of fish in Column 2 of Part 3 or 4 of the Table, the quantity specified opposite that species of fish in Column 4 of the Table, or
 - (b) when a person is transporting or storing fish otherwise than while in or on or adjacent to waters, the quantity specified opposite that species of fish in Column 4 of Part 3 or 4 of the Table or, if different quantities of that species of fish are specified in relation to different waters, the lower or lowest quantity specified.
- (3) It is a defence to a prosecution for an offence against section 18 (2) of the Act that is constituted by transporting or storing fish, otherwise than while in or on or adjacent to waters, in a quantity that exceeds the possession limit of the fish, if the person charged proves that:
 - (a) the fish were taken from waters specified opposite the fish in Column 2 of Part 3 or 4 of the Table, and
 - (b) the quantity of fish in the person's possession did not exceed the possession limit for the fish that would have applied if the person had been in or on or adjacent to the waters from which they were taken.

15 General bag limit

- (1) For any species of marine or estuarine fish (including marine or estuarine invertebrates and tunicates) not included in the Table to this Division:
 - (a) the daily limit of fish of that species is 20, and
 - (b) the possession limit of fish of that species (when the person in possession is in or on or adjacent to any waters or is transporting or storing the fish) is 20.
- (2) For any species of native freshwater fish (other than invertebrates) not included in the Table to this Division:
 - (a) the daily limit of fish of that species is 10, and
 - (b) the possession limit of fish of that species (when the person in possession is in or on or adjacent to any waters or is transporting or storing the fish) is 10.

16 Application of bag limits to commercial fishers

- (1) A daily limit specified in this Division does not apply in respect of fish taken by a commercial fisher for sale.

- (2) A possession limit specified in this Division does not apply in respect of fish in the possession of a commercial fisher for sale.
- (3) However, those daily limits and possession limits do apply in respect of fish taken by, or in the possession of, a commercial fisher otherwise than for sale.
- (4) Despite subclauses (1)–(3), the daily bag limits and possession limits specified in this Division do apply in respect of fish taken by, or in the possession of, a commercial fisher (whether or not the fish are taken or in possession for sale) if the fish were taken in Lord Howe Island waters by use of a boat and at the time that the fish were taken:
 - (a) the boat was being used as a charter fishing boat, or
 - (b) there were four or more persons on the boat (including any commercial fisher).
- (5) Subclause (4) is subject to the exemption for fish taken for use as bait in charter fishing operations set out in clause 17.

17 Application of bag limits to charter fishing boat operations

- (1) A daily limit or possession limit specified in this Division does not apply in relation to any charter fishing exempt fish that is in the possession of the master of a boat that is a licensed charter fishing boat, or an exempt charter fishing boat, if the fish were taken while on board the boat for use as bait in guided recreational charter fishing, and the fish are not taken or in possession for sale.
- (2) In this clause:

charter fishing exempt fish means any of the following species of fish:

- (a) *Engraulis australis* (Australian anchovy),
- (b) species of family *Hemiramphidae* (garfish) other than *Hyporhamphus australis* (eastern sea garfish),
- (c) species of family *Atherinidae* (hardyhead, silverfish),
- (d) *Herklotsichthys castelnaui* (southern herring),
- (e) *Scomber australasicus* (blue mackerel, slimy mackerel),
- (f) *Etrumeus teres* (maray, round herring),
- (g) *Sardinops neopilchardus* (Australian sardine, pilchard),
- (h) *Spratelloides robustus* (blue sprat, bluebait),
- (i) *Hyperlophus vittatus* (sandy sprat, whitebait),
- (j) *Trachurus* spp. (yellowtail, jack mackerel).

exempt charter fishing boat means a charter fishing boat used for guided recreational charter fishing principally in Lord Howe Island waters in respect of which a licence under Part 4A of the Act is not required.

guided recreational charter fishing means guided recreational charter fishing within the meaning of Part 13.

licensed charter fishing boat means a charter fishing boat licensed under Part 4A of the Act.

18 Possession limits do not apply to fish lawfully taken for sale

- (1) It is lawful for a commercial fisher to be in possession of fish in excess of a possession limit specified in this Division if the commercial fisher lawfully took the fish for sale.
- (2) It is lawful for a person to be in possession of fish in excess of a possession limit specified in this Division if the person purchased or otherwise acquired the fish from another person whose possession of the fish was lawful (whether as a result of subclause (1) or as a result of one or more applications of this subclause).
- (3) It is a defence to a prosecution for an offence against section 18 of the Act constituted by being in possession of fish in excess of a possession limit specified in this Division if the person charged proves:
 - (a) that he or she purchased or otherwise acquired the fish from another person, and
 - (b) that the other person's possession of the fish was lawful or that there were no reasonable grounds to suspect that the other person's possession of the fish was unlawful.

Division 5 Miscellaneous

19 Part does not authorise action contrary to prohibitions or other controls

- (1) Nothing in this Part affects any prohibition or conditions imposed by or under the Act or the *Marine Parks Act 1997* with respect to the taking of fish.
- (2) In particular, a provision of this Part that specifies a minimum measurement, daily limit or possession limit in respect of any species of fish is not to be construed as authorising any of the following:
 - (a) the taking of fish in waters that are closed to fishing by virtue of a notification in force under section 8 of the Act,

Part 3 Fishing gear

Note. Under section 24 of the Act it is an offence for a person to use a net or trap for taking fish unless its use by the person for taking those fish is declared by the regulations to be a lawful use of the net or trap. Section 25 of the Act also makes it an offence for a person to be in possession of any fishing gear in, on or adjacent to any waters if the use by that person of that fishing gear for taking fish from those waters is, at that time, prohibited by or under the Act.

Division 1 Lawful use of fishing gear generally

20 Fishing gear cannot be used in contravention of other restrictions

- (1) A provision of this Part that declares the use of a net or other fishing gear to be lawful, or to be lawful in specified circumstances, does not affect any prohibition or conditions imposed by or under the Act or the *Marine Parks Act 1997* with respect to the taking of fish.
- (2) In particular, nothing in this Part is to be construed as authorising the use, in any circumstances, of a net or other fishing gear for any of the following:
 - (a) the taking of fish in waters that are closed to fishing by virtue of a notification in force under section 8 of the Act,
 - (b) the taking of fish that are prohibited size fish or protected fish,

 - (g) the taking of fish in contravention of:
 - (i) a regulation relating to aquatic reserves made under section 197 of the Act, or
 - (ii) a management plan for an aquatic reserve made under section 197A of the Act, or
 - (iii) an aquatic reserve notification in force under section 197E of the Act,
 - (h) the taking of fish in contravention of any provision of, or any instrument or notification under, the *Marine Parks Act 1997*,
 - (i) the taking of fish in contravention of a condition of a commercial fishing licence or an endorsement on a commercial fishing licence.

21 Lawful use of fishing gear

- (1) For the purposes of this Part, a person who holds a commercial fishing licence that does not authorise the person to take fish for sale in a restricted fishery or a share management fishery is to be treated, in respect of that fishery, as a person who is not a commercial fisher.
- (2) Accordingly, despite the other provisions of this Part, it is unlawful for such a person to use a net or other fishing gear for taking any fish in that restricted fishery or share management fishery if the use of that net or gear for taking those fish would, if the person were not a commercial fisher, be unlawful.

22 Use of certain fishing gear prohibited in vicinity of Fish Rock

- (1) A person must not take, by means of a spear, speargun or similar device, any fish from Fish Rock waters other than fish of the following families or species:

- (a) families:
- (i) *Carangidae* (trevally, kingfish, rainbow runner),
 - (ii) *Scombridae* (mackerel, wahoo),

- (2) The Secretary may refuse an application to revoke or amend a fishing business determination of a fishing business if satisfied that a share that is a component of that fishing business has been transferred in contravention of this Division.

Note. In addition, under clause 114, the Secretary may refuse to approve a transfer that contravenes this Part.

Division 5 Dealings in endorsements and shares

- (4) If the transfer relates to shares, the approved form of application under this clause may include or be comprised of the approved form of application for registration of the transaction under section 91B of the Act, so as to enable the applications for approval and registration to be dealt with together.

Note. A transaction that has the effect of transferring, assigning or transmitting a share is to be registered in the Share Register, and a prescribed fee in respect of the application for registration is payable under Part 7.
- (5) If the transfer relates to an endorsement, and no fee is charged in respect of the registration of the transaction, the Secretary may charge a fee in respect of the application for approval, being the amount specified in Schedule 8.

198 Endorsements do not authorise unlawful use of fishing gear

An endorsement on a commercial fishing licence that authorises the holder of the licence to take fish for sale, or to assist in taking fish for sale, in a restricted fishery using a net, trap or other fishing gear is subject to Part 3. That is, the endorsement does not authorise the use of a net, trap or other fishing gear contrary to that Part.

Part 10

199–201 (Repealed)

Part 11 Fishing business cards

202 Definitions

In this Part:

fishing business card means an endorsement issued in the form of a document that is separate from the commercial fishing licence of a person, under an arrangement referred to in section 68 (8C), 70 (6) or 112 (5) of the Act, and identified as a fishing business card.

Maximum penalty: 100 penalty units.

- (3) This clause does not of itself authorise the Minister to cancel an endorsement.

Note. Other provisions of this Regulation and the share management plans set out the circumstances in which the Minister is authorised to cancel an endorsement. The Minister might require a fishing business card to be returned under this clause because an endorsement has been or is to be cancelled under those provisions. However, the Minister might also require a fishing business card to be returned merely to allow annotations on the card to be changed.

205 Return of fishing business card to fishing business owner

- (1) If the nomination of a person as a nominated fisher is revoked, that person must immediately return the fishing business card of the fishing business to which the revoked nomination relates to the fishing business owner or such other person as the fishing business owner directs.

- (5) A commercial fisher who engages in fishing activities in any of the following fisheries, on behalf of a fishing employer (within the meaning of section 122 of the Act), is not required to make a record under this clause in respect of those activities:
 - (a) a share management fishery (other than the abalone or lobster fishery),
 - (b) a restricted fishery (other than the sea urchin and turban shell restricted fishery).

Note. However, section 122 (5) of the Act requires the commercial fisher to provide the fishing employer with such information concerning those activities as the fishing employer may reasonably require to comply with section 122 of the Act.

- (5A) Despite subclause (5), a commercial fisher who engages in fishing activities in any fishery on behalf of the Fisheries Administration Ministerial Corporation is required to make a record under this clause in respect of those activities.
- (6) This clause does not apply in respect of fishing activities in a share management fishery if the share management plan for the fishery makes alternative arrangements for the records to be made in respect of those activities under section 121 of the Act.

217 Records to be made by fishing employers

- (1) For the purposes of section 122 of the Act, a fishing employer is required to make the prescribed activity record of fishing activities engaged in by all nominated fishers on behalf of the fishing employer, for each period of a month that the nominated fishers engage in fishing activities.

218 Records of sale and possession of fish—commercial quantity

For the purposes of the definition of *commercial quantity* of fish in section 123A (7) of the Act, the prescribed quantity of fish is the following:

Part 13 Charter fishing management

Division 1 Preliminary

221 Object

The object of this Part is to provide for the regulation and management of guided recreational charter fishing in the marine and estuarine charter fishing sector.

222 Definitions

(1) In this Part:

carrying capacity of a boat means the number of crew and passengers that may be carried on the boat in accordance with the certificate of survey for the boat.

deep sea bottom fishing means any recreational fishing activity that involves taking fish in ocean waters, being fish of a species listed in Part 1 of the Table.

nearshore bottom fishing and sportfishing means any recreational fishing activity that involves taking fish in ocean waters, being fish of a species listed in Part 3 or 4 of the Table.

Table means the table to clause 236.

- (2) A reference in this Part to an activity that involves the taking of fish includes an activity that involves taking and later releasing fish.

223 Guided recreational charter fishing—meaning

In this Part, **guided recreational charter fishing** means the use of a boat as a charter fishing boat under an arrangement where a person is provided, for payment or other consideration, to operate the charter fishing boat or to guide or instruct the persons using the boat in fishing operations.

224 Marine and estuarine charter fishing sector—meaning

In this Part, the **marine and estuarine charter fishing sector** means that part of the charter fishing boat industry in which charter fishing boats are used for the purpose of any of the following recreational fishing activities:

- (a) estuarine fishing,
- (b) nearshore bottom fishing and sportfishing,
- (c) gamefishing,
- (d) deep sea bottom fishing.

Division 2 Licences

225 Which boats must be licensed?

- (1) For the purposes of section 127B of the Act, it is declared that a charter fishing boat is required to be licensed under Part 4A of the Act if it is used for any guided recreational charter fishing that involves:
- (a) estuarine fishing, or
 - (b) nearshore bottom fishing and sportfishing, or
 - (c) gamefishing, or
 - (d) deep sea bottom fishing.

- (2) However, a charter fishing boat operated by a commercial organisation (within the meaning of section 127A of the Act), that would otherwise be required to be licensed under this clause, is not required to be licensed if the charter fishing boat is operated under an arrangement where a person is provided, for payment or other consideration, for the purposes of operating the boat only and not for the purposes of guiding or instructing the persons using the boat in fishing operations.

Note. Under Division 5, charter fishing boats used by Lord Howe Island residents in waters around Lord Howe Island are exempt from the requirement to be licensed.

226 Annual licence fee

- (1) The fee for the issue or renewal of a licence for each year or part of a year for which the licence is issued or renewed is the amount specified in Schedule 8 plus the amount specified in Schedule 8 for each authorised activity specified on the licence.
- (2) In this clause, *authorised activity* means a recreational fishing activity authorised by the Minister as referred to in clause 236.

227 Classes of licence

There are two classes of licence, as follows:

- (a) transferable,
- (b) non-transferable.

228 Eligibility for licences

- (1) A person who, immediately before 1 September 2010, was eligible for a transferable licence remains eligible for that licence, subject to this Part.
- (2) A person who, immediately before 1 September 2010, was eligible for a non-transferable licence remains eligible for that licence, subject to this Part.
- (3) If the right to a transferable licence is transferred in accordance with the approval of the Minister:
 - (a) the transferor ceases to be eligible for a transferable licence, and
 - (b) the transferee becomes eligible for a transferable licence.

229 Transfer of right to transferable licence

- (1) The right to a transferable licence may be transferred in accordance with this clause.
- (2) An application for the Minister's approval is to be in an approved form and accompanied by the fee specified in Schedule 8.
- (3) The Minister may approve the transfer, or may refuse to approve the transfer, of a right to a licence to a person.
- (4) The Minister may refuse to approve the transfer on any of the grounds on which the Minister could refuse to approve an application for a licence by the person.

- (5) If the transfer is approved, the transferee may apply for, and is to be issued with a transferable licence.

230 Conversion of non-transferable licence into transferable licence (estuarine fishing only)

- (1) A person who holds a non-transferable licence for a boat that authorises the use of the boat for guided recreational charter fishing in the estuarine fishing sector may apply to the Minister to have that licence converted into a transferable licence.
- (2) The Minister may approve the conversion of the relevant licence into a transferable licence if the Minister is satisfied that:
 - (a) the person was actively engaged in guided recreational charter fishing in the estuarine fishing sector before 3 December 2005, and
 - (b) the person held a licence that authorised the use of the boat for guided recreational charter fishing in the estuarine fishing sector on 3 December 2005, and
 - (c) the person has held that licence continuously since 3 December 2005, and
 - (d) the licence does not authorise, and has not authorised at any time since 3 December 2005, the use of the boat for any of the following recreational fishing activities:
 - (i) nearshore bottom fishing and sportfishing,
 - (ii) gamefishing,
 - (iii) deep sea bottom fishing.
- (3) An application for the Minister's approval is to be in an approved form.
- (4) If the Minister approves the conversion of a licence under this clause, it is taken to be a transferable licence.
- (5) In this clause, *estuarine fishing sector* means that part of the charter fishing boat industry in which charter fishing boats are used for the purpose of recreational estuarine fishing.

231 Boat replacement

- (1) A person who holds a transferable or a non-transferable licence in respect of a licensed charter fishing boat may replace the boat if:
 - (a) the replacement is approved by the Minister, and
 - (b) the application for the Minister's approval is accompanied by the fee specified in Schedule 8.
- (2) Nothing in this clause permits a person who holds a non-transferable licence to transfer that licence to another person.

232 Refusal of licence

The Minister is authorised to refuse an application for a licence for a boat if:

- (a) the Minister is not satisfied that the applicant is eligible to be issued with the licence, or the class of licence applied for, in respect of the boat, or
- (b) the applicant has been convicted of an offence under the Act or the regulations or an offence relating to commercial or recreational fishing under a law of the Commonwealth or of another State or a Territory or of New Zealand, or
- (c) the applicant has been convicted of an offence relating to the theft of fish, fishing gear or a boat or intentional damage to fishing gear or a boat, or
- (d) the applicant has been convicted of an offence relating to an assault on a fisheries official, or
- (e) the applicant has not paid any fee due and payable in connection with the licence, or
- (f) the applicant has previously held a licence that has been suspended or cancelled by the Minister.

233 Renewal of licence

- (1) An application for renewal of a licence is to be made in a form approved by the Minister.
- (2) The Minister is authorised to refuse to renew a licence if:
 - (a) the holder of the licence is not eligible for the licence, or
 - (b) the holder of the licence has been convicted of an offence under the Act or the regulations or an offence relating to commercial or recreational fishing under a law of the Commonwealth or of another State or a Territory or of New Zealand, or
 - (c) the holder of the licence has been convicted of an offence relating to the theft of fish, fishing gear or a boat or intentional damage to fishing gear or a boat, or
 - (d) the holder of the licence has been convicted of an offence relating to an assault on a fisheries official, or
 - (e) the Minister is satisfied that the holder of the licence has contravened a condition of the licence, or
 - (f) the holder of the licence has not paid any fee due and payable in connection with the licence.
- (3) If an application is duly made for renewal of a licence and is received by the Minister before the expiration of the period in which it remains in force, and the licence is not renewed before the expiration of that period, the licence:
 - (a) is taken to continue to be in force until the licence is renewed or the application for renewal is refused, whichever happens first, and
 - (b) may be renewed despite the fact that, but for this subclause, the licence would have expired.
- (4) If an application for renewal of a licence is not received by the Minister before the expiration of the period in which it remains in force, the licence:
 - (a) is taken to continue to be in force for 30 days after the date the licence would have expired (but for this subclause), or until the licence is renewed or the application for renewal is refused, whichever happens first, and

- (b) may be renewed despite the fact that, but for this subclause, the licence would have expired.
- (5) If an application for renewal of a licence is received by the Minister more than 30 days after the date the licence would have expired (but for subclause (4)), the additional licence fee specified in Schedule 8 is payable.
- (6) If an application for renewal of a licence is received by the Minister more than 90 days after the date the licence would have expired (but for subclause (4)), the Minister may refuse to renew the licence.

234 Cancellation and suspension of licence

- (1) The Minister may cancel or suspend a licence if:
 - (a) the holder of the licence ceases to be eligible for the licence, or
 - (b) the holder of the licence is convicted of an offence under the Act or the regulations or an offence relating to commercial or recreational fishing under a law of the Commonwealth or of another State or a Territory or of New Zealand, or
 - (c) the holder of the licence is convicted of an offence relating to the theft of fish, fishing gear or a boat or intentional damage to fishing gear or a boat, or
 - (d) the holder of the licence is convicted of an offence relating to an assault on a fisheries official, or
 - (e) the Minister is satisfied that the holder of the licence has contravened a condition of the licence, or
 - (f) the holder of the licence fails to pay any fee due and payable in connection with the licence, or
 - (g) the boat is lost at sea or disposed of by the holder of the licence.
- (2) In addition, in the case of a non-transferable licence, the Minister may cancel or suspend the licence if:
 - (a) the licence is held by, or the boat is owned by, one or more natural persons and:
 - (i) one or more of those persons has become bankrupt, or
 - (ii) a person has acquired or disposed of a beneficial interest in the boat, or
 - (b) the licence is held or otherwise under the control of a corporation, or the boat is owned by a corporation, and:
 - (i) a person has acquired or disposed of a controlling interest in the corporation, or
 - (ii) the corporation has become the subject of a winding up order or a controller or administrator has been appointed for the corporation.

235 Voluntary suspension of licence

- (1) The Minister may, from time to time, on the application of a licence holder, suspend the licence by placing the licence in abeyance for such period, not exceeding two years, as the Minister may specify.
- (2) Such an application may be granted in any case where the Minister is satisfied that there is sufficient reason for the suspension (for example, because the boat has been disposed of or lost at sea or because the licence holder has temporarily ceased trading).
- (3) The Minister may, on written application by the licence holder, extend a period of suspension under this clause if satisfied that there is sufficient reason for the extension.
- (4) The total period for which a licence is suspended under this clause must not exceed 3 years.
- (5) The annual licence fee payable in respect of a licence continues to be payable in respect of any year or part of a year for which a licence is suspended under this clause.
- (6) The Minister may cancel a licence suspended under this clause if:
 - (a) any fee payable in connection with the licence is not paid by the end of the suspension period or such further period as the Minister may allow, or
 - (b) the holder of the licence fails, without lawful excuse, to comply with any request for information in connection with the suspension that is made by the Minister by notice in writing to the holder.
- (7) A notice referred to in subclause (6) (b) must specify a period of not less than 14 days in which the request for information must be complied with.
- (8) Nothing in this clause limits the powers of the Minister to cancel or suspend a licence under another provision of this Part.
- (9) The Minister is to refuse an application for suspension under this clause (not being an application for an extension of a suspension) if the licence has previously been suspended on the application of the holder and the period of suspension ended less than 3 years before the application is made.
- (10) Subclause (9) does not apply if the Minister is satisfied that, in the circumstances of the case, the suspension should be granted because the boat to which the licence applies has been lost at sea or damaged beyond repair.

236 Conditions of licence—authorised activities

- (1) The Minister may, by means of an endorsement on a licence for a boat, authorise the use of the boat for guided recreational charter fishing that involves one or more of the following recreational fishing activities (as indicated by the endorsement):
 - (a) estuarine fishing,
 - (b) nearshore bottom fishing and sportfishing,
 - (c) gamefishing,

- (d) deep sea bottom fishing.
- (2) It is a condition of a licence for a boat that the boat, while being used for any activity for which it is required to be licensed under this Part, is not used for any of the recreational fishing activities referred to in subclause (1) unless the licence authorises the use of the boat for that activity.
- (3) The Minister may refuse to authorise the use of a boat for a recreational fishing activity if the Minister is not satisfied that the certificate of survey for the boat relied on by the licence holder to satisfy the eligibility criteria for the licence was, at all times during the periods relevant for the purposes of determining eligibility for a licence, consistent with that type of activity.
- (4) Despite subclause (2):
- (a) if a licence authorises the use of a boat for gamefishing, the taking of one fish of a species listed in Part 1 or Part 4 of the Table to this clause for each person who is on the boat, is permitted, and
- (b) if a licence authorises the use of a boat for nearshore bottom fishing and sportfishing, the taking of one fish of a species listed in Part 1 or Part 2 of the Table, for each person who is on the boat, is permitted, and
- (c) if a licence authorises the use of a boat for estuarine fishing, the taking of one fish of a species listed in Part 1 or Part 2 of the Table, for each person who is on the boat, is permitted.
- (5) This clause:
- (a) does not affect the application of any bag limits or possession limits in force under section 17, 17B or 17C of the Act, and
- (b) does not authorise the use of a boat to take any protected fish.

- (2) Use in a provision of this Division of the term "population" does not limit the operation of the provision to Division 2 and use of the term "species" does not limit the operation of a provision to Division 1.

280 Geographic distribution

- (1) Geographic distribution is the area or areas, or the volume of occupancy, in which a species, population or ecological community occurs, excluding cases of vagrancy in species.
- (2) This may be assessed by estimating:
 - (a) the extent of occurrence (the area of the total geographic range that includes all extant populations of the species or all extant occurrences of the ecological community), or
 - (b) the area or volume of occupancy (the area or volume within the total range that is currently occupied by the species or ecological community, that is, it excludes unsuitable and unoccupied habitat), or
 - (c) the area or volume of suitable habitat (the area or volume within the total range that includes occupied and unoccupied suitable habitat, but excludes unsuitable habitat).
- (3) The scale at which a geographic distribution is assessed should be appropriate to the biology of the species (or component species in ecological communities), the nature of threats and available data.

281 Effective population size

Effective population size is the number of mature individuals of a species or population that contribute to the production of viable offspring and the maintenance of genetic variation.

Note. Effective population size is usually much less than total population size due to the presence of juveniles, old (senescent), diseased, moribund and other non-breeding individuals, uneven sex ratios, unsuitable environmental conditions for breeding and recruitment at some localities and in some years, variation between family sizes and fluctuating population sizes between generations.

282 Ecological function

- (1) Ecological function encompasses the ecological and evolutionary processes and interactions between living and non-living components of ecosystems and ecological communities at all spatial and temporal scales.
- (2) Reductions in ecological function may be indicated by the following:
 - (a) a change to community structure,
 - (b) a change in species composition,
 - (c) the disruption of ecological processes,
 - (d) the invasion and establishment of exotic species,
 - (e) the degradation of habitat,
 - (f) the fragmentation of habitat,
 - (g) the declining abundance or distribution of constituent species within an ecological community.

283 Relevance of matters and adequacy and accuracy of information

If the Fisheries Scientific Committee is required to have regard to a particular matter, the Committee must consider the matter:

- (a) to the extent that it is relevant to the assessment of a proposed listing, and
- (b) to the extent that relevant information is available in relation to the matter, having regard to the adequacy and accuracy of the information.
