- (2) Notwithstanding anything in subsection (1) or in any other enactment, the Minister may at any time, acting on the recommendation of the Director-General, by notice in writing given to 2 or more local authorities, require those local authorities to combine to appoint an environmental health officer upon and subject to such terms and conditions as to payment of the salary and expenses of the environmental health officer, and as to the apportionment of his or her duties among the local authorities, as may be agreed upon between the local authorities:  

provided that no local authority whose district has a population of 15 000 or more shall be required, without its consent, to combine with any other local authority to appoint an environmental health officer.
- (3) If the local authorities to whom any such notice is given fail to agree on any question relating to the salary, expenses, or apportionment of duties of any such environmental health officer, the question shall be determined by the Director-General. - (3) If an order requires an individual to be detained in a hospital or other place operated by a district health board, the district health board must permit the individual to be detained in the hospital or place.
- (4) The court may impose any requirement specified in subsection (1) subject to any conditions or restrictions that the court considers appropriate.

#### **92ZB Matters that District Court may take into account in assessing public health risk**

In assessing, for the purposes of an application for a public health order, whether an individual poses a public health risk, the District Court may, without limitation, take into account—

- (a) the infectious disease that the individual has or may have:
- (b) if the individual has had an opportunity to minimise the risk of communicating the infectious disease, whether he or she has done so, or the extent to which he or she has done so, and, in particular,—
  - (i) if directions have been given to the individual, whether the individual has complied with, or the extent to which the individual has complied with, those directions:
  - (ii) if a medical practitioner, medical officer of health, person acting under the direction of a medical officer of health, or health protection officer has requested the individual to take steps to prevent or minimise the risk, whether the individual has responded to those requests or the extent to which the individual has responded to those requests.

Section 92ZB: inserted, on 4 January 2017, by section 11 of the Health (Protection) Amendment Act 2016 (2016 No 35).

**92ZC Duration of public health order**

- (1) When making a public health order under section 92Z, the District Court must specify the period for which the order is to remain in effect.
- (2) A public health order must not remain in effect for more than 6 months, unless the order is extended under section 92ZD.
- (3) A public health order ceases to have effect at the close of the earliest of the following days:
  - (a) the last day of the period stated in the order or in the extension of the order or, if no period is stated in the order, the day that is 6 months after the date on which the order is made:
  - (b) the day (if any) on which the court cancels the order under section 92ZR:

- (2) Any direction previously given to an individual ceases to have effect when a public health order is made in respect of that individual.
- (3) However, the making of a public health order in respect of an individual does not of itself cancel a direction for a medical examination under section 92K or a medical examination order under section 92ZH in respect of the individual.
- (4) A medical officer of health may not give a direction under this Part to an individual while a public health order made in respect of that individual is in force.

- (2) The medical examination order must direct the individual to undergo whatever medical examinations the medical officer of health considers necessary to establish whether the individual has the infectious disease.
- (3) The medical examination order may also impose on the individual, until those examinations are completed, any 1 or more of the requirements stated in section 92ZA(1)(b), (c), (d), (h), (i), and (j) that the court thinks necessary to prevent or minimise the public health risk that the individual may pose.

  - (b) takes effect in accordance with subsection (3).
- (3) The public health order may provide that it takes effect only if a medical officer of health signs and dates a certificate that states that the individual has undergone the examinations in accordance with the medical examination order and that those examinations establish that the individual has the infectious disease for which he or she has been examined.
- (4) The order may be sealed only if the Registrar of the court has seen and filed the certificate described in subsection (3).

the Registrar is satisfied that the medical officer of health has given an appropriate certification,—

- (a) the Registrar must cancel the order; and
