Information about this reprint

This Act is reprinted as at 2 November 2009. The reprint shows the law as amended by all amendments that commenced on or before that day (Reprints Act 1992 s 5(c)).

The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes. Also see list of legislation for any uncommenced amendments.

This page is specific to this reprint. See previous reprints for information about earlier changes made under the Reprints Act 1992. A table of reprints is included in the endnotes.

Also see endnotes for information about—

- **when provisions commenced**
- **editorial changes made in earlier reprints.**

Spelling

The spelling of certain words or phrases may be inconsistent in this reprint or with other reprints because of changes made in various editions of the Macquarie Dictionary (for example, in the dictionary, ‘lodgement’ has replaced ‘lodgment’). Variations of spelling will be updated in the next authorised reprint.

Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, authorised (that is, hard copy) and unauthorised (that is, electronic), are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If an authorised reprint is dated earlier than an unauthorised version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of an authorised reprint is the same as the date shown for an unauthorised version previously published, it merely means that the unauthorised version was published before the authorised version. Also, any revised edition of the previously published unauthorised version will have the same date as that version.

Replacement reprint date If the date of an authorised reprint is the same as the date shown on another authorised reprint it means that one is the replacement of the other.

Gene Technology Act 2001

[as amended by all amendments that commenced on or before 2 November 2009]

An Act to provide for regulating activities involving gene technology, and for other purposes

Part 1 Preliminary

1 Short title

This Act may be cited as the *Gene Technology Act 2001* or the Gene Technology Law of Queensland or simply as the Gene Technology Law.

Note—

This section differs from section 1 of the Commonwealth Act.

2 Commencement

- (1) Subject to subsection (2), this Act commences on a day to be fixed by proclamation.
- (2) If a provision of this Act does not commence before 1 January 2002, it commences on 1 January 2002.

Note—

This section differs from section 2 of the Commonwealth Act.

3 Object of Act

The object of this Act is to protect the health and safety of people, and to protect the environment, by identifying risks posed by or as a result of gene technology, and by managing the risks by regulating certain dealings with GMOs.

4 Regulatory framework to achieve object

The object of this Act is to be achieved by a regulatory framework that—

- (aa) provides that, where there are threats of serious or irreversible environmental damage, a lack of full scientific certainty should not be used as a reason for postponing cost-effective measures to prevent environmental degradation; and
- (a) provides an efficient and effective system for the application of gene technologies; and
- (b) operates in conjunction with other Commonwealth and State regulatory schemes relevant to GMOs and GM products.

Note—

Examples of the schemes mentioned in paragraph (b) are schemes that regulate food, agricultural and veterinary chemicals, industrial chemicals and therapeutic goods.

5 Nationally consistent scheme

It is the intention of the Parliament that this Act form a component of a nationally consistent scheme for the regulation of certain dealings with GMOs by the Commonwealth and the States.

6 Act binds all persons

- (1) This Act binds all persons, including the State, and, so far as the legislative power of the Parliament permits, the Commonwealth and the other States.
- (2) Nothing in this Act makes the Commonwealth or a State liable to be prosecuted for an offence.

7 External Territories

Note—

The Commonwealth Act includes a provision extending that Act to every external Territory other than Norfolk Island.

8 Offences and penalties

Notes—

- 1 The Commonwealth Act includes a provision applying chapter 2 of the *Criminal Code* (Cwlth) to offences against the Commonwealth Act and construing penalty provisions in that Act. The Criminal Code of Queensland applies for the purposes of this Act.
- 2 Penalties prescribed under this Act are expressed in Queensland penalty units. The number of penalty units in each case is as close as possible to the Commonwealth monetary penalty, rounded down to the next penalty unit.

8A Numbering

- (1) In order to maintain consistent numbering between this Act and the Commonwealth Act—
 - (a) if the Commonwealth Act contains a section not required in this Act, the provision number and heading to the section appearing in the Commonwealth Act are included in this Act despite the omission of the body of the section; and
 - (b) if this Act contains a section that is not included in the Commonwealth Act, the section is numbered so as to maintain consistency in numbering between sections common to both Acts.
- (2) A provision number and heading mentioned in subsection (1)(a) form part of this Act.

Notes—

- 1 A note appears under each heading of a kind mentioned in subsection (1)(a) describing the omitted section of the Commonwealth Act.
- 2 A note appears under each section of a kind mentioned in subsection (1)(b) highlighting the non-appearance of an equivalent section in the Commonwealth Act.
- 3 This section does not appear in the Commonwealth Act.

8B Notes

Notes do not form part of this Act.

Note—

This section does not appear in the Commonwealth Act.

8C Outlines

Part 5 Licensing system

Division 1 Simplified outline

39 Simplified outline of pt 5

In outline, this part—

- (a) provides a licensing system under which a person may apply to the regulator for a licence authorising dealings with GMOs; and
- (b) states the processes the regulator must follow for applications involving the following kinds of dealings—
 - (i) dealings involving the intentional release of a GMO into the environment;
 - (ii) dealings not involving the intentional release of a GMO into the environment; and
- (c) provides that a licence may cover dealings by persons other than the licence holder and requires the licence holder to inform the persons of any conditions of the licence applying to the persons.

Division 2 Licence applications

40 Person may apply for a licence

- (1) A person may apply to the regulator for a licence authorising stated dealings with 1 or more stated GMOs by a person or persons.
- (2) The application must be in writing and must contain—
 - (a) the information, if any, prescribed under a regulation; and
 - (b) the information specified in writing by the regulator.
- (3) The application must state whether any of the proposed dealings would involve the intentional release of a GMO into the environment.
- (4) The dealings for which a person may apply for a licence may be—
 - (a) all dealings with a GMO or with a stated class of GMOs; or
 - (b) a stated class of dealings with a GMO or with a stated class of GMOs; or
 - (c) 1 or more stated dealings with a GMO or with a stated class of GMOs.
- (5) The applicant may apply for a licence authorising the dealings by—
 - (a) a stated person or persons; or
 - (b) a stated class of person; or
 - (c) all persons.
- (6) The application must be accompanied by the application fee, if any, prescribed under a regulation.

40A Licences relating to inadvertent dealings

- (1) If the regulator is satisfied that a person has come into possession of a GMO inadvertently, the regulator may, with the agreement of the person, treat the person as having made an inadvertent dealings application.

- (2) To remove any doubt, it is declared that subsection (1) does not prevent a person from making an application under section 40 in relation to a GMO that has inadvertently come into the person's possession.

Note—

Sections 46A and 49 have the effect that the regulator may expedite consideration of an application to dispose of a GMO that has come into a person's possession inadvertently. These sections have effect whether the application is made under section 40, or is taken to have been made under this section.

41 Application may be withdrawn

- (1) The applicant may withdraw the application at any time before the licence is issued.
- (2) The application fee is not refundable if the applicant withdraws the application.

42 Regulator may require applicant to give further information

- (1) The regulator may, by written notice, require the applicant to give the regulator any further information about the application the regulator requires.
- (2) The notice may state the period within which the information must be given.
- (3) The regulator may require information to be given under this section at any time before the regulator decides the application, whether before or after the regulator has begun to consider the application.

43 Regulator must consider applications except in certain circumstances

- (1) The regulator must consider the application under this part.
- (2) However, the regulator is not required to consider the application, or may cease considering the application, if—
 - (a) it does not contain the information specified by the regulator or prescribed under a regulation; or

- (b) it does not satisfy section 40(3); or
 - (c) it is not accompanied by the application fee, if any, prescribed under a regulation; or
 - (d) the applicant did not provide the further information required by the regulator by notice under section 42 within the period stated in the notice; or
 - (e) the regulator is satisfied that to issue the licence would be inconsistent with a policy principle in force under section 21; or
 - (f) the regulator is satisfied, having regard to the matters mentioned in section 58, that the applicant is not a suitable person to hold the licence.
- (3) The regulator must issue the licence, or refuse to issue the licence, within the period, if any, prescribed under a regulation.

44 Regulator may consult with applicant

Before considering the application, the regulator may consult the applicant, or another regulatory agency, on any aspect of the application.

45 Regulator must not use certain information in considering licence application

If—

- (a) a person (the *first person*) applies for a GMO licence; and
 - (b) the first person gives information to the regulator for the regulator's consideration of the application; and
 - (c) the information is confidential commercial information;
- the regulator must not take the information into account in considering an application by another person for a GMO licence, unless the first person has given written consent for the information to be so taken into account.

Division 3 Initial consideration of licences for dealings not involving intentional release of a GMO into the environment

46 Applications to which div 3 applies

This division applies to an application for a GMO licence if the regulator is satisfied none of the proposed dealings would involve the intentional release of a GMO into the environment.

46A Division does not apply to an application relating to inadvertent dealings

Despite section 46, this division does not apply to an application for a GMO licence if the regulator is satisfied that—

- (a) the dealings proposed to be authorised by the licence are limited to dealings to be undertaken for the purposes of, or for purposes relating to, disposing of a GMO; and
- (b) the applicant for the licence came into possession of the GMO inadvertently.

47 What the regulator must do in relation to application

- (1) Before issuing the licence, the regulator must prepare a risk assessment and a risk management plan for the proposed dealings.
- (2) In preparing the risk assessment, the regulator must take into account the risks posed by the dealings, including any risks to the health and safety of people and any risks to the environment.
- (3) In preparing the risk management plan, the regulator must take into account the ways of managing any risks posed by the dealings that protect—
 - (a) the health and safety of people; and
 - (b) the environment.

49 Division does not apply to an application relating to inadvertent dealings

Despite section 48, this division does not apply to an application for a GMO licence if the regulator is satisfied that—

- (a) the dealings proposed to be authorised by the licence are limited to dealings to be undertaken for the purposes of, or for purposes relating to, disposing of a GMO; and

 - (b) the application proposes, in relation to any GMO for which dealings are proposed to be authorised—
 - (i) controls to restrict the dissemination or persistence of the GMO and its genetic material in the environment; and
 - (ii) limits on the proposed release of the GMO; and
 - (c) the controls and limits are of a kind that it is appropriate for the regulator not to seek the advice mentioned in section 50(3).
- (2) In deciding whether the principal purpose of an application is to enable the licence holder, and persons covered by the licence, to conduct experiments, the regulator—

- (a) must have regard to whether the applicant proposes that any or all of the following be authorised by, and done under, the licence—
 - (i) testing hypotheses;
 - (ii) gaining scientific or technical knowledge;
 - (iii) gaining data for regulatory purposes, or for product development or marketing; and
 - (b) may have regard to any other matter the regulator considers to be relevant.

- (f) the regulator is satisfied the licence holder is no longer a suitable person to hold the licence.

69 Surrender of licence

A licence holder may, with the regulator's consent, surrender the licence.

- (1) The licence holder and another person (the *transferee*) may jointly apply to the regulator for the licence to be transferred from the licence holder to the transferee.
- (2) The application must be in writing, and must contain—
 - (a) the information, if any, prescribed under a regulation; and
 - (b) the information specified in writing by the regulator.

 - (a) the health and safety of people; and
 - (b) the environment.

- (4) The regulator must not transfer the licence unless the regulator is satisfied the transferee is a suitable person to hold the licence.

Applications may only be considered under division 3 if none of the proposed dealings would involve the intentional release of a GMO into the environment.

- (2A) The regulator must not vary a licence if the original application for the licence was an application to which section 50A applied, unless—

Gene Technology Act 2001

- (a) the regulator is satisfied the principal purpose of the licence as proposed to be varied is to enable the licence holder and persons covered by the licence to conduct experiments; and

- (c) the regulator is satisfied the controls and limits are of a kind that it is appropriate for the regulator not to seek the advice mentioned in section 50(3).

Note—

Section 50A applies to an application that proposes controls and limits on the dissemination, persistence and release of the GMO concerned and is for the purpose of conducting experiments.

- (2B) The regulator must not vary a licence if the regulator is satisfied the risk assessment and the risk management plan in relation to the original application for the licence did not cover the risks posed by the dealings proposed to be authorised by the licence as varied.

 - (a) the health and safety of people; and
 - (b) the environment.

- (5) The regulator must not vary a licence unless any local government the regulator considers appropriate has been consulted on the proposed variation.
- (6) The regulator must not vary a licence in the circumstances, if any, prescribed under a regulation.
- (7) If an application has been made for variation of a licence, the regulator must vary the licence, or refuse to vary the licence, within the period, if any, prescribed under a regulation.
