## DIVISION II

### CERTIFICATES AND LICENCES

§ 1. — *Hunter’s or trapper’s certificate*

**3.** A hunter’s or trapper’s certificate is a document certifying that the holder is qualified to trap or to handle hunting weapons.

M.O. 99021, s. 3.

**3.1.** To obtain a hunter’s or trapper’s certificate, a person must

(1) be a resident;

(2) be 12 years of age or more;

- (3) provide his or her name, address and date of birth;
- (4) take the course or courses relating to the certificate applied for, namely,
  - (a) for a firearm handling certificate, the Canadian Firearms Safety Course (CFSC) and the introduction to hunting with firearms;

  - (d) for a fur-bearing animal trapping certificate, the course on trapping and management of fur-bearing animals; and
- (5) hold an attestation or certificate confirming successful completion of the exam or exams relating to the courses required to obtain the certificate applied for.

A Canadian citizen who is a resident at the time of making an application may obtain a hunter's firearm handling certificate without satisfying the conditions of subparagraphs 4 and 5 of the first paragraph on the condition that a certificate or equivalent proof of competence issued by a Canadian province or territory is provided.

M.O. 2010-042, s. 2; M.O. 2020-03-18, s. 1.

**4.** *(Revoked).*

M.O. 99021, s. 4; M.O. 2006-020, ss. 1 and 12; M.O. 2020-03-18, s. 2.

**5.** A hunter's or a trapper's certificate is permanent; it bears the holder's name and date of birth.

It also bears a number, the holder's signature and the following code or codes corresponding to the activities for which it was issued.

- (1) code "F": handling of a firearm;
- (2) code "A": handling of a crossbow and bow;
- (3) code "B": handling of a crossbow; and
- (4) code "P": trapping.

M.O. 99021, s. 5; M.O. 2006-020, s. 2.

**6.** Any hunter's or trapper's certificate that is lost, stolen or unusable or was once issued but not renewed may be replaced upon written application by the certificate holder and upon payment of the fees or duties determined in the Regulation respecting the scale of fees and duties related to the development of wildlife (chapter C-61.1, r. 32).

M.O. 99021, s. 6.

§ 2. — *Hunting licences*

**7.** The types and classes of hunting licences are prescribed in Schedule I.

M.O. 99021, s. 7; M.O. 2017-002, s. 1; M.O. 2020-03-18, s. 3.

**7.1.** To obtain a resident's hunting licence, a resident must hold a hunter's or trapper's certificate; the certificate is not required for the "Northern leopard frog, Green frog, Bullfrog", "Snaring of hare or Eastern

cottontail rabbit” and “Small game using a bird of prey” hunting licences. The resident must also provide his or her name, address and date of birth, as well as the number of the hunter’s or trapper’s certificate when it is required.

In addition, to obtain the following hunting licences, the resident must have been selected by random draw:

- (1) *(subparagraph revoked)*;
- (2) “White-tailed deer, female or male with antlers less than 7 cm, all areas except Area 20”;
- (2.1) *(subparagraph revoked)*;
- (3) “Moose, female more than 1 year old”.

M.O. 2010-042, s. 3; M.O. 2018-003, s. 1; M.O. 2020-03-18, s. 4.

**7.2.** In addition to the conditions set out in the first paragraph of section 7.1, to obtain a wild turkey hunting licence, a resident must hold an attestation of completion of a course on wild turkey hunting, unless that resident is a resident referred to in section 7.3.

M.O. 2010-042, s. 3; M.O. 2016-003, s. 3.

**7.3.** Despite section 7.1, a resident 12 years of age or older who does not hold a hunter’s or trapper’s certificate may obtain, only once in that person’s lifetime and in the same year, any category of resident’s hunting licence provided for in Schedule I provided that the resident never held a hunter’s or trapper’s certificate bearing code “A”, “B” or “F”.

The resident cannot hunt unless accompanied by another resident holding a hunter’s or trapper’s certificate appropriate to the hunting implement used and, in the case of wild turkey hunting, holding the attestation referred to in section 7.2. The other resident must be at least 25 years of age and may accompany only one resident at a time.

M.O. 2010-042, s. 3.

**7.4.** To obtain a non-resident’s hunting licence, a person must be 12 years of age or older and provide his or her name, address and date of birth.

M.O. 2010-042, s. 3; M.O. 2018-003, s. 2.

**8.** A hunting licence bears the holder’s name and date of birth.

It also bears a number, the name of the animal or group of animals for which it is issued and the date, hour and minute of issue.

The licence for which a hunter’s or trapper’s certificate is required bears the certificate number and the code that corresponds to the activity and the weapons for which it was issued.

It must bear the signature of both the holder and the issuer.

M.O. 99021, s. 8.

**8.1.** The holder of a resident’s or non-resident’s hunting licence must enter his or her name, address and date of birth on the back of the licence when any of those particulars does not appear on the front or is inaccurate.

M.O. 2010-042, s. 4.

**9.** A hunting licence, white-tailed deer or moose shows the number of the area and the part thereof, where applicable, for which it is issued.

With regard to a hunting licence, white-tailed deer, wild turkey, black bear or moose other than the “Moose, correction of area” licence, the transportation coupons, the total number of which is prescribed in Schedule I, are attached to the licence.

With regard to a moose hunting licence other than the “Moose, correction of area” licence, the transportation coupon indicates that the licence holder may:

- (1) *(subparagraph revoked)*;
- (2) have the area number indicated on his licence changed in accordance with section 9.1.

M.O. 99021, s. 9; M.O. 2007-017, s. 1; M.O. 2008-017, s. 1; M.O. 2010-012, s. 1; M.O. 2010-042, s. 5; M.O. 2018-003, s. 3.

**9.1.** Where the area number entered on a “Moose, all areas” hunting licence is wrong, the holder of the licence may obtain a “Moose, correction of area” hunting licence, which is issued once a year, inasmuch as the following conditions are met:

- (1) if the holder holds a hunter’s or trapper’s certificate bearing code “F”, the date of issue of the licence must not have authorized its holder to hunt moose with a type 10 or 13 implement in the wrong area;
- (2) if the holder holds a hunter’s or trapper’s certificate bearing code “A”, or is a resident who does not hold a hunter’s or trapper’s certificate bearing code “A”, “B” or “F”, the date of issue of the licence must not have authorized its holder to hunt moose with a type 6, 10, 11 or 13 implement in the wrong area;
- (3) if the holder holds a hunter’s or trapper’s certificate bearing code “B”, the date of issue of the licence must not have authorized its holder to hunt moose with a type 10, 11 or 13 implement in the wrong area; or
- (4) if the holder is a non-resident, the date of issue of the licence must not have authorized its holder to hunt moose with a type 6, 10, 11 or 13 implement in the wrong area.

For the purposes of subparagraphs 1, 2 and 3 of the first paragraph, if the “Moose, correction of area” hunting licence is required for an area or part of area where the moose hunting season with a type 13 implement is open, subject to the second paragraph of section 13.2, the licence may be used only if the date of issue of the licence with the wrong area number, for a resident, is prior to the opening date of the hunting season in the area for which the “Moose, correction of area” hunting licence is applied for.

To obtain a “Moose, correction of area” licence, the holder of a “Moose, all areas” licence must not have used it to participate in a hunting activity in a place mentioned in the third paragraph of section 13.2.

In addition, for the purposes of the first paragraph, where the holder of a “Moose, all areas” hunting licence with the wrong area number is also the holder of an authorization for a handicapped person referred to in section 58 of the Act respecting the conservation and development of wildlife (chapter C-61.1) authorizing the holder to hunt with a crossbow during a hunting season with a type 6 implement in the wrong area, the holder is considered to have been authorized to hunt with a type 6 implement.

M.O. 2010-042, s. 6; M.O. 2012-015, s. 1; M.O. 2018-003, s. 4.

**10.** Despite sections 8 and 9, the name and address of the licence holder must be indicated on the following licences:

- (1) “White-tailed deer, female or male with antlers less than 7 cm” hunting licence;
- (2) *(subparagraph revoked)*;

(3) “Moose, female more than one year old” hunting licence.

These licences also bear a number, the name of the animal for which it was issued and the number of the area or part of area, the part of territory, the wildlife sanctuary or the controlled zone, if applicable, where the animal may be hunted. They must be signed by the holder.

M.O. 99021, s. 10; M.O. 2001-006, s. 1; M.O. 2001-026, s. 1; M.O. 2008-017, s. 2; M.O. 2017-002, s. 2; M.O. 2020-03-18, s. 5.

**11.** Subject to the second paragraph, a hunting licence expires at the end of the hunting season for the animal or group of animals for which it was issued or when the transportation coupons have been removed or should have been removed in accordance with the Regulation respecting hunting activities (chapter C-61.1, r. 1) or, in the case of licences for antlerless deer or female moose, when the licence is punched out or should have been punched out in accordance with that Regulation.

A licence replaced under section 12 expires on the date the new licence is issued.

Despite the first paragraph, the small game hunting licence and the small game using a bird of prey hunting licence are valid from their date of issue to the expiry date entered on the licence.

Despite the first paragraph, the “White-tailed deer, female or male with antlers less than 7 cm, all areas except Area 20” hunting licence expires on the date of expiry, within the meaning of the first paragraph, of the “White-tailed deer, elsewhere than in Area 20” hunting licence.

Despite the first paragraph, the “Moose, female more than 1 year old” hunting licence expires on the date of expiry, within the meaning of the first paragraph, of the “Moose, all areas” hunting licence.

M.O. 99021, s. 11; M.O. 2008-017, s. 3; M.O. 2010-042, s. 7; M.O. 2012-015, s. 2; M.O. 2017-002, s. 3; M.O. 2020-03-18, s. 6.

**12.** Where a licence is lost, stolen or unusable, it may be replaced upon the holder’s request and upon payment of the fees or duties prescribed in the Regulation respecting the scale of fees and duties related to the development of wildlife (chapter C-61.1, r. 32).

With regard to a moose hunting licence and a white-tailed deer hunting licence, a lost, stolen or unusable licence may only be replaced for the area or part of area for which it was previously issued.

M.O. 99021, s. 12; M.O. 2018-011, s. 1; M.O. 2020-03-18, s. 7.

**13.** The number of “White-tailed deer, female or male with antlers less than 7 cm, all areas except Area 20” hunting licences is limited per year to the number shown in section 1 of Schedule II for each of the areas or parts of area, parts of territories, wildlife sanctuaries or controlled zones prescribed.

The number of “Moose, female more than 1 year old” hunting licences is limited per year to the number shown in section 3 of Schedule II, for each of the areas or parts of areas, parts of territories, wildlife sanctuaries or controlled zones prescribed.

The number of black bear hunting licences for non-residents for Areas 13 and 16, excluding the controlled territories referred to in Chapter IV of the Act respecting the conservation and development of wildlife (chapter C-61.1) is limited to 1,137 per year.

M.O. 99021, s. 13; M.O. 2000-021, s. 1; M.O. 2001-017, s. 1; M.O. 2001-026, s. 2; Decision 02-54, s. 1; Decision 03-66, s. 1; M.O. 2003-026F, s. 1; M.O. 2004-003F, s. 1; M.O. 2004-033, ss. 1 and 9; M.O. 2005-022, ss. 1 and 15; M.O. 2006-020, s. 3; M.O. 2007-017, s. 2; M.O. 2008-017, s. 4; M.O. 2010-011, s. 1; M.O. 2010-042, ss. 8 and 14; M.O. 2011-026, s. 1; M.O. 2014-002, s. 1; M.O. 2018-003, s. 5; M.O. 2020-03-18, s. 8.

§ 3. — *Conditions for holding a hunting licence*

M.O. 2010-042, s. 9.

**13.1.** The holder of a hunting licence may hunt only the animal or group of animals specified on the licence and, in the case of white-tailed deer or moose, only in the area or part of that area specified on the licence.

The holder of a “Moose, all areas”, “White-tailed deer, elsewhere than in Area 20” or “Additional white-tailed deer, elsewhere than in Area 20” hunting licence may, irrespective of the area for which the licence is issued, participate in a restricted hunt in a wildlife sanctuary or in a hunting expedition in a restricted access sector of a controlled zone, in a territory where exclusive hunting rights have been granted to an outfitting operation, or in the territories whose plans are shown in Schedules CXLVII, CXLVIII and CLXXXIX. However, the holder of a “White-tailed deer, elsewhere than in Area 20” and “Additional white-tailed deer, elsewhere than in Area 20” hunting licence who has used either licence in one of those territories may continue to hunt white-tailed deer in the area in which the territory is situated only if more than one deer may be harvested there under section 24.

In addition, where a hunter’s or trapper’s certificate is required to obtain a hunting licence, the holder of that licence may hunt only with the hunting weapon corresponding to the code specified on the certificate and defined in section 5.

M.O. 2010-042, s. 9; M.O. 2018-003, s. 6; M.O. 2020-03-18, s. 9.

**13.2.** The holder of a resident’s or non-resident’s “Moose, all areas” hunting licence who hunts with a type 13 implement may use the licence only if the date of issue of the licence is prior to the opening date of the hunting season with that implement, in the area in question.

In addition, in the southern part of Area 19 and in Area 27, the licence holder may use his or her licence only if the date of issue of that licence is prior to the opening date of the latest hunting season with a type 13 implement provided for those areas.

However, a licence issued after the date prescribed in the first paragraph may be used where, pursuant to section 12, it replaces a licence issued prior to that date, if the licence holder uses the services of an outfitter without exclusive rights at all times of the hunting activity or where the holder participates in a restricted hunt in a wildlife sanctuary or in a hunting expedition in a restricted access sector of a controlled zone, in a territory where exclusive hunting rights have been granted to an outfitting operation or in the territories described in Schedules CXLVII, CXLVIII and CLXXXIX; this also applies to the area in question provided that the holder has already hunted in one of those territories.

M.O. 2010-042, s. 9; M.O. 2014-002, s. 2; M.O. 2018-003, s. 7.

**13.3.** Subject to section 7.3, the holder of a resident’s “wild turkey” hunting licence must, to hunt wild turkey, hold and carry the attestation referred to in section 7.2.

The holder of a licence must show it to any wildlife protection officer or wildlife protection assistant who requests it.

The holder of a licence who declares having forgotten the attestation must, within 7 days of the declaration, produce it to a wildlife protection officer.

M.O. 2010-042, s. 9; M.O. 2016-003, s. 4.

**13.4.** The holder of a “Moose, all areas” hunting licence who has obtained a “Moose, correction of area” hunting licence may no longer hunt in the area specified on the initial licence, and must carry both licences when hunting.

M.O. 2010-042, s. 9.

**13.4.1.** A person between 12 and 24 years of age, referred to in section 7.1 or 7.2 of the Regulation respecting hunting activities (chapter C-61.1, r. 1), who killed an animal under the licence of a holder who is 18 years of age or more, may not obtain a licence to hunt that species, unless the licence of the holder who is 18 years of age or more includes 2 transportation coupons and the person between 12 and 24 years of age has killed only 1 animal. In that case, the latter may obtain his or her own licence to complete his or her bag limit.

M.O. 2014-002, s. 3.

**13.5.** The holder of a “Small game using a bird of prey” licence must, to hunt with the licence, also hold a specific licence to keep birds of prey issued under the Regulation respecting licences to keep animals in captivity (chapter C-61.1, r. 20.1.1) or be accompanied by a holder of such licence.
