Maximum penalty: \$20 000.

- (1) A regulated operator must, on the application of a person with a proper interest in making an access proposal to the regulated operator, provide the applicant with information reasonably requested by the applicant about—
 - (a) the extent to which the regulated operator's regulated infrastructure is currently being utilised; and
 - (b) the extent to which it would be necessary, and technically and economically feasible, to alter or add to the regulated operator's infrastructure so that it could meet requirements stated in the application; and
 - (c) whether the regulated operator would be prepared to provide access to regulated infrastructure and infrastructure services of a specified description and—
 - (i) if so, the general terms and conditions (including an indication of the likely price) on which the regulated operator would be prepared to provide access; and

Division 4—Negotiation of access

86I—Access proposal

- (1) A person (the *proponent*) who wants access to regulated infrastructure, or who wants to vary an access contract in a significant way or to a significant extent, may make a written proposal (the *access proposal*) to the regulated operator of that infrastructure setting out—
 - (a) the nature and extent of the required access or variation; and
 - (b) terms and conditions for the provision of access, or for making the variation, that the proponent considers reasonable and commercially realistic and to which the proponent is prepared to agree.
- (2) If the implementation of an access proposal would require an alteration of or addition to water infrastructure or sewerage infrastructure, the access proposal may include a proposal for that alteration or addition.
- (3) If the regulated operator requires, a proponent must provide further information about the proponent's proposal that the regulated operator reasonably requires in order to assess and respond to the proposal.
- (4) The regulated operator must, within 1 month after the relevant day—
 - (a) give written notice of the proposal to—

- (i) the regulator; and
 - (ii) any person (an *affected third party*) whose rights would be affected by the implementation of the proposal; and
- (b) notify the proponent of the name and address of any affected third party and give the proponent a preliminary indication about—
 - (i) whether the regulated operator is prepared to provide access to the regulated infrastructure and infrastructure services and, if so, on what terms and conditions; and
 - (ii) if some alteration of, or addition to, existing infrastructure would be necessary to provide the access, whether the regulated operator would agree to the alteration or addition and, if so, on what terms.
- (5) The *relevant day* is the day on which the written proposal is made to the regulated operator or, if the regulated operator requires further information under subsection (3), the day on which that information is provided.
- (6) Notice of an access proposal may be given to affected third parties by publishing a notice in a newspaper circulating generally in the State stating—
 - (a) the name of the proponent and an address at which the proponent may be contacted; and
 - (b) the name of the operator and an address at which the regulated operator may be contacted; and
 - (c) the general nature of the access proposal.
- (7) A regulated operator may recover the reasonable costs of giving notice under this section, as a debt, from the proponent.

86J—Duty to negotiate in good faith

- (1) The regulated operator must negotiate in good faith with the proponent with a view to reaching agreement on whether the proponent's requirements as set out in the access proposal (or some agreed modification of the requirements) could reasonably be met, and, if so, the terms and conditions for the provision of access for the proponent.
- (2) An interested third party must also negotiate in good faith with the proponent with a view to reaching agreement on the provision of access to the proponent and any consequent variation of the interested third party's rights (or prospective rights) of access.
- (3) An *interested third party* is an affected third party who, by notice given to the proponent or the regulated operator, indicates its interest in the negotiations.

86K—Existence of dispute

- (2) A party to the dispute may refer the dispute to the regulator.

Division 5—Conciliation

86L—Settlement of dispute by conciliation

- (1) If a dispute is referred to the regulator, the regulator must, in the first instance, seek to resolve the dispute by conciliation.
- (2) The regulator need not attempt to resolve a dispute by conciliation if, in the regulator's opinion—
 - (a) the subject-matter of the dispute is trivial, misconceived or lacking in substance; or
 - (b) the parties have not negotiated in good faith.
- (3) In attempting to resolve a dispute by conciliation, the regulator must have regard to the same factors as would be relevant in an arbitration of the dispute.

86M—Voluntary and compulsory conferences

- (1) The regulator may call voluntary or compulsory conferences of the parties to the dispute to explore the possibility of resolving the dispute by agreement.
- (2) The regulator, or a nominee of the regulator, will preside at any such conference.

Maximum penalty: \$20 000.

Division 6—Reference of dispute to arbitration

86N—Power to refer dispute to arbitration

- (1) If a dispute is not resolved by conciliation after the regulator has made reasonable attempts to do so, or if it appears unlikely that a dispute can be resolved by conciliation, or, in any event, if the dispute is not resolved within 6 months after the referral of the dispute to the regulator under Division 5, the regulator may refer the dispute to arbitration.
- (2) The regulator need not refer a dispute to arbitration if, in the regulator's opinion—
 - (a) the subject-matter of the dispute is trivial, misconceived or lacking in substance; or
 - (b) the parties have not negotiated in good faith; or
 - (c) there are other good reasons why the dispute should not be referred to arbitration.
- (3) The arbitrator is to be a person selected by the regulator after consultation with the parties to the dispute and must be a person who—
 - (a) is independent of the parties to the dispute; and
 - (b) is not subject to the control or direction of the South Australian Government in any capacity; and
 - (c) is properly qualified to act in the resolution of the dispute; and

- (d) has no direct or indirect interest in the outcome of the dispute.

The *Commercial Arbitration Act 2011* applies to an arbitration under this Part to the extent that it may operate consistently with the provisions of this Act.

86P—Principles to be taken into account

- (1) The arbitrator must take into account—
 - (a) the objects of this Act; and
 - (b) the regulated operator's legitimate business interests and investment in the regulated infrastructure; and
 - (c) the costs to the regulated operator of providing access as sought by the proponent (including the costs of any necessary alteration of, or addition to, existing infrastructure) but not costs associated with losses arising from increased competition in upstream or downstream markets; and
 - (d) the economic value to the regulated operator of any additional investment that the proponent or the regulated operator has agreed to undertake; and
 - (e) the interests of all persons holding contracts for use of any regulated infrastructure or infrastructure services; and
 - (f) firm and binding contractual obligations of the regulated operator or other persons (or both) already using any regulated infrastructure or infrastructure services; and
 - (g) the operational and technical requirements necessary for the safe and reliable operation of the regulated infrastructure; and
 - (h) the economically efficient operation of any regulated infrastructure; and
 - (i) the benefit to the public from having competitive markets; and
 - (j) any direction given to the regulated operator (in the case of a regulated operator that is a public corporation) by its Minister under the *Public Corporations Act 1993* that is relevant to the arbitration; and
 - (k) the pricing principles specified in subsection (2); and
 - (l) other matters the arbitrator considers appropriate.
- (2) The pricing principles relating to the price of access are as follows:
 - (a) that access prices should be set so as to generate expected revenue that is at least sufficient to meet the efficient costs of providing access and include a return on investment commensurate with the regulatory and commercial risks involved;
 - (b) that access prices should allow multi-part pricing and price discrimination when it aids efficiency;

- (c) that access prices should not allow a vertically integrated operator to set terms and conditions that would discriminate in favour of its downstream operations, except to the extent that the cost of providing access to others would be higher;
 - (d) that access prices should provide incentives to reduce costs or otherwise improve productivity.
- (3) In addition—
- (a) the arbitrator cannot make an award that would have the effect of requiring the regulated operator to bear any capital cost of an alteration of, or addition to, any infrastructure unless the regulated operator agrees; and
 - (b) the arbitrator cannot make an award that would prejudice the rights of a person who has the use of the regulated infrastructure or infrastructure services under an earlier contract or award unless that person agrees; and
 - (c) the arbitrator cannot make an award that is inconsistent with any requirement under—
 - (i) the *Natural Resources Management Act 2004*; or
 - (ii) the *Safe Drinking Water Act 2011*; or
 - (iii) the *South Australian Public Health Act 2011*; or
 - (iv) the *Environment Protection Act 1993*; or
 - (v) any other law or legislative requirement relating to health, safety or the environment.
- (4) Without limiting subsection (3)(c), the arbitrator must accept any advice provided by a department of the Public Service or other public sector agency that is responsible for assisting a Minister in the administration of an Act referred to in that section about whether or not a particular decision or course of action would be inconsistent with the Act in question.

- (2) An arbitrator may hear 2 or more proceedings relating to the same general subject matter together.
- (3) An arbitrator may proceed with arbitration proceedings in the absence of a party if the party has been given at least 14 days notice of the proceedings.

- (4) An arbitrator may engage a legal practitioner to provide advice on the conduct of the arbitration and to assist the arbitrator in drafting the award.

86X—Giving of relevant documents to the arbitrator

A party to the arbitration may give the arbitrator a copy of all documents (including confidential documents) the party considers to be relevant to the dispute.

 - (i) to give the arbitrator a written statement of specified information; or
 - (ii) to produce to the arbitrator specified documents or copies of specified documents; or
 - (b) require the person to appear before the arbitrator at a specified time and place to give evidence.
- (2) A written statement must, if the arbitrator so requires, be verified by statutory declaration of the person providing the information or, if the person is a body corporate, an appropriate officer of the body corporate.
- (3) If documents are produced to an arbitrator, the arbitrator may—
- (a) take possession of, make copies of, and take extracts from, the documents; and

- (4) A person must—
- (a) comply with a requirement of the arbitrator under subsection (1) or (2); and
 - (b) if the person is required to appear as a witness before the arbitrator—comply with further requirements to make an oath or affirmation, or to answer questions.

Maximum penalty: \$20 000.

- (5) However, a person need not give information or produce a document if—
- (a) the information or the contents of the document are the subject of legal professional privilege, or would tend to incriminate the person of an offence; and
 - (b) the person objects to giving the information or producing the document by giving written notice of the ground of the objection to the arbitrator or, if the person is appearing as a witness before the arbitrator, by an oral statement of the ground of objection.

86Z—Confidentiality of information

- (1) A person who gives the arbitrator information, or produces documents, may ask the arbitrator to keep the information or the contents of the documents confidential.

- (2) The arbitrator may, after considering representations from the parties, impose conditions limiting access to, or disclosure of, the information or documentary material.

 - (b) the proponent has not engaged in negotiations in good faith; or
 - (c) the terms and conditions on which the access is to be provided should continue to be governed by an existing contract or award.
- (2) Before terminating an arbitration under this section, the arbitrator must give the regulator an opportunity to make representations on the matter.

86ZC—Time limit for arbitration

- (1) An award must be made within the period of 6 months from the date on which the dispute is referred to arbitration (the *standard period*).
- (2) However, if after the commencement of the standard period the arbitrator exercises a power under this Part in relation to the provision of information or documents, any period between the date of the exercise of the power and the date of compliance is not to be taken into account when determining the end date of the standard period.

86ZD—Formal requirements related to awards

- (1) Before the arbitrator makes an award, the arbitrator must give each party, the Minister, the regulator and each designated agency a copy of the draft award and may take into account representations that any of them may make on the proposed award.
