(2) Personnel of the provider participant shall continue under the personnel's local command and control structure, but shall be under the operational control of the appropriate officials within the incident management system of the requesting participant.

(3) Law enforcement officers rendering assistance or aid under this section have the same powers and duties as law enforcement officers of the requesting participant, but only for the period the law enforcement officers are engaged in activities authorized by the requesting participant, and are subject to the law as if the law enforcement officers were providing services within the law enforcement officer's own jurisdiction.

(f) Each provider participant shall provide for the payment of compensation and benefits to:

(1) an injured member; and

(2) a representative of a deceased member; of the provider participant's emergency forces, if the member is injured or killed while rendering assistance under this section in the same manner and on the same terms as if the injury or death were sustained while the member was rendering assistance for or within the member's own jurisdiction.

(g) Personnel of a provider participant shall be considered, while rendering assistance or aid, or while en route to or from rendering assistance or aid, to a requesting participant, to be agents of the provider participant for purposes of tort liability and immunity from tort liability under state law.

(i) Subject to subsection (k) and except as provided in subsection (j), a provider participant shall be reimbursed by the requesting participant for the following:

To avoid duplication of payments, insurance proceeds available to cover any loss of or damage to equipment of a provider participant shall be considered in the reimbursement by the requesting participant.

(2) Any expense incurred in the provision of any service used in rendering the assistance or aid.

(3) All other costs incurred in responding to the request for assistance or aid.

(j) A provider participant may not be reimbursed for:

(l) Nothing in this section does any of the following:

(A) the participant approves the participation; and

(B) the contract with the private company allows for the participation.

IC 10-14-3-12 Disaster emergency; emergency gubernatorial powers

Sec. 12. (a) The governor shall declare a disaster emergency by executive order or proclamation if the governor determines that a disaster has occurred or that the occurrence or the threat of a disaster is imminent. The state of disaster emergency continues until the governor:

- (1) determines that the threat or danger has passed or the disaster has been dealt with to the extent that emergency conditions no longer exist; and
- (2) terminates the state of disaster emergency by executive order or proclamation.

A state of disaster emergency may not continue for longer than thirty (30) days unless the state of disaster emergency is renewed by the governor. The general assembly, by concurrent resolution, may terminate a state of disaster emergency at any time. If the general assembly terminates a state of disaster emergency under this subsection, the governor shall issue an executive order or proclamation ending the state of disaster emergency. All executive orders or proclamations issued under this subsection must indicate the nature of the disaster, the area or areas threatened, and the conditions which have brought the disaster about or that make

possible termination of the state of disaster emergency. An executive order or proclamation under this subsection shall be disseminated promptly by means calculated to bring the order's or proclamation's contents to the attention of the general public. Unless the circumstances attendant upon the disaster prevent or impede, an executive order or proclamation shall be promptly filed with the secretary of state and with the clerk of the city or town affected or with the clerk of the circuit court.

(b) An executive order or proclamation of a state of disaster emergency:

(1) activates the disaster response and recovery aspects of the state, local, and interjurisdictional disaster emergency plans applicable to the affected political subdivision or area; and

(2) is authority for:

(A) deployment and use of any forces to which the plan or plans apply; and

(B) use or distribution of any supplies, equipment, materials, and facilities assembled, stockpiled, or arranged to be made available under this chapter or under any other law relating to disaster emergencies.

(c) During the continuance of any state of disaster emergency, the governor is commander-in-chief of the organized and unorganized militia and of all other forces available for emergency duty. To the greatest extent practicable, the governor shall delegate or assign command authority by prior arrangement embodied in appropriate executive orders or regulations. This section does not restrict the governor's authority to delegate or assign command authority by orders issued at the time of the disaster emergency.

(d) In addition to the governor's other powers, the governor may do the following while the state of emergency exists:

(1) Suspend the provisions of any regulatory statute prescribing the procedures for conduct of state business, or the orders, rules, or regulations of any state agency if strict compliance with any of these provisions would in any way prevent, hinder, or delay necessary action in coping with the emergency.

(2) Use all available resources of the state government and of each political subdivision of the state reasonably necessary to cope with the disaster emergency.

(3) Transfer the direction, personnel, or functions of state departments and agencies or units for performing or facilitating emergency services.

(4) Subject to any applicable requirements for compensation under section 31 of this chapter, commandeer or use any private property if the governor finds this action necessary to cope with the disaster emergency.

(5) Assist in the evacuation of all or part of the population from any stricken or threatened area in Indiana if the governor considers this action necessary for the preservation of life or other disaster mitigation, response, or recovery.

(6) Prescribe routes, modes of transportation, and destinations in connection with evacuation.

(7) Control ingress to and egress from a disaster area, the movement of persons within the area, and the occupancy of premises in the area.

(8) Suspend or limit the sale, dispensing, or transportation of alcoholic beverages, explosives, and combustibles.

(9) Make provision for the availability and use of temporary emergency housing.

(10) Allow persons who:

(A) are registered as volunteer health practitioners by an approved registration system under IC 10-14-3.5; or

(B) hold a license to practice:

(i) medicine;

(ii) dentistry;

(iii) pharmacy;

(iv) nursing;

(v) engineering;

(vi) veterinary medicine;
(vii) mortuary service; and
(viii) similar other professions as may be specified by the governor;
to practice their respective profession in Indiana during the period of the state of emergency if the state in which a person's license or registration was issued has a mutual aid compact for emergency management with Indiana.

(11) Give specific authority to allocate drugs, foodstuffs, and other essential materials and services.

IC 10-14-3-13 Energy emergency proclamation; additional duties and special powers of governor; exemption; effect of cessation

Sec. 13. (a) In addition to the governor's existing powers and duties, the governor has the duties and special energy emergency powers set forth in this section, subject to the limitations in this chapter.

(b) The governor may, upon finding that an energy emergency exists, proclaim a state of energy emergency at which time all the general and specific emergency powers specified in this section and section 14 of this chapter become effective.

(c) A proclamation issued under this section and any order or rule issued as a result of the proclamation continues in effect until sixty (60) days after the date of the proclamation of the energy emergency unless the governor rescinds the proclamation and declares the energy emergency ended before the expiration of the sixty (60) day period.

(d) The governor may not renew or extend a proclamation more than once without approval of the general assembly.

(e) The conditions of an energy emergency cease when the governor declares the end of an energy emergency.

(f) In a declared state of energy emergency, the governor may do the following:

(1) Implement programs, controls, standards, priorities, and quotas for the conservation and consumption of energy, including plans and commission regulations for the curtailment of energy if the governor imposes controls, quotas, or curtailments according to the nature of the end use to be made of the energy consistent with existing transmission and distribution systems serving the geographic area affected by the energy emergency.

(2) Suspend and modify state pollution control standards and requirements affecting or affected by the use of energy, including standards or requirements relating to air or water quality control.

(3) Establish and implement intrastate regional programs and agreements for the purposes of coordinating the energy program and actions of the state with the federal government and other states, localities, and other persons.

(4) Designate the execution and enforcement of emergency orders to a state agency that regulates the energy form, resource, or suppliers that are the subject of the proclaimed emergency.

(5) Suspend the provisions of any state statute regulating transportation or the orders or rules of any state agency if strict compliance with any of the provisions would prevent, hinder, or delay necessary action in coping with the energy emergency.

(g) Restrictions, curtailments, or adjustments under subsection (f) must:

(1) be ordered and continue only as long as demonstrably necessary for the maintenance of essential services or transportation or for the continued operation of the economy but not longer than the proclamation's duration;

(2) be applied as uniformly as practicable within each class of suppliers and consumers and without discrimination within a class; and

(3) give due consideration to:

- (A) the implementation of involuntary measures only after voluntary measures have been determined to be ineffective;
- (B) protection of public health and safety;
- (C) maintenance of vital activities, including but not limited to food, shelter, fuel, and medical care;
- (D) minimization of economic impact on commercial, retail, professional, agricultural, and service establishments;
- (E) cooperation with other state, local, and federal governments to avoid duplicating efforts; and
- (F) maintenance of public information channels.

(h) This section does not mean that any program, control, standard, priority quota, or other policy created under the authority of the emergency powers authorized by this section has any continuing legal effect after the cessation of a declared state of energy emergency.

(i) Except as provided in this section, this chapter does not exempt a person from compliance with the provisions of any other law, rule, or directive unless:

- (1) specifically ordered by the governor; or
- (2) impossibility of compliance is a direct result of the governor's order.

(j) A proclamation issued under this section shall be:

- (1) disseminated promptly and in a manner calculated to inform the general public of its contents; and
- (2) filed promptly with the secretary of state and the clerk of each circuit court of Indiana.

IC 10-14-3-14 Declaration of energy emergency; procedures

Sec. 14. (a) In determining whether to declare an energy emergency under section 13 of this chapter, the governor shall consider:

- (1) the availability of regional and national energy resources;
- (2) local, state, regional, and national energy needs and shortages;
- (3) the availability of short term alternative supplies on a local, state, regional, and national basis;
- (4) the economic effect of the declaration and the implementation of any curtailment or conservation plans; and
- (5) any other relevant factors.

(b) To protect the public welfare during conditions of energy emergencies proclaimed under section 13 of this chapter, the governing body of each city, town, or political subdivision of the state and each state agency (including the utility regulatory commission) shall carry out in the body's or agency's jurisdiction energy supply emergency measures ordered by the governor.

(c) To attain uniformity throughout the country in measures taken to aid in energy crisis management, all:

- (1) action taken under this section and section 13 of this chapter; and
- (2) orders and rules made under this section and section 13 of this chapter;

must be taken or made consistent with federal orders, rules, actions, recommendations, and requests.

(d) A person shall comply with a specific order issued or action taken by the governor under this section or section 13 of this chapter.

- (C) relevant books;
- (D) papers;
- (E) accounts;
- (F) records; and
- (G) memoranda;

(2) administer oaths; and

(3) cause the depositions of persons residing within or outside Indiana to be taken in the manner prescribed for depositions in civil actions;

to obtain information relevant to energy resources that are the subject of the proclaimed emergency.

(f) In obtaining information under subsection (e), the governor shall:

(1) avoid eliciting information already furnished by a person or political subdivision in Indiana to a federal, state, or local regulatory authority that is available for the governor's study; and

(2) cause reporting procedures, including forms, to conform to existing requirements of federal, state, and local regulatory authorities wherever possible.

(g) Information obtained under this section from a person who designates that information as confidential shall be maintained as confidential by the governor and by any person who obtains information that the person knows to be confidential under this chapter. The governor may not make known in any manner any particulars of information to persons other than those specified in subsection (j).

(h) This section does not prohibit the use of confidential information to prepare statistics or other general data for publication if the information is presented in a manner that prevents identification of the particular persons.

(i) A person who is served with a subpoena to:

(1) give testimony orally or in writing; or

(2) produce books, papers, correspondence, memoranda, agreements, or other documents or records;

under this chapter may apply to an Indiana court for protection against abuse or hardship in the manner provided by law.

(j) For purposes of this section, references to the governor in this section include any other individual designated in writing by the governor. A person designated by the governor shall preserve the confidentiality of information in accordance with subsection (g).

(k) The powers vested in the governor under this section and section 13 of this chapter are in addition to and not instead of emergency powers vested in the governor under this chapter or any other state law.

(l) The governor may authorize the incurring of liabilities and expenses to be paid as other claims against the state from the general fund in the amount necessary if:

(1) an energy emergency is declared by the governor; and

(2) the energy emergency justifies the expenditure;

in accordance with section 28 of this chapter for other emergency or disaster expenditures.

IC 10-14-3-15 Governmental functions; liability; emergency management workers

Sec. 15. (a) Any function under this chapter and any other activity relating to emergency management is a governmental function. The state, any political subdivision, any other agencies of the state or political subdivision of the state, or, except in cases of willful misconduct, gross negligence, or bad faith, any emergency management worker complying with or reasonably attempting to comply with this chapter or any order or rule adopted under this chapter, or under any ordinance relating to blackout or other precautionary measures

enacted by any political subdivision of the state, is not liable for the death of or injury to persons or for damage to property as a result of any such activity. This section does not affect the right of any person to receive:

- (1) benefits to which the person would otherwise be entitled under:
 - (A) this chapter;
 - (B) the worker's compensation law (IC 22-3-2 through IC 22-3-6); or
 - (C) any pension law; or
- (2) any benefits or compensation under any federal law.

(b) Any requirement for a license to practice any professional, mechanical, or other skill does not apply to any authorized emergency management worker who, in the course of performing duties as an emergency management worker, practices a professional, mechanical, or other skill during a disaster emergency.

(c) Except as provided in subsection (d), a volunteer working as an authorized emergency management worker may be covered by the medical treatment and burial expense provisions of the worker's compensation law (IC 22-3-2 through IC 22-3-6) and the worker's occupational diseases law (IC 22-3-7). If compensability of the injury is an issue, the administrative procedures of IC 22-3-2 through IC 22-3-7 shall be used to determine the issue.

(d) An individual described in section 19(c)(2) of this chapter is considered to be a temporary employee of the state for purposes of the worker's compensation law (IC 22-3-2 through IC 22-3-6) and the worker's occupational diseases law (IC 22-3-7).

IC 10-14-3-16 Director of local organizations; mutual aid arrangements

Sec. 16. (a) The director of a local organization for emergency management may develop or cause to be developed mutual aid arrangements with other public and private agencies within Indiana for reciprocal emergency management aid and assistance in case of disaster too great to be dealt with unassisted. An arrangement must be consistent with the state emergency management program and state emergency operations plan. During an emergency, a local organization for emergency management and the agency shall render assistance in accordance with the provisions of the mutual aid arrangement.

- (b) The director of a local organization for emergency management and disaster:
- (1) may assist in the negotiation of reciprocal mutual aid agreements between the governor and the adjoining state or the state's political subdivisions; and
 - (2) shall carry out arrangements or any agreement relating to the local and political subdivision.

(c) This subsection applies when the governor finds that two (2) or more adjoining counties would be better served by an interjurisdictional arrangement than by maintaining separate disaster agencies and services. The governor may, with the concurrence of the affected counties, delineate by executive order or regulation an interjurisdictional area adequate to plan for, prevent, or respond to disaster in that area, and direct steps to be taken as necessary, including the creation of an interjurisdictional relationship, a joint emergency operations plan, mutual aid, or an area organization for emergency management planning and services. A finding of the governor under this subsection must be based on one (1) or more factors related to the difficulty of maintaining an efficient and effective disaster prevention, preparedness, response, and recovery system on a unijurisdictional basis, including the following factors:

- (1) Small or sparse population.
- (2) Limitations on public financial resources severe enough to make maintenance of a separate disaster agency and services unreasonably burdensome.
- (3) Unusual vulnerability to disaster as evidenced by a history of disaster, topographical features, drainage characteristics, disaster potential, and presence of disaster prone

facilities or operations.

(4) The interrelated character of the counties in a multicounty area.

(5) Other relevant conditions or circumstances.

(d) If the governor finds that:

(1) a vulnerable area lies partly in Indiana and includes territory in another state or states; and

(2) it would be desirable to establish an interstate relationship, mutual aid, or an area organization for disaster;

the governor shall take steps to establish an interstate relationship. If action under this subsection is taken with jurisdictions that have enacted the emergency management assistance compact, any resulting agreement or agreements may be considered supplemental agreements under article 7 of the compact.

(e) If the other jurisdiction or jurisdictions with which the governor proposes to cooperate under subsection (d) have not enacted the emergency management assistance compact, the governor may negotiate special agreements with the jurisdiction or jurisdictions. An agreement, if sufficient authority for making the agreement does not otherwise exist, becomes effective only:

(1) after the agreement's text has been communicated to the general assembly; and

(2) if a house of the general assembly does not disapprove of the agreement by the later of:

(A) the date of adjournment of the next ensuing session that is competent to consider the agreement; or

(B) not more than thirty (30) days after the date of the submission of the agreement.

(e) Notwithstanding any provision of this chapter or other law to the contrary, the governor may require a political subdivision to establish and maintain a disaster agency jointly with one (1) or more contiguous political subdivisions with the concurrence of the affected political subdivisions if the governor finds that the establishment and maintenance of an agency or participation in one (1) is necessary by circumstances or conditions that make it unusually difficult to provide:

- (1) may be declared only by the principal executive officer of a political subdivision; and
- (2) may not be continued or renewed for more than seven (7) days except by or with the consent of the governing board of the political subdivision.

Any order or proclamation declaring, continuing, or terminating a local disaster emergency shall be given prompt and general publicity and shall be filed promptly in the office of the clerk of the political subdivision.

- (1) "Advisory", the lowest level of local travel advisory, means that routine travel or activities may be restricted in areas because of a hazardous situation, and individuals should use caution or avoid those areas.
- (2) "Watch" means that conditions are threatening to the safety of the public. During a "watch" local travel advisory, only essential travel, such as to and from work or in emergency situations, is recommended, and emergency action plans should be implemented by businesses, schools, government agencies, and other organizations.
- (3) "Warning", the highest level of local travel advisory, means that travel may be restricted to emergency management workers only. During a "warning" local travel advisory, individuals are directed to:
 - (A) refrain from all travel;
 - (B) comply with necessary emergency measures;
 - (C) cooperate with public officials and disaster services forces in executing emergency operations plans; and

IC 10-14-3-30 Additional measures, studies, recommendations

Sec. 30. (a) In addition to disaster prevention measures as included in the state, local, and interjurisdictional disaster plans, the governor shall consider on a continuing basis steps that

could be taken to prevent or reduce the harmful consequences of disasters. At the governor's direction, and under any other authority state agencies have, state agencies, including those charged with responsibilities in connection with:

- (1) flood plain management;
- (2) stream encroachment and flow regulation;
- (3) fire prevention and control;
- (4) air quality;
- (5) public works; and
- (6) use and land use planning and construction standards;

shall make studies of disaster prevention related matters. The governor shall make recommendations to the general assembly, local governments, and other appropriate public and private entities to facilitate measures for prevention or reduction of the harmful consequences of disasters.

(b) In conjunction with the agency, an appropriate state agency shall keep land uses and construction of structures and other facilities under continuing study and identify areas that are particularly susceptible to:

- (1) severe land shifting;
- (2) subsidence;
- (3) flood; or
- (4) other catastrophic occurrence.

The studies under this subsection must concentrate on means of reducing or avoiding the dangers caused by this occurrence or its consequences.

(c) If the agency believes on the basis of the studies or other competent evidence:

- (1) that an area is susceptible to a disaster of catastrophic proportions without adequate warning;
- (2) that existing building standards and land use controls in that area are inadequate and could add substantially to the magnitude of the disaster; and
- (3) that changes in zoning regulations, other land use regulations, or building requirements are essential in order to further the purposes of this section;

the agency shall specify the essential changes to the governor. The governor shall recommend changes to the agencies or local governments with jurisdiction over the area and subject matter that the governor finds to be essential upon review of the specified changes and a public hearing. If no action or insufficient action under the governor's recommendations is taken within the time specified by the governor, the governor shall inform the general assembly and request legislative action appropriate to mitigate the effect of disaster.

(d) The governor, at the same time that the governor makes recommendations under subsection (c), may:

- (1) suspend the standard or control that the governor finds to be inadequate to protect the public safety; and
- (2) by rule place a new standard or control in effect.

The new standard or control remains in effect until rejected by concurrent resolution of both houses of the general assembly or amended by the governor. When it is in effect, the standard or control contained in the governor's regulation is administered and given full effect by all relevant regulatory agencies of the state and local governments to which it applies. Any action taken by the governor under this section is subject to judicial review, but no court has jurisdiction to stay or restrain that action before a hearing on the merits.

This obligation includes appropriate personal service and use or restriction on the use of property in time of disaster emergency. Compensation for services or for the taking or use of property may be made only to the extent:

- (1) that obligations recognized in this chapter are exceeded in a particular case; and

(b) The general assembly intends that the first recourse shall be to funds regularly appropriated to state and local agencies. If the governor finds that the demands placed upon these funds in coping with a particular disaster are unreasonably great, the governor may make funds available from money in the budget agency from emergency or contingency appropriations available for emergency expenditures as provided in IC 4-12-1-15.

(c) Within the limits of the funds appropriated under this section, the governor may contribute to a political subdivision not more than twenty-five percent (25%) of the cost of emergency management agency personnel and administrative expenses that meet standards established by the governor.

IC 10-14-5-1 Purpose and authorities

Sec. 1. ARTICLE I—Purpose and authorities.

This compact is made and entered into by and between the participating member states which enact this compact, hereinafter called party states. For the purposes of this compact, "states" means the several states, the Commonwealth of Puerto Rico, the District of Columbia, and all U.S. territorial possessions.

The purpose of this compact is to provide for mutual assistance among the states entering into this compact in managing any emergency or disaster that is duly declared by the governor of the affected state, whether arising from natural disaster, technological hazard, man made disaster, civil emergency aspects of resources shortages, community disorders, insurgency, or enemy attack.

This compact shall also provide for mutual cooperation in emergency related exercises, testing, or other training activities using equipment and personnel simulating performance of any aspect of the giving and receiving of aid by party states or subdivisions of party states during emergencies, such actions occurring outside actual declared emergency periods. Mutual assistance in this compact may include the use of the states' National Guard forces, either in accordance with the National Guard Mutual Assistance Compact or by mutual agreement between states.

IC 10-14-5-2 General implementation

Sec. 2. ARTICLE II—General implementation.

Each party state entering into this compact recognizes that many emergencies transcend political jurisdictional boundaries and that intergovernmental coordination is essential in managing these and other emergencies under this compact. Each state further recognizes that there will be emergencies which require immediate access and present procedures to apply outside resources to make a prompt and effective response to such an emergency. This is because few, if any, individual states have all the resources they may need in all types of emergencies or the capability of delivering resources to areas where emergencies exist.

The prompt, full, and effective utilization of resources of the participating states, including any resources on hand or available from the federal government or any other source, that are essential to the safety, care, and welfare of the people in the event of any emergency or disaster declared by a party state, shall be the underlying principle on which all articles of this compact shall be understood.

On behalf of the governor of each state participating in the compact, the legally

designated state official who is assigned responsibility for emergency management will be responsible for formulation of the appropriate interstate mutual aid plans and procedures necessary to implement this compact.

IC 10-14-5-3 Party state responsibilities

Sec. 3. ARTICLE III—Party state responsibilities.

(a) It shall be the responsibility of each party state to formulate procedural plans and programs for interstate cooperation in the performance of the responsibilities listed in this article. In formulating such plans, and in carrying them out, the party states, insofar as practical, shall:

- (1) review individual state hazards analyses and, to the extent reasonably possible, determine all those potential emergencies the party states might jointly suffer, whether due to natural disaster, technological hazard, manmade disaster, emergency aspects of resources shortages, civil disorders, insurgency, or enemy attack;
- (2) review party states' individual emergency plans and develop a plan which will determine the mechanism for the interstate management and provision of assistance concerning any potential emergency;
- (3) develop interstate procedures to fill any identified gaps and to resolve any identified inconsistencies or overlaps in existing or developed plans;
- (4) assist in warning communities adjacent to or crossing the state boundaries;
- (5) protect and assure uninterrupted delivery of services, medicines, water, food, energy and fuel, search and rescue, and critical lifeline equipment, services, and resources, both human and material;
- (6) inventory and set procedures for the interstate loan and delivery of human and material resources, together with procedures for reimbursement or forgiveness; and
- (7) provide, to the extent authorized by law, for temporary suspension of any statutes or ordinances that restrict the implementation of the above responsibilities.

(b) The authorized representative of a party state may request assistance to another party state by contacting the authorized representative of that state. The provisions of this compact shall only apply to requests for assistance made by and to authorized representatives. Requests may be verbal or in writing. If verbal, the request shall be confirmed in writing within thirty (30) days of the verbal request. Requests shall provide the following information:

- (1) A description of the emergency service function for which assistance is needed, including, but not limited to, fire services, law enforcement, emergency medical, transportation, communications, public works and engineering, building, inspection, planning and information assistance, mass care, resource support, health and medical services, and search and rescue.
- (2) The amount and type of personnel, equipment, materials and supplies needed and a reasonable estimate of the length of time they will be needed.
- (3) The specific place and time for staging of the assisting party's response and a point of contact at that location.

(c) There shall be frequent consultation between state officials who have assigned emergency management responsibilities and other appropriate representatives of the party states with affected jurisdictions and the United States government, with free exchange of information, plans, and resource records relating to emergency capabilities.

IC 10-14-5-4 Limitations

Sec. 4. ARTICLE IV—Limitations.

Any party state requested to render mutual aid or conduct exercises and training for mutual aid shall take such action as is necessary to provide and make available the resources covered by this compact in accordance with the terms of this compact. However, it is understood that the state rendering aid may withhold resources to the extent necessary to provide reasonable protection for such state.

Each party state shall afford to the emergency forces of any party state, while operating within its state limits under the terms and conditions of this compact, the same powers, except that of arrest unless specifically authorized by the receiving state, duties, rights, and privileges as are afforded forces of the state in which they are performing emergency services. Emergency forces will continue under the command and control of their regular leaders, but the organizational units will come under the operational control of the emergency services authorities of the state receiving assistance. These conditions may be activated, as needed, only subsequent to a declaration of a state emergency or disaster by the governor of the party state that is to receive assistance or upon commencement of exercises or training for mutual aid and shall continue so long as the exercises or training for mutual aid are in progress, the state of emergency or disaster remains in effect, or loaned resources remain in the receiving state, whichever is longer.

No party state or its officers or employees rendering aid in another state under this compact shall be liable on account of any act or omission in good faith on the part of such forces while so engaged or on account of the maintenance or use of any equipment or supplies in connection therewith. Good faith in this article shall not include willful misconduct, gross negligence, or recklessness.

Inasmuch as it is probable that the pattern and detail of the machinery for mutual aid among two (2) or more states may differ from that among the states that are party to this compact, this compact contains elements of a broad base common to all states, and nothing in this compact precludes any state entering into supplementary agreements with another state or affects any other agreements already in force between states. Supplementary agreements may comprehend, but shall not be limited to, provisions for evacuation and reception of injured and other persons and the exchange of medical, fire, police, public utility,

Any party state rendering aid in another state under this compact shall be reimbursed by the party state receiving such aid for any loss or damage to or expense incurred in the operation of any equipment and the provision of any service in answering a request for aid and for the costs incurred in connection with such requests. However, any aiding party state may assume in whole or in part such loss, damage, expense, or other cost, or may loan such equipment or donate such services to the receiving party state without charge or cost, and any two (2) or more party states may enter into supplementary agreements establishing a different allocation of costs among those states. Article VIII expenses shall not be reimbursable under this article.

Plans for the orderly evacuation and interstate reception of portions of the civilian population as the result of any emergency or disaster of sufficient proportions to so warrant shall be worked out and maintained between the party states and the emergency management services directors of the various jurisdictions where any type of incident requiring evacuations might occur. Such plans shall be put into effect by request of the state from which evacuees come and shall include the manner of transporting such evacuees; the number of evacuees to be received in different areas; the manner in which food, clothing, housing, and medical care will be provided; the registration of the evacuees; the providing of facilities for the notification of relatives or friends; and the forwarding of such evacuees to other areas or the bringing in of additional materials, supplies, and all other relevant factors. Such plans shall provide that the party state receiving evacuees and the party state from which the evacuees come shall mutually agree as to reimbursement of out-of-pocket expenses incurred in receiving and caring for such evacuees, for expenditures for transportation, food, clothing, medicines and medical care, and like items. Such expenditures shall be reimbursed as agreed by the party state from which the evacuees come. After the termination of the emergency or disaster, the party state from which the evacuees come shall assume the responsibility for the ultimate support of repatriation of such evacuees.

(a) This compact shall become effective immediately upon its enactment into law by any two (2) states. Thereafter, this compact shall become effective as to any other state upon enactment by such state.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until thirty (30) days after the governor of the withdrawing state has given notice in writing of such withdrawal to the governors of all other party states. Such action shall not relieve the withdrawing state from obligations assumed under this compact before the effective date of withdrawal.
