same is desirable in relation to any zone, it may
recommend any such alteration to the Minister of each
Contracting Government.

agrees with any such recommendation, the
permissible rate of potentiometric surface lowering or
the permissible level of salinity, or both as the case
may be, for any zone shall be deemed to have been
altered in accordance with any such recommendation.

- (b) the permissible salinity (if any) established pursuant to sub-clause (6)—

in relation to each particular zone, sub-zone or aquifer within a zone or sub-zone and if the Committee is satisfied that alteration to any or all of the same is desirable in relation to a particular zone, sub-zone or aquifer within a zone or sub-zone, it may recommend any such alteration to the Minister of each Contracting Government.”.

12. The following sub-clause shall replace clause 28(4) in the principal agreement—

“(4) Where the Minister of each Contracting Government agrees with any such recommendation, the permissible potentiometric surface lowering and/or the permissible salinity, for a particular zone, sub-zone or aquifer within a zone or sub-zone shall be deemed to have been altered in accordance with any such recommendation.”.

13. The following sub-clause shall replace clause 28(5) in the principal agreement—
