Authorised Version incorporating amendments as at  
30 March 2022

WHEREAS:

- (1) It is generally acknowledged that in the interests of the Australian economy and for the general protection of the Australian environment it is necessary to implement a Scheme for biological control of pests in the States and Territories of Australia:
- (2) The implementation of such a Scheme requires uniform legislation throughout Australia and for that legislation to be administered on a uniform basis:
- (3) The Commonwealth, the other States and the Northern Territory have enacted, or are taking action to provide for the introduction of, the necessary legislation:

**The Parliament of Victoria therefore enacts as follows:**

the Authority may, by notice published in the Government Gazette, declare that law to be a relevant law for the purposes of this Act.

(2) A declaration must not be made under subsection (1) in respect of a law unless the Minister administering that law consents in writing to the declaration being made.

- (2) Nothing in this Act renders the Crown in right of Victoria or in any other capacity liable to be prosecuted for an offence.

## **7 Act not limited to agricultural pests**

The fact that certain functions of the Authority under this Act cannot be exercised except on the recommendation of the Council does not imply that the only kinds of organisms that may for the purposes of this Act be regarded as causing harm are kinds that are harmful by reason of their effect on agriculture.

## **8 Victorian Biological Control Authority**

### **10 Target organisms**

- (1) Subject to and in accordance with this Part, organisms of a particular kind may be declared to be target organisms for the purposes of this Act.
- (2) Action for the declaration of target organisms in accordance with this Part may be commenced by—
  - (a) a unanimous recommendation being made to the Authority by the Council; or
  - (b) an application being made under section 11.

### **11 Target application**

- (1) Where a person considers that organisms of a particular kind are causing harm in the State and are, or are likely to be, controllable by biological means, the person may make an application to the Authority for a declaration that organisms of that kind are target organisms for the purposes of this Act.
- (2) A target application must be in writing signed—
  - (a) in the case of an application by a natural person—by the applicant; or
  - (b) in any other case—by a natural person authorized by the applicant to do so.
- (3) A target application in relation to organisms of a particular kind must set out—
  - (a) particulars identifying the organisms; and
  - (b) particulars of the reasons why the organisms are considered to be causing harm in the State; and
  - (c) particulars of the reasons why the applicant considers that the organisms are, or are likely to be, controllable by biological means; and

- (d) such other particulars (if any) as are prescribed.

## **12 Withdrawal of target application**

- (1) A person who has made a target application may withdraw that application at any time before the application is referred to the Council under section 13(1).

  - (b) in any other case—by the person who signed the application or by a person authorized by the applicant to sign the request.

## **13 Referral of target application to Council**

- (1) Subject to subsection (2), where a target application is received by the Authority, the Authority must refer the application to the Council for its consideration.
- (2) The Authority is not required to refer to the Council a target application in respect of organisms of a particular kind if—
- (a) other action to have them declared to be target organisms is being, or has been, taken under this Act; or
  - (b) action to have them declared to be organisms that may be controlled by biological means is being, or has been, taken under a relevant law.

#### **14 Notice of rejection of target application**

- (1) If the Council, after considering a target application referred to it by the Authority, informs the Authority that it does not recommend that the organisms to which the application relates should be target organisms, the Authority must cause to be given, in such manner as the Authority considers appropriate, to the person who made the target application and to the persons (if any) who made a later target application in respect of those organisms notice in writing stating that the Council does not recommend that those organisms should be target organisms.
- (2) A notice under subsection (1) must—
  - (a) if reasons have been given by the Council for not recommending that organisms to which the notice relates should be target organisms—set out those reasons; and
  - (b) if there are circumstances in which, in the opinion of the Authority, a target application in relation to those organisms might result in a recommendation by the Council that those organisms should be target organisms—specify those circumstances.

#### **15 Notice of proposed target organisms**

- (1) Where the Council has unanimously recommended to the Authority that organisms of a particular kind should be target organisms, the Authority must publish in the Government Gazette (and, if the Council has so recommended, in the Commonwealth Gazette) and in such newspapers or journals as the Authority considers appropriate a notice that the Authority is contemplating declaring those organisms to be target organisms.

- (2) Without limiting the generality of subsection (1), a notice under that subsection must be published in at least one newspaper circulating generally in Victoria and in each other State and the Australian Capital Territory.
- (3) A notice under subsection (1) in relation to organisms of a particular kind must—
- (a) set out particulars identifying the organisms; and
  - (b) set out brief particulars of the reasons why the organisms are believed to be causing harm in the State; and
  - (c) set out brief particulars of the benefits (if any) resulting from the absence of biological control of the population of the organisms; and
  - (d) state that the Council has unanimously recommended that the organisms should be declared to be target organisms; and
  - (e) where the recommendation of the Council followed a target application in relation to the organisms—inform the public that copies of the target application can be perused at a place specified in the notice; and
  - (f) invite any persons who object to, or support, the organisms being declared to be target organisms to submit written particulars of the grounds for that objection or support, as the case may be, to the Authority within the period of 6 weeks after the date of the publication of the notice in the Government Gazette, or within such further period as the Authority (either before or after the expiration of that period) allows.

- (4) Where the Authority publishes a notice under subsection (1) in relation to a target application, the Authority must cause copies of the application to be available for perusal at a place specified in the notice in accordance with subsection (3)(e).

## **16 Consideration of submissions relating to target organisms**

The Authority must consider any submissions in response to an invitation referred to in section 15(3)(f).

## **17 Inquiries relating to target organisms**

- (1) Where the Authority, after—
- (a) complying with sections 15 and 16 in respect of a target recommendation; and
  - (b) consulting the Council regarding the appropriateness of action under this section in respect of that recommendation; and
  - (c) considering the nature of, the proceedings in and the findings of, any inquiry that the Authority considers relevant to the recommendation (which may be an inquiry conducted on behalf of another State or the Commonwealth); and
  - (d) considering any reports relating to the recommendation made by any person or authority competent to do so that the Authority considers relevant—

considers that there is evidence that a person or the environment would be adversely affected by the control of organisms of the kind to which the recommendation relates but an adequate investigation or inquiry into the effect of such control has not been held, the Authority may—

- (e) direct that an inquiry under Part 7 be conducted in respect of the recommendation; or
  - (f) request the Minister administering the Commonwealth Act to arrange for the Minister who administers the Industries Assistance Commission Act 1973 of the Commonwealth to refer the recommendation to the Industries Assistance Commission for inquiry and report; or
  - (g) arrange for a Minister who administers any Victorian legislation relating to the protection of the environment to cause an inquiry to be conducted under that legislation in respect of the recommendation; or
  - (h) request the Biological Control Authority for another State or a Territory to arrange for a Minister who administers any legislation of that State or Territory relating to the protection of the environment to cause an inquiry to be conducted under that legislation in respect of the recommendation.
- (2) Action must not be taken under subsection (1)(e), (f), (g) or (h) in respect of a target recommendation unless the Council, upon being consulted in accordance with subsection (1)(b), has unanimously recommended that the action be taken.
- (3) Where the Authority takes action under subsection (1)(e), (f), (g) or (h) for an inquiry in relation to a target recommendation, the Authority must not take any further action under this Act in relation to that recommendation unless and until the Authority has considered the report made as the result of that inquiry.

## **18 Declaration of target organisms**

- (1) Where the Authority, after—
- (a) complying with the preceding provisions of this Part in relation to a target recommendation; and
  - (b) considering all reports and other matters relating to that recommendation that the Authority considers it appropriate to consider; and
  - (c) consulting the Council regarding the appropriateness of action under this section in respect of that recommendation—

is satisfied—

- (d) that organisms of the kind to which the recommendation relates are causing harm in Victoria; and
- (e) that organisms of that kind are, or that there is a probability that organisms of that kind are likely to be, controllable by biological means; and
- (f) that—
  - (i) the control throughout Australia of organisms of that kind would not cause any significant harm to any person or to the environment; or
  - (ii) any harm caused to persons or to the environment by the control throughout Australia of organisms of that kind would be significantly less than the harm caused, or likely to be caused, by

failure to control organisms of that kind throughout Australia—

the Authority, subject to subsection (2), must, by notice published in the Government Gazette (and, if the Council has so recommended, in the Commonwealth Gazette), declare organisms of that kind to be target organisms for the purposes of this Act.

- (2) The Authority must not make a declaration under subsection (1) in respect of a target recommendation unless the Council, upon being consulted in accordance with subsection (1)(c), has unanimously recommended that the declaration be made.

## **Part 3—Agent organisms**

### **19 Agent organisms**

- (1) Subject to and in accordance with this Part, prescribed organisms of a particular kind may be declared to be agent organisms for the purposes of this Act.
- (2) Action for the declaration of agent organisms in accordance with this Part may be commenced by—
  - (a) a unanimous recommendation being made to the Authority by the Council; or
  - (b) an application being made under section 20.

S. 19(1)  
amended by  
No. 48/2016  
s. 30.

### **20 Agent application**

- (1) Where a person considers that the release of prescribed organisms of a particular kind would result in the control of—
  - (a) target organisms of a particular kind or kinds; or
  - (b) organisms to which a target recommendation applies or target recommendations apply—(whether or not the organisms referred to in paragraph (a) or (b) can be controlled by existing agent organisms) the person may make an application to the Authority for a declaration that the first-mentioned organisms are agent organisms for the purposes of this Act.
- (2) An agent application must be in writing signed—
  - (a) in the case of an application by a natural person—by the applicant; or
  - (b) in any other case—by a natural person authorized by the applicant to do so.

S. 20(1)  
amended by  
No. 48/2016  
s. 30.

- (3) An agent application in relation to organisms of a particular kind must set out—
- (a) particulars identifying the organisms; and
  - (b) particulars of the possible ways in which the applicant considers that the release of the organisms could control the relevant population of target organisms; and
  - (c) such other particulars (if any) as are prescribed.

## **21 Withdrawal of agent application**

- (1) A person who has made an agent application may withdraw that application at any time before the application is referred to the Council under section 22(1).
- (2) The withdrawal of an agent application shall be effected by the making of a request for withdrawal to the Authority in writing signed—
- (a) in the case of an application by a natural person—by the person who signed the application or by the legal personal representative of that person; or
  - (b) in any other case—by the person who signed the application or by a person authorized by the applicant to sign the request.

## **22 Referral of agent application to Council**

- (1) Subject to subsection (2), where an agent application is received by the Authority, the Authority must refer the application to the Council for its consideration.
- (2) The Authority is not required to refer to the Council an agent application in respect of organisms of a particular kind if—

- (a) other action to have them declared to be agent organisms is being, or has been, taken under this Act; or
- (b) action to have them declared to be organisms that may be released to control the population of other organisms is being, or has been, taken under a relevant law.

### **23 Notice of rejection of agent application**

- (1) If the Council, after considering an agent application referred to it by the Authority, informs the Authority that it does not recommend that the organisms to which the application relates should be agent organisms, the Authority must cause to be given, in such manner as the Authority considers appropriate, to the person who made the agent application and to the persons (if any) who made a later agent application in respect of those organisms notice in writing that the Council does not recommend that those organisms should be agent organisms.
- (2) A notice under subsection (1) must—
  - (a) if reasons have been given by the Council for not recommending that organisms to which the notice relates should be agent organisms—set out those reasons; and
  - (b) if there are circumstances in which, in the opinion of the Authority, an agent application in relation to those organisms might result in a recommendation by the Council that those organisms should be agent organisms—specify those circumstances.

## 24 Notice of proposed agent organisms

S. 24(1)  
amended by  
No. 48/2016  
s. 30.

- (1) Where the Council has unanimously recommended to the Authority that prescribed organisms of a particular kind should be agent organisms, the Authority must publish in the Government Gazette (and, if the Council has so recommended, in the Commonwealth Gazette), and may publish in such newspapers or journals as the Authority thinks appropriate, a notice that the Authority is contemplating declaring those organisms to be agent organisms.
- (2) A notice under subsection (1) in relation to organisms of a particular kind (in this subsection referred to as the *relevant organisms*) must—
  - (a) set out particulars identifying the relevant organisms; and
  - (b) specify the organisms which it is intended to control by the release of the relevant organisms; and
  - (c) set out brief particulars of the manner in which the relevant organisms would control the organisms specified in the notice in accordance with paragraph (b); and
  - (d) state that the Council has unanimously recommended that the relevant organisms should be declared to be agent organisms; and
  - (e) where the recommendation of the Council followed an agent application in relation to the organisms—inform the public that copies of the agent application can be perused at a place specified in the notice; and

- (f) invite any persons who object to, or support, the relevant organisms being declared to be agent organisms to submit written particulars of the grounds for that objection or support, as the case may be, to the Authority within the period of 6 weeks after the date of the publication of the notice in the Government Gazette, or within such further period as the Authority (either before or after the expiration of that period) allows.
- (3) Where the Authority publishes a notice under subsection (1) in relation to an agent application, the Authority must cause copies of the application to be available for perusal at the place specified in the notice in accordance with subsection (2)(e).
- (4) Where the Council has recommended to the Authority that 2 or more kinds of organisms should be agent organisms for the purpose of the control of the same population of particular organisms, a notice under subsection (1) relating to one of those kinds may be combined with a notice under that subsection relating to the other kind or kinds.

## **25 Consideration of submissions relating to agent organisms**

The Authority must consider any submissions in response to an invitation referred to in section 24(2)(f).

## **26 Inquiries relating to agent organisms**

(d) considering any reports relating to the recommendation made by any person or authority competent to do so that the Authority considers relevant—

considers that there is evidence that a person or the environment would be adversely affected by the release of organisms of the kind to which the recommendation relates but an adequate investigation or inquiry into the effect of such a release has not been held, the Authority may—

(e) direct that an inquiry under Part 7 be conducted in respect of the recommendation;  
or

(f) request the Minister administering the Commonwealth Act to arrange for the Minister who administers the Industries Assistance Commission Act 1973 of the Commonwealth to refer the recommendation to the Industries Assistance Commission for inquiry and report; or

(g) arrange for a Minister who administers any Victorian legislation relating to the protection of the environment to cause an inquiry to be conducted under that legislation in respect of the recommendation; or

(h) request the Biological Control Authority for another State or a Territory to arrange for a Minister who administers any legislation of

that State or Territory relating to the protection of the environment to cause an inquiry to be conducted under that legislation in respect of the recommendation.

- (2) Action must not be taken under subsection (1)(e), (f), (g) or (h) in respect of an agent recommendation unless the Council, upon being consulted in accordance with subsection (1)(b), has unanimously recommended that the action be taken.
- (3) An inquiry by virtue of subsection (1) in respect of an agent recommendation that recommends that organisms of a particular kind should be declared to be agent organisms if organisms to which a target recommendation applies are declared to be target organisms and an inquiry by virtue of section 17(1) in respect of the target recommendation may be conducted as if they were one inquiry.
- (4) Where the Authority takes action under subsection (1)(e), (f), (g) or (h) for an inquiry in relation to an agent recommendation, the Authority must not take any further action under this Act in relation to that recommendation unless and until the Authority has considered the report made as the result of that inquiry.

## **27 Declaration of agent organisms**

- (1) Where the Authority, after—
  - (a) complying with the preceding provisions of this Part in relation to an agent recommendation; and
  - (b) considering all reports and other matters relating to that recommendation that the Authority considers it appropriate to consider; and

- (c) consulting the Council regarding the appropriateness of action under this section in respect of that recommendation—

is satisfied—

- (d) that the release of organisms of the kind to which the recommendation relates (in this subsection referred to as the *relevant organisms*) could result in the control of target organisms of a particular kind or kinds in the State; and

(e) that—

- (i) the release of the relevant organisms would not cause any significant harm to any person or to the environment, other than the harm (if any) resulting from the control throughout Australia of target organisms of that kind or those kinds; or

- (ii) any harm caused to persons or to the environment by the release of the relevant organisms, other than the harm (if any) resulting from the control throughout Australia of target organisms of that kind or those kinds, would be significantly less than—

(A) the harm caused, or likely to be caused, by failure to control target organisms of that kind or those kinds throughout Australia; and

(B) where target organisms of that kind or those kinds can be controlled by the release of other organisms or otherwise than by biological means—the harm (if any) caused, or likely to be caused, by controlling target

organisms of that kind or those kinds throughout Australia by the release of those other organisms or by those other means—

the Authority, subject to subsection (2), must, by notice published in the Government Gazette (and, if the Council has so recommended, in the Commonwealth Gazette), declare the relevant organisms to be agent organisms for the purposes of this Act.

- (2) The Authority must not make a declaration under subsection (1) in respect of an agent recommendation unless the Council, upon being consulted in accordance with subsection (1)(c), has unanimously recommended that the declaration be made.
- (3) A notice under subsection (1) declaring organisms of a particular kind to be agent organisms may set out conditions under which those organisms may be released, which conditions may be or include—
  - (a) conditions specifying the persons who may release those organisms; or
  - (b) conditions specifying the circumstances in which those organisms may be released.

## **Part 4—Special declarations of target organisms and agent organisms**

### **28 Emergency declarations**

(1) If the Authority is satisfied—

- (a) that an emergency exists because organisms of a particular kind (whether or not they are target organisms)—
  - (i) are having, or are likely to have, a serious effect on the health of humans, animals or plants in the State; or
  - (ii) are causing, or are likely to cause, harm in the State so as to result in significant damage to the economy; or
  - (iii) are causing, or are likely to cause, significant damage to the environment in the State; and
- (b) that the release of prescribed organisms that are not agent organisms would control the first-mentioned organisms; and
- (c) the release of the organisms of the second-mentioned kind would not have any significant adverse effects—

the Authority, subject to subsection (2), must, by notice published in the Government Gazette (and, if the Council has so recommended, in the Commonwealth Gazette), declare—

- (d) where the organisms of the first-mentioned kind are not target organisms, the organisms of the first-mentioned kind to be target organisms for the purposes of this Act; and

- (1) If the Authority is satisfied that—
  - (a) before the commencement of this Act, prescribed organisms of a particular kind were released in Victoria for the purpose of the control, by biological means, of organisms of another kind in the State; and
  - (b) if this Act had been in force before the release of the first-mentioned organisms, it is probable that action would have been taken under this Act that would have resulted in the organisms of the second-mentioned kind being declared to be target organisms and the organisms of the first-mentioned kind being declared to be agent organisms—

S. 29(1)(a)  
amended by  
No. 48/2016  
s. 30.

the Authority, subject to subsection (2), may, by notice published in the Government Gazette (and, if the Council has so recommended, in the Commonwealth Gazette), declare—

  - (d) organisms of the first-mentioned kind to be agent organisms for the purpose of this Act.
- (2) The Authority must not make a declaration under subsection (1) in respect of an organism unless—

- (3) A notice under subsection (1) must—
- (a) set out particulars identifying the organisms that the Authority is contemplating declaring to be target organisms; and
  - (b) set out particulars identifying the organisms that the Authority is contemplating declaring to be agent organisms; and
  - (c) identify the occasions known to the Authority on which the organisms referred to in paragraph (b) were released; and
  - (d) invite any persons who object to, or support, the declaration being made to submit written particulars of the grounds for that objection or support, as the case may be, to the Authority within 6 weeks after the date of the publication of the notice in the Government Gazette, or within such further period as the Authority (either before or after the expiration of that period) allows.

- (iii) considering any reports made by any person or authority competent to do so that the Authority considers relevant—

considers that there is evidence that a person or the environment would be adversely affected by the release of organisms of the kind to which the declaration would relate but an adequate investigation or inquiry into the effect of such a release has not been held—

the Authority may—

- (c) direct that an inquiry under Part 7 be conducted in respect of the contemplated declaration; or
- (d) request the Minister administering the Commonwealth Act to arrange for the Minister who administers the Industries Assistance Commission Act 1973 of the Commonwealth to refer the contemplated declaration to the Industries Assistance Commission for inquiry and report; or

**S. 32(2)(a)  
amended by  
No. 48/2016

  - (a) releasing organisms of that kind in the State in accordance with section 33; or

- (b) doing anything to assist or further the release of organisms of that kind in the State in accordance with section 33.
- (3) Nothing in subsection (1) prevents the institution or continuation in any court of an action or other proceeding to recover damages in respect of any loss incurred, or any damage suffered, by reason of the release of agent organisms of a particular kind in accordance with section 33 where—
  - (a) the loss incurred or the damage suffered was the result of the release having had a significant effect on other organisms (not being organisms which the release was intended to control); and
  - (b) at the time of the release, the persons in Australia having a reputation for special knowledge of the biology of organisms of that kind knew, or had reasonable grounds to expect, that such a release could have such an effect; and
  - (c) in making the declaration declaring organisms of that kind to be agent organisms, the Authority did not take into account (whether because of the state of scientific knowledge or otherwise) the factor that such a release could have such an effect.

### **35 No legal proceedings to be instituted in respect of release of agent organisms under a relevant law**

### INTERPRETATION OF LEGISLATION ACT 1984 (ILA)

#### Style changes

Section 54A of the ILA authorises the making of the style changes set out in Schedule 1 to that Act.

#### References to ILA s. 39B

Sidenotes which cite ILA s. 39B refer to section 39B of the ILA which provides that where an undivided section or clause of a Schedule is amended by the insertion of one or more subsections or subclauses, the original section or clause becomes subsection or subclause (1) and is amended by the insertion of the expression "(1)" at the beginning of the original section or clause.

#### Interpretation

As from 1 January 2001, amendments to section 36 of the ILA have the following effects:

- **Headings**

All headings included in an Act which is passed on or after 1 January 2001 form part of that Act. Any heading inserted in an Act which was passed before 1 January 2001, by an Act passed on or after 1 January 2001, forms part of that Act. This includes headings to Parts, Divisions or Subdivisions in a Schedule; sections; clauses; items; tables; columns; examples; diagrams; notes or forms. See section 36(1A)(2A).

- **Examples, diagrams or notes**

All examples, diagrams or notes included in an Act which is passed on or after 1 January 2001 form part of that Act. Any examples, diagrams or notes inserted in an Act which was passed before 1 January 2001, by an Act passed on or after 1 January 2001, form part of that Act. See section 36(3A).

- **Punctuation**

All punctuation included in an Act which is passed on or after 1 January 2001 forms part of that Act. Any punctuation inserted in an Act which was passed before 1 January 2001, by an Act passed on or after 1 January 2001, forms part of that Act. See section 36(3B).

- **Provision numbers**

All provision numbers included in an Act form part of that Act, whether inserted in the Act before, on or after 1 January 2001. Provision numbers include section numbers, subsection numbers, paragraphs and subparagraphs. See section 36(3C).

- **Location of "legislative items"**

A "legislative item" is a penalty, an example or a note. As from 13 October 2004, a legislative item relating to a provision of an Act is taken to be at the foot of that provision even if it is preceded or followed by another legislative item that relates to that provision. For example, if a penalty at the foot of a provision is followed by a note, both of these legislative items will be regarded as being at the foot of that provision. See section 36B.

- **Other material**

Any explanatory memorandum, table of provisions, endnotes, index and other material printed after the Endnotes does not form part of an Act. See section 36(3)(3D)(3E).
