

## **THE MINISTRIES**

### **THE MINISTRY OF AGRICULTURE AND RURAL DEVELOPMENT**

#### **DECISION No. 121/2002/QĐ-BNN of November 22, 2002 promulgating branch standards in the field of forestry industry**

To promulgate together with this Decision five branch standards in the field of forestry industry:

- 04TCN 52 -- 2002 -- Wood chips -- General technical requirements. This standard shall apply to assorted wood chips used as materials for producing wood pulp for paper and fiberboard production.

- 04TCN 53 -- 2002 -- Wood working equipment -- Hot press -- General technical requirements. This standard prescribes the general technical requirements for assorted hot presses used for the production of artificial fiberboard under interrupted pressing technology. These machines shall be used in places of normal climates.

- 04TCN 54 -- 2002 -- Wood working equipment -- Hot press -- Safety requirements. This standard prescribes the general safety requirements for the designs, structure and use of hot presses heated by electricity, water steam or oil for the production of artificial fiberboard under interrupted pressing technology.

- 04TCN 55 -- 2002 -- Wood working equipment -- Wood chipper -- General technical requirements. This standard prescribes the general technical requirements for wood chippers used for the production of technological wood chips.

- 04TCN 56 -- 2002 -- Wood working equipment -- Wood chipper -- Safety requirements. This standard prescribes the general safety requirements for the designs, structure and use of wood chippers of drum or fixed- and mobile-plate shape, operated by electric engines or internal combustion engines.

The above-said five standards shall apply as from January 6, 2003.-
