

## GOVERNMENT OF ZAMBIA

STATUTORY INSTRUMENT NO. 20 OF 2018

**The Water Resources Management Act  
(Act No. 21 of 2011)****The Water Resources Management  
(Groundwater and Boreholes)  
Regulations, 2018**

IN EXERCISE of the powers contained in section 179 of the Water Resources Management Act, 2011, the following Regulations are made:

- |    |  |                |
|----|--|----------------|
| 1. | These Regulations may be cited as the Water Resources Management (Groundwater and Boreholes) Regulations, 2018.  | Title          |
| 2. | In these Regulations unless context otherwise requires—<br>“Authority” has the meaning assigned to the word in the Act;<br>“brackish” has the meaning assigned to the word in the Act;<br>“casing” means a pipe of steel, unplasticised polyvinyl chloride or any other suitable material inserted into a borehole to support the borehole against collapse;<br>“drillers” has the meaning assigned to the word in the Act;<br>“gravel pack” means sand or gravel that is uniform, clean, well rounded and siliceous;<br>“karst” means a limestone rock layer that contains the cavities and cracks, which are characterised by high permeability and water movement is not homogeneous;<br>“pollution” has the meaning assigned to the word in the Act;<br>“pumping test” means a test carried out to assess the aquifer or borehole characteristics; | Interpretation |

---

*Copies of this Statutory Instrument can be obtained from the Government Printer,  
P.O. Box 30136, 10101, Lusaka, Price K32.00 each*

“sanitary seal” means a seal composed of a cement grout, with which the annular space between the borehole wall and the surface casing is filled in order to prevent contamination of the borehole;

“screen” means a perforated section of a casing pipe that allows water to enter the borehole whilst restricting sediments from entering the borehole;

“successful borehole” means a borehole that has acceptable yield upon completion;

“Total Dissolved Solids” means the quantity of dissolved material in water expressed as milligrams per litre; and

“unsuccessful borehole” means a borehole that does not yield any water or meet the acceptable yield.

Notice to  
drill  
borehole

3. (1) A person who intends to drill a borehole shall give notice of intention to drill a borehole to the Authority, catchment council or subcatchment council in Form I set out in the First Schedule.

(2) An application to drill a borehole shall be made to the Authority in Form II set out in the First Schedule, on payment of the prescribed fee.

(3) The Authority shall, where it authorises the drilling of a borehole, inform the applicant in Form III set out in the First Schedule.

(4) The Authority shall, where it rejects the notification of drilling a borehole, inform the applicant in Form IV set out in the First Schedule.

Location of  
boreholes

4. (1) A driller shall ensure that the location of the borehole meets the distances specified in the Second Schedule.

(2) Where the specified distances in the second Schedule are not practicable, the Authority may approve such other distances.

Specification  
of boreholes

5. (1) A driller shall ensure that a successful borehole is installed with the following:

- (i) full casing of the borehole from the top to the bottom;
- (ii) gravel pack;
- (iii) bottom plug; and
- (iv) a sanitary seal.

(2) An unsuccessful or exploratory borehole shall not require the specifications under subregulation (1).

(3) A driller shall ensure that an unsuccessful borehole is backfilled and capped with grout within twentyfour hours.

6. (1) A person who drills a borehole shall register the borehole in Form V set out in the First Schedule, on payment of a prescribed fee.

Register of boreholes

(2) The Authority shall keep and maintain a Register of boreholes as set out in the Third Schedule.

7. A person who owns a defective borehole shall report to the Authority or a catchment manager within fourteen days of discovering brackish water or any other substance in Form VI set out in the First Schedule.

Defective borehole

8. The fees set out in the Water Resources Management (Fees and Charges) Regulations, 2018, are the applicable fees for the purposes of these Regulations.

Fees

9. A person who contravenes these Regulations commits an offence and is liable, on conviction, to a fine not exceeding one hundred thousand penalty units or to imprisonment for a term not exceeding twelve months, or to both.

General offence and penalty

10. A person who had a borehole before the coming into operation of these Regulations, shall register that borehole on payment of the prescribed fee within six months of the coming into effect of these Regulations.

Transitional provisions

**FIRST SCHEDULE**  
(Regulations 2)

Form I  
(Regulation 3 (1))

**Water Resources Management Authority**

**The Water Resources Management Act**  
(Act No. 21 of 2011)

**The Water Resources Management**  
(Groundwater and Boreholes) Regulations, 2018

NOTICE TO DRILL BOREHOLE			
Please complete in block letters	Shaded fields for official use only	Licence Code	
		Date and Time	
<i>Information Required</i>		<i>Information Provided</i>	
<b>ENTERPRISE INFORMATION</b>			√
1. Full name of enterprise			
2. Postal Address			
Email Address			
4. Physical address			
Plot No:			
Street.			
Province			
Town			
Tel			
A person wishing to object to the grant of approval may do so in writing stating reasons for the objection, within thirty days of the date of publication of the notice. Objections should be sent to the Authority, catchment council or sub-catchment council			
<b>Note: The Form must be attached to the application to drill</b>			

Form II  
(Regulation 3 (2))

**Water Resources Management Authority**

**The Water Resources Management Act  
(Act No. 21 of 2011)**

**The Water Resources Management  
(Groundwater and Boreholes) Regulations, 2018**

APPLICATION TO DRILL BOREHOLE

(Groundwater and Boreholes) Regulations, 2018**

**NOTICE OF GRANT TO DRILL BOREHOLE**

To:.....

**IN THE MATTER OF:**.....

You are hereby notified that your application to drill has been accepted on the following conditions:

- (i) This permit is contingent on land ownership and is, therefore, transferable upon ownership transfer, but is restricted to its conditions or any other relevant rules and conditions prevalent at the time of transfer
- (ii) Where there is transfer of property, the new property owner shall notify the Authority in writing within ninety days.
- (iii) In case where the applicant intends to drill more than one borehole, the applicant shall be required to fill in an application form for each borehole.
- (iv) The borehole shall be drilled by a licensed driller in accordance with the Authority's technical specifications.
- (v) Upon completion of drilling a borehole, a driller shall be required to submit to the Authority, a borehole completion report and any other tests made.
- (vi) This permit is valid for six months but may be revoked at any stage due to contravention of any of the above stated conditions.

SECOND SCHEDULE  
(Regulation 4)

Water Resources Management Authority

The Water Resources Management Act  
(Act No. 21 of 2011)

The Water Resources Management  
(Groundwater and Boreholes) Regulations, 2018

MINIMUM DISTANCES BETWEEN BOREHOLES IN RELATION TO WATER  
QUANTITY

Pumping rate (l/s)	Type of Aquifer	Minimum distances between boreholes (m)
1-20	Intergranular – porous or fractured sandstones	50
0.5-5	Fractured basement/ consolidated rocks	50
0.2-1	Fissured deep weathered zone	30
1-10	Cavity or karstic fractured limestone	100
1-20	Unconsolidated sediments (e.g., Aeolian Kalahari deposits)	200
<b>Minimum Distances between boreholes and pollution sources</b>		
<b>Pollution type/source</b>		<b>Minimum distance from water abstraction point (radius)</b>
Pit latrine		30 meters
Septic tank and soakaway		30 meters
Unprotected shallow well		30 meters
Waste disposal (formal or informal)		500 meters
Sewage effluent/lagoon/pond		50 meters
Animal pen/kraal		50 meters
Farm stables and sheds		50 meters
Garages		30 meters
Manure or composting materials application		30 meters
Fuel storage		100 meters
Pesticide or fertiliser storage		100 meters
Parking lots, roads and railways		50 meters
Dead animal burial or composting site		100 meters
Cemeteries		500 meters
