40. Any person claiming to act under any permit or permission granted under or for the purposes of these Regulations shall, if at any time, he is required to do so by any authorized person, produce the permit or permission for inspection.

41. (2) For the purposes of this regulation, a requirement that any space or accommodation in a ship or aircraft be placed at the disposal of any authority shall be deemed to be a requisition of property.

(3) Any dispute as to whether any compensation is payable under these Regulations or as to the amount of any compensation so payable shall, in default of agreement, be referred to and determined by the Supreme Court.

44.—(1) Subject to paragraph (2), no action, suit, prosecution or other proceeding shall be brought or instituted against any member of the security forces, in respect of any act done in good faith, during the emergency period, in the exercise or purported exercise of his functions or for the public safety or restoration of order or the preservation of the peace in any place or places within the Island, or otherwise in the public interest.

Compensation in Respect of Taking Possession of Land

1. The compensation payable under these Regulations in respect of the taking possession of any land shall be the aggregate of the following sums, that is to say—

(a) a sum equal to the rent which might reasonably be expected to be payable by a tenant in occupation of the land, during the period for which possession of the land is retained in the exercise of emergency powers, under a lease granted immediately before the beginning of the period, whereby the tenant undertook to pay all usual tenant’s rates and taxes and to bear the cost of the repairs and insurance and the other expenses, if any, necessary to maintain the land in a state to command that rent; and

(b) a sum equal to the cost of making good any damage to the land which may have occurred during the period for which possession thereof is so retained (except in so far as the damage had been made good during that period by a person acting on behalf of the Government), no account being taken of fair wear and tear; and

(c) in a case where the land is agricultural land, a sum equal to the amount (if any) which might reasonably have been expected to be payable in addition to rent by an incoming tenant, in respect of things previously done for the purpose of the cultivation of the land, and in respect of seeds, tillages, growing crops and other similar matters, under a lease of the land granted immediately before possession thereof was taken in the exercise of emergency powers; and

(d) a sum equal to the amount of any expenses reasonably incurred otherwise than on behalf of the Government, for the purpose of compliance with any directions given on behalf of the Government in connection with the taking possession of the land:

Provided that—

(i) in computing for the purposes of sub-paragraph (a) the rent which might reasonably be expected to be payable in respect of any land, and in computing for the purposes of sub-paragraph (c) any amount which might reasonably have been expected to be payable in addition to rent by an incoming tenant, no account shall be taken of any appreciation of values due to the emergency; and

(ii) there shall not, by virtue of sub-paragraph (b) be payable in respect of damage to any land a sum greater than the value of the land at the time when possession thereof was taken in the exercise of emergency powers,
no account being taken of any appreciation in the value thereof due to the emergency.

2. Any compensation under paragraph 1(a) shall be considered as accruing due from day to day during the period for which the possession of the land is taken in the exercise of emergency powers, and be apportionable in respect of time accordingly, and shall be paid to the person who for the time being would be entitled to occupy the land but for the fact that possession thereof is retained in the exercise of such powers; but this paragraph shall not operate so as to require the making of payments at intervals of less than three months.

For the purposes of the enactments relating to income tax and the enactments relating to land tax, any compensation under paragraph 1(a) shall be deemed to be rent payable for the land, the Government shall be deemed to pay it as tenant occupier, and the person receiving it shall be deemed to receive it as landlord.

3. Any compensation under paragraph (1)(b) shall accrue due at the end of the period for which possession of the land is retained in the exercise of emergency powers, and shall be paid to the person who is then the owner of the land.

4. Any compensation under paragraph 1(1)(c) shall accrue due at the time when possession of the land is taken in the exercise of emergency powers, and shall be paid to the person who, immediately before that time, was the occupier of the land.

5. Any compensation under paragraph 1(d) shall accrue due at the time when expenses in respect of which the compensation is payable are incurred, and shall be paid to the person by whom or on whose behalf these expenses were incurred.

ARTICLE 2

Compensation in Respect of the Doing of Work on Land

1. Compensation under these Regulations in respect of the doing of any work on any land shall be payable only if the annual value of the land is diminished by reason of the doing of the work.

2.—(1) The compensation payable under this article in respect of the doing of any work on any land shall, in the first instance, be a sum calculated by reference to the diminution of the annual value of the land ascribable to the doing of the work, and shall be paid in instalments, quarterly in arrears, to the person who for the time being is entitled to occupy the land.

(2) Any compensation under this paragraph shall be considered as accruing due from day to day, and shall be apportionable in respect of time accordingly.
3. If, at any time after compensation under the preceding paragraph has become payable by reason of the doing of any work on any land, a person acting on behalf of the Government—

(a) causes the land to be restored, so far as practicable, to the condition in which it would be but for the doing of the work; or

(b) serves on the person for the time being entitled to occupy the land, a written notice of intention to discharge the liability for the compensation by making, not earlier than a date specified in the notice, payment of a lump sum in accordance with the following provisions of this article,

the period in respect of which compensation is payable under the preceding paragraph by reason of the doing of the work shall end with the date immediately preceding the date on which the restoration is completed or, as the case may be, the date specified in the notice.

4. Where, by virtue of the operation of the last preceding paragraph in relation to any work done on any land, the period in respect of which compensation under paragraph 1 of this article is payable by reason of the doing of the work comes to an end, then if, at the expiration of that period, the value of any estate or interest which a person then has in the land is less than it would be but for the doing of the work, there shall be paid to him by way of compensation under these Regulations, a sum equal to the amount of the said depreciation in the value of the estate or interest; and that compensation shall be taken to accrue due at the expiration of the said period.

5. As soon as may be after effecting any restoration or serving any notice in pursuance of paragraph 3 of this article, the person by whom the restoration was effected or the notice served, shall cause the fact of the restoration or the contents of the notice, as the case may be, to be published in such manner as he thinks best, adapted for informing the persons affected.

6. In determining for the purposes of this article whether the annual value of any land is diminished by reason of the doing of any work thereon, and in assessing any compensation under this article in respect of the doing of any work on any land, it shall be assumed that the land cannot be restored to the condition in which it would be, but for the doing of the work.

7. For the purposes of this article, no account shall be taken of any diminution or depreciation in value ascribable only to loss of pleasure or amenity.

8. No compensation under this article shall, in relation to any land, be payable in respect of any period for which possession of that land is taken on behalf of the Government in the exercise of emergency powers.
9. In this Article—
   
   (a) “annual value” means, in relation to any land, the rent at which the land might reasonably be expected to be let from year to year, if the tenant undertook to pay all usual tenant’s rates and taxes and to bear the costs of the repairs and insurance and other expenses, if any, necessary to maintain the land in a state to command that rent; and
   
   (b) “diminution of the annual value” means, in relation to the doing of any work on any land, the amount by which the annual value of the land is less than it would be if the work had not been done.

ARTICLE 3

Compensation in Respect of Requisition or Acquisition of Vessels, Vehicles, Aircraft and Special Equipment

1. The compensation payable under these Regulations in respect of the requisition of any vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery shall be the aggregate of the following sums, that is to say—

   (a) a sum equal to the amount which might reasonably be expected to be payable by a person for the use of the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery during the period of the requisition, under a charter or contract of hiring whereby he undertook to bear the cost of insuring, maintaining and running the vessel, vehicle or aircraft excavator, crane or agricultural implement or agricultural, mining or quarrying machinery; and

   (b) if an agreement is made on behalf of the Government for the running of the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery during the said period by the person who, but for the requisition, would be entitled to possession of the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery, or who is the owner thereof, a sum equal to the amount of any expenses reasonably incurred by that person in connection with the maintenance and running of the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery during that period, not being expenses taken into account for the purposes of sub-paragraph (a); and

   (c) a sum equal to the cost of making good any damage to the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery not resulting in a total loss thereof, which
may have occurred during the said period (except in so far as the damage has been made good during that period by a person acting on behalf of the Government), no account being taken of fair wear and tear; and

(d) in a case where, during the period of the requisition, a total loss of the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery occurs, a sum equal to the value of the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery immediately before the occurrence of the damage which caused the loss; and

(e) a sum equal to the amount of any expenses reasonably incurred, otherwise than on behalf of the Government, for the purpose of compliance with any directions given on behalf of the Government in connection with the requisition:

Provided that—

(i) in computing for the purposes of sub-paragraph (a) the amount which might reasonably be expected to be payable for the use of any vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery, no account shall be taken of any appreciation in the value thereof due to the emergency; and

(ii) no compensation shall, by virtue of this paragraph, be payable in respect of any loss of, or damage to, any vehicle or aircraft arising in consequence of the emergency, unless it is shown that, at the time when the loss or damage occurred, the risk of the vehicle or aircraft being lost or damaged in consequence of the emergency was materially increased by reason of the requisition thereof in the exercise of emergency power; and

(iii) no compensation shall, by virtue of sub-paragraph (a) of this paragraph, be payable in respect of any damage, if compensation in respect of expenses incurred for the purpose of making good that damage has accrued due by virtue of sub-paragraph (b) of this paragraph.

2. Any compensation under paragraph 1(a) shall be considered as accruing due from day to day during the period for which the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery is requisitioned in the exercise of emergency powers, and be apportioned in respect of time accordingly, and shall be paid to the person who, at the time when the compensation accrues due, is the owner of the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery; but this paragraph shall not operate so as to require the making of payments at intervals of less than one month.

3. Where, on the day on which any compensation accrues due by virtue of paragraph 1(a), a person other than the owner of the vessel, vehicle or aircraft or excavator, crane
or agricultural implement or agricultural, mining or quarrying machinery is, by virtue of a subsisting charter or contract of hiring, the person who would be entitled to possession of, or to use, the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery but for the requisition, the person to whom the compensation is paid shall be deemed to receive it as a trustee for the first mentioned person.

4. Any compensation under sub-paragraph 1(b) or (e) shall accrue due at the time when the expenses in respect of which the compensation is payable are incurred; but this paragraph shall not operate so as to require the making of payment at intervals of less than one month.

5. Any compensation under paragraph 1(c) or (d) shall accrue due at the end of the period of requisition, and shall, subject to the following provisions of these Articles, be paid to the person who is then the owner of the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery.

6. For the purposes of paragraph 1 of this article, the expression “total loss” shall have the same meaning as it has for the purposes of the law relating to insurance, and accordingly shall be construed as including constructive total loss; and upon the payment to any person of compensation which has become payable by virtue of paragraph 1(d) in respect of any loss, the Government shall have the same right to take over an interest in whatever remains of the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery, and the same rights and remedies in and in respect of the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery as it would have if the payment had been made by the Government as the insurer under a contract insuring that person against the loss.

7. The compensation payable under these Regulations in respect of the acquisition of any vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery shall be a sum equal to the value of the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery immediately before the acquisition, no account being taken of any appreciation due to the emergency, and shall, subject to the following provisions of these Regulations, be paid to the person who is then the owner of the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery.

For the purpose of assessing any compensation under this paragraph in respect of the acquisition of any vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery, no account shall be taken of any compensation under paragraph (1)(a) or (c) which may have become payable in respect of the requisition of that vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery.
8. Where, at any time during the period for which a vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery is requisitioned on behalf of the Government in the exercise of emergency powers—

(a) a written notice stating that the vessel, vehicle or aircraft or excavator, crane or agricultural implement or agricultural, mining or quarrying machinery is to be treated as acquired on behalf of the Government is served on the owner thereof by a person acting on behalf of the Government; or
