## APPLICATION FORM FOR CITES PERMIT

### 1. PERMIT APPLICATION

**1a. Application no**  
(Office use only)

**1a2. Type of Permit**  
(*Please check one of the following. A separate application is required for each type of permit.)

- [ ] Import
- [ ] Export
- [ ] Re-export
- [ ] Introduction from sea

### 2. INFORMATION OF APPLICANT (IMPORTER/EXPORTER)

**2a. Importer details**

- **2a1. Applicant type**
  - [ ] Maldivians (Individual)
  - [ ] Foreigners (Individual)
  - [ ] Business/Organisation

- **2a2. Name**  
(*Please enter both the full name of the person and the business/organization for applicants selected 'Business/Organization' in 2a1.)

- **2a3. National ID Card No/Passport No/Business Registration No**  
(*Please enter the appropriate according to 2a1)

- **2a4. Address**

- **2a5. Atoll & Island name/Country & Street name**  
(*Helpful Island name for applicants based in Maldives, Country/Street name for others)

- **2a6. Postal Code**

- **2a7. Telephone**

- **2a8. Mobile**

- **2a9. Email**

- **2a10. Website**

**2b. Exporter details**  
(only required if different from above part2a)

- **2b1. Applicant type**
  - [ ] Maldivians (Individual)
  - [ ] Foreigners (Individual)
  - [ ] Business/Organisation

- **2b2. Name**  
(*Please enter both the full name of the person and the business/organization for applicants selected 'Business/Organization' in 2b1)

- **2b3. National ID Card No/Passport No/Business Registration No**  
(*Please enter the appropriate according to 2b1)

- **2b4. Address**
### 3. PURPOSE

*Note1:* The purpose of Import or Export must be clearly indicated. Tick only **ONE** of the options from below. A separate application shall be submitted for specimens transported for a different purpose.

(please refer to Section 7)

<table>
<thead>
<tr>

7. PURPOSE OF SPECIMEN

i. Commercial | T | Zoo | Z

iii. Botanical Garden | G | iv. Circus or travelling exhibition | Q

v. Scientific | S | vi. Hunting trophy | H

vii. Personal | P | viii. Medical | M

ix. Education | E | x. Introduction/reintroduction into wild | N

xi. Breeding in captivity/artificial propagation | B | xii. Law enforcement/judicial/forensic | L

8. SOURCE OF THE SPECIMEN

i. Specimens taken from the wild | W

ii. Ranched specimens: Specimens of animals reared in a controlled environment, taken as eggs or juveniles from the wild, where they would otherwise have had a very low probability of surviving to adulthood | R

iii. Appendix – I: Animals bred in captivity for commercial purposes in operations included in the Secretariat’s Register, in accordance with Resolution Conf. 12.10 (Rev. CoP15), and | D

iv. Appendix – I: Plants artificially propagated for commercial purposes, as well as parts and derivatives thereof, exported under the provision of Article VII, Paragraph 4, of the Convention |
v. Plants that are artificially propagated in accordance with Resolution Conf. 11.11 (Rev. CoP15), as well as parts and derivatives thereof, exported under the provisions of Article VII, Paragraph 5 (specimens of species included in Appendix I that have been propagated artificially for non-commercial purposes and specimens of species included in Appendices II and III)  

vi. Animals bred in captivity in accordance with Resolution Conf. 10.16 (Rev.), as well as parts and derivatives thereof, exported under the provisions of Article VII, Paragraph 5  

vii. Animals born in captivity (F1 or subsequent generations) that do not fulfill the definition of “bred in captivity” in Resolution Conf. 10.16 (Rev.), as well as parts and derivatives thereof  

viii. Source unknown (must be justified)  

ix. Confiscated or seized specimens  

x. Pre-convention specimens (may be used with other source codes)

APPLICATION FORM FOR CAPTIVE BREEDING FACILITY AND ARTIFICIAL PROPAGATION REGISTRATION

CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES OF WILD FAUNA AND FLORA

CITES MANAGEMENT AUTHORITY
Ministry of Environment, Climate Change and Technology
Male’, Republic of Maldives.

1. PERMIT APPLICATION

1a1. Application no: (Office use only)
1a2. Type of Permit
(*Please check one of the following. A separate application is required for each type of permit.)
- [ ] Captive-breeding facility
- [ ] Artificial propagation

2. INFORMATION OF APPLICANT

2a1. Applicant type
- [ ] Maldivians (Individual)
- [ ] Foreigners (Individual)
- [ ] Business/Organisation

2a2. Name
(*Please enter both the full name of the person and the business/organization for applicants selected ‘Business/Organization’ in 2a1)

2a3. National ID Card No/Passport No/Business Registration No
(*Please enter the appropriate according to 2a1)

2a4. Address

2a5. Atoll & Island name/Country & Street name
(*Atoll/Island name for applicants based in Maldives, Country/Street name for others)

2a6. Postal Code

2a7. Telephone

2a8. Mobile

2a9. Email

2a10. Website

3. FACILITY/OPERATION REGISTRATION

3a1. Name of owner

3a2. Name of manager (if different from owner)

3a3. Name of the facility/operation

3a4. Date of establishment of facility/operation

3a5. Address

3a6. Atoll & Island name/Country & Street name

3a7. Postal Code

3a8. Telephone

3a9. Mobile

3a10. Email

3a11. Website

4. SPECIES BREED (APPENDIX I ONLY)

4a1. Latin Name (genus, species, and sub-species)

4a2. Common Name
## 5. BREEDING STOCK (remove from other form)
Identify all the males and females that make up the parental breeding stock.

<table>
<thead>
<tr>
<th>5a1. Name of specimen</th>
<th>5a2. Band number</th>
<th>5a3. Species</th>
<th>5a4. Sex</th>
<th>5a5. Age</th>
<th>5a6. Proof of legal acquisition *</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

* Provide proof of legal acquisition: receipt, CITES documents, capture permit, etc. (attach copies to the application form). If you do not have enough space in the table above, attach another sheet to provide additional information.

## 6. CURRENT STOCK (remove from other form)
Identify the progeny and other specimens held in addition to the parental breeding stock identified in section 5.

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

If you do not have enough space in the table above, attach another sheet to provide additional information.

## 7. PERCENTAGE OF MORTALITY
Provide information for a minimum of the last five years or since the establishment of the operation.

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

## 8. REPRODUCTION
Describe the method used for each of the species were produced to the second generation (F2) in the captive breeding operation.
If the establishment only produced first generation specimens for the species, provide summary showing that the breeding methods used are the same or similar to those that have resulted in second generation offspring elsewhere.

## 9. ANNUAL PRODUCTION
Specify the annual production during the last 5 years (if possible), the current production, and the expected production for the next 3 years.

<table>
<thead>
<tr>
<th>9a1. Year</th>
<th>9a2. Total Progeny</th>
<th>9a3. Number of reproductive females</th>
<th>9a4. Reasons for loss or death</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

## 10. NEEDS
Indicate the possibility of future need to increase the number of breeding stock specimens with specimens bred in captivity or from the wild.
11. MARKING (applicable for captive breeding)

Only for animals: Describe the methods used for marking (bands, tags, tattoos, etc.) used for the breeding stock, the offspring, and the specimens to be exported (skins, meat, live animals, etc.)

12. FACILITIES

Describe the facilities used to house the current and future stock as well as the security measures in place to prevent escape or theft of animals. Provide information on the number and size of enclosures used for reproduction and breeding, the facilities used to incubate eggs, the production or provision of food, the availability of veterinary services, and the maintenance of data. (add photos if possible)

13. CONSERVATION

Describe (if any) the strategies or activities of the operation that contribute to improved conservation of wild populations of the species.

14. HUMANE CARE

Specify how the operation is carried out at all stages in a humane (non-cruel) manner.

15. CHECKLIST

- [ ] Registration of Company/Organization (For Businesses & Organizations)/
- [ ] Copy of National ID Card/ Passport (For individuals)
- [ ] Report on methodology used for each of the species that were produced to the second generation (F2) in the captive breeding operation. If the establishment only produced first generation specimens for the species, report showing that the breeding methods used are the same or similar to those that have resulted in second generation offspring elsewhere.
- [ ] Report attesting humane conditions applied to captive breeding
- [ ] Any other document(s). Please specify below;

16. DECLARATION BY THE APPLICANT

### Ministry of Environment, Climate Change and Technology

**CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES OF WILD FAUNA AND FLORA**

**1. Permit/Certificate No:**

<table>
<thead>
<tr>
<th>EXPORT</th>
<th>RE-EXPORT</th>
<th>Original</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>IMPOR</th>
<th>OTHER</th>
</tr>
</thead>
</table>

2. **Valid Until:**

3. **Importer (Name and Address):**

4. **Exporter / Re-exporter (Name, Address and Country):**

3a. **Country of Import:**

5. **Special conditions:**

8. **Name, Address, National Seal and Country of Management Authority:**

If no live animals, this permit is valid only if the transport conditions comply with the IATA Live Animal Regulations, if for live plants, with the IATA Perishable Cargo Regulations, or, in the case of non-air transport, with the CITES Guidelines for the Non-Air Transport of Live Mammals and Plants.

5a. **Purpose of transaction (see reverse):**

7/8. **Scientific name (genus and species) and common name of animal or plant:**

9. **Description of specimens, identifying mark/numbers (age/sex if live):**

10. **Appendix no. and source (see reverse):**

11. **Quantity (including unit):**

11a. **Total exported/Quota**

A. **Country of origin:**

| Permit/Certificate No. | Date | Country of issue exporting | Permit/Certificate No. | Date |

B. **Country of origin:**

C. **Country of origin:**

7/8. **Country of origin:**

9. **Country of issue exporting:**

10. **Date:**

11. **Imported:**

12b. **No. of the operation**

12a. **Country of land re-export:**

**12c. Country of land re-export:**

**12d. No. of the operation**

**12e. No. of the operation**

**12f. No. of the operation**

**12g. No. of the operation**

**12h. No. of the operation**

**12i. No. of the operation**

**12j. No. of the operation**

**12k. No. of the operation**

**12l. No. of the operation**

**12m. No. of the operation**

**12n. No. of the operation**

**12o. No. of the operation**

**12p. No. of the operation**

**12q. No. of the operation**

**12r. No. of the operation**

**12s. No. of the operation**

**12t. No. of the operation**

**12u. No. of the operation**

**12v. No. of the operation**

**12w. No. of the operation**

**12x. No. of the operation**

**12y. No. of the operation**

**12z. No. of the operation**

**13. This Permit/Certificate is issued by:**

**Permit/Certificate No:**
Instructions and Explanations (These correspond to block numbers on the form)
1. Tick the square which corresponds to the type of document issued (export permit, re-export permit, import permit or other). If the box "other" has been ticked, the type of document must be indicated. The original number is a unique number allocated to each document by the Management Authority.
2. For export permits and re-export permits, the date of expiry of the document may not be more than six months after the date of issuance (one year for import permits).
3. Complete name and address of the importer.
   a. The name of the country must be written in full.
   b. The name of the country must be stated. The absence of the signature of the applicant renders the permit invalid.
4. Special conditions may refer to national legislation or special conditions placed on the shipment by the issuing Management Authority. This block can also be used to justify the omission of certain information.
5. The following codes should be used: T for commercial, Z for zoo, G for botanical garden, Q for circus or travelling exhibition, S for scientific, H for hunting trophy, P for personal, M for medical, E for education, N for re-introduction or introduction into the wild, B for breeding in captivity or artificial propagation and L for law enforcement / judicial / license.
6. Indicate the number of the security stamp affixed in block 10.
7. The name, address and country of the issuing Management Authority should already be printed on the form.
   a. The name, address and country of the issuing Management Authority should already be printed on the form.
8. Indicate the scientific name (genus and species, where appropriate subspecies) of the animal or plant as it appears in the Convention Appendices or the reference lists approved by the Conference of the Parties, and the common name of the animal or plant as known in the country issuing the permit.
9. Describe, as precisely as possible, the specimen entering trade (live animals, skins, flanks, wallets, shoes, etc.). If a specimen is marked (tags, identifying marks, rings, etc.), whether or not this is required by a Resolution of the Conference of the Parties (specimens originating in a ranching operation, subject to quotas approved by the Conference of the Parties, specimens of Appendix I species bred in captivity for commercial purposes, etc.), indicate the number and type of mark. The sex and age of the live animals should be recorded, if possible.
10. Enter the number of the Appendix of the Convention (I, II or III) in which the species is listed.
   a. Use the following codes to indicate the source:
      W - Specimens taken from the wild
      R - Ranched specimens: specimens of animals reared in a controlled environment, taken as eggs or juveniles from the wild, where they would otherwise have had a very low probability of surviving to adulthood.
      D - Appendix I animals bred in captivity for commercial purposes in operations included in the Secretariat's Register, in accordance with Resolution Conf. 12.10 (Rev. CoP15), and Appendix I plants artificially propagated for commercial purposes, as well as parts and derivatives thereof, exported under the provisions of Article VII, paragraph 4, of the Convention
      A - Plants that are artificially propagated in accordance with Resolution Conf. 11.11 (Rev CoP15), as well as parts and derivatives thereof, exported under the provisions of Article VII, paragraph 5 (specimens of species included in Appendix I that have been propagated artificially for non-commercial purposes and specimens of species included in Appendices II and III)
      C - Animals bred in captivity in accordance with Resolution Conf. 10.16 (Rev.), as well as parts and derivatives thereof, exported under the provisions of Article VII, paragraph 5
      F - Animals born in captivity (F1 or subsequent generations) that do not fulfill the definition of 'bred in captivity' in Resolution Conf. 10.16 (Rev.), as well as parts and derivatives thereof
      U - Source unknown (must be justified)
      L - Confiscated or seized specimens
      O - Pre-Convention specimens (may be used with other source codes).
11. The quantity and units indicated should conform to the most recent version of the Guidelines for the preparation and submission of CITES annual reports.
   a. Indicate the total number of specimens exported in the current calendar year (1 January to 31 December) (including those covered by the present permit) and the current annual quota for the species concerned (for example 500/1000). This should be done for the national quotas as well as for those determined by the Conference of the Parties.
12. The country of origin is the country in which the specimens were taken from the wild, bred in captivity or artificially propagated, except in the case of plant specimens that cease to qualify for an exemption from the provisions of CITES. In such instances, the country of origin is deemed to be the country in which the specimens ceased to qualify for the exemption. Indicate the number of the permit of the exporting country and the date of issuance. If all or part of the information is not known, this should be justified in block 12a. The block must only be completed in case of re-export.
13. The number of re-export is the country from which the specimens were re-exported before entering the country in which the present document is issued. Enter the number of the re-export permit of the country of last re-export and its date of issuance. If all or part of the information is not known, this should be justified in block 12b. This block must only be completed in case of re-export of specimens previously re-exported.
14. The "No of the operation" is the number of the registered captive-breeding or artificial propagation operation. The "date of acquisition" is defined in Resolution Conf. 12.6 and is required only for pre-Convention specimens.
15. To be completed by the official who issues the permit. The name of the official must be written in full. The security stamp must be affixed in this block and must be cancelled by the signature of the issuing official and a stamp or seal. The seal, signature and security stamp number should be clearly legible.
16. To be completed by the official who inspects the shipment at the time of export or re-export. Enter the quantities of specimens actually exported or re-exported. Strike out the unused blocks.
17. Enter the number of the bill of lading or air way-bill if the method of transport used requires the use of such a document.

The document must be written in one of the three working languages of the Convention (English, Spanish or French) and must include a full translation into one of these three languages. Exported and re-exported specimens should not appear on the same document unless it is clearly indicated which specimens are being exported and which re-exported.

AFTER USE, THIS DOCUMENT MUST BE RETURNED TO A MANAGEMENT AUTHORITY OF THE IMPORTING COUNTRY.
