CONSERVATION AND MANAGEMENT MEASURE ON INFORMATION REQUIREMENTS FOR VESSEL REGISTRATION

The North Pacific Fisheries Commission (NPFC),

Recalling Article 4 of the Agreement to Promote Compliance with International Conservation and Management Measures by Fishing Vessels on the High Seas of 24 November 1993 that stipulates to maintain a record of fishing vessels entitled to fly its flag and authorized to be used for fishing on the high seas, and to take such measures as may be necessary to ensure that all such fishing vessels are entered in that record,

Recognizing Article 7, paragraph 2 (d) of the Convention regarding the establishment of appropriate cooperative mechanisms for effective monitoring, control and surveillance to ensure enforcement of the conservation and management measures adopted by the Commission including mechanisms to prevent, deter and eliminate IUU fishing,

Reaffirming that Article 13, paragraph 1 of the Convention that members of the Commission or Cooperating non-Contracting Parties shall take necessary measures to ensure that fishing vessels entitled to fly its flag operating in the Convention Area comply with the provisions of the Convention and measures adopted pursuant to the Convention and such vessels do not engage in any activities that undermine the effectiveness of such measures and do not conduct unauthorized fishing activities within areas under national jurisdiction of another State adjacent to the Convention Area,

Also reaffirming that Article 13, paragraph 2 of the Convention that no members or Cooperating non-Contracting Parties of the Commission shall allow any fishing vessel entitled to fly its flag to be used for fishing activities in the Convention Area unless it has been authorized to do so by the appropriate authority or authorities of that member of the Commission or Cooperating non-Contracting Parties. Each member of the Commission, or Cooperating non-Contracting Parties, shall authorize the use of vessels entitled to fly its flag in the Convention Area only where it is able to exercise effectively its responsibilities in respect of those vessels under this Convention, the 1982 Convention and the 1995 Agreement,
Also recognizing that members of the Commission or Cooperating non-Contracting Parties have the need to conduct transshipment with carrier vessels that are flagged to Commission members, Cooperating non-Contracting Parties,

Noting the decision by the IMO Assembly in its 30th session to expand eligibility for IMO numbers to fishing vessels less than 100 gross tons down to a size limit of 12 meters in length overall authorized to operate outside waters under national jurisdiction of the flag State to assist in identifying and tracking fishing vessels and to tackle illegal, unreported and unregulated fishing,

Adopts the following conservation and management measures in accordance with Article 7, Article 13, paragraph 8 and Article 15 of the Convention:

**NPFC Vessel Registry**

For the purpose of the effective implementation of the Convention, each Commission member or Cooperating non-Contracting Party shall:

1. Maintain a record of fishing vessels entitled to fly its flag and authorized to be used for fishing activities in the Convention Area in accordance with the information requirements in the Annex.

2. Update pertinent information required from paragraph 1 in the NPFC Vessel Registry established under Article 13, paragraph 10 of the Convention, noting that vessel submissions which do not include the initial data elements as indicated in the Annex will not be accepted by the database.

3. Promptly update the NPFC Vessel Registry with:
   a) any additions to the record; e.g. new vessel authorizations;
   b) any modifications to this information with dates of such modifications; and
   c) any deletions from the record, specifying which of the following reasons is applicable:
      i) the voluntary relinquishment of the fishing authorization by the fishing vessel owner or operator;
      ii) the withdrawal or non-renewal of the fishing authorization issued in respect of the fishing vessel under Article 13, paragraph 2 of the Convention;
      iii) the fact that the fishing vessel concerned is no longer entitled to fly its flag;
      iv) the scrapping, decommissioning, or loss of the fishing vessel concerned; or
v) any other grounds, with a specific explanation provided.

4. Provide to the Commission, as part of the annual report required pursuant to Article 16 of the Convention, the names of the fishing vessels entered in the record that conducted fishing activities during the previous calendar year.

**Vessel Marking**

5. Each Commission Member and Cooperating non Contracting Party shall ensure that every fishing vessel authorized to fly its flag bear markings that are readily identified in accordance with the FAO Standard Specifications for the Marking and Identification of Fishing Vessels, and recognize that non-compliance with these standards shall be considered a serious violation according to Article 17, paragraph 5 of the NPFC Convention and Article 21 Paragraph 11(f) of the United Nations Fish Stocks Agreement.

**General**

6. Commission Members and Cooperating non-Contracting Parties shall ensure they have maintained the NPFC Vessel Registry of the vessels based on the information provided to it and make the record publicly available as appropriate and subject to any legal confidentiality regulations of the individual Commission member and Cooperating non-Contracting Party.

7. The Commission member or Cooperating non-Contracting Parties entering vessels identified in paragraph 2 on the NPFC Vessel Registry established under paragraph 1 shall attest that the vessel or vessels being added recommended are not vessels:

   a) with a history of illegal, unreported or unregulated (IUU) fishing, unless the ownership of the vessel has subsequently changed and the new owner has provided sufficient evidence demonstrating that the previous owner or operator has no legal, beneficial or financial interest in, or control of the vessels, or Commission members or Cooperating non-Contracting Parties concerned is satisfied that, having taken into account all relevant facts, the vessel is no longer engaged in or associated with IUU fishing; or

   b) that are currently listed on any of the IUU vessel lists adopted by regional fishery management organizations (RFMOs)

8. If a fishing vessel with such an IUU history or on an RFMO IUU Vessel list as noted in paragraph 7 without the appropriate justification noted therein, is uploaded to, or found on the NPFC Vessel
Registry, the Executive Secretary shall remove the vessel from the appropriate vessel registry with notification of such action to the flag member.

9. Each Commission Member and Cooperating non-Contracting Party entering vessels on the NPFC Vessel Registry must enter the required data for its vessels, immediately after it has so authorized the vessel to conduct fishing activities.

10. An authorized vessel cannot conduct fishing activities in the Convention Area until the vessel has been accepted in the NPFC Vessel Registry.

11. The Commission shall also provide to any Commission Member or Cooperating non-Contracting Party, upon request, information about any vessel entered on the Commission record that is not otherwise publicly available, as appropriate.

12. This CMM shall replace the NPFC CMM 2021-01.
Annex 1

List of Fields in the NPFC Vessel Registry and their Format and Content

“Asterisks (*) denote ‘initial data elements’ required to commence fishing activities in the Convention Area.”

Annex 2

Specifications for the Marking and Identification of Fishing Vessels

Purpose

1. These specifications are intended to implement the FAO Standard Specifications for the Marking and Identification of Fishing Vessels for the North Pacific Fisheries Commission (NPFC).

General Provisions

2. Each Commission Member and Cooperating non-Contracting Party shall ensure that each fishing vessel entitled to fly its flag and authorized to be used for fishing in the Convention Area is:

   a) marked and identifiable with their International Telecommunication Union Radio Call Sign (IRCS); and

   b) where an IRCS has not been assigned, the vessel shall be marked and identifiable with the characters allocated by the International Telecommunication Union (ITU) to the flag State and followed by, as appropriate, the licence or registration number assigned by the flag State. In such cases, a hyphen shall be placed between the nationality identification characters, and the licence or registration number identifying the vessel.

3. In order to avoid confusion with the letters I and O, it is recommended that the numbers 1 and 0, which are specifically excluded from the ITU call signs, be avoided by national authorities when allocating licence or registration numbers.

4. Apart from the fishing vessel’s name or identification mark and the port of registry as required by international practice or national legislation, the marking system as specified shall, in order to avoid confusion, be the only other vessel identification mark consisting of letters and numbers to be painted on the hull or superstructure.

Application of Markings

5. Each Commission Member and Cooperating non-Contracting Party shall ensure that the markings are prominently displayed at all times:

   a) on the vessel’s side or superstructure, port and starboard; fixtures inclined at an angle to the vessel’s side or superstructure are permitted provided that the angle of inclination does not prevent sighting of the sign from another vessel or from the air; and
b) on a deck, except as provided for in paragraph 7. Should an awning or other temporary cover be placed so as to obscure the mark on a deck, the awning or cover shall also be marked. These marks should be placed athwartships with the top of the numbers or letters towards the bow.

6. Each Commission Member and Cooperating non-Contracting Party shall ensure that markings are:

a) placed as high as possible above the waterline on both sides, and that such parts of the hull as the flare of the bow and the stern shall be avoided;

b) so placed as to not be obscured by the fishing gear whether it is stowed or in use;

c) clear of flow from scuppers or overboard discharges including areas which might be prone to damage or discolouration from the catch of certain types of species; and

d) not extended below the waterline.

7. Undecked vessels shall not be required to display the markings on a horizontal surface. However, owners should be encouraged, where practical, to fit a board on which the markings may be clearly seen from the air.

8. Vessels fitted with sails may display the markings on the sail in addition to the hull.

9. Boats, skiffs, and craft carried by the vessel for fishing operations shall bear the same mark as the vessel concerned.

**Specifications for Markings**

10. Each Commission Member and Cooperating non-Contracting Party shall ensure that:

a) block lettering and numbering is used throughout;

b) the width of the letters and numbers is in proportion to the height;

c) the height \( h \) of the letters and the numbers shall be in proportion to the size of the vessel in accordance with the following:

i) for marks to be placed on the hull, superstructure, and/or inclined surfaces:

<table>
<thead>
<tr>
<th>Length of vessel overall (LOA) in metres (m)</th>
<th>Height of letters and numbers in metres (m) is not less than:</th>
</tr>
</thead>
<tbody>
<tr>
<td>25 m and over</td>
<td>1.0 m</td>
</tr>
<tr>
<td>Length Range</td>
<td>Height</td>
</tr>
<tr>
<td>------------------------------------</td>
<td>---------</td>
</tr>
<tr>
<td>20 m but less than 25 m</td>
<td>0.8 m</td>
</tr>
<tr>
<td>15 m but less than 20 m</td>
<td>0.6 m</td>
</tr>
<tr>
<td>12 m but less than 15 m</td>
<td>0.4 m</td>
</tr>
<tr>
<td>5 m but less than 12 m</td>
<td>0.3 m</td>
</tr>
<tr>
<td>Under 5 m</td>
<td>0.1 m</td>
</tr>
</tbody>
</table>

ii) for marks to be placed on deck: the height shall not be less than 0.3 metres (m) for all classes of vessels of 5 metres (m) and over.

d) the length of the hyphen shall be half the height of the letters and numbers;

e) the width of the stroke for all letters, numbers, and the hyphen shall be $h/6$;

f) the space between letters and/or numbers shall not exceed $h/4$, nor be less than $h/6$; and

g) the space between adjacent letters having sloping sides shall not exceed $h/8$, nor be less than $h/10$, for example A V.

**Specifications for Painting of Markings**

11. Each Commission Member and Cooperating non-Contracting Party shall ensure that:

a) the markings are either white on a background, or black on a white background;

b) the background shall extend to provide a border around the mark of not less than $h/6$;

c) good quality marine paint is used throughout;

d) where retro-reflective or heat generating substances are used, the markings meet the requirements of this Annex; and

e) the markings and background are maintained in good condition at all times.

**Review and Amendment of Specifications**

12. The Commission shall keep these specifications under review, and may amend them as appropriate.
